

**INCIDENT MANAGEMENT SITUATION REPORT
SUNDAY, JULY 21, 2002 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was moderate in the Rocky Mountain Area and light elsewhere. Nationally, 223 new fires were reported. Four of these became large fires, two in the Northwest Area and one each in the Rocky Mountain and Western Great Basin Areas. Six large fires were contained, three in the Rocky Mountain Area, two in the Western Great Basin Area and one in the Northwest Area. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Kansas, Massachusetts, Montana, Nevada, New Mexico, North Dakota, Oregon, Utah, Washington and Wyoming.

A training cadre and military crew advisors are training the U.S. Army Task Force 1/5 FA 1st Battalion, 5th Regiment commanded by Lt. Col. David R. Byrn Sr., at Ft. Riley, KS. Deployment to the Monument fire is scheduled for July 22.

NORTHWEST AREA LARGE FIRES:

Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. An Area Command Team (Mann) is assigned to manage large fires in southeast Oregon. An Area Command Team (Williams-Rhodes) is assigned to manage large fires on the Malheur and Ochoco National Forests.

DEER POINT, Wenatchee National Forest. A Washington Interagency Management Team (Perry) is assigned. A Type 1 Incident Management Team (Vail) has been ordered. This fire is 27 miles north of Chelan, WA in brush and heavy timber. Wind driven fire behavior contributed to significant growth. Crews are constructing direct and indirect attack fireline and mopping up. Seventy-five residences are threatened; structure protection is in place. Three additional structures were confirmed lost.

TOOL BOX COMPLEX, Fremont National Forest. A transfer of command from Berndt's Washington Interagency Incident Management Team to Gelobter's Type 1 Incident Management Team will take place at 0700 PDT. This complex consists of the Tool Box and Silver fires which are 30 miles northwest of Paisley and eight miles southwest of Silver Lake, OR respectively. Very active fire behavior was observed in sage, ceanothus and mixed conifer. Crews are constructing fireline on the north flank. Several ranches, a major power line and an extensive communications site are threatened. Structure protection is in place.

WINTER, Klamath Lake District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Mair) is assigned. This fire is ten miles northwest of Paisley, OR in sagebrush, ceanothus, juniper and mixed conifer forest. High temperatures and lower relative humidity are hampering suppression efforts. Crews are burning out and constructing

handline on the west and south flanks. Sixty residences are threatened; structure protection is in place. Reduction in acreage was due to better mapping.

TILLER COMPLEX, Umpqua National Forest. A Washington Interagency Incident Management Team (Dutton) is assigned. This complex is comprised of 94 reported fires on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, west of Tiller, OR. Torching, rolling debris and spotting are hampering containment efforts. Forty residences are threatened.

747, Ochoco National Forest. A Type 1 Incident Management Team (Melton) is assigned. This fire is northeast of Paulina, OR. The fire is burning in ponderosa pine, juniper, sage and grass. Crews are constructing and improving fireline. Extremely rugged terrain is hampering suppression efforts. Structure protection is in place for one residence and several outbuildings.

NORTH UMPQUA COMPLEX, Umpqua National Forest. A Type 2 Incident Management Team (Jackson) is assigned. Burning in heavy timber, this complex of several fires is 25 miles east of Glide, OR. Active fire behavior was observed with torching, running and short range spotting. Personnel are constructing handline and mopping up. Twenty residences are threatened.

BISCUIT COMPLEX, Siskiyou National Forest. A Type 2 Incident Management Team (Joki) is assigned. This complex consists of several fires, 17 miles southwest of Cave Junction, OR. Torching and significant runs were observed in mixed conifer and brush. Crews are constructing indirect attack fireline for structure protection. Twelve residences are threatened.

MALHEUR COMPLEX, Malheur National Forest. A Type 2 Incident Management Team (Morcom) is assigned. This complex, consisting of the Roberts and Easy fires, is burning in mixed conifer forest, eight to 25 miles south of Prairie City, OR. Creeping and individual tree torching were observed. Crews and dozers are constructing direct and indirect attack fireline and burning out. Fifty residences, several commercial properties and numerous outbuildings are threatened; structure protection is in place.

FLAGTAIL, Malheur National Forest. A Type 1 Incident Management Team (Wood) is assigned. Burning in mixed conifer and lodgepole, this fire is 13 miles west of Seneca, OR. Torching and spotting was observed on the south flank. Crews are constructing handline and burning out.

EYERLY COMPLEX, Warm Springs Agency, Bureau of Indian Affairs. A Type 1 Incident Management Team (Studebaker) is assigned. This complex consists of the Eyerly and Geneva 2 fires which are burning in ponderosa pine, mixed conifer forest, juniper and bitter brush in the Metolius River Canyon, 15 miles northeast of Camp Sherman, OR. Fire activity included spotting and torching. Crews and dozers are constructing fireline. Two hundred and eighty residences are threatened; structure protection is in place.

MONUMENT, Malheur National Forest. A Type 1 Incident Management Team (Stutler) is assigned. This fire is nine miles southwest of Unity, OR. Creeping and isolated torching resulted in moderate fire activity in mixed conifer forest, ponderosa pine and grass. Crews are constructing indirect attack fireline and improving established fireline. Limited access is hampering containment efforts. Seventy-five residences are threatened.

WALL CREEK, Southwest Oregon District, Oregon Department of Forestry. This fire is burning in

mixed conifer and pine ten miles northeast of Medford, OR. Minimal fire behavior was observed. Crews are mopping up.

SQUIRE PEAK, Southwest Oregon District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Thorpe) is assigned. Minimal fire behavior was observed in mixed conifer, timber slash, manzanita and ceanothus. Crews are rehabilitating fireline. Reduction in acreage was due to better mapping.

GRIZZLY COMPLEX, Fremont National Forest. A Type 2 Incident Management Team (Bright) is assigned. This complex, comprised of the Grizzly, Bare and Logan fires, is 15 miles west of Lakeview, OR. Minimal fire activity was observed. Reduction in acreage was due to better mapping.

MAHOGANY COMPLEX, Vale District, Bureau of Land Management. A Type 2 Incident Management Team (Gardner) is assigned. This complex consists of the Atkins and Mahogany Mountain fires which are 15 miles northwest of Jordan Valley, OR. Smouldering and creeping fire behavior was observed in grass and sagebrush on the Atkins fire. Steep, inaccessible terrain is hampering containment efforts. Personnel are improving established fireline, mopping up and patrolling.

SHEEP ROCK, Vale District, Bureau of Land Management. This fire is two miles northeast of Riverside, OR in sage and juniper. No further information was received.

LOST LAKE, Southwest Oregon District, Oregon Department of Forestry. This fire is 12 miles east of Medford, OR burning in conifer. Minimal fire behavior was observed. Crews are mopping up.

ROCKY MOUNTAIN AREA LARGE FIRES:

Priorities are being established by the Rocky Mountain Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

BIG ELK, Arapaho-Roosevelt National Forest. A Type 2 Incident Management Team (Hartman) is assigned. A Type 1 Incident Management Team (Bateman) has been ordered. This fire is nine miles southeast of Estes Park, CO. Extreme fire behavior with running and spotting was observed in brush and ponderosa pine. Structure protection is in place for 725 residences. Two hundred twenty-five homes are evacuated in the Big Elk Meadows and Little Valley subdivisions, as well as the Lake Pasture Ranch and surrounding populated areas. One structure was confirmed lost.

LOST GREEN COMPLEX, Routt National Forest. A Fire Use Management Team (Cook) is assigned. This complex is comprised of the Lost Lake and Green Creek fires which are 30 miles southwest and 15 miles southeast of Steamboat Springs, CO respectively. Moderate fire behavior with torching and short range spotting was observed in heavy dead and down spruce and fir. Personnel are constructing handline and providing structure protection for 300 threatened residences. Reduction in acreage was due to better mapping.

HINMAN, Routt National Forest. A Type 2 Incident Management Team (Garcia) is assigned. This fire is 23 miles north of Steamboat Springs, CO. Creeping, isolated torching and spotting was observed in spruce, fir and lodgepole pine. Crews are constructing fireline and mopping up. Numerous residences and two commercial properties are threatened.

LITTLE ELK, South Dakota State Forestry. A Type 1 Incident Management Team (Martin) is assigned. This fire is burning in ponderosa pine near Piedmont, SD. Precipitation aided containment efforts. Reduction in acreage was due to better mapping.

BURN CANYON, Grand Mesa-Uncompahgre-Gunnison National Forest. A Type 2 Incident Management Team (Furlong) is assigned. This fire is five miles southwest of Norwood, CO. Favorable weather conditions resulted in creeping and smouldering in pinyon pine, gambel oak and ponderosa pine. Crews are improving established fireline and mopping up. Forty residences are threatened.

SPRING CREEK COMPLEX, White River National Forest. A Type 2 Incident Management Team (Sisk) is assigned. This complex consists of the Spring Creek and East Meadow fires which are burning in spruce, fir, aspen and brush eight miles north of New Castle, CO. Fire behavior was limited to smouldering. Crews are mopping up and rehabilitating established fireline.

EAST MARBLE, Ute Mountain Agency, Bureau of Indian Affairs. This fire is 15 miles south of Cortez, CO in pinyon pine, juniper and sage. Smouldering and creeping fire behavior was observed. Personnel are mopping up and aerial resources are being utilized for monitoring. One structure was confirmed lost.

HENSEL, Medicine Bow National Forest. This fire is burning in bug kill ponderosa pine 20 miles northwest of Wheatland, WY. Moderate fire behavior with interior torching was observed near Laramie Peak. Aerial resources continue to be necessary due to cliffs, large boulders and extremely difficult terrain for ground personnel.

ELK CREEK, Campbell County. This fire is 20 miles north of Gillette, WY in sage, juniper and ponderosa pine. Limited access is hampering suppression efforts.

WONDERLAND, Boulder County, Colorado State Forest Service. This fire is near Boulder, CO. No further information was received.

EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

CANYONS COMPLEX, Manti-LaSal National Forest. A Type 1 Incident Management Team (Dash) is assigned. This complex consists of the Hang Dog and Hammond fires which are eight miles northeast of Lasal and 15 miles northwest of Blanding, UT respectively. The fires are burning in serviceberry, sage, chaparral, gambel oak, pinyon pine, juniper and ponderosa pine. Precipitation and higher relative humidity have resulted in minimal fire behavior. Crews are

constructing fireline and mopping up. Thirty residences and several other structures are threatened. Reduction in acreage was due to better mapping.

SEQUOIA, Dixie National Forest. The Type 2 Incident Management Team (Suwyn) is assigned. This fire is 26 miles southwest of Cedar City, UT. Favorable weather conditions resulted in moderate fire behavior in ponderosa pine and chaparral. Limited access and steep terrain are hampering containment efforts. Crews are constructing fireline on the north and south flanks. Aerial resources are assisting containment efforts on the northwest flank.

HORSE, Salmon-Challis National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 25 miles west of North Fork, ID. Fire activity was limited to isolated torching and creeping in subalpine fir and spruce. Crews are constructing fireline on the east, west and north flanks. Three historical lookouts, several residences and commercial properties are threatened.

MULE, Bridger-Teton National Forest. A Type 2 Incident Management Team (Smith) is assigned. This fire is 12 miles west of Daniel, WY. Higher relative humidity and precipitation resulted in minimal fire behavior with creeping, smouldering and isolated torching in heavy timber. Crews are building direct attack fireline on the north and south flanks with support from aerial resources. Reduction in acreage was due to better mapping.

RATTLE COMPLEX, Moab Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Murphy) is assigned. This complex is 20 miles northeast of Green River, UT. Minimal fire behavior was observed in aspen and mixed conifer forest due to favorable weather conditions. Crews are constructing and improving fireline. Difficult terrain and limited access are hampering containment efforts.

COUNTY LINE, Uintah and Ouray Agency, Bureau of Indian Affairs. This fire is 30 miles north of Green River, UT. Precipitation resulted in minimal fire behavior with isolated torching observed in sage, oak, pine and manzanita. Difficult terrain is hampering containment efforts. Helicopters are assisting suppression efforts on the northeast flank.

NORTHERN ROCKIES AREA LARGE FIRES:

Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary

(ICS-209) forms.

BROAD, Yellowstone National Park. A Type 1 Incident Management Team (Frye) is assigned. This fire is burning in old growth lodgepole pine and Douglas fir 20 miles southeast of Mammoth, WY. Favorable weather conditions resulted in minimal fire behavior with smouldering, creeping and occasional torching. Crews are constructing direct attack fireline on the south flank and mopping up. Type 1 helitankers are being utilized on the west flank, holding the fire on the east side of the Yellowstone River.

FOX CREEK, Blackfeet Agency, Bureau of Indian Affairs. A Type 2 Incident Management (Kechter) is assigned. This fire is burning nine miles southeast of Babb, MT in subalpine fir, lodgepole pine and spruce. Isolated torching was observed in the interior. Dozers are constructing fireline on the south and east flanks. Crews are building handline with assistance from engines on the west flank, mopping up and patrolling.

RED WAFFLE, Custer National Forest. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is 35 miles southeast of Bridger, MT. Precipitation and increased relative humidity resulted in moderate fire behavior with limited torching and spotting in ponderosa pine, brush and grass. Crews are constructing direct and indirect attack fireline, improving established fireline and mopping up.

WESTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

MAIL SUMMIT, Ely Field Office, Bureau of Land Management. This fire is burning in sage and juniper five miles northwest of Hiko, NV. Erratic winds resulted in rapid rates of spread to the east and northeast. Crews are patrolling and mopping up.

ELLSWORTH, Humboldt-Toiyabe National Forest. This fire is 50 miles southeast of Fallon, NV. Active fire behavior with torching was observed in pinyon pine, juniper and sagebrush. Crews and dozers are constructing fireline.

PONY EXPRESS, Carson City Field Office, Bureau of Land Management. This fire is burning in sage, pinyon pine and juniper 40 miles east of Fallon, NV. Favorable weather conditions resulted in minimal fire behavior with smouldering and creeping. Crews are mopping up and improving

dozer fireline.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

FEMA-MICRONESIA-CHUUK, Guam, Micronesia and Northern Mariana Islands. The islands were struck by Typhoon Chata'an on July 5th and Typhoon Halong on July 9th resulting in 40 major landslides causing many injuries and fatalities as well as severe damage to the islands. US Forest Service and Federal Emergency Management Agency personnel have responded to provide disaster aid and supplies. The US Forest Service has been tasked with organizing and staffing a receiving and distribution center for planning food and water distribution in Chuuk State and setting up operational planning on Chuuk and Guam. No new information was reported. This will be the last report unless significant activity occurs.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
FEMA-MICRONESIA-CHUUK	CA	OSC	---	---	---	304	0	0	0	445	NR

OUTLOOK:

High pressure over the Northwest Area will bring mostly sunny skies with isolated thunderstorms in southwestern Oregon. High temperatures will be in the 70's along the coast and mid 80's and 100's inland. Minimum relative humidity will range from 10 to 25 percent. Winds will be northwest to northeast at 5 to 15 mph and 25 mph west of the Cascade Mountains.

The Rocky Mountain Area can expect mostly sunny skies with scattered wet thunderstorms east of the Continental Divide and a slight chance of thunderstorms west of the Continental Divide. High temperatures will be in upper 60's to lower 80's in the mountains, 80's in the valleys and 90 to 95 over southern and western Colorado. Minimum relative humidity will range from 11 to 18 percent over the western Colorado lowlands and the 20 to low 30 percent range elsewhere. Winds will be from the north at 5 to 15 mph except over northeast Wyoming into western South Dakota with gusts to 25 mph out of the northwest.

The Eastern Great Basin Area can expect sunny skies with isolated thunderstorms over the mountains of Utah and southeast Idaho. High temperatures will be in the 80's in the mountains and 90 to 105 in the valleys. Minimum relative humidity will range from 13 to 25 percent in the mountains and 8 to 18 percent at lower elevations. Winds will be northwest to west at 10 to 20 mph with gusts up to 35 mph in the Bridger-Teton National Forest.

A cool front moving through the Northern Rockies Area will bring mostly sunny skies with isolated thunderstorms near the Wyoming border. High temperatures will be 75 to 85. Minimum relative humidity will range from 25 to 35 percent. Winds will be northwest at 5 to 15 mph in the west and 15 to 30 mph in the east.

The Western Great Basin Area can expect sunny skies with a slight chance of wet thunderstorms. High temperatures will be in the upper 80's to mid 90's in the north and mid 90's to 104 in the south. Minimum relative humidity will range from 10 to 18 percent. Winds will be southwest to west at 10 to 20 mph in the mountains, light elsewhere.
