INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, AUGUST 21, 2001 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5

## CURRENT SITUATION:

Eight new large fires were reported, three in Eastern Great Basin, two each in Northern Rockies and Southern California, and one in Southern Area. Seven large fires were contained, two each in Northern Rockies and Northwest, one each in Western Great Basin, Northern California and Southern California Areas. Initial attack activity was moderate to heavy in Northern California, Southern California, Northern Rockies and Eastern Great Basin Areas, and light elsewhere. Very high to extreme fire indices were reported in California, Idaho, Montana, Nevada, Oregon, Texas, Utah, Washington and Wyoming.

A training cadre and military crew advisors traveled to Ft. Lewis, WA to begin training the U.S. Army Task Force Phoenix Blaze. Task Force Phoenix Blaze commanded by Lt. Col. Ronald Huether, will be deployed to the Spruce Springs/Dome Complex in central Washington.

## NORTHWEST AREA LARGE FIRES:

An Area Command Team (Mann) is assigned to manage large fires in eastern Washington. Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. VIRGINIA LAKE COMPLEX, Colville Agency, BIA. A Type 1 Incident Management Team (Lohrey) is assigned. This complex, comprised of the St. Mary's, Goose Lake, and Virginia Lake fires, is 12 miles south of Okanogan, WA. Okanogan County has declared a state of emergency. An evacuation order remains in effect for the St. Mary's fire in the Haley Road and Dutch Anderson Road areas along the north portions of State Route 155. Structure protection will begin as the fire moves toward the northeast.

REX CREEK COMPLEX, Wenatchee National Forest. A Type 2 Incident Management Team (Rios) is assigned. A Type 1 Incident Management Team (Gelobter) has been assigned and will transition this morning. This will be a joint command with both teams. This complex of five fires is 34 miles northwest of Lake Chelan, WA in the Sawtooth Wilderness Area. A mandatory evacuation is in effect for the Flick Creek and Prince Creek areas along the shore of Lake Chelan. The fire continues to spread northwest along the north shore. Structure protection continues along the shoreline.

SPRUCE SPRINGS/DOME COMPLEX, Wenatchee National Forest. A Washington Interagency Incident Management Team (Baarspul/Ariss) is assigned. This complex, comprised of the Dome, Spiral Butte, and Spruce Springs fires, is burning in bug-killed timber 30 miles west of Yakima, WA. A mandatory evacuation order continues to be in place for the Cowichee Creek and Nasty Creek areas. No new information was reported.

HORSE CREEK, Wallowa-Whitman National Forest. A Type 1 Incident Management Team (Stam) is assigned. This fire is seven miles north of Imnaha, OR. Fire activity was confined to the east and south flanks of the fire. The
remainder of the structure protection contingent was released.
MT. LEONA COMPLEX, Colville National Forest. A Type 2 Incident Management Team (Dietrich) is assigned. This fire is 13 miles northwest of Republic, WA. Cooler temperatures and higher humidity has moderated fire behavior. The fire continues to threaten structures and commercial forests to the west and north.

MONUMENT COMPLEX, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Templeton) is assigned. This complex, comprised of the Birch Creek, Mallory, and twelve other fires, is three miles north of Monument, OR. Structures continue to be threatened in some areas of the complex.

ICICLE COMPLEX, Wenatchee National Forest. A Type 1 Incident Management Team (Melton) is assigned. This complex, consisting of the Upper 8 Mile and the Snowflake fires, is six miles southwest of Leavenworth, WA. The majority of residents have been allowed to return to their homes.

OLALLIE LAKE COMPLEX, Mt. Hood National Forest. A Type 2 Incident Management Team (Ostman) is assigned. This complex near Olallie Lake, OR, is being managed jointly by the Warm Springs Reservation and the Mt. Hood National Forest. Good progress has been made on fireline construction.

TONASKET COMPLEX, Okanogan National Forest. A Washington Interagency Incident Management Team (Dunton/Andring) is assigned. This complex, comprised of the Cape LaBelle, Windy Ridge, Long Swamp and Bailey Mountain/Action \#214 fires, is near Tonasket, WA. The Bailey fire is burning in heavy fuels with torching and spotting observed.

BIG CREEK, Umatilla National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This fire, burning in the North Fork of the John Day Wilderness Area, is southeast of Ukiah, OR.

QUARTZ, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Gilpin) is assigned. This fire is ten miles southwest of Medford, OR. Crews continue to mopup 500 feet in from the fireline.

SHEEPSHEAD, Burns District, BLM. A Type 2 Incident Management Team (Gardner) is assigned. This complex, consisting of the Sheepshead, Potluck and Stonehouse fires, is 75 miles southeast of Burns, OR. Good progress was made with burnout operations on the south and west perimeters of the Stonehouse fire.

SLEEPY COMPLEX, Colville National Forest. A Type 1 Incident Management Team (Raley) is assigned. This complex, made up of the Sleepy and Buckhorn fires, is 24 miles northwest of Inchelium, WA.

BREWSTER COMPLEX, Northeast Washington State. A Washington Interagency Incident Management Team (Furlong) is assigned. This complex, consisting of the Indian Dan, Gambol Mill, and eleven other fires, is five miles north of Brewster, WA. A voluntary evacuation order is still in effect for the Swamp Creek area. Crews continue to make excellent progress in fireline construction and mopup.

## SOUTHERN CALIFORNIA AREA LARGE FIRES:

CREEK, Madera-Mariposa-Merced Ranger Unit, California Department of Forestry. A California Department of Forestry Type 1 Incident Management Team (Ristow) is assigned. This fire is two miles north of Coulterville, CA. Moderate to high rates of spread, extensive spotting and runs with 150 foot flame lengths were observed. Evacuations have been ordered for Priest, Coulterville, Jackass Ridge and Groveland, CA.

LEONARD, Tuolumne-Calaveras Ranger Unit, California Department of Forestry. A California Department of Forestry Type 1 Incident Management Team (Lombardo) is assigned. This fire is near San Andreas, CA. Spotting, torching, running and plume dominated fire behavior was observed.

HIGHWAY, Sequoia National Forest. A Type 2 Incident Management Team (Walker) is assigned. A Type 1 Incident Management Team (Carvello) has been ordered. This fire is two miles east of Dunlap, CA. High intensity, moderate rate of spread in chaparral and Ponderosa pine was observed. Highway 180 was closed.

WHITE, Stanislaus National Forest. A Type 2 Incident Management Team (Szszepanik) is assigned. This fire is five miles northwest of Strawberry, CA.

NORTH FORK, Madera-Mariposa-Merced Ranger Unit, California Department of Forestry. This fire burning in heavy brush and timber is near Bass Lake, CA. Evacuation of 20 residences have occurred and there is a potential threat to another subdivision in the area. Significant spotting was observed.

HOOVER COMPLEX, Yosemite National Park. A Fire Use Management Team (Zimmerman) is assigned. This lightning caused Wildland Fire Use fire is ten miles southeast of Yosemite Village, CA. This complex of fires
includes the Hoover, Clark, Kuna, Cold Creek and Lyell fires.

## EASTERN GREAT BASIN LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

MOLLIE, Uinta National Forest. A Type 1 Incident Management Team (Hefner) is assigned. This fire is $1 / 4$ mile east of Santaquin, UT. The fire has burned up into high elevations and entered the Mt. Nebo Wilderness. Numerous road closures including Payson and Santaquin Canyons are in effect. ALPINE 2, Caribou-Targhee National Forest. A Type 1 Incident Management Team (Hart) is assigned. This fire is two miles southwest of Alpine, WY, on the Idaho border. Numerous summer homes and five to six permanent residences remain threatened. Construction of dozer and handline are near completion. Assessment and protection of structures continues.

SOUTH HOLLOW, Uinta National Forest. This fire is two miles southeast of Woodland, UT. The fire is burning in conifer and mixed conifer vegetation type. Cooler temperatures and higher humidity have assisted firefighters with containment efforts. A heavy recreation use area remains closed to the public.

ELK CREEK, Payette National Forest. A Type 2 Incident Management Team (Stanich) is assigned. This fire is 15 miles east of Warren, ID. Crew made good progress in constructing direct and indirect fireline along the south perimeter. Favorable winds, cooler temperatures and helicopter bucket work assisted with containment efforts.

BOULDER, Bridger-Teton National Forest. This fire is near Boulder, WY. Crews made good progress with mopup operations with the assistance of helicopters. Precipitation in the area moderated fire activity.

SPRINGFIELD, Upper Snake River District, Eastern Idaho Area, BLM. This fire is five miles north of Springfield, ID. Crews made good progress toward containment.

QUARRY, Fishlake National Forest. This fire is 20 miles southwest of Nephi, UT.

TOOTER, Richfield Field Office, BLM. This fire is near Lyndyl, UT. The fire is inaccessible due to high, steep cliff areas.

LANGTON MOUNTAIN, Zion National Park. A Fire Use Management Team (Cook) is assigned. This lightning caused Wildland Fire Use fire is sixteen miles north of Virgin, UT. This will be the last report unless significant activity occurs.

## NORTHERN ROCKIES AREA LARGE FIRES:

FRIDLEY, Gallatin National Forest. A Type 1 Incident Management Team (Frye) has been ordered. This fire is 15 miles southwest of Livingston, MT. Significant fire spread was observed.

MONUMENT, Gallatin National Forest. A Fire Use Management Team (Adams) has been ordered. This lightning caused Wildland Fire Use fire is in Sweetwater County, MT. A public notice was issued regarding the closures in a nearby wilderness area.

WERNER PEAK COMPLEX, Northwestern Land Office, Montana Department of Natural Resources. A Type 2 Incident Management Team (Swope) is assigned. This complex, consisting of the Werner Peak, Mystery Dog, Antice, Moose and Cat fires, is seven miles north of Whitefish, MT. The Moose fire made a run to the north and active fire behavior was experienced.

LOWER FAWN CREEK, Southwestern Land Office, Montana Department of Natural Resources. A Type 2 Incident Management Team (Hoff) is assigned. Helicopter bucket drops were utilized in all divisions to assist crews in containment efforts.

LOOKOUT MOUNTAIN, Idaho Department of Lands. A Type 2 Incident Management Team (Specht) is assigned. This fire, burning in alpine fir and brush, is 20 miles north of Coolin, ID. Crews continue to construct fireline along the south and west perimeters.

WESTERN GREAT BASIN AREA LARGE FIRES:
Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

UPPER WILLOW, Humboldt-Toiyabe National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 60 miles north of Winnemucca, NV. A structure protection plan has been implemented in the Indian Creek and Cottonwood Creek drainages. Due to strong winds, helicopter shuttles of hand crews to critical sections of the fire was stopped.

GRANITE, Great Basin National Park. This fire is 60 miles southeast of Ely, NV. Active fire behavior was observed with spotting, crowning and moderate runs to the north.

## NORTHERN CALIFORNIA AREA LARGE FIRES:

PONDEROSA, Nevada-Yuba-Placer Ranger Unit, California Department of Forestry. A California Department of Forestry Type 1 Incident Management Team (McLean) is assigned. This fire is in the Weimar and Colfax area. Burnout operations were delayed due to winds and a threat of spotting. Some spotting occurred on the west flank, but crews were able to contain further spread.

BLUE COMPLEX, Modoc National Forest. A Type 1 Incident Management Team (Gage) is assigned. This complex, comprised of the Blue, Shields, Parsnip and Canyon fires, is 13 miles east of Likely, CA. The Blue Lake Campground and area roads remain closed. The complex has assumed command of the Bell fire. Moderate demobilization has begun to occur.

MEDICINE, Mendocino Ranger Unit, California Department of Forestry. This fire is northwest of Covelo, CA. No new information was received.

## OUTLOOK:

Low pressure in the Gulf of Alaska will bring a gradual west to east increase in clouds and rain may develop along the northwest tip of Washington. Sunny skies are expected east of the Cascades. High temperatures will be in 70's for inland areas west of the Cascades, 70's to lower 80's east, and 80's to mid 90's in eastern Oregon. Minimum relative humidity will range from 15 to 25 percent east of the Cascades and as low as 7 percent in lower valleys near the Idaho border. Winds will
be southwest to southeast at 15 to 25 mph east of the Cascades with gusts up to 40 mph near the crest.

Low pressure remains off the Pacific Northwest coast with a series of frontal systems ejecting eastward into the Eastern Great Basin. This will bring partly to mostly cloudy skies with scattered thunderstorms to Utah. Idaho will be partly sunny with a chance of isolated thunderstorms to the southeast. High temperatures will be 65 to 75 in the mountains of Utah, and 80's at lower elevations. High temperatures in Idaho will be in the 70 's in the mountains, and 80 to 90 at lower elevations. Minimum relative humidity will range from 15 to 30 percent in Utah, and 8 to 20 percent in Idaho. Winds will be west to southwest at 15 to 30 mph in Utah, and 10 to 20 mph in Idaho.

High pressure will continue to dominate the Northern Rockies bringing mostly sunny conditions. High temperatures will be 80 to 90 , and minimum relative humidity will range from 12 to 22 percent, with 8 percent in the eastern valleys. Winds will be out of the north at 10 to 20 mph .

A trough over the western states will bring mostly sunny and cooler conditions to Nevada. High temperatures will be in the mid 70's to mid $80 ' s$, and 90 to 100 south. Minimum relative humidity will range from 10 to 25 percent. Winds will be southwest to west at 12 to 25 mph .
