

INCIDENT MANAGEMENT SITUATION REPORT  
 FRIDAY, JUNE 29, 2001 - 0530 MDT  
 NATIONAL PREPAREDNESS LEVEL 2

CURRENT SITUATION:

One new large fire was reported in Texas and one large fire reached containment in Southern California. Initial attack activity was moderate in Northern and Southern California, and light elsewhere. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Idaho, Nevada, New Mexico, Oklahoma, Texas, Utah, and Wyoming.

ALASKA AREA LARGE FIRES:

NORTH SHORE KENAI LAKE, Chugach National Forest. A Type 1 Incident Management Team (Hefner) has been assigned. This fire is 12 miles north by northwest of Seward, AK. The fire continues to be affected by low relative humidity and heavy fuel loading; crowning and spotting was observed. Additional indirect fireline has been completed.

FISH CREEK, Fairbanks Area, Alaska Division of Forestry. A Type 2 Incident Management Team (Jandt) is assigned. This fire is 12 miles southeast of Nenana, AK. Higher relative humidity contributed to reduced overall fire activity. Crews continue to mopup along the northern perimeter, securing the fireline to the Totatlanika River. Dozers were staged at 7 Mile Lake for potential cabin protection.

SURVEY LINE, Fort Wainwright, Department of Defense. This fire is approximately 12 miles southwest of Fairbanks, AK. The fire is in a military limited protection area and is approaching a full protection area. Two slopovers were reported, each on or near full protection area lands.

MYSTERY HILLS. Kenai National Wildlife Refuge. This fire is 2 mile north of the Sterling Highway.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC LOSS	\$\$\$ C-T-D

MYSTERY HILLS	AK	KNR	150	0	UNK	0	0	0	0	0	NR

NORTHERN CALIFORNIA AREA LARGE FIRES:

MARTIS, Nevada-Yuba-Placer Ranger Unit, California Department of Forestry. The management of this fire has been transferred to the Humboldt-Toiyabe National Forest; all subsequent information will be reported under the Western Great Basin Area Large Fire narrative.

WESTERN GREAT BASIN AREA LARGE FIRES:

MARTIS, Humboldt-Toiyabe National Forest. A Type 2 Incident Management Team (Murphy) has been assigned. This fire is 8 miles west of Reno, NV. Good progress has been made with fireline construction and mopup is continuing.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC LOSS	\$\$\$ C-T-D
MARTIS	NV	HTF	14500	75	6/30	527	11	15	4	3	15M

SOUTHERN AREA LARGE FIRES:

PANCHO, Aransas National Wildlife Refuge. This human-caused fire is burning 40 miles west of Port Lavaca, TX. Low relative humidity and moderate winds are hampering containment efforts.

MADERA, West Texas Counties. This fire, burning in pine, oak and cedar 50 miles west of Fort Stockton, TX. Light precipitation received on the fire assisted with containment efforts.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC LOSS	\$\$\$ C-T-D
PANCHO	TX	ARR	3000	0	6/30	42	0	9	1	0	0
MADERA	TX	WTS	150	90	UNK	35	NR	NR	NR	0	NR

SOUTHWEST AREA LARGE FIRES:

RIDGE, Gila National Forest. A Fire Use Management Team (Cook) is assigned. This lightning caused Wildland Fire Use fire is 25 miles east of Silver City, NM. The fire received some precipitation. This will be the last report unless significant activity occurs.

OUTLOOK:

High pressure over western Alaska will bring mostly sunny skies. A small amount of moisture will linger in the eastern interior bringing a few afternoon showers or wet thunderstorms near the Canadian border. Some moisture has moved over the Kenai Peninsula where skies will be sunny to partly cloudy with a few mountain showers. High temperatures will be 75 to 85 degrees. Minimum relative humidity will range from 25 to 30 percent in the interior and 35 to 45 percent on the Kenai Peninsula. Winds will be variable at 5 to 10 mph.

High pressure will create continued dry conditions over Arizona, New Mexico and southern California. Southeast Arizona and New Mexico will have partly cloudy skies with a few afternoon thunderstorms over high terrain. The rest of Arizona and southern California will be sunny, hot and dry. High temperatures will be in the 80's and 90's, except for 100 to 110 in the lower elevation deserts of southern California and southwest Arizona. Minimum relative humidity will range from 5 to 15 percent in the west and 15 to 25 percent in the east. Winds will be variable at 5 to 15 mph.
