

**INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, JULY 11, 2002 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was moderate in the Southwest, Eastern Great Basin and Northwest Areas and light elsewhere. Nationally, 270 new fires were reported. Seven of these became large fires, two each in the Southern California, Northwest and Rocky Mountain Areas, and one in the Eastern Great Basin Area. Six large fires were contained, two each in the Rocky Mountain and Southern California Areas, and one each in the Northwest and Eastern Great Basin Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

EAST FORK, Wasatch-Cache National Forest. A Type 1 Incident Management Team (Raley) is assigned. This fire is burning in lodgepole pine and spruce 35 miles south of Evanston, WY. Active fire behavior with torching and spotting was observed. Crews successfully suppressed a slopover and are constructing and improving fireline on several divisions. Evacuation orders remain in place for Christmas Meadows subdivisions, scattered homes and a Boy Scout camp. Structure protection is in place for the threatened residences.

NORTH HORN MOUNTAIN, Manti-LaSal National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This fire is burning in sagebrush and mixed conifer forest 13 miles southwest of Castle Dale, UT. Isolated uphill runs, backing and short range spotting were observed. Crews have anchored and are constructing indirect and direct attack handline on the northeast flank. Dozers completed contingency line around a threatened electronic site.

BLACK CANYON, Moab Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Broyles) is assigned. This fire is 20 miles northeast of Green River, UT. Interior torching and spotting was observed in oak brush, mountain mahogany, pinyon pine, Douglas fir and ponderosa pine. Crews are holding, gridding for hot spots, mopping up and patrolling.

RATTLE COMPLEX, Moab Field Office, Bureau of Land Management. A Type 1 Incident Management Team (Vail) is assigned. This complex is burning 20 miles northeast of Green River, UT in oak brush, mountain mahogany, pinyon pine, Douglas fir and ponderosa pine. Interior pockets showed active fire behavior. Crews are mopping up the north and northwestern perimeters. The south and east flanks are in monitor status due to very steep, dangerous terrain.

SPRINGVILLE, Uinta National Forest. A transfer of command from Rios' Type 2 Incident

Management Team to a Type 3 organization will occur today. This fire is one mile north of Springville, UT. Low to moderate fire behavior was observed in oak brush, pinyon pine and juniper. Helicopter rappellers are mopping up near Buckley Mountain.

WEB, Lower Snake River District, Bureau of Land Management. This fire is burning in sagebrush and bitter brush three miles west of Ola, ID. Minimal fire activity was observed. Crews are patrolling and mopping up.

LONG RIDGE, Ashley National Forest. This fire is burning in Douglas fir, limber pine and sagebrush 25 miles south of Duchesne, UT. Smouldering and occasional torching were observed. Material rolling across underslung handline is hampering containment efforts.

ROCKY MOUNTAIN AREA LARGE FIRES:

Priorities are being established by the Rocky Mountain Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

MISSIONARY RIDGE, San Juan National Forest. A Type 1 Incident Management Team (Hart) and a Type 2 Incident Management Team (Carlson) are assigned. This fire is burning five miles northeast of Durango, CO in gambel oak, ponderosa pine and mixed conifer forest. Minimal fire activity was observed. Crews are mopping up, rehabilitating fireline and preparing sites for early warning flood detection sensors.

SOUTH FORK II, Wind River Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Benes) is assigned. This fire is ten miles west of Fort Washakie, WY in the Wind River Roadless Area. Smouldering, creeping and occasional torching were observed in decadent lodgepole pine and sagebrush. Crews made good progress constructing handline on the southwest flank and burn out operations are underway in Crooked Creek.

BEAVER DAM COMPLEX, Black Hills National Forest. A Type 2 Incident Management Team (Sisk) is assigned. This complex, consisting of the Beaver Dam, Harding and Stoney Point fires, is 23 miles north of Sundance, WY. Minimal fire activity was observed in ponderosa pine and gambel oak. Crews have established anchor points and are constructing direct attack fireline on the Harding and Beaver Dam fires. Mop-up is underway on the Stoney Point fire.

SPRING CREEK, White River National Forest. A transfer of command from Hartman's Type 2 Incident Management Team to Swope's Type 2 Incident Management Team will occur at 1400 MDT. This fire is burning in spruce, fir, aspen and brush eight miles north of New Castle, CO. Minimal fire activity was observed. Crews are mopping up and patrolling on the west and northwest flanks, and burning out on the east, southeast and northeast flanks.

HENSEL, Medicine Bow National Forest. This fire is burning in bug kill ponderosa pine 20 miles northwest of Wheatland, WY. Torching was observed in the Ashenfelder Creek drainage. Aerial resources are suppressing spot fires in the Saltlick Creek drainage.

STEUBEN, Grand Mesa-Uncompahgre-Gunnison National Forest. A Type 2 Incident Management Team has been ordered. This fire is burning ten miles west of Gunnison, CO in sagebrush, aspen and bug kill Douglas fir. Extreme fire behavior and significant crown runs were observed. Numerous residences and cabins southeast and northwest of Steuben Creek are threatened. Livestock have been evacuated from the area.

SRA = Standing Rock Agency, Bureau of Indian Affairs
 RAD = Rawlins District, Bureau of Land Management

NORTHWEST AREA LARGE FIRES:

EYERLY, Warm Springs Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Jackson) has been ordered. This fire is burning in sagebrush, pinyon pine and juniper in the Metolius River Canyon, 15 miles west of Madras, OR. Steep, rugged terrain, high temperatures and low relative humidity are impeding containment efforts.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

NORTHERN ROCKIES AREA LARGE FIRES:

BROAD, Yellowstone National Park. A Fire Use Management Team (Cook) is assigned to manage suppression operations and develop long term assessments. This plume dominated fire is burning in old growth lodgepole and Douglas fir 20 miles southeast of Mammoth, WY. Very active fire behavior was observed as the fire advanced south-southwest. Personnel are monitoring the fire and conducting aerial reconnaissance.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
BROAD	WY	YNP	4,100	0	UNK	15	0	0	1	0	95K

SOUTHWEST AREA LARGE FIRES:

Priorities are being established by the Southwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

CUB, Gila National Forest. A Fire Use Management Team (Zimmerman) is assigned. This fire is in the Gila Wilderness Area, 19 miles east of Glenwood, NM. Precipitation and higher relative humidity moderated fire behavior in ponderosa pine and mixed conifer forest. Personnel are monitoring the fire and conducting aerial reconnaissance.

DARNELL, Coronado National Forest. This fire is in the Chiricahua Wilderness Area, seven miles southeast of Portal, AZ. Minimal fire behavior was observed in grass, scrub oak and juniper. Personnel are conducting reconnaissance and monitoring fire activity.

DARNELL	AZ	CNF	5,942	90	7/11	22	1	0	0	0	785K

NORTHERN CALIFORNIA AREA LARGE FIRES:

AB, Sacramento National Wildlife Refuge. This fire is burning in grass and tules five miles south of Willows, CA. Personnel are patrolling and mopping up.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
AB	CA	SWR	750	90	UNK	62	2	9	0	0	NR

SOUTHERN AREA LARGE FIRES:

JULY COMPLEX, George Washington and Jefferson National Forests. This complex consists of seven lightning-caused fires in the Shenandoah Valley, 14 miles north of Lexington, VA. The fires are burning in standing dead hardwood forest. Precipitation moderated fire behavior. Burn out operations on the Skillern Mountain fire were successfully completed. Crews are constructing fireline on the Sisters fire and mopping up the other fires in the complex.

ROCKY TOP II, Shenandoah National Park. This fire is burning in bug kill pine, rhododendron and leaf litter five miles east of Port Republic, VA. Moderate fire behavior was observed. Crews are constructing fireline and burning out in remote and rugged terrain.

BLACKJACK BAY COMPLEX, Okefenokee National Wildlife Refuge. This lightning-caused complex, consisting of the Blackjack 02, Bay Creek and Number One Island fires, is ten miles northeast of Fargo, GA. The complex is being managed by the most cost efficient alternative under the Wildland Fire Situation Analysis confinement/containment strategy. Priorities are firefighter and public safety, economics of suppression and ecosystem health. Precipitation has raised swamp water levels, decreasing fire activity. The fire is in monitor status.

OUTLOOK:

*****A FIRE WEATHER WATCH HAS BEEN ISSUED IN THE NORTHERN SIERRA NEVADA AND SOUTHERN CASCADE MOUNTAINS FOR DRY LIGHTNING*****

*****A FIRE WETHER WATCH HAS BEEN ISSUED IN THE CENTRAL AND SOUTHERN SIERRA NEVADA MOUNTAINS AND THE MOUNTAINS OF SOUTHEASTERN CALIFORNIA FOR DRY LIGHTNING*****

High pressure over the Eastern Great Basin Area will bring mostly sunny skies with isolated wet and dry thunderstorms in southern Utah. High temperatures will be mid 90's to 118 in the valleys and mid 80's to mid 90's in the mountains. Minimum relative humidity will range from 3 to 10 percent at lower elevations and 8 to 20 percent at higher elevations. Winds will be variable at 5 to 15 mph.

A high pressure system over the Rocky Mountain Area will bring sunny skies with isolated thunderstorms in Colorado. High temperatures will be upper 60's to 80's in the mountains and in the 80's to 105 at lower elevations. Minimum relative humidity will range from 5 to 15 percent in western Colorado and 15 to 30 percent elsewhere. Winds will be north to east at 5 to 15 mph.

Monsoonal moisture over the Southwest Area will bring partly sunny skies with scattered showers and thunderstorms. A chance of isolated dry lightning is forecast at lower elevations in western Arizona. High temperatures will be in the 70's and 80's in the mountains and the 90's to 110 at lower elevations. Minimum relative humidity will range from 5 to 20 percent in western and southern Arizona and 20 to 50 percent in the remainder of the region. Winds will be east to south at 5 to 15 mph.

High pressure over the Northern Rockies Area will bring mostly sunny skies. High temperatures will be 95 to 105 in Montana and northern Idaho, and in the mid 70's to low 90's in North Dakota. Minimum relative humidity will range from 20 to 35 percent in North Dakota and 8 to 18 percent elsewhere. Winds will be west at 5 to 15 mph in Montana and northern Idaho, and east to south at 5 to 15 mph in the remainder of the area.

A cold front moving through the Southern Area will bring partly to mostly cloudy skies with heavy rain in some locations. High temperatures will be in the 70's, 80's and 90's. Minimum relative humidity will be above 40 percent in most areas and winds will be northeast to northwest at 5 to 15 mph.

A strong high pressure system over the Northern California Area will bring sunny skies inland with a chance of thunderstorms over the Sierra Nevada and Cascade Mountains. High temperatures will be in the 60's to mid 80's along the coast and 104 to 115 inland. Minimum relative humidity will range from 9 to 24 percent inland and winds will be variable under 12 mph.

The Southern California Area can expect mostly sunny skies inland with partly cloudy skies and scattered thunderstorms over the mountains and deserts. High temperatures will be in the 70's in coastal areas, low 90's to 102 in the mountains and valleys, and upper 90's to 115 in the deserts. Minimum relative humidity will range from 10 to 25 percent in the mountains and deserts, 15 to 25 percent in the valleys, and above 55 percent near the coast. Winds will be onshore at 8 to 15 mph near the coast and east to south at 7 to 17 mph elsewhere.
