

INCIDENT MANAGEMENT SITUATION REPORT
 FRIDAY, NOVEMBER 23, 2001- 0800 MST
 NATIONAL PREPAREDNESS LEVEL 2

CURRENT SITUATION:

Initial attack activity was light in the Southern and Eastern Areas. Very high to extreme fire indices were reported in Alabama and Georgia.

SOUTHERN AREA LARGE FIRES:

HICKORY RUN, Virginia Department of Forestry. This fire is located five miles northeast of Shenandoah, VA. Mopup and patrolling of the fire will continue.

WINDING STAIRS, National Forests in North Carolina. This fire is located ten miles from Andrews, NC, and is burning on private and Forest Service land. No significant change occurred.

NORTH EAST AREA COMPLEX, Alabama Forestry Commission. This complex of fires is located in northeast Alabama and is being managed under a state area command. Four of the complex's fires were contained: Macon (220 acres), Long Island (800 acres), Menlow (30 acres), and Skyline (2,000 acres). The Hokes fire (380 acres) remains active with 80 structures located within the fire perimeter. The North Long Island fire continues to threaten a major powerline and seven lodges. The National Guard is providing helicopter support with bucket drops.

REDBIRD FALL FIRES, Daniel Boone National Forest. A Type 1 Incident Management Team (Bateman) is working under a unified command with the Kentucky Division of Forestry. This complex of fires involve Clay, Leslie, Perry, Owsley, and Breathitt counties and is nine miles east of Manchester, KY. Assigned resources are providing initial attack support to the Forest. Demobilization of resources is continuing.

TALLADEGA ZONE ABC, National Forests in Alabama. This complex of fires started 11/11 and is located near Anniston, AL. No significant change occurred.

OUTLOOK:

High pressure will continue along the Atlantic seaboard as low pressure gains strength in the central and southern plains. Strong winds are expected to pump moisture northward into the Ohio River Valley today, heralding a chance for rain on the western slopes of the Appalachian Mountains on Saturday. Partly cloudy skies are expected today with temperatures in the upper 50s to mid 60s. Minimum relative humidity will be 30 to 40 percent in Virginia, Kentucky, Tennessee, and North Carolina. South Carolina and Georgia can expect minimum relative humidities in the 45 to 55 percent range. Winds for Kentucky and Tennessee will be out of the south 10 to 20 mph with gusts to 30 mph possible on the ridges late in the day. Southeast to east winds expected elsewhere at 10 to 15 mph.

The Southern California Area will maintain mild temperatures and low relative humidity, with high clouds and morning coastal fog. Temperatures will be in the 50s to mid 60s in the mountains, 60s to 70s in the valleys, and upper 70s in the deserts. Minimum relative humidity will be 12 to 25 percent in the mountains.
