

INCIDENT MANAGEMENT SITUATION REPORT  
THURSDAY, MAY 24, 2001 - 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 1

CURRENT SITUATION:

Initial attack activity was moderate in the Southern Area and light elsewhere. Two new large fires were reported in Southern Area and two fires were contained. Numerous Florida fires were active yesterday afternoon. The large fire in Northern California is also contained. Florida and Southern Georgia will have mostly sunny weather except the southern portion of Florida which will see a chance of thunderstorms. No units reported very high to extreme fire indices.

SOUTHERN AREA LARGE FIRES:

MALLORY SWAMP, Florida Division of Forestry. This fire is approximately 20 miles east of Perry, FL. This fire escaped containment due to winds and low relative humidity. Air and ground resources have responded. Paperwork for a FEMA declaration have been initiated.

SIMMON ROAD, Florida Division of Forestry. This fire is 15 miles east of Lake City, FL. Twenty-five residences and outbuildings are threatened. Some evacuations took place.

RACE POND, Georgia State Forestry Commission. This fire is approximately 20 miles north of Waycross, GA. Acreage changed due to better mapping. Containment efforts hampered due to winds from a passing cold front.

ARABIA BAY, Georgia State Forestry Commission. The fire is in Clinch County, GA. Preparations for burnout operations have taken place. Crews continue to monitor the perimeter. Accessibility is still hampering containment efforts.

HARTZOG, Florida Division of Forestry. This fire, formerly called the Bay Top/Hartzog, is four miles west of Orlando, FL. Crews continue to mopup.

HURST HAMMOCK, Florida Division of Forestry. The fire received a light amount of precipitation. No new information was reported.

CRAWFORD ROAD, Florida Division of Forestry. This fire is 20 miles northwest of Jacksonville, FL. This fire is being monitored.

BEAR ISLAND, Big Cypress National Park. This fire is 50 miles east of Naples, FL. The fire received rain most of the day and mopup continues.

WRIGHT CEMETARY, Texas State Forest Service. This fire is burning in a pine plantation 80 miles northeast of Houston, TX. High winds and low relative humidity are hampering containment efforts.

OUTLOOK:

\*\*\* A RED FLAG WARNING HAS BEEN POSTED IN INLAND NORTHWEST FLORIDA FOR LONG DURATIONS OF RELATIVE HUMIDITY BELOW 35 PERCENT \*\*\*

\*\*\* A FIRE WEATHER WATCH HAS BEEN POSTED IN WEST CENTRAL, NORTHEAST AND COASTAL NORTHWEST FLORIDA FOR MARGINAL DURATIONS OF RELATIVE HUMIDITY BELOW 35 PERCENT \*\*\*

Florida and Southern Georgia will have mostly sunny weather except the southern portion of Florida which will see a 40 to 50 percent chance of thunderstorms. High temperatures will be in the 80's and lower 90's. Minimum relative humidity will range from 25 percent in the northern areas and 50 to 60 percent along the southeastern coast. Winds will be light and diurnally driven.

California will be clear and slightly cooler, except for low clouds and fog along the coast and a slight chance of thunderstorms along the Sierra Nevada crest. High temperatures will be in the 80's and lower 90's in northern California and in the 90's to 105 in southern California. Minimum relative humidity will range from 10 to 30 percent. Winds will be light and diurnally driven under 15 mph.

Arizona and New Mexico remain hot and dry, but slightly increasing high level moisture will bring a chance of dry thunderstorms to the northern mountains. High temperatures will be 75 to 90 in the mountains and 105 to 115 in the deserts. Minimum relative humidity will range from 5 to 10 percent in the lower deserts and 10 to 15 percent in the mountains. Winds will be west to northwest at 10 20 mph.
