

INCIDENT MANAGEMENT SITUATION REPORT
SUNDAY, AUGUST 19, 2001 - 0630 MDT
NATIONAL PREPAREDNESS LEVEL 5

CURRENT SITUATION:

Eleven new large fires were reported, four in Eastern Great Basin, three in Southern California, two in Southern Area, and one each in Northern California and the Northwest. Five large fires reached containment, one each in Eastern Great Basin, Southern California, Western Great Basin, Northern California and the Northwest. Initial attack activity was moderate in Eastern Great Basin, and light elsewhere. Very high to extreme fire indices were reported in California, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Utah, Washington and Wyoming.

NORTHWEST AREA LARGE FIRES:

An Area Command Team (Mann) is assigned to manage large fires in eastern Washington. Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

VIRGINIA LAKE COMPLEX, Colville Agency, BIA. A Type 1 Incident Management Team (Lohrey) is assigned. This complex, comprised of the St. Mary's, Goose Lake, and Virginia Lake fires, is 12 miles south of Okanogan, WA. Okanogan County has declared a state of emergency. An evacuation order remains in effect for the St. Mary's fire in the Haley Road and Dutch Anderson Road areas along the north portions of State Route 155. The St. Mary's fire continues to spread, while the Goose Lake and Virginia Lake fires continue with mopup operations.

SPRUCE SPRINGS/DOME COMPLEX, Wenatchee National Forest. A Washington Interagency Incident Management Team (Baarspul/Ariss) is assigned. This complex, comprised of the Dome, Spiral Butte, and Spruce Springs fires, is burning in bug-killed timber 30 miles west of Yakima, WA. A mandatory evacuation order continues to be in place for the Cowichee Creek and Nasty Creek areas. Residents in the Ahtanum Creek and East Rimrock Lake area along the shore have been issued a voluntary evacuation request. Spotting continues to hamper containment efforts on the Dome Peak fire. Night time fire behavior continues to be quite active.

HORSE CREEK, Wallowa-Whitman National Forest. A Type 1 Incident Management Team (Stam) is assigned. This fire is 7 miles north of Imnaha, OR. Burnout operations along the Imnaha River north of the town of Imnaha were successful. Active fire behavior on the north and northwestern perimeters continues to be observed. Structure protection is in place.

MONUMENT COMPLEX, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Templeton) is assigned. This complex, comprised of the Birch Creek, Sallory, and twelve other fires, is 3 miles north of Monument, OR. Cooler weather with slightly higher humidity assisted firefighters with containment efforts. The structure protection task force has been demobilized.

ICICLE COMPLEX, Wenatchee National Forest. A Type 1 Incident Management Team (Melton) is assigned. This complex, consisting of the Upper 8 Mile and the Snowflake fires, is 6 miles southwest of Leavenworth, WA. Mandatory evacuations expanded to include more of the Icicle Road area.

TONASKET COMPLEX, Okanogan National Forest. A Washington Interagency Incident Management Team (Dunton/Andring) is assigned. This complex, comprised of the Cape LaBelle, Windy Ridge, Long Swamp and Bailey Mountain/Action #214 fires, is near Tonasket, WA. Crews continue to construct fireline and mopup.

OLALLIE LAKE COMPLEX, Mt. Hood National Forest. A Type 2 Incident Management Team (Ostman) is assigned. This complex is being managed jointly by the Warm Springs Reservation and the Mt. Hood National Forest. This fire is near Olallie Lake, OR. Individual tree torching with minimal spread was observed.

REX CREEK COMPLEX, Wenatchee National Forest. A Type 2 Incident Management Team (Rios) is assigned. This complex of five fires is 34 miles northwest of Lake Chelan, WA in the Sawtooth Wilderness Area. A mandatory evacuation is in effect for the Flick Creek and Prince Creek areas along the shore of Lake Chelan. The fire is burning actively driven by strong winds up to 30 mph. Structure protection continues for private holdings along Lake Chelan.

MT. LEONA COMPLEX, Colville National Forest. A Type 2 Incident Management Team (Dietrich) is assigned and a Type 1 Incident Management Team (Raley) is on order. This complex, comprised of the Sleepy, Leona, and Buckhorn fires, is burning in decadent stands of timber in Ferry County, WA. The Leona fire continues to threaten private structures and commercial forest lands. Command of the Sleepy and Buckthorn fires will transition to a Type 1 Incident Management Team (Raley) today.

BREWSTER COMPLEX, Northeast Washington State. A Washington Interagency Incident Management Team (Furlong) is assigned. This complex, consisting of the Indian Dan, Gambol Mill, and eleven other fires, is 5 miles north of Brewster, WA. The mandatory evacuation order for residences in Swamp Creek was reduced to voluntary status. Crews continue to make good progress on fireline construction and mopup.

BIG CREEK, Umatilla National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This fire, burning in the North Fork of the John Day Wilderness Area, is southeast of Ukiah, OR. A spike camp is being established along the North Fork of the John Day River to reduce travel distances.

BRIDGE CREEK, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Thorpe) is assigned. This fire is 45 miles southwest of La Grande, OR. All firelines continue to hold. The remaining structural task forces were demobilized. Residents were allowed to return to their homes. Highway 395 remains closed while crews continue to remove snags.

QUARTZ, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Gilpin) is assigned. This fire is 10 miles southwest of Medford, OR. Crews continue with direct attack firelines and burnout operations.

WOLF CREEK, Burns District, BLM. A Type 2 Incident Management Team (Kearney) is assigned. This fire, burning in mixed timber, is 40 miles northeast of Burns, OR.

SHEEPSHEAD, Burns District, BLM. A Type 2 Incident Management Team (Gardner) is assigned. This complex, consisting of the Sheepshead, Potluck and Stonehouse fires, is 75 miles southeast of Burns, OR. Downslope winds overnight pushed the Stonehouse fire south and west across containment lines. Very active fire behavior was observed with running, crowning and torching.

GOODNOE HILLS, Northeast Washington State. This fire is burning in wheatfields and open farmland two miles from Goldendale, WA. Extremely dry and windy conditions hampered containment. Resources from the Virginia Lake Complex assisted with containment efforts.

ROCKY ELBOW, Colville Agency, BIA. This fire, burning in grass, brush and scattered timber, is 6 miles west of Inchelium, WA. No new information was received.

EASTERN GREAT BASIN LARGE FIRES:

ALPINE 2, Caribou-Targhee National Forest. A Type 11 Incident Management Team (Hart) is on order. This fire is two miles southwest of Alpine, WY, on the Idaho border. Evacuations occurred for multiple structures in the vicinity of Alpine, WY.

10LLIE, Unita National Forest. This fire is two miles southeast of Santaquin, UT. A girl scout camp, inney Flats campground and 100 people from area residences were evacuated.

R SOUTH HOLLOW, Unita National Forest. This fire is two miles southeast of Woodland, UT. Spotting, heavy fuels and low relative humidity are creating difficult conditions for firefighters. Current threats are to a heavily used recreational area, adjacent homes and timber stands.

ELK CREEK, Payette National Forest. A Type 2 Incident Management Team (Stanich) is assigned. This fire is 15 miles east of Warren, ID. Due to high southwest winds and significant increase in fire size, crews were removed from the west flank for safety considerations. A public meeting was held in the Big Pines community to discuss the fire situation.

ANDERSON, Caribou-Targhee National Forest. This fire is five miles north of Ashton, ID. No further information was received.

LANGTON MOUNTAIN, Zion National Park. A Fire Use Management Team (Cook) is assigned. This lightning caused WILDLAND Fire Use fire is sixteen miles north of Virgin, UT.

NORTHERN ROCKIES AREA LARGE FIRES:

LOOKOUT MOUNTAIN, Idaho Department of Lands. A Type 2 Incident Management Team (Spetch) is assigned. This fire, burning in alpine fir and brush, is 20 miles north of Colin, ID. Active fire behavior was observed along the east flank, with frontal winds increasing fire behavior. Helicopters were very effective at limiting the fire's spread to the west. Crews made good progress in constructing and improving handline along the south perimeter.

WERNER PEAK COMPLEX, Northwestern Land Office, Montana Department of Natural Resources. A Type 2 Incident Management Team (Swope) is assigned. This complex, consisting of the Werner Peak, Mystery Dog, Anice Moose and Cat fires, is 7 miles north of Whitefish, MT. Resources were moved off the fireline early yesterday afternoon due to extreme fire behavior. The fire made a run toward the Werner Peak lookout, and also spotted across contingency line on the south side of the Werner Peak fire.

C TACO, Nez Perce National Forest. A Type 2 Incident Management Team (Kechter) is assigned. A Type 2 Incident Management Team (Williams) has been ordered to transition in on 8/19. This fire is 15 miles east of Riggins, ID. The fire escaped containment. Helicopters bucket drops were utilized to support crew containment efforts.

MONITOR CREEK, Gallatin National Forest. A Type 2 Incident Management Team (Milburn) is assigned. This complex, comprised of the Monitor Creek and Hoppe fires, is 11 miles north of Bardiner, MT. Crews are mopping up spots on the south side of the creek and continue to mop up along the east and south perimeters.

WESTERN GREAT BASIN AREA LARGE FIRES:

UPPER WILLOW, Humboldt-Toiyabe National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 60 miles north of Winnemucca, NV. Red flag wind conditions caused plume-dominated fire behavior, with runs occurring to the east-northeast through old growth sagebrush and heavy cheatgrass. A plan is being developed in the event that evacuations are needed. Current threats are to ranch structures, private and USFS residences, the Lye Campground, sage grouse and Lahontan Cutthroat habitat.

^ JPAULDING, Winnemucca Field Office, BLM. This fire, burning in cheat grass, sagebrush and juniper, is 30 miles southwest of Winnemucca, NV. Existing firelines held despite strong winds. Crews made excellent progress in containing the southern flank.

NORTHERN CALIFORNIA AREA LARGE FIRES:

PONDEROSA, Nevada-Yuba-Placer Ranger Unit, California Department of Forestry. A California Department of Forestry Type 1 Incident Management Team (McLean) is assigned. This fire is in the Weimar and Colfax area. Low humidity and steep terrain are impeding containment efforts. Numerous structures are on both sides of the canyon, and evacuations and road closures have occurred in the area.

•BLUE COMPLEX, Modoc National Forest. A Type 1 Incident Management Team (Gage) is assigned. This complex, comprised of the Blue, Shields, Parsnip and Canyon fires, is 13 miles east of Likely, CA. The Blue Lake Campground and area roads remain closed.

TROUGH, Mendocino National Forest. A Type 1 Incident Management Team (Studebaker) is assigned. This fire, burning in timber and downed fuels in the middle fork drainage of Stony Creek, is four miles north of Stoneyford, CA. Burnout operations continue on the north and south flanks. Crews continue to make excellent progress toward containment.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

CREEK, Madera-Mariposa-Merced Ranger Unit, California Department of Forestry. This fire is near Coulterville, CA. Evacuation of campers from recreational areas was implemented and Coulterville Community Center is being utilized as an evacuation center. Highway 49 north of Coulterville is closed.

HOOVER, Yosemite National Park. This lightning caused WILDLAND Fire Use fire is ten miles southeast of Yosemite Village, CA. A Fire Use Management Team (Zimmerman) is on order.

OUTLOOK:

R*** A FIRE WEATHER WATCH HAS BEEN POSTED IN WESTERN WYOMING FOR WINDY AND DRY CONDITIONS ***

Mid level moisture, combined with afternoon and evening instability will produce isolated thunderstorms over portions of Colorado, eastern Wyoming and the Black Hills region. High temperatures will be 75 to 85 in the mountains, and 85 to 95 at lower elevations. Minimum relative humidity will range from 10 to 20 percent. Winds will be westerly at 15 to 30 mph in western Wyoming, 10 to 20 mph in the Black Hills region, and 5 to 15 percent over the rest of the region.

A dry westerly flow will reside over the Pacific Northwest, this will bring partly cloudy conditions west of the Cascades with mostly sunny conditions east. High temperatures will be in the 70's for areas west of the Cascades, and 75 to 85 east. Minimum relative humidity will range from 15 to 25 percent, with 10 to 15 percent in the drier valleys. Winds will be west to northwest at 10 to 15 mph in the morning and increasing slightly during the afternoon.

A weak cold front will move into southwest and eastern Montana during the day. This will bring mostly sunny conditions, and a slight chance of dry thunderstorms during the predawn hours. High temperatures will be 75 to 85 in most areas, and 85 to 95 in the eastern valleys. Minimum relative humidity will range from 15 to 25 percent. Winds will be northwest at 10 to 20 mph increasing to 15 to 25 mph during the afternoon.

RThe approaching Pacific trough will continue to move over the north and central portions of Nevada, with high pressure continuing to dominate the southern portion of the state and subtropical moisture in the extreme south. Sunny conditions will reside over most of the area, except for the extreme south which will have a slight chance of afternoon thunderstorms. High temperatures will be in the mid 80's to mid 90's, and 95 to 104 south. Minimum relative humidity will range from 10 to 23 percent. Winds will be southwest to northwest at 15 to 25 mph, and south at 10 to 15 mph in to the south.

A dry westerly flow continues over the Eastern Great Basin bringing mostly sunny conditions to the area. High temperatures in Utah will be 80 to 90 over the mountains, and 90 to 105 at the lower elevations. Idaho high temperatures will be 70 to 80 in the mountains, and 80 to 90 in the valleys. Minimum relative humidity will range from 5 to 15 percent in Utah, and 10 to 25 percent in Idaho. Winds will be northwest to southwest at 10 to 20 mph with gusts up to 35 mph in Utah, and west to southwest at 10 to 20 mph in Idaho.

A weak low pressure over northern California will bring mostly sunny skies to the area. High temperatures will be in the upper 70's to mid 90's inland. Minimum relative humidity will range from 12 to 22 percent. Winds will be south to southwest at 5 to 13 mph with gusts up to 17 to 22 mph on higher exposed terrain.
