**INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, MAY 10, 2002- 0530 MDT
NATIONAL PREPAREDNESS LEVEL 2**

CURRENT SITUATION:

Initial attack activity was light across the nation. Three new large fires were reported, one each in Northwest, Southern and Southern California Areas. No large fires were contained. Very high to extreme fire indices were reported in Arizona, Colorado, Massachusetts, Nevada, New Mexico, Oklahoma, Texas and Utah.

SOUTHWEST AREA LARGE FIRES:

TOADLENA 1, Bureau of Indian Affairs, Navajo Area Office. A Type 1 Incident Management Team (Humphrey) is assigned. This fire is three miles west of Toadlena, NM. Fire behavior was moderate with some flanking, backing and flare-ups. Significant progress was made in fireline construction and improvement. Two outbuildings were lost during the initial phases of the fire.

DALTON, Santa Fe National Forest. A Type 1 Incident Management Team (Gelobter) is assigned. This fire is ten miles north of Pecos, NM. All divisions continued to patrol and mopup.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
TOADLENA	AZ	NAO	740	75	5/11	311	12	3	2	2	547K
DALTON	NM	SNF	804	80	5/11	562	16	17	5	0	2.1M

SOUTHERN AREA LARGE FIRES:

BLACKJACK BAY COMPLEX, Okefenokee National Wildlife Refuge. A Unified Command has been established between an interagency Fire Use Management Team (Zimmerman), the Georgia Forestry Commission and the Florida Division of Forestry. This lightning caused complex, consisting of the Blackjack 02, Bay Creek, and Number One Island fires, is approximately 10 miles northeast of Fargo, GA. A confinement strategy is in place and long term risk assessments are underway. The Greater Okefenokee Association of Land Owners is assisting with pre-suppression efforts. Steven C. Foster State Park is closed to the public. No further information was reported.

TORONTO CANYON, Texas State Forest Service. This fire is two miles west of Alpine, TX. Difficult terrain and extremely dry fuels are hampering containment efforts.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
BLACKJACK BAY COMPLEX	GA	OKR	54,450	0	UNK	168	0	8	4	0	400K
TORONTO CANYON	TX	TXS	300	60	5/10	42	0	6	1	0	NR

NORTHWEST AREA LARGE FIRES:

SOD HOUSE, Malheur National Wildlife Refuge. This escaped private burn is 25 miles west of Princeton, OR. The fire jumped Sod House road onto refuge lands and is threatening a historical site.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
SOD HOUSE	OR	MAR	300	50	UNK	15	0	4	0	0	NR

SOUTHERN CALIFORNIA AREA LARGE FIRES:

TIVY, Fresno-Kings Unit - California Department of Forestry and Fire Protection. This fire is near Piedra and Trimmer Springs, CA. No further information was received.

OUTLOOK:

*****A FIRE WEATHER WATCH HAS BEEN POSTED IN ARIZONA AND THE WESTERN TWO-THIRDS OF NEW MEXICO FOR VERY LOW RELATIVE HUMIDITY, STRONG SOUTHWEST WINDS AND EXTREME FIRE DANGER*****

Southwest Area can expect partly to mostly sunny skies with a chance of thunderstorms in west Texas and eastern New Mexico. High temperatures will be in the 60's and 70's at higher elevations and in the 80's and 90's at lower elevations. Minimum relative humidity range from 15 to 25 percent in west Texas and eastern New Mexico, and 5 to 15 percent elsewhere. Winds will be southwest at 5 to 15 mph in west Texas. In Arizona and New Mexico, winds will be southwest at 15 to 30 mph, gusting to 40 mph.

Southern Area can expect mostly sunny skies with a chance of precipitation in Oklahoma and northern Texas. High temperatures will be in the 80's in the southern half of the area, and in the 60's and 70's in the north. Minimum relative humidity will range from 20 to 30 percent in Oklahoma, Texas, Arkansas, and over the Appalachian Mountains, and from 40 to 55 percent elsewhere. Winds will be southeasterly in the western areas and in the Gulf Coast states at 15 to 25 mph, and north to northeast at 10 to 15 mph in the remainder of the region.

An upper level low pressure system over Northwest Area will bring mostly cloudy skies and scattered showers. High temperatures will be 40 to 50 degrees over higher elevations and 52 to 60 degrees in the valleys. Minimum relative humidity will range from 30 to 45 percent in the valleys and 40 to 50 percent in the mountains. Winds will be north to northwest at 5 to 15 mph with afternoon gusts to 20 mph.

Strong low pressure will slowly pull out of the New England states today. A cool front extending south of this low will move east of the Atlantic seaboard and take with it any shower or thunderstorm activity. However, strong west to northwest winds are forecast to continue across the eastern Great Lakes states and most of the Northeast. High pressure will prevail across the remainder of the Eastern Area today creating light and variable winds and dry conditions. Another low pressure system is then expected to develop over the Plains and move eastward through the Eastern Area this weekend.

HAZARDOUS MATERIAL — UNEXPLODED ORDNANCE

Recognizing unexploded ordnance (UXO) is the first and most important step in reducing the risk of injury or death. UXO poses risk of injury or death to anyone in the vicinity. Safety measures include:

If you see UXO, stop. Do not move closer.

Never remove anything near UXO.

Clearly mark the UXO area with flagging, etc.

Keep a minimum of 500 feet away from any UXO that is on fire.

Report discovery of UXO to your immediate supervisor and/or dispatch.

The following types of UXO may be encountered on military, former military and non-military sites:

- Small arms munitions
- Guided missiles
- Rifle grenades
- Rockets
- Projectiles
- Mortars
- Bombs
- Hand grenades
- Projected grenades
- Dynamite

UXO may be found fully intact or in fragments. All UXO, whether intact or in fragments, presents a potential hazard.

Deteriorated UXO presents a particular hazard because it may contain chemical agents that become exposed.
