INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, SEPTEMBER 7, 2000 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL IV

## CURRENT SITUATION:

Eight new large fires were reported, six in the Southern area and two in the Rocky Mountain Area. Firefighters reached containment goals on six fires in the Southern, Southwest and Rocky Mountain Areas. Initial attack activity was heavy in the Southern Area and light elsewhere. Warmer and drier weather in Oregon, Idaho, Montana and Wyoming will revitalize large fire activity in those states. Scattered thunderstorms moving into eastern Texas and the Gulf Coast states may assist firefighters there. Very high to extreme fire indices were reported in Oregon, California, Idaho, Montana, Arizona, Utah, Wyoming, Nevada, Colorado, Kansas, Arkansas, Mississippi, Oklahoma and Texas.

## SOUTHERN AREA LARGE FIRES:

CHICKEN, Texas State Forest Service. This fire is located 20 miles east of Nacogdoches, TX. A Type II Incident Management Team (Sisk) is assigned. High temperatures, low humidity, constant wind and intense fire behavior are resulting in the fire escaping from containment lines each afternoon.

MOORE BRANCH, Texas State Forest Service. This fire is burning in a pine plantation 30 miles north of Beaumont, TX. A Type II Incident Management Team (Koehler)is assigned. Air tankers are being used extensively. The fire is exhibiting extreme fire behavior.

SNAKE EYE COMPLEX, National Forests in Mississippi. This complex of fires is near Potts Camp, MS. The fires are still flaring up during the day, but staying within containment lines. Crews continue to patrol and mopup.

RANGER HILLS, Texas State Forest Service. This fire is burning in heavy brush and cedar 50 miles east of Abilene, TX. No new information was received.

E WHITES 2, Anahuac National Wildlife Refuge. This fire is burning in a marsh area 40 miles from Houston, TX. Mopup operations are continuing. Higher relative humidities have assisted firefighters in suppression efforts.

RED TOWN, Texas State Forest Service. This fire is actively burning in a three year old plantation 50 miles northwest of Henderson, TX.

BUSH, Texas State Forest Service. This fire is burning in a pine plantation in Tyler County. Intense fire behavior has been exhibited.

SPURGER, Texas State Forest Service. This fire also burning in Tyler County is very fast moving and has made evacuations necessary.

DEEP CREEK, Texas State Forest Service. This is fire burning near San Saba, TX. Air tankers and helicopters have assisted in protecting four
homes, numerous outbuildings and a ranch.
FROST, Texas State Forest Service. This fire is burning in Kendall County in cedar, juniper and oak fuels. The National Guard helicopters aided in saving 13 homes.

HORIZON, Texas State Forest Service. The fire is burning 40 miles northwest of San Antonio, TX. Residences are threatened. Power is out in the area due to two power grids being shut down as a result of the fire.

DICKEY LOOP, Texas State Forest Service. The fire was caused by lightning 60 miles northwest of Houston, TX. No new information was reported. This will be the last report unless new information is received.

STANLEY MAINLINE COMPLEX, Texas State Forest Service. This complex of fires is burning actively in a pine plantation 40 miles northeast of Houston, TX. No new information was reported. This will be the last report unless new information is received.

OAK CREEK, Texas State Forest Service. No new information was reported. This will be the last report unless new information is received.

CYPRESS CREEK, Texas State Forest Service. The fire is located 30 miles north of Houston, TX. Extreme fire behavior has been noted and several structures are threatened. This will be the last report unless new information is received.

EL CAMINO, Texas State Forest Service. The fire is located ten miles east of Palestine, TX, and is burning in a pine plantation. No new information was reported. This will be the last report unless new information is received.

SKELLYTOWN, Texas State Forest Service. This grass and brush fire is 40 miles northwest of Amarillo, TX. No new information was reported. This will be the last report unless new information is received.

WILLIAMS BRANCH, Texas State Forest Service. The fire is 50 miles north of Austin, TX. Thirty homes are threatened by this fire that is burning in cedar, oak and juniper. This will be the last report unless new information is received.

ENCHANTED ROCK, Texas State Forest Service. Burning in rough terrain, this fire is 80 miles west of Austin, TX. No new information was reported. This will be the last report unless new information is received.

TEXLA, Texas State Forest Service. The fire is in Orange County, northeast of Houston, TX. Gusty winds and high temperatures are hampering containment efforts on this plantation fire. This will be the last report unless new information is received.

201, Texas State Forest Service. Burning in heavy brush, cedar and pinyon pine, this fire is 50 miles north of Austin, TX. No new information was reported. This will be the last report unless new information is received.

SWEETHOME, Texas State Forest Service. The fire is 100 miles east of San

Antonio, TX. It is burning in heavy brush, pinyon pine, juniper and cedar. No new information was reported. This will be the last report unless new information is received.

LOWE, National Forests in Texas. This fire is threatening two residences and one outbuilding. No new information was reported. This will be the last report unless new information is received.

CR 205, Texas State Forest Service. The fire is burning in heavy cedar 20 miles south of Austin, TX. High temperatures and no humidity recovery at night are hindering containment efforts. No new information was reported. This will be the last report unless new information is received.

WILLOW CREEK, Texas State Forest Service. This fire is 20 miles southwest of Austin, TX. Fuels involved are juniper and oak. No new information was reported. This will be the last report unless new information is received.

1131, Texas State Forest Service. Extreme fire behavior has been observed on this fire that is 75 miles northeast of Houston, TX. No new information was reported. This will be the last report unless new information is received.

TUCKER, Texas State Forest Service. This pine plantation fire is 50 miles northwest of Nacogdoches, TX in Tyler County. No new information was reported. This will be the last report unless new information is received.

LOTTA, Texas State Forest Service. The fire is burning in a pine plantation in Harrison County, TX. No new information was reported. This will be the last report unless new information is received.

NORTHERN ROCKIES AREA LARGE FIRES:
An Area Command Team (Edrington) is assigned to manage the large fires in the Hamilton area. An Area Command Team (Mann) is assigned to manage the large fires in southwest Montana. An Area Command Team (Meuchel) is assigned to manage the large fires in central Montana. An Area Command Team (Gale) is assigned to manage the large fires in northwest Montana. Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

VALLEY COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Stutler) is assigned. The Army's 3rd Battalion 327th Infantry from Ft. Campbell, KY, commanded by LTC Lehr, is assigned. These fires are seven miles south of Darby, MT. The complex consists of the Bear, Taylor, Taylor Spot, Hilltop, Razor, Fat and Mink fires. Minimal spread has been observed on all fires. U.S. Forest Service Chief Mike Dombeck visited the fire yesterday. The increase in acreage is due to portions of the Middle Fork and Mussigbrod Complexes that are on the Bitterroot National Forest and have become part of this complex.

SKALKAHO COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Rutherford) is assigned. This group of fires is ten miles southeast of Hamilton, MT. Included in the complex are the Bear and Coyote fire. Higher humidities and cooler temperatures continue to help reduce fire activity.

BLODGETT TRAILHEAD, Bitterroot National Forest. A Type I Incident Management Team (Rutherford) is assigned. This fire is three miles northwest of Hamilton, MT. Fire activity continues to be minimal.

WILDERNESS COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Cook) is assigned. The complex consists of 14 fires in the Selway-Bitterroot and Frank Church River of No Return Wildernesses, 40 miles southwest of Hamilton, MT. Large fires in the complex include the Hamilton, Lonely, Fitz, Thirty, Echo and Throng fires. Fire activity has been greatest at the 4000 to 5000 foot elevations, with less activity at higher elevations. The area closure for the Wilderness has been lifted.

ALDER CREEK, Lolo National Forest. A Type II Incident Management Team (Hoff) is assigned. This fire is 31 miles southeast of Missoula, MT. Crews are building direct fireline on the northeast edge of the fire. Helicopter bucket drops are assisting in cooling hot areas on the
northwest flank. Structure protection actions have been carried out at Millers Flat and Trout Haven.

THOMPSON FLAT COMPLEX, Lolo National Forest. A Type I Incident Management Team (Studebaker) is assigned. This is a complex of six fires in the vicinity of Superior, MT. Crews are continuing fireline construction and mopup on the Landowner fire. Poor weather is slowing progress.

UPPER NINEMILE COMPLEX, Lolo National Forest. A Type I Incident Management Team (Bateman) is assigned. The Army's 20th Engineers Battalion from Ft. Hood, Texas, commanded by LTC Shumway, is assigned. These fires are burning 25 miles northwest of Missoula, MT. Activity has been focused on rehabilitation, with mopup operations continuing as needed. The complex has received an additional 0.1 inch of precipitation.

CLEAR CREEK DIVIDE COMPLEX, Flathead Agency, BIA. A Type I Incident Management Team (Orich) is assigned. This complex, 60 miles northwest of Missoula, consists of the Clear Creek, Vanderburg, Siegel, Seepay and Magpie Creek fires. The fires have received between 0.1 and 0.4 inches of precipitation. Crews are constructing and maintaining firelines and extinguishing hot spots within the unburned areas of the fire. All fireline built by dozers is holding.

MONTURE/SPREAD RIDGE, Lolo National Forest. A Type II Incident Management Team (Hollenshead) is assigned. The fires are 15 miles east of Seeley Lake, MT. Fire suppression and rehabilitation is progressing faster than expected. Demobilization of some resources is underway.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Hart) is assigned. The complex consists of the Falls Creek, Cougar Creek, Coyote Springs, Medicine Lake, Skalkaho Pass, Lick Creek and Cooper Creek fires, 30 miles southwest of Philipsburg, MT. The fires continue to smolder and creep in heavy fuels. Fireline construction, mopup and cold trailing operations are ongoing, with support from helicopters with buckets and hose lays.

MAUDLOW/TOSTON, Central Land Office, Montana Department of Natural Resources and Conservation. A Type II Incident Management Team (Corbin) is assigned. These fires are 25 miles northeast of Belgrade, MT. The fires are low intensity with smoldering and creeping behavior observed. Strong winds have not caused the fire perimeter to grow. Mopup of interior hot spots is continuing.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Bennett) is assigned. These fires are 12 miles northwest of Wisdom, MT. The complex includes the Mussigbrod and Maynard fires. High relative humidity and cool temperatures have kept fire behavior at a low level. A crew has been flown into the Pintler Wilderness to construct fireline up to the Continental Divide. Other crews are patrolling and mopping up.

KOOTENAI COMPLEX, Kootenai National Forest. A Type II Incident Management Team (Novotny) is assigned. These fires are 20 miles northwest of Libby, MT. All the fires in the complex have remained quiet. Mopup and patrol continues along established firelines. Rehabilitation plans have been developed and are being implemented.

TROY SOUTH, Kootenai National Forest. A Type II Incident Management Team (Gauger) is assigned. The Army's 1st Battalion 321st Artillery from Ft. Bragg, NC, commanded by LTC Mathis, is assigned. This complex of fires is near Troy, MT. Crews continue to patrol, hold, mopup and build water bars on firelines on the Prospect fire and working with military crews on the o'Brien fire. Patrol of the unstaffed fires continues. Eight of the ten large fires in this complex are contained.

CHIPMUNK, Flathead National Forest. The fire is burning in spruce, subalpine fir and brush 45 miles southeast of Kalispell, MT. The fire area has received showers. Fire behavior has been minimal and no fire growth has occurred. Crews are working hot spots along constructed fireline. Snag removal on all divisions is progressing well.

SUGARLOAF, Gallatin National Forest. The fire is 13 miles northeast of Wilsall, MT. Low fire activity has been observed. The fire is being monitored by aerial reconnaissance.

GREEN MOUNTAIN, Kootenai National Forest. These fires are seven miles northwest of Trout Creek, MT. The complex includes the Green Mountain, McNeeley, Basin Creek and Engle fires. The fire has received 0.3 inches of precipitation. The anticipated containment date has been moved back because this fire will continue to have potential to grow until cool, wet autumn weather arrives.

SPRUCE COMPLEX, Yellowstone National Park. This is a complex of 11 fires in Yellowstone National Park. The complex consists of the Plateau, Moose, Unlucky, Boundary and several smaller fires. Minimal fire behavior has been noted due to precipitation, high humidities and cool temperatures. Structure protection measures are in place at backcountry cabins and at the east and south entrances to the park.

JUDITH COMPLEX, Lewis and Clark National Forest. This complex consists of the Studhorse, Lost Fork and High Springs fires, which are 25 miles southwest of Stanford, MT. The fire is smoldering, with no significant activity observed.

MCDONALD II, Lewis and Clark National Forest. This fire is 36 miles northwest of Choteau, MT. The fire has received a trace of precipitation, and very little fire activity has been noted. This will be the last report until significant activity occurs.

SHARON, Glacier National Park. This fire is near North Fork in Glacier National Park, MT. Continued cool, wet weather is keeping fire activity low. The National Park Service is monitoring the fire with daily aerial observation flights.

HELEN CREEK, Flathead National Forest. This fire is 22 miles south of Spotted Bear, MT. The fire is being monitored by U.S. Forest Service personnel. The fire is backing to the west and south with minimal movement toward the north. The threat to the Mud Lake Lookout has been reduced.

MINARET PEAK, Flathead National Forest. The fire is near the Spotted Bear Ranger Station in the Bob Marshall Wilderness. U.S. Forest Service personnel are monitoring the fire's activity. Fire activity is low due to the weather.

PARKE PEAK, Glacier National Park. The fire has been burning since 7/23 in the northwest corner of the park. Fire activity continues to be minimal. The National Park Service is monitoring the fire.

CRIMSON PEAK, Flathead National Forest. This fire is located in the Bob Marshall Wilderness. The fire is being monitored by U.S. Forest Service personnel. Fire activity continues to be low due to the weather.

## EASTERN GREAT BASIN AREA LARGE FIRES:

CLEAR CREEK COMPLEX, Salmon-Challis National Forest. A Type I Incident Management Team (Hefner) is assigned. This complex consists of the Clear Creek, Marlin Springs, Full Circle and Sisters fires. The 3rd Battalion, 2nd Marines from Camp Lejeune, North Carolina, commanded by LTC Smith, are committed. An increase in fire activity is expected as warmer and drier weather is moving into the fire area. Mopup and rehabilitation efforts are being accomplished.

YELLOWPINE COMPLEX, Payette National Forest. A Type I Incident Management Team (Melton) is assigned. This complex consists of the Nick Peak and Indian/Prospect fires and is located 20 miles east of McCall, ID. Fireline construction on some divisions has been completed on the Nick Fire. On the Indian fire, mopup and rehabilitation continue.

BURGDORF JUNCTION, Payette National Forest. A Type II Incident Management Team (Suwyn) is assigned. The fire is 23 miles north of McCall, ID. Drier and warmer weather has allowed crews and equipment to access most areas of the fire. The number of hot spots has diminished due to wet weather from a few days ago.

MORSE, Salmon-Challis National Forest. The fire is burning in grass, sagebrush and douglas fir five miles east of May, ID. Most resources have been demobilized and the fire will be patrolled by the U.S. Forest Service.

SCF WILDERNESS, Salmon-Challis National Forest. A Type II Incident Management Team (Adams) has been assigned. Eleven wildland fires are currently burning within the Salmon Challis Wilderness Complex: Little Pistol, Indian Creek, Filly, Butts, Papoose, Parker, Packer Meadow, Shell Rock, Wilson Creek, Jackass and Jack Creek. The report of additional structures lost is due to review of documentation in the damage assessment. Observed fire behavior has been low. Trail assessments continue.

TETON COMPLEX, Grand Teton National Park, NPS. This complex is north of Jackson, WY. The complex consists of the Wilcox, Moran, Hechtman, Glade and Enos fires. Crews are patrolling and mopping up on the Moran, Wilcox and Enos fires.

FONTENELLE, Bridger-Teton National Forest. This fire is 20 miles north of Kemmerer, WY. Crews are holding the fire within the established perimeter.

FLOSSIE COMPLEX, Payette National Forest. These fires are 50 miles northeast of McCall, ID. There is no longer any threat to structures at Root Ranch, due to the change in the weather.

DIAMOND COMPLEX, Payette National Forest. This complex of fires, 42 miles northeast of McCall, ID, consists of the Lookout, Point, North Shellrock and South Shellrock fires.

WESTERN GREAT BASIN AREA LARGE FIRES:
PHILLIPS RANCH, Humboldt-Toiyabe National Forest and Great Basin National Park. The fire is 50 miles southeast of Ely, NV. National Park Service personnel are monitoring the fire.

SOUTHWEST AREA LARGE FIRES:

B-52 $|N M|$ N6S| 160|100| $---|\quad 54| 1|4| \quad 0|0| 0 \mid 40 K$
N6S = Bernalillo District, New Mexico State Forestry

OUTLOOK:

```
*** A RED FLAG WARNING IS POSTED IN EASTERN TEXAS AND SOUTHWEST LOUISIANA
FOR POSSIBLE THUNDERSTORMS WITH GUSTY WINDS ***
```

South Texas and the Gulf Coast states will be warm, with an increasingly moist southerly flow bringing scattered thunderstorms during the afternoon and evening. High temperatures will be from the mid 80's to the mid 90's. Minimum relative humidities will be 40 to 50 percent inland and 50 to 60 percent along the coast. Winds will be east at 5 to 15 mph .

In the west, another series of troughs will move into the extreme northwest, while a ridge builds into the northern Rocky Mountains. As a result, it will be warmer and drier across much of Oregon, Idaho, Montana and Wyoming. Showers will move into northwest Washington late in the day. Further south, monsoon moisture will bring thunderstorms to parts of the southwest.

High temperatures in the west will be in the 60's and 70's in the northern Rockies, in the 70's and 80's at lower elevations and in the 90's to 100 in desert areas. Minimum humidities will range from the mid teens to the mid $30^{\prime}$ s, with some single digit readings in the warmest southern deserts. Winds will be west to southwest at 10 to 15 mph .
