

INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, SEPTEMBER 12, 2000 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL IV

CURRENT SITUATION:

Two new large fires were reported, both in the Southern Area. Crews reached containment goals on eight fires, two in the Eastern Great Basin and six in the Southern Area. Initial attack activity was light throughout the United States. There is a possibility of thunderstorms across southern and central California due to subtropical moisture pushing into the state. Very high to extreme fire indices were reported in Oregon, California, Idaho, Utah, Arizona, Nevada, Montana, Wyoming, Colorado, Kansas, Arkansas, Texas and Oklahoma.

SOUTHERN AREA LARGE FIRES:

3 B FIRE COMMAND, Florida Division of Forestry. This fire is burning near Broward, FL in a State Conservation area. There is no access to the fire and is being monitored daily by aircraft.

TXS = Texas State Forest Service

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Gale) is assigned to manage the large fires in northwest Montana.

VALLEY COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Stutler) is assigned. The Army's 3rd Battalion 327th Infantry from Ft. Campbell, KY, commanded by LTC Lehr, is assigned and scheduled for demobilization on the 13th. These fires are seven miles south of Darby, MT. The complex consists of the Bear, Taylor, Taylor Spot, Hilltop, Razor, Fat and Mink fires. Precipitation and higher relative humidity are keeping the fire activity at a low level. Demobilization of resources continues.

SKALKAHO COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Rutherford) is assigned. This group of fires is ten miles southeast of Hamilton, MT. Included in the complex are the Bear and Coyote fires. The fire activity remains light with cooler temperatures

and higher relative humidity.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. A Type II Incident Management Team (Swope) is assigned. The complex consists of the Falls Creek, Cougar Creek, Coyote Springs, Medicine Lake, Skalkaho Pass, Lick Creek and Cooper Creek fires, 30 miles southwest of Philipsburg, MT. Crews continue to build direct fireline, mopup and secure existing containment lines.

MAUDLOW/TOSTON, Central Land Office, Montana Department of Natural Resources and Conservation. A Type II Incident Management Team (Corbin) is assigned. These fires are 25 miles northeast of Belgrade, MT. The fire activity is low due to precipitation received. Weather has made access to the fireline difficult.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. A Type II Incident Management Team (Specht) is assigned. These fires are 12 miles northwest of Wisdom, MT. The complex includes the Mussigbrod and Maynard fires. Crews continue to make progress on hot spotting, cold trailing and rehabilitation efforts.

ALDER CREEK, Lolo National Forest. A Type II Incident Management Team (Davidson) is assigned. This fire is 31 miles southeast of Missoula, MT. No new information was received.

KOOTENAI COMPLEX, Kootenai National Forest. A Type II Incident Management Team (Novotny) is assigned. The Army's 1st Battalion 321st Artillery from Ft. Bragg, NC, commanded by LTC Mathis, is assigned and scheduled for demobilization on the 14th. These fires are 20 miles northwest of Libby, MT. The Troy South Complex has been included within this complex. All fires were quiet today, and some rehabilitation is being implemented. This will be the last report unless significant activity occurs.

EASTERN GREAT BASIN AREA LARGE FIRES:

CLEAR CREEK COMPLEX, Salmon-Challis National Forest. A Type I Incident Management Team (Stam) is assigned. This complex consists of the Clear Creek, Marlin Springs, Full Circle and Sisters fires. The 3rd Battalion, 2nd Marines from Camp Lejeune, North Carolina, commanded by LTC Smith, is committed. Mopup and rehabilitation goals are being met.

FONTENELLE, Bridger-Teton National Forest. This fire is 20 miles north of Kemmerer, WY. Cloud cover and higher relative humidity have diminished

fire activity.

SCF WILDERNESS, Salmon-Challis National Forest. Eleven wildland fires are currently burning within the Salmon Challis Wilderness Complex: Little Pistol, Indian Creek, Filly, Butts, Papoose, Parker, Packer Meadow, Shell Rock, Wilson Creek, Jackass and Jack Creek. Minimal fire activity was observed.

WCF = Wasatch-Cache National Forest
 BOD = Lower Snake River District, BLM

WESTERN GREAT BASIN AREA LARGE FIRES:

MAHOGANY CREEK, Winnemucca Field Office, BLM. The fire is burning in grass, mahogany and sage 75 miles northwest of Winnemucca, NV. Crews continue to make progress as fire behavior is limited to interior fuels. Current threats are to wildlife habitat.

OUTLOOK:

For the Southern Area a weak high pressure will remain over Florida and Georgia. This will continue to allow abundant moisture and scattered thunderstorms to move into Texas and the coastal regions. High

temperatures will be in the 80's to 90's with 100's expected near the Rio Grande. Minimum relative humidity will be 40 to 50 percent inland and 60 to 70 percent along the Gulf Coast. Winds will be east to south at 5 to 15 mph.

In the West high pressure will begin to amplify across the southwest states and into the Pacific northwest. A stationary low pressure area of the California coast will help push moisture up from the subtropics into California. As a result, isolated showers and thunderstorms are possible across southern and central California. Otherwise warm and dry conditions can be expected across the remainder of the west.

High temperatures in the West will be in the mid 60's to mid 80's in the Northern rockies and Intermountain West. In the Central and West Coast areas temperatures will be in the 70's to near 90, and from the 90's to near 110 in the warmest deserts of the Southwest and Great Basin.

Minimum relative humidity in the west will generally be in the mid teens to upper 30's with some single digits in the warmest southern deserts.

Winds in the west will mostly be west to northwest 10-20 mph.
