

INCIDENT MANAGEMENT SITUATION REPORT
 SUNDAY, JUNE 17, 2001 - 0900 MDT
 NATIONAL PREPAREDNESS LEVEL 2

CURRENT SITUATION:

One new large fire was reported in both Florida and Idaho, and one large fire reached containment in Oregon. Initial attack activity was moderate in northern California and light elsewhere. Very high to extreme fire indices were reported in Arizona, California, Nevada, New Mexico, Oregon, Texas, and Utah.

SOUTHWEST AREA LARGE FIRES:

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC LOSS	\$\$\$ C-T-D
LEROUX	AZ	COF	1200	100	---	674	23	10	5	0	3M

COF = Coconino National Forest

SOUTHERN AREA LARGE FIRES:

EAST COUNTY LINE, Florida Division of Forestry. The fire started on 6/12 in Broward County, one mile from US Highway 27. Smoke from the fire continues to impact traffic and Florida Highway Patrol is monitoring the area.

BLACK JACK LAKE, Okefenokee National Wildlife Refuge. This fire was started by lightning south of the Craven Island incident. No new information was reported. This will be the last report unless new information is received.

TOMBSTONE, Florida Division of Forestry. This fire is located in Broward County near the East County Line fire and was caused by lightning. Inaccessibility is hampering containment efforts and smoke is impacting highway visibility.

CRITICAL, Florida Division of Forestry. This lightning caused fire is in Pasco County, FL. No new information was reported. This will be the last report unless new information is received.

ROLF, Florida Division of Forestry. This fire is in Orange County, FL. There is no access for ground units and the fire continues to emit heavy smoke.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC LOSS	\$\$\$ C-T-D

OUTLOOK:

*** A FIRE WEATHER WATCH HAS BEEN POSTED FOR SOUTHEAST OREGON AND SOUTHERN IDAHO FOR STRONG WINDS AND LOW RELATIVE HUMIDITY ***

*** A FIRE WEATHER WATCH HAS BEEN POSTED FOR NORTHERN FLORIDA FOR LOW

RELATIVE HUMIDITY AND AN UNSTABLE AIRMASS ***

A high pressure system over the Great Basin will bring mostly sunny skies, however, a front moving through the Pacific Northwest will bring gusty winds to Idaho, southeast Oregon, Nevada, and Utah. High temperatures will be in the 80's and 90's and near 110 degrees in the deserts. Minimum relative humidity will range from 5 to 15 percent. Winds will be from the southwest at 10 to 20 mph with gusts to 35 mph in portions of Nevada and Utah.

A cold front with a dry, unstable airmass covers northern Florida bringing partly cloudy skies and scattered thundershowers. High temperatures will be from 85 to 95 degrees. Minimum relative humidity will range from 30 to 40 percent in northern Florida and above 40 percent elsewhere. Winds will be mostly west to north at 5 to 15 mph.

High pressure over Arizona and New Mexico will bring warmer temperatures and sunny skies except for a few thunderstorms in New Mexico and eastern Arizona. High temperatures will mostly be in the 80's to 90's and near 110 in the deserts. Minimum relative humidity will range from 5 to 15 percent and winds will be southwest to west at 10 to 20 mph.

High pressure over California will bring mostly sunny skies except for low clouds and fog along coastal areas. High temperatures will be in the 60's and 70's along the coast, 90's in the inland valleys, and near 110 in the deserts. Minimum relative humidity will range from 10 to 20 percent in inland areas and winds will be southwest to northwest at 5 to 15 mph.
