

**INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, JULY 30, 2002 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was light across the nation. Nationally, 132 new fires were reported. Two became large fires, one each in the Southern California and Rocky Mountain Areas. Two large fires were contained, one each in the Northwest and Southern California Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Kansas, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

NORTHWEST AREA LARGE FIRES:

Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. An Area Command Team (Mann) is assigned to manage large fires in southeast Oregon. An Area Command Team (Williams-Rhodes) is assigned to manage large fires on the Malheur and Ochoco National Forests. An Area Command Team (Ribar) is assigned to manage large fires in southwest Oregon.

CACHE MOUNTAIN, Deschutes National Forest. A Type 2 Incident Management Team (Sandman) is assigned. This fire is 15 miles northwest of Sisters, OR. Active fire behavior with torching and spotting on the south and east flanks was observed in brush, slash and timber. Crews are building fireline on the northwest flank and mopping up on the north flank. Structure protection is in place for 1300 threatened residences and several commercial properties. Highway 20 has been re-opened. The Black Butte Ranch subdivision remains evacuated.

SHELDON RIDGE, Central Oregon District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Keith) is assigned. This fire is located 7 miles south of Mosier, OR in timber, grass and brush. Active fire behavior was observed. Crews and dozers are burning out and building fireline. Aerial resources are assisting in suppression efforts. Two hundred residences and numerous outbuildings are threatened; structure protection is in place.

FLORENCE, Siskiyou National Forest. A Type 1 Incident Management Team (Lohrey) will assume command today. This fire is 26 miles west of Grants Pass, OR. Extreme fire behavior was observed in mixed conifer and brush. Steep, inaccessible terrain is hampering containment efforts. The Illinois River Valley is under a 24 to 48 hour evacuation notice. Thirteen residences and several outbuildings are threatened; structure protection is in place.

TIMBERED ROCK, Southwest Oregon District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Thorpe) is assigned. This fire is 15 miles north of Shady Cove, OR burning in timber and dead down fuels. Active fire behavior was

observed. Crews are constructing fireline on the west and southeast flanks while providing for structure protection. One hundred forty-three residences and several outbuildings are threatened. Two outbuildings were confirmed lost. Local road closures are in effect.

SOUR BISCUIT, Siskiyou National Forest. A Type 2 Incident Management Team (Broyles) is assigned to manage the Oregon portion of the fire. A Type 2 Incident Management Team (Szczepanik) is assigned to manage the California portion of the fire. This fire is 17 miles southwest of Cave Junction, OR in mixed conifer and brush. High winds resulted in torching, spotting and significant runs. The fire now extends six miles into California. Crews are constructing and improving fireline on the north and east flanks as well as preparing for burn out operations. Extremely steep, inaccessible terrain is impeding containment efforts.

NORTH UMPQUA COMPLEX, Umpqua National Forest. A Type 2 Incident Management Team (Jackson) is assigned. Burning in heavy timber, this complex of several fires is 25 miles east of Glide, OR. Active fire behavior with torching, short range spotting and running was observed. Extremely rocky and steep terrain is hampering containment efforts. Crews are improving established fireline, burning out and mopping up. Twenty residences and several outbuildings are threatened.

FLAGTAIL-MALHEUR COMPLEX, Malheur National Forest. A Type 1 Incident Management Team (Wood) is assigned. This complex, consisting of the Flagtail, Roberts, Easy and several smaller fires, is burning in mixed conifer forest, eight to 25 miles south of Prairie City, OR. Torching and interior burning were observed. Crews are constructing direct attack fireline, mopping up and rehabilitating fireline.

TILLER COMPLEX, Umpqua National Forest. A Type 2 Incident Management Team (Walker) is assigned. A Type 1 Incident Management Team (Bennett) has been ordered. This complex is comprised of 94 reported fires on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, west of Tiller, OR. Crews are patrolling and mopping up. Fifteen residences are threatened.

SKUNK, Winema National Forest. A Type 2 Incident Management Team (Gardner) is assigned. Burning in bitter brush and ponderosa pine, this fire is north of Sprague River, OR. Smouldering and creeping were observed. Personnel are mopping up.

TOOL BOX COMPLEX, Fremont National Forest. A Type 1 Incident Management Team (Gelobter) is assigned. This complex consists of the Tool Box, Silver and Lava fires which are approximately ten miles south of Silver Lake, OR. Individual tree torching was observed in sage, ceanothus and mixed conifer. Sixty residences, a major power line and an extensive communications site are threatened; structure protection is in place.

WINTER, Klamath Lake District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Mair) is assigned. This fire is ten miles northwest of Paisley, OR. Minimal fire activity was observed in sagebrush, ceanothus, juniper and mixed conifer forest. Crews are constructing direct attack fireline, burning out and mopping up. Twenty residences are threatened.

MONUMENT, Malheur National Forest. A Type 1 Incident Management Team (Stutler) is assigned. U.S. Army Task Force Destroyer (1/5 FA 1st Battalion, 5th Regiment) commanded by Lt.

Col. David R. Byrn Sr., at Ft. Riley, KS, is assigned. This fire is nine miles southwest of Unity, OR in mixed conifer forest, ponderosa pine and grass. Favorable weather conditions moderated fire behavior with only interior burning observed. Crews are improving and rehabilitating established fireline.

747 COMPLEX, Ochoco National Forest. A Type 1 Incident Management Team (Melton) is assigned. This complex consists of the 747 and Murraby fires which are 10 to 15 miles south of Dayville, OR. The Murray fire is contained. Active fire behavior was observed in ponderosa pine, juniper, sage and grass. Crews are patrolling and mopping up. Extremely rugged and inaccessible terrain is hampering suppression efforts. Four residences and several outbuildings are threatened.

DEER POINT, Wenatchee National Forest. A Type 1 Incident Management Team (Vail) is assigned. This fire is 27 miles north of Chelan, WA. Short surface runs, torching and short range spotting were observed in mixed brush, ponderosa pine and lodgepole pine. Personnel are burning out and mopping up. Seventy-five residences are threatened in and surrounding the communities of Manson and Chelan.

PICKENS, Northeast Area, Washington State. This fire is five miles northeast of Tonasket, WA in pine, grass and sage. No new information was reported. This will be the last report unless new information is received.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

MCNALLEY, Sequoia National Forest. A Type 1 Incident Management Team (Humphrey) is assigned. This fire is burning in heavy brush and mixed conifer forest 12 miles north of Kernville, CA. Extremely active fire behavior was observed with torching, spotting and upslope runs. Crews are burning out, constructing indirect attack fireline and mopping up. Limited access and difficult terrain are hampering containment efforts. The Giant Sequoia National Monument and 12 residences are threatened; structure protection is in place.

PINES, Monte Vista Unit, California Department of Forestry and Fire Protection. A California Department of Forestry and Fire Protection (CDF) Type 2 Incident Command Team (Davis) is assigned. A CDF Type 1 Incident Command Team (Ristow) has been ordered. This fire is near the town of Julian, CA in sage and manzanita. Spotting up to half a mile ahead of the front was observed. Hwy 78 is closed in the vicinity of the fire.

ROCKY MOUNTAIN AREA LARGE FIRES:

LONG MESA, Mesa Verde National Park. A Type 2 Incident Management Team (Sisk) has been ordered. This fire is 9 miles southeast of Cortez, CO in pinyon and juniper. Extreme fire behavior was observed. The Mesa Verde National Park has been closed and evacuated. Twelve residences and several commercial properties are threatened; four residences and three

commercial properties were confirmed lost.

PEPPER, Rock Springs District, Bureau of Land Management. A Type 2 Incident Management Team (Benes) is assigned. This fire is 27 miles south of Rock Springs, WY in sage, grass, timber and heavy dead down fuels. Minimal fire behavior was observed. Crews are mopping up and rehabilitating fireline.

LOST GREEN COMPLEX, Routt National Forest. A Fire Use Management Team (Cook) is assigned. This complex is comprised of the Lost Lake and Big Fish fires which are 34 miles southwest of Steamboat Springs, CO. Precipitation resulted in smoldering and creeping in heavy dead and down spruce and fir. Difficult terrain and limited access are hampering containment efforts.

HENSEL, Medicine Bow National Forest. This fire is burning in bug kill ponderosa pine 20 miles northwest of Wheatland, WY. Minimal fire activity with smoldering was observed. Difficult terrain is impeding containment efforts.

WESTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

SILVER 2, Carson City Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Terwilliger) is assigned. This fire is six miles west of Topaz, CA in grass, sage, juniper and pinyon pine. Minimal fire behavior was observed. Crews are constructing direct and indirect attack fireline and mopping up. Extremely steep, rocky terrain is impeding containment efforts. The Carson Iceberg Wilderness area and several outbuildings are threatened.

EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

GARDEN VALLEY COMPLEX, Boise National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This complex, burning in sage, lodgepole pine and subalpine fir, consists of four major and ten smaller fires northeast of Garden Valley, ID. Smouldering and creeping with intermittent torching and spotting were observed. Steep, heavily forested terrain is hampering containment efforts.

COUNTY LINE, Uintah and Ouray Agency, Bureau of Indian Affairs. This fire is 30 miles north of Green River, UT. Smouldering and limited torching were observed in sage, oak, pine and manzanita within the interior. Crews are constructing fireline and burning out. Aerial resources are assisting suppression efforts.

RATTLE COMPLEX, Moab Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Van Bruggen) is assigned. This complex is 20 miles northeast of Green River, UT. Moderate fire behavior in aspen and mixed conifer forest was observed. Crews are patrolling, mopping up and rehabilitating fireline.

CANYONS COMPLEX, Manti-LaSal National Forest. This complex consists of the Hang Dog and Hammond fires which are eight miles northeast of Lasal and 15 miles northwest of Blanding, UT respectively. Minimal fire behavior was observed. This will be the last report unless significant activity occurs.

NORTHERN ROCKIES AREA LARGE FIRES:

Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

OXBOW, Craig Mountain Area Office, Idaho Department of Lands. This previously reported fire is 13 miles west of Cottonwood, ID with minimal fire behavior observed in grass and timber. Personnel are rehabilitating fireline, patrolling and mopping up.

RED WAFFLE, Custer National Forest. This fire is 35 miles southeast of Bridger, MT with minimal fire behavior observed in ponderosa pine, brush and grass. Steep, rocky and difficult terrain is hampering containment. Personnel are mopping up.

BROAD, Yellowstone National Park. This fire is burning in old growth lodgepole pine and Douglas fir 20 miles southeast of Mammoth, WY. Minimal fire behavior with smouldering and creeping. Aerial resources are mopping up. This will be the final report unless significant activity occurs.

OUTLOOK:

***** A FIRE WEATHER WATCH HAS BEEN ISSUED IN SOUTH CENTRAL AND SOUTHEAST MONTANA FOR DRY LIGHTNING AND GUSTY WINDS *****

The Northwest Area can expect mostly sunny skies with showers in western Washington. High temperatures will be 60's to 70's west of the Cascade Mountains, 70's to 80's east and 90's in southwest Oregon. Minimum relative humidity will range from above 40 percent in western Washington, ten percent in southeast Oregon and 15 to 25 percent elsewhere. Winds with gusts from 35 to 40 mph will occur east of the Cascade Mountains.

Mostly sunny skies are expected over the Southern California Area with a slight chance of isolated thunderstorms. High temperatures will be in the 70's to low 80's in coastal areas, mid 80's to 90's in the mountains, 90's to 105 in inland valleys and high deserts and 105 to 112 in the low deserts. Minimum relative humidity will range from 15 to 30 percent in the mountains and inland valleys, 8 to 20 percent in the deserts and 45 to 60 percent in coastal areas. Winds will be onshore 8 to 15 mph at the coast and southeast to southwest at 8 to 18 mph elsewhere.

High pressure will bring sunny skies to the Northern California Area. High temperatures will be in the mid 60's and 70's along the coast and 80's to 102 inland. Minimum relative humidity will range from 12 to 22 percent and winds will be north to northeast at 7 to 15 mph in the far northwest; variable at 4 to 8 mph elsewhere.

High pressure will bring mostly sunny skies to the Rocky Mountain Area with isolated to scattered wet thunderstorms in Colorado. High temperatures will be from the 70's to mid 80's in the mountains and 85 to 96 at lower elevations. Minimum relative humidity will range from 9 to 14 percent at lower elevations and 16 to 22 percent in the mountains. Winds will be variable at 8 to 16 mph except in Wyoming which can expect winds from the west at 10 to 25 mph.

The Western Great Basin Area can expect mostly sunny skies. Temperatures will be in the 80's in the mountains, 90's in the valleys and 105 in the extreme south. Minimum relative humidity will be in the mid teens. Winds will be north to northeast at 5 to 15 mph.

The Eastern Great Basin Area can expect mostly sunny skies. Temperatures will be 70s to 80s in the mountains and 90s to 105 at lower elevations. Minimum relative humidity will range from 15 to 25 percent in the mountains and 5 to 15 percent at lower elevations.

High pressure over the Northern Rockies Area will bring mostly sunny skies with isolated thunderstorms. High temperatures will be 75 to 85 west of the Continental Divide and 85 to 95 to the east. Minimum relative humidity will range from 18 to 28 percent west of the Continental Divide, 10 to 20 percent east. Winds will be west at 10 to 20 mph except east of the Continental Divide where winds will be 15 to 30 mph.
