

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, MAY 21, 2001 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 1

CURRENT SITUATION:

Initial attack activity was moderate in the Southern Area and light elsewhere. One new fire was reported in Florida and one in Oregon. High pressure over the Gulf of Mexico will bring an increase in relative humidity and a south wind to Florida and southern Georgia. High pressure will build over New Mexico and Arizona bringing mostly sunny skies, except for southern New Mexico which will be partly cloudy. Very high to extreme fire indices were reported in Arizona, New Mexico and Texas.

SOUTHERN AREA LARGE FIRES:

ARABIA BAY, Georgia State Forestry Commission. The fire is in Clinch County, GA. No new information was reported.

BURNT FLAT PRAIRIE, National Forests of Florida. The fire is 30 miles southeast of Naples, FL near Fakahatchee State Preserve. This fire was formerly known as Fakahatchee. Limited access, high winds and low relative humidity are making containment difficult. Several structures continue to be threatened.

CRAWFORD ROAD, Florida Division of Forestry. This fire is 20 miles northwest of Jacksonville, FL. Low relative humidity continues to be a problem with containment.

BEAR ISLAND, Big Cypress National Park. This fire is 50 miles east of Naples, FL. No new information was reported.

HARTSOG, Florida Division of Forestry. This fire, formerly called the Bay Top/Hartzog, is four miles west of Orlando, FL. No new information was reported.

HURST HAMMOCK, Florida Division of Forestry. The fire received a light amount of precipitation. Crews continue with mopup.

MALLORY SWAMP, Florida Division of Forestry. This fire is approximately 20 miles east of Perry, FL. Spotting due to winds continues to be problematic.

GOLF COURSE, Florida Division of Forestry. This fire is one-and-a-half miles north of Sea Grove Beach, FL. No new information was reported.

VICTOR ROAD, Florida Division of Forestry. This fire is 20 miles south of Chipley, FL. No new information was reported. This will be the last report unless new information is received.

SEAGROVE, Florida Division of Forestry. This fire is one mile from Sea Grove Beach, FL. No new information was reported. This will be the last report unless new information is received.

NORTHWEST AREA LARGE FIRES:

ROGERSBURG, Vale District, BLM. This fire is a half-a-mile east of Rogersburg, WA at the Rogersburg airstrip. This fire is burning in grass fuels. Availability of resources, steep terrain and remote location are impeding containment efforts.

OUTLOOK:

High pressure over the Gulf of Mexico will build over Florida and Southern Georgia with an increase in humidity and winds from the south. Skies will be partly cloudy with a slight chance of afternoon and evening thunderstorms over inland Florida. High temperatures will be 85 to 95 and minimum relative humidity will range from 35 to 55 percent. Winds will be southeast to southwest at 5 to 15 mph.

A warm front will move over North and South Carolina during the morning bringing mostly cloudy skies with a chance of showers and thunderstorms. High temperatures will be in the 70's and 80's. Minimum relative humidity will range from 50 to 70 percent. Winds will be south to southwest at 10 to 20 mph.

High pressure will be building over Arizona and New Mexico for mostly sunny skies except for southern New Mexico which will be partly cloudy. High temperatures will be in the 60's and 70's in the mountains, 80's to 90's in the valleys and near 103 in the deserts. Minimum relative humidity will range from 25 to 40 percent in the mountains and 15 to 25 percent elsewhere. Winds will be west to northwest at 10 to 20 mph across New Mexico and 5 to 10 mph across Arizona.
