

INCIDENT MANAGEMENT SITUATION REPORT
 SUNDAY, SEPTEMBER 24, 2000 - 0900 MDT
 NATIONAL PREPAREDNESS LEVEL III

CURRENT SITUATION:

Three new large fires were reported, two in the Southern Area and one in the Eastern Great Basin. Containment was reached on ten large fires; one in Southern California, one in the Northern Rockies and eight in the Southern Area. Initial attack activity was light in all areas. Very high to extreme fire indices were reported in Arizona, Arkansas, California, Nevada, Oklahoma and Texas.

SOUTHERN AREA LARGE FIRES:

CHICKEN, Texas State Forest Service. This fire is 20 miles east of Nacogdoches, TX. A Type II Incident Management Team (Ruggiero) is assigned. No new information was received.

SPANISH GRANT, Texas State Forest Service. This fire is burning just south of San Antonio, TX. The fire is burning in mesquite and oak. Approximately 20 homes were evacuated and two outbuildings were lost.

ARBUCKLE COMPLEX, Oklahoma Division of Forestry. A Type II Incident Management Team (Ferguson) is assigned. This fire is 11 miles northwest of Ardmore, OK. Suppression forces continue to make good progress towards containment and mopup. Fire activity was limited due to higher humidity and cloud cover. Residents evacuated from the Turner Falls area were allowed to return.

BRISTOW COMPLEX, Oklahoma Division of Forestry. This fire is six miles northeast of Bristow, OK. Crews continue to monitor and mopup the fire. Acreage increase due to more accurate mapping.

PRYOR CREEK, Oklahoma Division of Forestry. This fire is six miles southeast of Pryor, OK. Rough terrain and heavy fuels are making containment difficult.

NOODLER, Southern Plains Regional Office, BIA. This fire is burning in grass, brush, oak, and cedar five miles northeast of Anadarko, OK. Crews continue to make good progress on containment and mopup.

CROMWELL, Eastern Oklahoma Regional Office, BIA. This fire is three miles west of Cromwell, OK. Patrol and monitoring of the fire continues.

GORGE, Oklahoma Division of Forestry. This fire is five miles west of Wynona, OK, and is burning in grass and hardwood timber. All containment lines continued to hold. Reduction in acreage is due to more accurate aerial mapping.

ROCKY MOUNTAIN AREA LARGE FIRES:

VALENTINE COMPLEX, Valentine National Wildlife Refuge. This complex of seven lightning-caused fires is 25 miles south of Valentine, NE. Precipitation, overcast conditions and low temperatures are helping with containment. Minimal activity has been observed.

SPRING MOUNTAIN, Wind River Agency, BIA. This fire is 35 miles southeast of Pavillion, WY. No new information to report.

NORTHERN ROCKIES AREA LARGE FIRES:

VALLEY COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Gauger) is assigned. These fires are seven miles south of Darby, MT. The complex consists of the Bear, Taylor, Taylor Spot, Hilltop, Razor, Fat, and Mink fires. Monitoring of uncontained fire perimeter continues. Crews are making good progress on rehabilitation efforts.

SKALKAHO COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Hoff) is assigned. This group of fires is ten miles southeast of Hamilton, MT. Crews are continuing to rehabilitate areas that have high potential for erosion and flooding.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. These fires are

12 miles northwest of Wisdom, MT. The complex includes the Mussigbrod and Maynard fires. Rehabilitation has begun on primary containment lines. Crews continue to clear hazard trees and gather equipment. Road closures continue to be patrolled.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. These fires are 30 miles southwest of Philipsburg, MT. The complex consists of the Falls Creek, Cougar Creek, Coyote Springs, Medicine Lake, Skalkaho Pass, Lick Creek, and Cooper Creek fires. Rehabilitation continues.

EASTERN GREAT BASIN AREA LARGE FIRES:

CLEAR CREEK COMPLEX, Salmon-Challis National Forest. A Type I Incident Management Team (Stam) is assigned. This complex consists of the Clear Creek, Marlin Springs, Full Circle, and Sisters fires. The 3rd Battalion, 2nd Marines from Camp Lejeune, North Carolina, commanded by LTC Smith is assigned; partial demobilization of the battalion is in progress. Some smoldering with very little open flame has been observed. The Type I Incident Management Team (Stam) is preparing to transition with the Type II Incident Management Team (Carr).

PECK, Payette National Forest. This wind driven fire, burning in grass and timber in moderately steep terrain is 15 miles west of Council, ID.

SOUTHWEST AREA LARGE FIRES:

BLOODGOOD COMPLEX, Gila National Forest. A Fire Use Management Team (Cook) is assigned. This complex consists of the Bloodgood and the Sierra fires. These lightning ignited wildfires are being managed to accomplish resource objectives. Both fires received wind gusts of 30 mph on ridges in the vicinity of the fires. The fire is making short uphill runs with some torching. Holding actions are being conducted on sections where the fire has potential to breach Maximum Manageable Area or affect Gila Trout habitat.

OUTLOOK:

*** A FIRE WEATHER WATCH IS POSTED FOR MISSISSIPPI FOR LOW FUEL MOISTURE ***

Across Oklahoma, Texas and the Gulf Coast states a low pressure will enter the region helping to spread a cold front across Texas and Oklahoma. This will bring scattered rain and thunderstorms to the region. High pressure will continue over the Gulf of Mexico. Ahead of the front, temperatures will warm into the 90's with afternoon humidities ranging 30 to 40 percent inland and 50 to 60 percent along the coastal region. High temperatures will be in the 60's and 70's behind the front with humidities ranging from 40 to 50 percent. Winds will be from the south at 10 to 20 mph ahead of the front and from the north after the frontal passage.

Across the West Coast high pressure continues to build over the region as a low pressure moves into the central Rockies by the afternoon. This continues the warming trend across all areas along with mostly sunny skies west of the Rockies. Unsettled conditions can be expected across the central Rocky Mountain region.

High temperatures will range from the 40's to 60's in the northern and central Rockies, the mid 50's to 70's in the remainder of the Northwest and Great Basin and 70's through the 90's from southwest Oregon into California and the Southwest states. Afternoon minimum humidities will range from 15 to 30 percent in the driest areas along the west coast and in the southwest. Winds will be northerly at 10 to 15 mph along the west coast and northern Rockies, and southwest to west at 10 to 20 mph in the Southwest states.
