

**INCIDENT MANAGEMENT SITUATION REPORT  
TUESDAY, JULY 16, 2002 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 5**

**CURRENT SITUATION:**

Initial attack activity was heavy in the Northwest and Eastern Great Basin Areas, moderate in the Northern California, Northern Rockies, Southwest and Rocky Mountain Areas, and light elsewhere. Nationally, 326 new fires were reported. Thirteen of these became large fires, five in the Eastern Great Basin Area, four in the Northwest Area, and one each in the Rocky Mountain, Western Great Basin, Northern Rockies and Southern California Areas. Fourteen large fires were contained, four in the Northwest Area, four in the Eastern Great Basin Area, two in the Northern California Area, and one each in the Rocky Mountain, Western Great Basin, Northern Rockies, and Southern California Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Kansas, Massachusetts, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

**NORTHWEST AREA LARGE FIRES:**

Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

EYERLY, Warm Springs Agency, Bureau of Indian Affairs. A Type 1 Incident Management Team (Studebaker) and a Type 2 Incident Management Team (Jackson) are assigned. This fire is burning in ponderosa pine, mixed conifer forest, juniper and bitter brush in the Metolius River Canyon, 15 miles northeast of Camp Sherman, OR. Extreme fire behavior with running, torching and spotting was observed. Crews are constructing handline and burning out with support from aerial resources. Residents of the Three Rivers subdivision were allowed to return to their homes; summer homes on Lake Billy Chinook remain evacuated with structure protection in place.

WINTER, Klamath Lake District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Mair) is assigned. This fire is ten miles northwest of Paisley, OR in sagebrush, ceanothus, juniper and mixed conifer forest. No new information was reported.

TOOL BOX, Fremont National Forest. A Washington Interagency Incident Management Team (Berndt) is assigned. This fire is 30 miles northwest of Paisley, OR. Minimal fire behavior was observed. Strong erratic winds are hampering containment efforts. Several ranches and a major power line are threatened.

SILVER, Fremont National Forest. This fire is eight miles southwest of Silver Lake, OR in heavy timber and slash. Spotting and torching fire behavior was observed.

MALHEUR COMPLEX, Malheur National Forest. A Type 2 Incident Management Team (Morcom) is assigned. This complex, consisting of the Roberts and Easy fires, is burning in mixed conifer forest, eight to 25 miles south of Prairie City, OR. Active fire behavior with torching and short range spotting were observed. Crews and dozers are constructing direct and indirect attack fireline with support from aerial resources. Evacuation plans have been developed for several communities along Highway 26 and County Road 62.

MONUMENT, Malheur National Forest. A Type 1 Incident Management Team (Stutler) is assigned. This fire is burning in the Monument Rock Wilderness Area, nine miles southwest of Unity, OR. Moderate fire behavior with torching and spotting was observed in mixed conifer forest, ponderosa pine and grass. Personnel are conducting reconnaissance for anchor points, safety zones and containment line locations. Seventy-five residences are threatened; structure protection is in place.

MAHOGANY MOUNTAIN, Vale District, Bureau of Land Management. A Type 2 Incident Management Team (Gardner) will assume command at 1800 MDT. This fire is 15 miles northwest of Jordan Valley, OR in grass and sagebrush. Extreme fire behavior with rapid rates of spread was observed due to strong microburst winds.

GRIZZLY COMPLEX, Fremont National Forest. A Type 2 Incident Management Team (Bright) is assigned. This complex, comprised of the Grizzly, Bare and Logan fires, is 15 miles west of Lakeview, OR. Moderate fire behavior with torching and spotting was observed in heavy timber and slash. Dozers and crews are constructing fireline.

TILLER COMPLEX, Umpqua National Forest. A Washington Interagency Incident Management Team (Dutton/Holloway) is assigned. This complex is comprised of numerous fires on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, west of Tiller, OR. Short and long range spotting was observed. Rough terrain, rolling debris and spotting are hampering containment efforts. Initial attack is underway on unstaffed fires. Forty residences are threatened.

BISCUIT COMPLEX, Siskiyou National Forest. A Type 2 Incident Management Team has been ordered. This complex consists of several fires, 17 miles southwest of Cave Junction, OR. Torching and significant runs were observed in mixed conifer forest and brush as the fires moved southwest. Personnel are improving access routes and evaluating suppression strategies.

FLAGTAIL, Malheur National Forest. Burning in mixed conifer and lodgepole pine, this fire is 13 miles west of Seneca, OR. Active fire behavior with rapid rates of spread and spotting up to 1/4 mile was observed.

ATKINS, Vale District, Bureau of Land Management. This fire is 23 miles northwest of Jordan Valley, OR. Extreme fire behavior in sage was observed.

MUD DUCK, Vale District, Bureau of Land Management. This fire is 12 miles southwest of Homedale, ID. Minimal fire behavior was observed in sage due to precipitation.

DEF = Deschutes National Forest

### EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

CLEAR CREEK, Southwest State, Utah State Division of Forestry Fire & State Lands. A Type 2 Incident Management Team has been ordered. This fire is burning in pinyon pine, juniper, oak, sage and ponderosa pine. Extreme fire behavior with crowning, torching and wind driven runs was observed. Two resort complexes, a radio repeater site and various summer homes are threatened; structure protection is in place.

HAMMOND, Manti-LaSal National Forest. The fire is 15 miles northwest of Blanding, UT in brush, gambel oak, pinyon pine, juniper and ponderosa pine. Crowning, spotting and torching with 100 foot flame lengths was observed. Low fuel moisture and passing thunderstorms are hampering containment efforts.

BIG CROW, Lower Snake River District, Bureau of Land Management. This fire is 28 miles south

of Glenn's Ferry, ID. Active fire behavior with 10 to 15 foot flame lengths was observed in grass and heavy sage. Engine crews are improving line and mopping up.

HANG DOG, Manti-LaSal National Forest. This fire is eight miles northeast of La Sal, UT. Extreme fire behavior with 200 foot flame lengths, extensive torching, crowning and running was observed in gambel oak, ponderosa pine, juniper and pinyon pine. Heavy fuel loading, low relative humidity, erratic winds from passing thunder cells and long term drought are impeding containment efforts. Thirty residences are threatened and evacuations are underway.

EAST FORK, Wasatch-Cache National Forest. A Type 1 Incident Management Team (Raley) is assigned. This fire is burning in lodgepole pine and spruce 35 miles south of Evanston, WY. Minimal fire behavior was observed due to favorable weather conditions with precipitation. Crews are containing spot fires, improving line, mopping up and hot spotting. Evacuation orders remain in place for the Christmas Meadows subdivisions, scattered homes and a Boy Scout camp; structure protection is in place. Four historic cabins were confirmed lost.

HORSE, Salmon-Challis National Forest. A Type 2 Incident Management Team has been ordered. This fire is 25 miles west of North Fork, ID. Extreme fire behavior with long range spotting and running was observed in subalpine fir and spruce. Unfavorable weather conditions and very steep, rugged terrain are hampering containment efforts. Personnel are placing structure protection materials on Oreana Lookout and scouting safe areas to perform suppression efforts.

SEQUOIA, Dixie National Forest. This fire is 26 miles southwest of Cedar City, UT. Extreme fire behavior with crowning and rapid fire growth was observed in ponderosa pine. Personnel are scouting the perimeter for helispot locations.

MULE, Bridger-Teton National Forest. A Type 2 Incident Management Team (Smith) will assume command today. This fire is 12 miles west of Daniel, WY. Torching, running and spotting were observed in heavy timber. Horse Creek Road and the north flank were successfully held. Crews are building direct attack fireline with support from aerial resources.

HORSE, Moab Field Office, Bureau of Land Management. This fire is five miles south of Eastland, UT. Moderate fire behavior with smouldering, creeping and single tree torching was observed in pinyon pine, juniper, sagebrush and gambel oak. Crews are building handline and mopping up in very rugged terrain.

MAPLE SPRINGS, Cedar City Field Office, Bureau of Land Management. This fire is 25 miles north-northeast of Cedar City, UT. Smouldering fire behavior was observed in pinyon pine, juniper and sagebrush. Crews are mopping up and patrolling.

RATTLE COMPLEX, Moab Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Murphy) is assigned. This complex is 20 miles northeast of Green River, UT. Active fire behavior, crowning and torching were observed on the west flank of the Diamond fire in aspen and mixed conifer forest. The fire is advancing west and southwest toward secondary containment lines on Went ridge. Crews and dozers are constructing fireline above West Willow Creek in preparation for a planned burn out operation.

WEST TWIN PEAKS, Wasatch-Cache National Forest. This fire is on the Twin Peaks above Salt

Lake City, UT. Active torching and spotting fire behavior were observed on the east and south flanks in Douglas fir, pinyon pine, juniper and gambel oak. Steep, inaccessible terrain, high temperatures, low relative humidity and erratic winds from passing thunder cells are impeding containment efforts. Aerial resources are being utilized on the south and west flanks.

### ROCKY MOUNTAIN AREA LARGE FIRES:

Priorities are being established by the Rocky Mountain Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

BURN CANYON, Grand Mesa-Uncompahgre-Gunnison National Forest. A Type 2 Incident Management Team (Furlong) is assigned. This fire is five miles southwest of Norwood, CO. Extreme fire behavior with sustained crown runs were observed in pinyon pine, gambel oak and ponderosa pine. Crews are building handline and burning out. Engine crews are protecting evacuated structures in Redvale and surrounding populated areas.

HINMAN, Routt National Forest. A Type 2 Incident Management Team (Garcia) is assigned. This fire is 23 miles north of Steamboat Springs, CO. Extreme fire behavior with torching and spotting was observed in spruce, fir and lodgepole pine. Crews and dozers are constructing fireline. Numerous residences and two commercial properties are threatened.

BEAR MOUNTAIN SOUTH, Medicine Bow National Forest. A Type 2 Incident Management Team

(Gray) is assigned. This fire is 14 miles southeast of Encampment, WY. Individual tree torching and creeping were observed in lodgepole pine and spruce. Crews made good progress with handline construction with support from aerial resources. Six residences remain threatened.

STEUBEN, Grand Mesa-Uncompahgre-Gunnison National Forest. This fire is burning ten miles west of Gunnison, CO in sagebrush, aspen and bug kill Douglas fir. Minimal fire activity with smouldering and creeping was observed due to precipitation. Crews are constructing handline and mopping up.

SPRING CREEK, White River National Forest. A Type 2 Incident Management Team (Swope) is assigned. This fire is burning in spruce, fir, aspen and brush eight miles north of New Castle, CO. Very active fire behavior with short crown runs and group tree torching was observed. Crews are patrolling, mopping up and rehabilitating established line. Three residences and associated outbuildings are threatened; structure protection is in place.

GREEN CREEK, Routt National Forest. This fire is 15 miles southeast of Steamboat Springs, CO. Extreme fire behavior with torching, crowning and spotting were observed in heavy dead and down spruce and fir. Erratic winds from passing thunder cells are hampering containment efforts.

LOST LAKE, Routt National Forest. A Fire Use Management Team (Cones) will assume command today. This fire is 20 miles west of Yampa, CO. Extreme fire behavior with spotting and running were observed in heavy dead and down spruce and fir. Evacuation of remote camps in the Flattop Wilderness Area is underway.

EAST MARBLE, Ute Mountain Agency, Bureau of Indian Affairs. This fire is 15 miles south of Cortez, CO in pinyon pine, juniper and sage. Isolated torching and running fire behavior was observed. Aerial resources are assisting ground personnel with wet line construction.

MISSIONARY RIDGE, San Juan National Forest. A Type 2 Incident Management Team (Carlson) is assigned. This fire is five miles northeast of Durango, CO. Interior islands continue to burn out in gambel oak, ponderosa pine and mixed conifer forest. Crews are mopping up and rehabilitating established fireline.

HENSEL, Medicine Bow National Forest. This fire is burning in bug kill ponderosa pine 20 miles northwest of Wheatland, WY. Moderate fire behavior with interior torching was observed. Cliffs, large boulders and very steep terrain are hampering containment efforts. Engines are patrolling and aerial resources are being utilized to contain spot fires.

CURRENT CREEK, Rocky Springs District, Bureau of Land Management. This fire is burning in juniper, sage and grass 26 miles south of Rock Springs, WY. Creeping, running and torching fire behavior were observed. Personnel are building fireline and mopping up. The Current Creek Ranch is threatened; structure protection is in place.

### WESTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

GATE COMPLEX, Humboldt-Toiyabe National Forest. A Type 2 Incident Management Team (Terwilliger) is assigned. A Type 1 Incident Management Team (Lohrey) has been ordered. This complex is comprised of the Gate, Coleville and Slinkard fires and is five miles north of Walker, CA. Moderate fire behavior was observed in Jeffery pine, pinyon pine, juniper and sagebrush. Crews and dozers are constructing direct attack fireline and mopping up. Three hundred residences and four hundred twenty-five outbuildings and commercial property's are threatened; engine crews are providing structure protection. Highways 208, 395 and 89 are closed.

LOST CABIN, Humboldt-Toiyabe National Forest. A California Department of Forestry and Fire Protection Type 1 Incident Command Team (Maner) is assigned. This fire is 27 miles west of Las Vegas, NV. Extreme fire behavior with crowning, torching and spotting were observed in pinyon pine, juniper and sagebrush as the fire advanced northeast. CC Springs and Torino Ranch have been evacuated with 460 residences threatened; structure protection is in place with assistance from aerial resources.

EAGLE, Ely Field Office, Bureau of Land Management. A Type 1 Incident Management Team (Hefner) is assigned. This fire is 50 miles southeast of Ely, NV. Running crown fire was observed as the fire moved east in pinyon pine, juniper and sagebrush. The fire has crossed the Nevada-

Utah border. Steep terrain, high winds and continuous fuels are impeding containment efforts. Crews and dozers are building fireline on the west flank and protecting threatened structures in Utah. Thirty-three residences and several structures are threatened.

ELLSWORTH, Humboldt-Toiyabe National Forest. This fire is 50 miles southeast of Fallon, NV. Significant runs with the wind were observed in pinyon pine, juniper and sagebrush. Crews and dozers have anchored and are building fireline. The Ellsworth historical site is threatened.

PONY EXPRESS, Carson City Field Office, Bureau of Land Management. This fire is burning in sage, pinyon pine and juniper 40 miles east of Fallon, NV. Moderate fire behavior was observed. Engine crews are wet lining the fire.

BUCKEYE, Carson City Field Office, Bureau of Land Management. This wind driven fire is 15 miles east of Gardnerville, NV. Torching, crowning and short runs were observed in pinyon pine and juniper as the fire advanced south. Crews constructing direct attack handline on the south and southeast flanks. Erratic winds and limited access are hampering containment efforts. Reduction in acreage was due to better mapping.

PAN, Humboldt-Toiyabe National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 12 miles north of Bridgeport, CA. Isolated interior torching, creeping and smouldering were observed in sagebrush, pinyon pine and juniper. Crews are improving established fireline and mopping up.

### NORTHERN ROCKIES AREA LARGE FIRES:

BROAD, Yellowstone National Park. A Type 1 Incident Management Team (Frye) is assigned. This fire is burning in old growth lodgepole pine and Douglas fir 20 miles southeast of Mammoth, WY. Favorable weather conditions resulted in moderate fire behavior with individual and group tree torching. Crews spiked out on the southwest flank and are constructing fireline on the rim of the Grand Canyon of the Yellowstone. Type 1 helitankers were successful on the west flank, holding the fire on the east side of the Yellowstone River. Personnel are conducting extensive ground reconnaissance, resulting in the development of initial suppression strategies and tactics.

National Park Service facilities and commercial property's at Canyon Village are threatened.

FOX CREEK, Blackfeet Agency, Bureau of Indian Affairs. A Type 2 Incident Management (Kechter) is assigned. This fire is burning nine miles southeast of Babb, MT in subalpine fir, lodgepole pine and spruce. Creeping, torching and running fire behavior were observed. Dozers are constructing line on the south and east flanks.

RED WAFFLE, Custer National Forest. A Type 2 Incident Management Team (Chrisman) has been ordered. This fire is 35 miles southeast of Bridger, MT. Extreme fire behavior with torching, crowning, and spotting were observed in ponderosa pine, brush and grass. Crews are constructing fireline and helicopters are assisting suppression efforts on the east flank in inaccessible terrain. No structures were lost as previously reported.

GOLDSTONE, Beaverhead-Deer Lodge National Forest. A Type 2 Incident Management Team (Sandman) is assigned. This fire is 30 miles west of Wisdom, MT on the Continental Divide. Torching and short range spotting were observed in subalpine fir. Crews are constructing direct attack handline.

WIGWAM COMPLEX, Beaverhead-Deer Lodge National Forest. A Type 2 Incident Management Team (Chrisman) is assigned. This complex, comprised of six fires, is 17 miles southwest of Ennis, MT. Torching and spotting were observed in dead and down lodgepole pine, spruce and subalpine fir. Crews are constructing direct attack handline, utilizing green meadows for natural barriers and mopping up.

### SOUTHWEST AREA LARGE FIRES:

Priorities are being established by the Southwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

PEAK COMPLEX, Phoenix-Kingman District, Bureau of Land Management. A Type 1 Incident Management Team (Bennett) is assigned. This complex, comprised of the Peak, Lion Kill and Wildcow fires, is 12 miles southeast of Kingman, AZ. Smouldering and creeping fire behavior were observed in ponderosa pine, chaparral, pinyon pine and juniper. Rugged terrain, erratic winds and heavy fuels are hampering containment efforts. Crews are constructing fireline and mopping up. Residents of the community of Pine Lakes have been allowed to return to their homes. Reduction in acreage was due to better mapping.

ORACLE HILL, Coronado National Forest. A Type 2 Incident Management Team (Sears) is assigned. This fire is one mile south of Oracle, AZ. Minimal fire behavior in grass and chaparral was observed due to favorable weather conditions. Crews are constructing fireline, mopping up and rehabilitating established fireline. Twenty residences south of Oracle have been evacuated; the community of Oracle is threatened.

DOME, Tonto National Forest. This fire is 33 miles east of Mesa, AZ. Minimal rates of spread were observed in brush and grass due to precipitation on the fire. Steep and rocky terrain are hampering containment efforts.

**SOUTHERN CALIFORNIA AREA LARGE FIRES:**

INYO COMPLEX, Inyo National Forest. A Type 2 Incident Management Team (Conrad) is assigned. This complex, comprised of the Fuller and Piper fires, is five miles west of Big Pine, CA. The Piper fire has been contained. Minimal fire behavior was observed in sagebrush, Jeffery pine and bug kill lodgepole pine on the Fuller fire. Crews are constructing and improving handlines. Several commercial properties, numerous primary and recreational residences, resorts, and the John Muir Wilderness Area remain threatened.

GARNET, Cleveland National Forest. A California Department of Forestry and Fire Protection Type 1 Incident Command Team (Anderson) is assigned. This fire is ten miles east of Pine Valley, CA. Minimal fire behavior was observed. Crews are constructing fireline with support from aerial resources and rehabilitating established line. Structure protection is in place at Shrine Camp.

FEMA-MICRONESIA-CHUUK, Guam, Micronesia and Northern Mariana Islands. The islands were struck by Typhoon Chata'an on July 5<sup>th</sup> and Typhoon Halong on July 9<sup>th</sup>. US Forest Service and Federal Emergency Management Agency personnel have responded to provide disaster aid and supplies. The US Forest Service has been tasked with organizing and staffing a receiving and distribution center in Chuuk State and setting up operational planning on Chuuk and Guam. No new information was reported.

**NORTHERN CALIFORNIA AREA LARGE FIRES:**

RUSH, Northern California District, Bureau of Land Management. A Type 2 Incident Management Team (Szczepanik) is assigned. This fire is eight miles southeast of Ravendale, CA. Running fire behavior was observed in sagebrush, grass and juniper as the fire advanced northeast off Cherry Mountain. Crews are constructing fireline on the east flank. Two residences and the Five Springs Wilderness Area are threatened.

MULDOON COMPLEX, Modoc National Forest. A Type 2 Incident Management Team (Dietrich) is assigned. This complex, consisting of the Deep Creek, Muldoon and several small fires, is 24 miles north of Alturas, CA. Torching and short range spotting were observed in juniper, slash and mixed conifer forest. Crews are making good progress with fireline construction on small, accessible fires.

MUSSOLINI, Siskiyou Unit, California Department of Forestry and Fire Protection. This fire is three miles southeast of Gazelle, CA. Very active fire behavior was observed in grass and timber. Limited access and very steep, rugged terrain are hampering containment efforts. Crews are constructing fireline and mopping up. Four residences are threatened; structure protection is in place.

NOD = Northern California District, Bureau of Land Management

## OUTLOOK:

### **\*\*\*A FIRE WEATHER WATCH HAS BEEN ISSUED IN CENTRAL FLORIDA FOR HIGH DISPERSION INDICES\*\*\***

The Northwest Area will have mostly sunny skies with isolated to widely scattered thunderstorms in south central and eastern Oregon. High temperatures will be 85 to 95 east of the Cascade Mountains and in the 70's and 80's elsewhere. Minimum relative humidity will range from 10 to 30 percent in the east and 25 to 40 percent to the west. Winds will be north to northwest at 10 to 20 mph west of the Cascade Mountains and up slope up valley at 5 to 10 mph to the east.

The Eastern Great Basin Area can expect partly sunny skies with widely scattered wet and dry thunderstorms. High temperatures will be 80 to 90 in the mountains and 90 to 105 in the valleys. Minimum relative humidity will range from 8 to 30 percent and winds will be variable at 5 to 15 mph. The Rocky Mountain Area can expect mostly sunny skies with isolated to widely scattered thunderstorms. High temperatures will be in the 70's and 80's in the mountains and mid 80's to 90's at lower elevations. Minimum relative humidity will range from 4 to 12 percent in northern and central Colorado and southwest Wyoming. Winds will be variable with gusts near thunderstorms.

A south-southwest flow over the Western Great Basin Area will bring mostly sunny skies with isolated thunderstorms in eastern and southern Nevada. High temperatures will be a few degrees cooler. Minimum relative humidity will range from the single digits to mid teens.

A thermal trough in combination with moist subtropical air over the Northern Rockies Area will bring mostly sunny skies with scattered thunderstorms in eastern Montana. High temperatures will be 88 to 100. Minimum relative humidity will range from 15 to 25 percent in Montana and the Idaho panhandle, and 30 to 40 percent in North Dakota.

Monsoonal moisture over the Southwest Area will bring partly sunny skies and scattered, wet thunderstorms. High temperatures will be in the 70's and 80's in the mountains and in the 90's and 100's at lower elevations. Minimum relative humidity will range from 10 to 35 percent in Arizona and northwestern New Mexico, and 25 to 50 percent elsewhere. Winds will be upslope, up valley at 5 to 15 mph.

The Southern California Area can expect mostly sunny skies, becoming partly cloudy as the afternoon progresses with a chance of isolated thunderstorms. High temperatures will be upper 60's and 70's in coastal areas, 80's to mid 90's in the mountains and inland valleys, and 90's to 110 in the deserts. Minimum relative humidity will range from 10 to 20 percent in the deserts, 15 to 30 percent in the mountains, 25 to 40 percent in the valleys, and above 50 percent near the coast. Winds will be onshore at 8 to 15 mph near the coast and southeast to southwest at 5 to 15 mph

elsewhere.

High pressure over the Northern California Area will bring mostly sunny skies. High temperatures will be in the 60's along the coast and in the 80's and 90's inland. Minimum relative humidity will range from 10 to 28 percent and winds will be southwest to northwest at 8 to 18 mph.

### **NO COMMUNICATION LINK WITH CREW MEMBERS, SUPERVISORS & ADJOINING FORCES**

Watchout Situation #7 is a danger that must be mitigated by maintaining good communications while working on fires. Firefighters must constantly ask themselves the following questions as situations change on the fireline:

- ! Can communications be established?
  - ! Talk about how communications are set up on fires.
  - ! Review situations where communications were a problem and what was done to fix the problem.
  
- ! Is the communication triangle complete?
  - ! Review the communication triangle and where it comes up in the "10 Standard Fire Orders" and the "18 Watchout Situations."
  - ! Discuss ways that firefighters can maintain the communication triangle on the fireline.
  
- ! Reduce the risks
  - ! If the situation is complex, wait until communications are in place.
  - ! Talk about the fires where crews had to leave the line, didn't go out on the line, or something negative happened because communications were inadequate. Discuss what was done to establish communications.
