INCIDENT MANAGEMENT SITUATION REPORT FRIDAY, FEBRUARY 22, 2002- 1000 MST NATIONAL PREPAREDNESS LEVEL 1

CURRENT SITUATION:

Initial attack activity was moderate in the Southern Area and light elsewhere. Twelve new large fires were reported in the Southern Area and eleven were contained. Prescribed burning projects continued in Northern California, Southern California, the Southwest, Rocky Mountain and Southern Areas.

SOUTHERN AREA LARGE FIRES:

THRESSA GRADE, Florida Division of Forestry. This fire is 12 miles southeast of Starke, Florida. The fire is burning in a swamp with limited access and will be monitored until measurable rain is received.

MNF = National Forests in Mississippi

KIF = Kisatchie National Forest

OKS = Oklahoma Division of Forestry

OUTLOOK:

In the Southern Area, weather will remain mostly cool and dry except for a band of rain showers across central and south Florida, associated with a stalled cold front through Sunday. From Sunday to Monday another cold front will bring sub-freezing winter weather back to the Deep South along with gusty northerly surface winds at 15 to 20 mph. High temperatures in the north will be in the 20s and 40s to mid 50s in the Deep South with low minimum relative humidities through Wednesday. A new storm front will develop over the Mississippi Valley on Thursday and could bring a significant widespread rain event to portions of the Southern Area.

Six Minutes For Safety

www.nifc.gov/sixminutes/index_j.asp

Topic of the Day: Helicopter Landing Area Safety

*******Always get the approval of a flight crew member or the pilot before approaching a starting or operating helicopter.

*****Only approach and depart as directed, in a slightly crouched position, and in full view of a crew** <u>member.</u>

***When approaching or departing, do not hold equipment overhead.

***Never approach or leave uphill Always approach from the downhill side
