

**INCIDENT MANAGEMENT SITUATION REPORT
SUNDAY, JULY 28, 2002 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was light across the nation. Nationally, 122 new fires were reported. Four became large fires, one each in the Northwest, Northern California, Western Great Basin and Northern Rockies Areas. Five large fires were contained, two in the Rocky Mountain Area, and one each in the Northern California, Eastern Great Basin and Northern Rockies Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Kansas, Montana, Nevada, Oregon, Utah, Washington and Wyoming.

NORTHWEST AREA LARGE FIRES:

Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. An Area Command Team (Mann) is assigned to manage large fires in southeast Oregon. An Area Command Team (Williams-Rhodes) is assigned to manage large fires on the Malheur and Ochoco National Forests. An Area Command Team (Ribar) is assigned to manage large fires in southwest Oregon.

SHELDON RIDGE, Central Oregon District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Keith) is assigned. This fire is located 7 miles south of Mosier, OR in timber, grass and brush. Extreme, wind driven, fire behavior with running and spotting was observed. Crews are burning out and building fireline with assistance from dozers. Aerial resources are assisting in suppression efforts. Two hundred residences and several outbuildings are threatened; structure protection is in place.

SKUNK, Winema National Forest. A Type 2 Incident Management Team (Gardner) is assigned. Burning in bitter brush and ponderosa pine, this fire is north of Sprague River, OR. Isolated torching smouldering and creeping were observed. Personnel are mopping up. Strong winds and low relative humidity are hampering containment efforts. Fifty residences, several outbuildings and commercial properties are threatened; structure protection is in place.

CACHE MOUNTAIN, Deschutes National Forest. A Type 2 Incident Management Team (Sandman) is assigned. This fire is 15 miles northwest of Sisters, OR in brush, slash and timber. Torching and spotting were observed. Dozers and crews are building direct attack fireline with support from aerial resources. The Black Butte Ranch subdivision, commercial properties, resorts and campgrounds are threatened.

TOOL BOX COMPLEX, Fremont National Forest. A Type 1 Incident Management Team (Gelobter) is assigned. This complex consists of the Tool Box, Silver and Lava fires which are approximately ten miles south of Silver Lake, OR. Spotting was observed in sage, ceanothus and

mixed conifer. Personnel are constructing and improving fireline while providing for structure protection. Sixty residences, a major power line and an extensive communications site are threatened.

WINTER, Klamath Lake District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Mair) is assigned. This fire is ten miles northwest of Paisley, OR. Moderate fire activity was observed in sagebrush, ceanothus, juniper and mixed conifer forest. Crews are constructing direct attack fireline, burning out and mopping up. Twenty residences are threatened.

TIMBERED ROCK, Southwest Oregon District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Thorpe) is assigned. This fire is 15 miles north of Shady Cove, OR burning in timber and dead down fuels. Long range spotting, torching and crowning were observed. Personnel are building fireline and burning out. Strong winds, low relative humidity and steep terrain are hampering containment efforts. Thirty-two residences and several outbuildings are threatened.

FLAGTAIL-MALHEUR COMPLEX, Malheur National Forest. A Type 1 Incident Management Team (Wood). This complex, consisting of the Flagtail, Roberts, Easy and several smaller fires, is burning in mixed conifer forest, eight to 25 miles south of Prairie City, OR. The Flagtail fire is contained. Spotting was observed due to gusting winds. Dozers are constructing fireline, crews are building handline and burning out.

NORTH UMPQUA COMPLEX, Umpqua National Forest. A Type 2 Incident Management Team (Jackson) is assigned. Burning in heavy timber, this complex of several fires is 25 miles east of Glide, OR. Torching, short range spotting and running were observed. Extremely rocky and steep terrain is hampering containment efforts. Crews are constructing fireline with assistance from aerial resources, improving established fireline and mopping up. Twenty residences and several outbuildings are threatened.

FLORENCE, Siskiyou National Forest. A Type 2 Incident Management Team (Joki) is assigned. This fire is 26 miles west of Grants Pass, OR. Extreme fire behavior was observed in mixed conifer and brush. Crews are building indirect attack fireline and burning out. Steep, inaccessible terrain is hampering containment efforts. Thirteen residences and several outbuildings are threatened.

WHITE RIVER, Prineville District, Bureau of Land Management. A Type 2 Incident Management Team (Kearney) was ordered. This fire, burning in grass, brush and juniper, is four miles north of Maupin, OR. Significant upslope running and spotting were observed. Crews are burning out and improving established fireline. One hundred residences and several outbuildings are threatened; structure protection is in place.

DEER POINT, Wenatchee National Forest. A Type 1 Incident Management Team (Vail) is assigned. This fire is 27 miles north of Chelan, WA. High winds resulted in torching and isolated running in mixed brush, ponderosa pine and lodgepole pine. Personnel are building indirect attack fireline and mopping up. Steep, rugged terrain with limited access is impeding suppression efforts. Seventy-five residences are threatened in and surrounding the communities of Manson and Chelan.

TILLER COMPLEX, Umpqua National Forest. A Type 2 Incident Management Team (Walker) is assigned. This complex is comprised of 94 reported fires on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, west of Tiller, OR. Active fire behavior was observed. Understory burn out operations have been successful. Fifteen residences are threatened.

MONUMENT, Malheur National Forest. A Type 1 Incident Management Team (Stutler) is assigned. U.S. Army Task Force Destroyer (1/5 FA 1st Battalion, 5th Regiment) commanded by Lt. Col. David R. Byrn Sr., at Ft. Riley, KS, is assigned. This fire is nine miles southwest of Unity, OR in mixed conifer forest, ponderosa pine and grass. Crews are improving established fireline and constructing indirect fireline. Seventy-five residences are threatened. Reduction in acreage was due to better mapping.

747 COMPLEX, Ochoco National Forest. A Type 1 Incident Management Team (Melton) is assigned. This complex consists of the 747 and Murray fires which are 10 to 15 miles south of Dayville, OR. The Murray fire is contained. Smouldering, creeping and isolated torching were observed in ponderosa pine, juniper, sage and grass. Aerial resources are assisting with burn out operations. Extremely rugged and inaccessible terrain is hampering suppression efforts. Four residences and several outbuildings are threatened.

SOUR BISCUIT, Siskiyou National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This fire, formerly of the Biscuit Complex, is 17 miles southwest of Cave Junction, OR with torching observed in mixed conifer and brush. Extremely steep, inaccessible terrain is impeding containment efforts.

PICKENS, Northeast Area, Washington State. This fire is five miles northeast of Tonasket, WA. Smouldering was observed in pine, grass and sage.

NORTHERN CALIFORNIA AREA LARGE FIRES:

STANZA, Klamath National Forest. A Type 2 Incident Management Team (Carlson) is assigned. This fire is burning in old growth timber ten miles south of Happy Camp, CA. Group torching, short range spotting and significant uphill runs were observed. Crews are burning out and improving established fireline.

EAGLE, Klamath National Forest. A Type 2 Incident Management Team (Szczepanik) has been ordered. This fire is approximately 15 miles west of Yreka, CA. Active fire behavior was observed in mixed conifer and brush. Personnel are mopping up. Limited access and steep, rugged terrain are hampering containment efforts.

WESTERN GREAT BASIN AREA LARGE FIRES:

SILVER 2, Carson City Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Terwilliger) has been ordered. This fire is six miles west of Topaz, CA in grass, sage,

juniper and pinyon pine. Very active fire behavior was observed with torching, running and spotting. Crews are burning out and constructing direct and indirect attack fireline. Extremely steep, rocky terrain is impeding containment efforts.

SILVER 2	NV	CCD	600	0	8/1	157	5	9	2	0	NR

EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

GARDEN VALLEY COMPLEX, Boise National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This complex, burning in sage, lodgepole pine and subalpine fir, consists of four major and ten smaller fires northeast of Garden Valley, ID. The fires are smouldering and creeping with occasional torching and spotting. Personnel have established several spike camps due to limited access. Steep, heavily forested terrain is hampering containment efforts.

RATTLE COMPLEX, Moab Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Van Bruggen) is assigned. This complex is 20 miles northeast of Green River, UT. Higher relative humidity and recent precipitation resulted in minimal fire behavior in aspen and mixed conifer forest. Crews are patrolling, mopping up and rehabilitating fireline. Difficult terrain and limited access are impeding containment efforts.

COUNTY LINE, Uintah and Ouray Agency, Bureau of Indian Affairs. This fire is 30 miles north of Green River, UT. Smouldering and limited interior torching were observed in sage, oak, pine and manzanita. Aerial resources are mopping up on the north flank. Containment efforts are hampered by inaccessible terrain.

CANYONS COMPLEX, Manti-LaSal National Forest. A Type 2 Incident Management Team (Mannelin) is assigned. This complex consists of the Hang Dog and Hammond fires which are eight miles northeast of Lasal and 15 miles northwest of Blanding, UT respectively. The fires are burning in serviceberry, sage, chaparral, gambel oak, pinyon pine, juniper and ponderosa pine. Crews are mopping up.

ROCKY MOUNTAIN AREA LARGE FIRES:

PEPPER, Rock Springs District, Bureau of Land Management. A Type 2 Incident Management Team (Benes) is assigned. This fire is 27 miles south of Rock Springs, WY in sage, grass, timber and heavy dead down fuels. Isolated smouldering and creeping were observed. Reduction in acreage was due to better mapping.

LOST GREEN COMPLEX, Routt National Forest. A Fire Use Management Team (Cook) is assigned. A transfer of command for the Green Creek fire to the Routt National Forest will occur at 0600 MDT. This complex is comprised of the Lost Lake, Green Creek and Big Fish fires which are 30 miles southwest and 14 miles southeast of Steamboat Springs, CO respectively. Higher relative humidity and precipitation resulted in smouldering fire behavior in heavy dead and down spruce and fir. Twelve residences are threatened.

HENSEL, Medicine Bow National Forest. This fire is burning in bug kill ponderosa pine 20 miles northwest of Wheatland, WY. Minimal fire activity with smouldering was observed. Difficult terrain is impeding containment efforts.

NORTHERN ROCKIES AREA LARGE FIRES:

Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

RED WAFFLE, Custer National Forest. This fire is 35 miles southeast of Bridger, MT with minimal fire behavior observed in ponderosa pine, brush and grass. Steep, rocky and difficult terrain is hampering containment efforts on the east flank. Personnel are mopping up.

BROAD, Yellowstone National Park. This fire is burning in old growth lodgepole pine and Douglas fir 20 miles southeast of Mammoth, WY. Precipitation resulted in minimal fire behavior with smouldering and creeping. Crews are mopping up.

OUTLOOK:

*****A RED FLAG WARNING HAS BEEN POSTED IN SOUTHWEST OREGON FOR STRONG NORTH-NORTHEAST WINDS AND LOW RELATIVE HUMIDITY*****

*****A RED FLAG WARNING HAS BEEN POSTED IN NORTHERN CALIFORNIA FOR LOW RELATIVE HUMIDITY RECOVERY AND MODERATE NORTH WINDS IN THE NORTHERN SACRAMENTO VALLEY*****

The Northwest Area can expect mostly sunny skies. High temperatures will be in the 60's along the coast, 70's to 80's in northwest Oregon and western Washington, 80 to 95 elsewhere. Minimum relative humidity will range from 10 to 20 percent east of the Cascade Mountains and southwest Oregon; 35 to 50 percent elsewhere. Winds will be northwest to northeast at 10 to 25 mph except 20 to 30 mph on the east slopes of the Cascade Mountains.

Sunny skies are expected over the Southern California Area. High temperatures will be in the upper 60's to mid 70's in coastal areas, upper 70's to low 90's in the mountains, and 90's to 110 in inland valleys and deserts. Minimum relative humidity will range from 15 to 30 percent in the mountains and inland valleys, 8 to 20 percent in the deserts and 30 to 45 percent in coastal valleys. Winds will be onshore 8 to 15 mph at the coast and southeast to southwest at 8 to 18 mph elsewhere.

High pressure will bring sunny skies to the Northern California Area. High temperatures will be in the 60's and 70's along the coast and 80's to 104 inland. Minimum relative humidity will range from 10 to 20 percent and winds will be north to northeast at 10 to 20 mph and higher in the red flag areas.

The Eastern Great Basin Area can expect mostly sunny skies. Temperatures will be 75 to 90 in Idaho and Wyoming, 90 to 104 elsewhere. Minimum relative humidity will range from 10 to 25 percent in the mountains and 7 to 18 percent at lower elevations. Winds will be west at 10 to 20 mph.

A cool front moving through the Rocky Mountain Area will bring partly sunny skies with isolated showers and thunderstorms to the north and possible dry lightning over northeast Colorado. High temperatures will be from 65 to the 70's in the mountains and 70's to the low 90's at lower elevations. Minimum relative humidity will range from 9 to 17 percent in the Colorado lowlands and 20 to 30 percent in the mountains and elsewhere. Winds will be west to northwest at 10 to 20 mph.

A mild northwest flow across the Northern Rockies Area will bring mostly sunny skies and isolated thunderstorms. High temperatures will be 75 to 85 and minimum relative humidity will range from 25 to 35 percent. Winds will be northwest at 15 to 30 mph in the north and 10 to 20 mph in the south.
