

INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, AUGUST 14, 2001 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 4

CURRENT SITUATION:

Eighteen new large fires were reported, nine in the Northwest, four in Eastern Great Basin, and one each in Rocky Mountain, Southwest, Southern California, Western Great Basin and Southern Areas. Crews reached containment on twelve large fires, eight in Western Great Basin, two in Eastern Great Basin and one each in Southern California and Southern Areas. Initial attack activity was heavy in the Northwest and Northern Rockies, moderate in Eastern Great Basin, and light elsewhere. Very high to extreme fire indices were reported in California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming.

NORTHERN CALIFORNIA AREA LARGE FIRES:

GAP, Tahoe National Forest. A Type 1 Incident Management Team (Vail) transitioned with Type 2 Incident Management Team (Szczepanik) last night. This fire is 20 miles west of Truckee, CA. Yuba Gap, Carpenter Gap and the Marin Sierra Boy Scout Camp were evacuated. Interstate 80 and Highway 20 were closed at Yuba Gap.

TROUGH, Mendocino National Forest. A Type 1 Incident Management Team (Studebaker) is assigned. This fire is four miles west of Stoneyford, CA. Indirect fireline construction and burnout operations along the south perimeter continues.

BLUE COMPLEX, Modoc National Forest. A Type 1 Incident Management Team (Gage) is assigned. This fire is 13 miles east of Likely, CA. This complex consists of the Blue, Shields and Canyon fires. One structure at the Blue Lake Recreation Center was lost. Evacuations of Blue Lake and Jess Valley remain in effect. Blue Lake campground remains closed as well.

OBSERVATION, Northern California District, BLM. A Type 2 Incident Management Team (Carlson) is assigned. This fire is east of Ravendale, CA. The fire is progressing towards Highway 395. Crews continue to make progress with fireline construction.

MODOC COMPLEX, Modoc National Forest. A Type 2 Incident Management Team (Bright) is assigned. This complex of fires near Canby, CA, consists of the Bell, Rock, Butte, Fourmile and Kellogg fires. The incident is staging initial attack task forces to suppress all new starts with the Modoc National Forest. Crews continue to make progress with containment lines and mopup.

BUZZ, Northern California District, BLM. This fire is 12 miles east of Eagleville, CA. Active fire behavior was observed with flare-ups, spotting and torching.

NORTHWEST AREA LARGE FIRES:

QUARTZ, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Gilpin) is assigned. This fire is ten miles southwest of Medford, OR. The fire has potential to cross into California.

ICICLE, Wenatchee National Forest. A Washington Interagency Incident Management Team (Johnson) is assigned. This complex, consisting of the Upper 8 Mile and the Snowflake fires, is six miles southwest of Leavenworth, WA. Steep terrain and limited access are hindering containment efforts.

VIRGINIA LAKE, Colville Agency, BIA. A Washington Interagency Incident Management Team is on order. This fire is 12 miles south of Okanogan, WA. Several residences have been evacuated.

CRANE PRAIRIE COMPLEX, Deschutes National Forest. A Type 2 Incident Management Team (Jackson) has been assigned. This fire is 25 miles southwest of Bend, OR.

OLALLIE LAKE COMPLEX, Mt. Hood National Forest. A Type 2 Incident Management Team (Ostman) is assigned. This complex of fires is near Olallie Lake, OR. Spotting and torching were observed. Evacuations in the area have occurred. Tribal timberlands, recreation lands and the resort at Olallie Lake are threatened.

LAKEVIEW COMPLEX, Fremont National Forest. A Type 1 Incident Management Team (Stutler) is assigned. This complex of fires is in the Lakeview, OR area. The complex consists of the Johnson Creek, South Warner, Mustang, Big Juniper and Horsehead fires. Extreme fire behavior and rapid rates of spread have been observed.

SPRUCE SPRINGS, Wenatchee National Forest. A Washington Interagency Incident Management Team (Baarspul/Ariss) is assigned. This fire burning in bug-killed timber is 30 miles west of Yakima, WA. The team will also manage five additional fires in the W.O. Douglas Wilderness.

SHEEPSHEAD, Burns District, BLM. A Type 2 Incident Management Team (Gardner) is assigned. This fire is 75 miles southeast of Burns, OR. This complex of fires consists of the Sheepshead and Stone House fire. The team is also taking suppression action on the Potluck fire.

BRIDGE CREEK, Oregon Department of Forestry. This fire is 45 miles southwest of La Grande, OR. The fire is a threat to a historic structure and potentially the community of Ukiah, OR.

BREWSTER COMPLEX, Northeast Washington State. A Washington Interagency

Incident Management Team (Furlong) is assigned. This complex of fires is five miles north of Brewster, WA. There are two fires in this complex, Indian Dan and Gambol Mill. An unknown number of structures are reported to be threatened and the state mobilization act may be invoked in order to provide structure protection.

MONUMENT COMPLEX, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Keith) is assigned. The fire is burning actively and an unknown number of structures are reported to be threatened. This fire is three miles north of Monument, OR.

GOOSE LAKE, Colville Agency, BIA. This fire is 18 miles west of Nespelem, WA. The fire made major runs throughout the day.

DOME PEAK, Southeast Washington State. This fire is six to seven miles southwest of Naches, WA. Rapid growth was observed.

WOLF CREEK, Burns District, BLM. This fire is 40 miles northeast of Burns, OR. Extreme fire behavior was observed. The lookout at Frazier is threatened, as well as bull trout habitat.

WESTERN GREAT BASIN AREA LARGE FIRES:

FISH, Carson City Field Office, BLM. A Type 2 Incident Management Team (Terwilliger) is assigned. This fire is ten miles northeast of Doyle, CA. Fire behavior observed included backing downslope, a slow rate of spread, and some interior islands of unburned fuel torching. Crews continue to secure containment lines with burnout operations and mopup.

BUFFALO, Elko Field Office, BLM. A Type 2 Incident Management Team (Conrad) has been ordered. A structure protection task force is in place in the town of Midas, which remains threatened.

HOT LAKE, Elko Field Office, BLM. This fire is eight miles south of Midas, NV. The fire is moving predominately west and north with short runs and

short range spotting.

CLEAR CREEK COMPLEX, Winnemucca Field Office, BLM. A Type 2 Incident Management Team (Shell) has been ordered. This fire is 11 miles south of Winnemucca, NV. This complex consists of the Clear Creek, Elbow and Sonoma fires. Extreme fire behavior was observed again yesterday.

SPAULDING CANYON, Winnemucca Field Office, BLM. This fire is 50 miles south to southwest of Winnemucca, NV. The fire continued to exhibit active fire behavior with running, spotting and torching observed.

COYOTE, Elko Field Office, BLM. A Type 2 Incident Management Team (Burdick) will assume management of this fire as part of the Sheep Complex. This fire is 25 miles east of Carlin, NV. Extreme fire behavior was observed with running and spotting up to 50 to 100 feet ahead of the fire. RANCH, Winnemucca Field Office, BLM. This fire is 50 miles northeast of Winnemucca, NV. The Midas and Ranch fire burned together and are now the Ranch fire. Crews made good progress with fireline construction and will continue to patrol and mopup.

STARR VALLEY, Northern Region, Nevada Division of Forestry. This fire is 30 miles east to northeast of Elko, NV. Crews continue to make good progress establishing containment lines.

GOLDEN EAGLE, Winnemucca Field Office, BLM. This fire burning in grass, sagebrush and pinyon juniper is 60 miles west of Winnemucca, NV. Crews continue to make good progress with fireline construction.

PERU, Winnemucca Field Office, BLM. This fire burning in grass, sagebrush, pinyon juniper and cottonwood is near Unionville, NV. Moderate fire behavior was reported. Crews made good progress controlling flare-ups on the west perimeter.

NORTHERN ROCKIES AREA LARGE FIRES:

MONITOR CREEK, Gallatin National Forest. A Type 2 Incident Management Team (Milburn) is assigned. This fire is 11 miles north of Gardiner, MT. The fire was part of the Hoppe Complex. An assessment for a burnout operation is being conducted.

TACO, Nez Perce National Forest. A Type 2 Incident Management Team (Kechter) is assigned. This fire is ten miles east of Riggins, ID. Strong down drafts from passing thunderstorms caused some spotting outside the fireline. Mopup of the perimeter and hot spots is continuing.

EASTERN GREAT BASIN LARGE FIRES:

TRIUMPH MINE, Upper Snake River District, South-Central Idaho Area, BLM. This fire is six miles southeast of Ketchum, ID. Crews continue to make significant progress in fireline construction.

SUBLETT RESERVOIR, Upper Snake River District, South-Central Idaho Area, BLM. This fire is four miles north of Malta, ID. Sublett Reservoir road has been closed. Significant fire runs were observed. HAY CANYON, Upper Snake River District, South-Central Idaho Area, BLM. This fire is 15 miles northwest of Holbrook, ID. The fire escaped in the northeast perimeter.

ELK CREEK, Payette National Forest. A Type 2 Incident Management Team (Elliot) is assigned. This fire is 15 miles east of Warren, ID. Passing thunderstorms caused shifting winds and active fire behavior.

FALCON, Bridger-Teton National Forest. This fire is located in the Teton Wilderness, 48 miles northeast of Jackson, WY. No new information was reported.

OUTLOOK:

High pressure over northern California will bring hot and dry conditions. High temperatures will be in the upper 80's to 105 inland, with minimum relative humidity ranging in the teens, and from 6 to 12 percent east of the Sierra Cascade crest. Winds will be upslope and up canyon.

High pressure will rebuild over the Pacific Northwest bring mostly clear conditions with a slight chance of isolated thunderstorms over northeast Oregon during the afternoon. High temperatures will be 75 to 85 west of the Cascades, and 85 to 100 east. Minimum relative humidity will range from 35 to 55 percent west, to 10 to 25 percent east. Winds will be southwest to northwest at 5 to 15 mph.

An upper level ridge will continue to dominate over Nevada bringing mostly sunny skies. High temperatures will be 75 to 85 in the mountains, in the 90's at lower elevations, and 107 to 112 south. Minimum relative humidity will range from 8 to 20 percent, and winds will be southwest at 10 to 20 mph.

Monsoonal moisture will exit east of the Great Basin with a dry northwesterly flow developing in its wake. This will bring partly sunny skies with isolated showers and thunderstorms to the area with scattered storms in eastern Utah. High temperatures will be 85 to 95, with minimum relative humidity ranging from 15 to 25 percent, and up to 30 percent in higher terrain. Winds will be northwest at 10 to 20 mph.

A cold front will move across Montana bring partly cloudy skies to northern Idaho and western Montana with a slight chance of afternoon and evening thunderstorms. It will be mostly cloudy and cooler in eastern Montana with scattered showers and thunderstorms.
