INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, AUGUST 31, 2001 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5

## CURRENT SITUATION:

One new large fire was reported in the Northern Rockies area. Two large fires met containment objectives, one each in the Rocky Mountain and Northwest areas. Initial attack activity was moderate in Rocky Mountain and Eastern Great Basin areas and light elsewhere. Very high to extreme fire danger was reported in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Utah, Washington and Wyoming.

NORTHERN ROCKIES AREA LARGE FIRES:
Bozeman Area Command (Williams-Rhodes) is assigned to manage the Fridley, Little Joe and Monument fires on the Gallatin National Forest. Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

MOOSE, Flathead National Forest. A Type 1 Incident Management Team (Humphrey) is assigned. This fire is 13 miles north of Whitefish, MT. One residence has been evacuated and 15 others have been notified of potential evacuations. The fire exhibited active burning and crowning. Good progress is being made on the south end of the fire with dozers.

WALTON, Clearwater National Forest. A Type 2 Incident Management Team (McElwain) is assigned. This fire is three miles south of Powell, ID. The Tom Beal road continues to be closed and the Elk Summit Road is now closed. The fire experienced 30 mph wind gusts and jumped containment lines in two divisions, resulting in crews and equipment being pulled off those lines.

LITTLE JOE, Gallatin National Forest. A Type 2 Incident Management Team (Joki) is assigned. This fire is ten miles northwest of Gardiner, MT. Significant progress was made in direct attack. Mopup has been completed on the northern flanks of the fire, but direct attack has not yet begun within Yellowstone National Park. Structure protection remains a priority.

MONUMENT, Gallatin National Forest. A Fire Use Management Team (Adams) is assigned. This lightning caused Wildland Fire Use fire is in Sweet Grass County, MT in the Absaroka Beartooth Wilderness Area. Contingency plans for evacuation have been completed for Boulder Canyon. Mopup continues on the north and west flanks of the fire.

FRIDLEY, Gallatin National Forest. A Type 1 Incident Management Team (Frye) is assigned. This fire is 15 miles southwest of Livingston, MT. Burnout operations were initiated on the southeastern flank of the fire for structure protection and keep the fire out of Tie Gulch. More burnout operations are planned.

EAR, Flathead National Forest. A Type 2 Incident Management Team (Kechter) is assigned. This fire is 35 miles southeast of Columbia Falls, MT. Mopup
is continuing with the support of helicopter bucket work. Crews are utilizing minimum impact suppression tactics within the Great Bear Wilderness area.

BARNUM CREEK, Northwestern Land Office, Montana Department of Natural Resources. A Type 2 Incident Management Team (Specht) had been ordered. This fire is five miles north of Happy's Inn, MT.

NORTHWEST AREA LARGE FIRES:

An Area Command Team (Mann) is assigned to manage the Virginia Lake, Icicle, Spruce Springs/Dome, and Tonasket complexes in eastern Washington. Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

VIRGINIA LAKE COMPLEX, Colville Agency, BIA. A Type 1 Incident Management Team (Lohrey) is assigned. U.S. Army Task Force Phoenix Blaze, commanded by LTC Ronald Huther at Ft. Lewis, WA, is assigned. This complex, comprised of the St. Mary's, Goose Lake, Gambol Mill, Bailey Mountain, and Virginia Lake fires, is 12 miles south of Okanogan, WA. The change in acreage is due to the Brewster fire being turned back over to the Washington Department of Natural Resources.

MT. LEONA COMPLEX, Colville National Forest. A Type 1 Incident Management Team (Stutler) is assigned. This fire is 13 miles northwest of Republic, WA. Increased fire activity was observed today. Interior concentrations of large fuels continue to burn with some isolated torching. Five Type I Canadian crews are scheduled to arrive on the incident.

REX CREEK COMPLEX, Wenatchee National Forest. A Type 1 Incident Management Team (Gelobter) is assigned and is scheduled to transition with a Type 3 Incident Management Team (Oliverius) at the end of today's shift. This complex, comprised of the Rex Creek, Glory Mountain, and four other fires, is 34 miles northwest of Lake Chelan, WA in the Sawtooth Wilderness Area. Hot spots along the fireline continue to be worked by crews and helicopters. Reduction in acreage is due to better mapping.

OKF = Okanogan National Forest.

EASTERN GREAT BASIN LARGE FIRES:
SUBSTATION, Richfield Field Office, BLM. A Type 2 Incident Management Team (Saleen) is assigned. This fire is northeast of Scipio, UT. Crews completed dozer line on the northeast side of the fire.

ROUGH DIAMONDS, Lower Snake River District, BLM. A Type 2 Incident Management Team (Murphy) is assigned. This fire is three miles northeast of Silver City, ID. Plans have been made to open the Silver City road from Murphy, ID at the end of shift.

MOLLIE, Uinta National Forest. This fire is $1 / 4$ mile east of Santaquin, UT. Estimated containment has been moved to $9 / 1$ due to very steep terrain and heavy fuels. With the aid of cooler temperatures and higher relative humidity, crews were able to make significant progress in containment objectives.

ELK CREEK, Payette National Forest. This fire is 15 miles east of Warren, ID.

SNOWSHOE, Salmon-Challis National Forest. This fire, which began on 7/20 is seven miles east of Landmark, ID. The fire continues to spread in northerly and southerly directions. Three trails have been closed, Pistol Creek Trail, 44 Creek Trail, and Little Pistol Trail.

FALCON, Bridger Teton National Forest. This fire, which began on 8/6 is located in the Teton Wilderness approximately two miles south of Yellowstone National Park. The fire remains in monitor and patrol status. Structural protection has been implemented for two cabins.

OREGON, Shasta-Trinity Ranger Unit, California Department of Forestry. A California Department of Forestry Type 1 Incident Management Team (Walters) is assigned. All evacuees of Weaverville, CA have been allowed to return. Reports from the Damage Assessment Team have increased the
initial report of three structures destroyed to 20 including primary and secondary structures. Some demobilization of resources has begun.

STAR, Eldorado National Forest. A Type 1 Incident Management Team (Vail) is assigned. This fire is northeast of Georgetown, CA. This fire continues to burn actively at night, due to low relative humidity recovery. Protection measures have been initiated in the Sierra Sequoia Grove along with evacuation of livestock within the area.

WESTERN GREAT BASIN AREA LARGE FIRES:
REPEATER, Ely Field Office, BLM. This fire is five miles west of Ruth, NV. This fire is burning in sage, pinyon pine, juniper, and mountain mahogany. Crews and dozers have made significant progress.

GRANITE, Great Basin National Park. This fire is 60 miles southeast of Ely, NV. The fire received measurable amounts of rain. Crews were pulled off the line, due to poor road conditions. Mop up efforts have been slowed by the weather.

## SOUTHWEST AREA LARGE FIRES

SWAMP RIDGE, Grand Canyon National Park. A Fire Use Management Team (Cones) is assigned. This is a lightning caused Wildland Fire Use fire, which began on $8 / 17$ is 25 miles southwest of Jacob Lake, AZ. The fire is continually monitored by air and ground forces. This will be the last report unless significant activity occurs.

## OUTLOOK

*** A FIRE WEATHER WATCH HAS BEEN POSTED IN THE NORTHERN ROCKIES FOR GUSTY WINDS, LOW RELATIVE HUMIDITY, AND DRY LIGHTNING ***

A dry cold front will move through the Northern Rockies area Friday afternoon. Winds will increase as the front approaches. A combination of windy conditions, low humidity and dry lightning is forecasted along with partly cloudy skies. Temperatures will be in the upper 70s to 90s with minimum relative humidity at 15 to 30 percent and down to 10 percent in the lower valleys of Montana. Winds will be southwest at 15 to 30 mph over ridge tops with gusts up to 40 mph . Winds in the lower valleys will be southwest to northwest at 10 to 20 mph with gusts up to 30 mph , but can be expected to be stronger in north-central Montana.

A ridge of high pressure over the Eastern Great Basin area remains in place, with some upper level disturbances creating the chance of isolated, mainly dry thunderstorms. Temperatures will range from 75 to 85 in the mountains and mid 80s to 90s in the lower elevations. Minimum relative humidity will be 10 to 22 percent except for 15 to 25 percent in the mountains of Utah. Winds will be westerly 10 to 20 mph .

An upper level disturbance will cause the Rocky Mountain area to see a continued threat of thunderstorms over Colorado and Wyoming. Weather will be widely scattered showers and afternoon thunderstorms. A few storms will have dry lightning, especially over central to eastern Wyoming, otherwise partly sunny in most areas. Temperatures will range from 80 to 90 in the lower elevations of Colorado and 75 to 85 in eastern Colorado, Wyoming and western South Dakota. Minimum relative humidity will range from 11 to 21 percent over the lower elevations, with 17 to 27 percent over the Colorado Front Range. Winds will be variable at 5 to 12 mph , except in western South Dakota where some locations can expect winds as high as 10 to 20 mph.

A weak trough will maintain near normal temperatures across the Great Basin area. Weather will be partly cloudy with isolated thunderstorms in the central and northeast portions of Nevada, otherwise mostly sunny. Temperatures will be in the 80 s to low 90 s in central and northern portions of the area and 90 to 105 in the southern portion. Minimum
relative humidity will range from 10 to 20 percent and winds will be southwest to west at 10 to 15 mph .
