

**INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, AUGUST 1, 2002 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was light across the nation. Nationally, 112 new fires were reported. Three became large fires, two in the Rocky Mountain Area and one in the Southwest Area. Five large fires were contained, three in the Northwest Area, one each in the Western Great Basin and Eastern Great Basin Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

NORTHWEST AREA LARGE FIRES:

Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. An Area Command Team (Mann) is assigned to manage large fires in southeast Oregon. An Area Command Team (Williams-Rhodes) is assigned to manage large fires on the Malheur and Ochoco National Forests. An Area Command Team (Ribar) is assigned to manage large fires in southwest Oregon.

FLORENCE, Siskiyou National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. A Type 1 Incident Management Team (Martin) has been ordered. This fire is 26 miles west of Grants Pass, OR in mixed conifer and brush. Very high fire activity was observed with extensive group tree torching. Crews and engines are constructing indirect fireline, burning out and providing for structure protection. Steep, inaccessible terrain is hampering containment efforts. The Illinois River Valley is under a 24 hour evacuation notice. Structure protection is in place; 3400 residences, 250 commercial properties and 2200 outbuildings are threatened.

TIMBERED ROCK, Southwest Oregon District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Thorpe) is assigned. This fire is 15 miles north of Shady Cove, OR. Active fire behavior was observed in timber and heavy dead down fuels. Crews are burning out. One hundred forty-three residences and several outbuildings are threatened.

SOUR BISCUIT, Siskiyou National Forest. A Type 1 Incident Management Team (Bennett) and a Type 2 Incident Management Team (Broyles) are assigned. This fire is 17 miles southwest of Cave Junction, OR in mixed conifer and brush. Creeping and occasional torching was observed as crews constructed fireline on the east flank with assistance from aerial resources.

CACHE MOUNTAIN, Deschutes National Forest. A Type 2 Incident Management Team (Sandman) is assigned. This fire is 15 miles northwest of Sisters, OR. Isolated torching was observed in the interior in brush, slash and timber. Engines and crews are mopping up and

providing structure protection; 1300 residences and several commercial properties are threatened. Evacuated residents from the Black Butte Ranch subdivision have been allowed to return to their homes.

NORTH UMPQUA COMPLEX, Umpqua National Forest. A Type 2 Incident Management Team (Jackson) is assigned. Burning in heavy timber, this complex of several fires is 25 miles east of Glide, OR. Interior burning was observed. Extremely rocky and steep terrain is hampering containment efforts. Crews are mopping up. Twenty residences and several outbuildings are threatened.

FLAGTAIL-MALHEUR COMPLEX, Malheur National Forest. A Type 1 Incident Management Team (Wood) is assigned. This complex, consisting of the Flagtail, Roberts, Easy and several smaller fires, is burning in mixed conifer forest, eight to 25 miles south of Prairie City, OR. Crews are constructing fireline and mopping up. Unfavorable weather conditions and spotting are impeding containment efforts.

TILLER COMPLEX, Umpqua National Forest. A Type 2 Incident Management Team (Walker) is assigned. This complex is comprised of 94 reported fires on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, east of Tiller, OR in grass, brush and timber. Personnel are building fireline and mopping up. Fifteen residences are threatened.

TOOL BOX COMPLEX, Fremont National Forest. A transfer of command from Gelobter's Type 1 Incident Management Team to Hefner's Type 1 Incident Management Team will occur at 0600 PDT on 8/2. This complex consists of the Tool Box, Silver and Lava fires which are approximately ten miles south of Silver Lake, OR in sage, ceanothus and mixed conifer. Active fire behavior in the interior was observed. Sixty residences, a major power line and an extensive communications site are threatened; structure protection is in place.

MONUMENT, Malheur National Forest. A transfer of command from Stutler's Type 1 Incident Management Team to Morcom's Type 2 Incident Management Team will occur at 0600 PDT today. U.S. Army Task Force Destroyer (1/5 FA 1st Battalion, 5th Regiment) commanded by Lt. Col. David R. Byrn Sr., at Ft. Riley, KS, is assigned. This fire is nine miles southwest of Unity, OR in mixed conifer forest, ponderosa pine and grass. Crews are patrolling and rehabilitating established fireline.

747 COMPLEX, Ochoco National Forest. A transfer of command from Melton's Type 1 Incident Management Team to a Type 3 organization will occur at 1800 PDT today. This complex consists of the 747 and Murray fires which are 10 to 15 miles south of Dayville, OR. The Murray fire is contained. Minimal fire activity was observed in ponderosa pine, juniper, sage and grass. Crews are mopping up and rehabilitating fireline. Four residences and several outbuildings are threatened.

DEER POINT, Wenatchee National Forest. A Type 1 Incident Management Team (Vail) is assigned. This fire is 27 miles north of Chelan, WA. Fire activity included short surface runs, torching and short range spotting in mixed brush, ponderosa pine and lodgepole pine. Crews are burning out on the north and east flanks and mopping up on the south and west flanks. Seventy-five residences are threatened in and surrounding the communities of Manson and Chelan.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

PINES, San Diego Unit, California Department of Forestry and Fire Protection. A California Department of Forestry and Fire Protection Type 1 Incident Command Team (Ristow) is assigned. This fire is near the town of Julian, CA in sage, chaparral, manzanita and timber. Low relative humidity and strong erratic winds led to extreme fire behavior. Crews, engines and dozers are constructing fireline and providing for structure protection. Hwy 78 is closed in the vicinity of the fire. Evacuations are in effect for several communities; 300 residences, numerous commercial properties and 100 outbuildings are threatened. Five additional residences and seven more structures were confirmed lost.

MCNALLEY, Sequoia National Forest. A Type 1 Incident Management Team (Humphrey) is assigned. This fire is burning in heavy brush and mixed conifer forest 12 miles north of Kernville, CA. Very active fire behavior was observed in Rattlesnake Canyon. Crews are constructing fireline on the southeast flank and burning out. The Giant Sequoia National Monument and 12

residences are threatened; structure protection is in place.

ROCKY MOUNTAIN AREA LARGE FIRES:

PANORAMA, Garfield County. This fire is five miles north of El Jebel, CO in sage, oakbrush, pinyon pine and juniper. Torching and spotting fire behavior was observed. One hundred residences are threatened; structure protection is in place. Two residences and one structure were confirmed lost.

LONG MESA, Mesa Verde National Park. A Type 2 Incident Management Team (Sisk) is assigned. This fire is nine miles southeast of Cortez, CO in pinyon pine and juniper. Active fire behavior with one run was observed. Crews and engines are constructing fireline and providing for structure protection. The Mesa Verde National Park has been closed and evacuated. Eighty residences and several of the National Park's offices and management buildings are threatened.

HORSE LOOKING, Rosebud Agency, Bureau of Indian Affairs. This fire is northwest of St. Francis, SD in grass and ponderosa pine. Creeping and occasional torching fire behavior was observed. Evacuated residents of St. Francis were allowed to return to their homes. Crews are constructing fireline. Engines are providing structure protection for 20 threatened residences, one commercial property and several other structures.

NORTH BARCUS, Craig District, Bureau of Land Management. This fire is 20 miles east of Rangely, CO in sage, pinyon pine and juniper. Extreme fire behavior with spotting and significant running was observed. Dry fuels and long range spotting are hampering containment efforts. Two outbuildings are threatened.

HENSEL, Medicine Bow National Forest. This fire is burning in bug kill ponderosa pine 20 miles northwest of Wheatland, WY. Fire activity was minimal with smouldering only.

LOST GREEN COMPLEX, Routt National Forest. This complex is comprised of the Lost Lake and Big Fish fires which are 34 miles southwest of Steamboat Springs, CO. These fires are in monitor status. This will be the last report unless significant activity occurs.

NORTHERN CALIFORNIA AREA LARGE FIRES:

STANZA, Klamath National Forest. A Type 1 Incident Management Team (Raley) is assigned. This fire is burning in mixed conifer old growth ten miles south of Happy Camp, CA. Minimal fire activity with isolated torching was observed. Difficult terrain and extremely dry fuels are hampering containment efforts. Crews are performing burn out operations and mopping up.

SHELLY CREEK, Six Rivers National Forest. A Type 2 Incident Management Team (Szczepanik) is assigned. This fire is ten miles east of Gasquet, CA in heavy brush and mixed conifer forest. Torching, spotting and running were observed. Crews are constructing fireline and burning out. Limited access and steep terrain is hampering containment efforts. Highway 199 is closed.

EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

GARDEN VALLEY COMPLEX, Boise National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This complex, burning in sage, lodgepole pine and subalpine fir, consists of four major and several smaller fires northeast of Garden Valley, ID. Fire activity included

smouldering, creeping and intermittent torching. Crews are patrolling and mopping up. Extreme terrain is hampering containment efforts.

SEQUOIA, Dixie National Forest. This fire is 26 miles southwest of Cedar City, UT in chaparral and ponderosa pine. Occasional torching fire behavior was observed. Extreme terrain with limited access is requiring the use of aerial resources in assisting suppression efforts.

COUNTY LINE, Uintah and Ouray Agency, Bureau of Indian Affairs. This fire is 30 miles north of Green River, UT. Isolated torching was observed in sage, oak, pine and manzanita. Crews and engines are burning out and mopping up.

OUTLOOK:

*****A RED FLAG WARNING HAS BEEN POSTED IN SOUTHWEST OREGON FOR STRONG NORTHEAST WINDS AND LOW RELATIVE HUMIDITY*****

The Northwest Area can expect mostly sunny skies. High temperatures will be in the 70's and 80's. Minimum relative humidity will be above 50 percent in western Washington and will range from 18 to 30 percent elsewhere. Winds will be north at 20 mph with higher gusts in southwest Oregon, light with gusts from the west up to 35 mph on the east slopes of the Cascade Mountains and variable elsewhere.

Mostly sunny skies are expected over the Southern California Area with a slight chance of isolated thunderstorms. High temperatures will be in the 70's to 90's in the mountains and coastal areas, mid 90's to 115 in inland valleys and deserts. Minimum relative humidity will range from 15 to 30 percent in the mountains and inland valleys, 10 to 25 percent in the deserts and 30 to 70 percent in coastal areas. Winds will be onshore at 8 to 15 mph on the coast, southeast to southwest at 8 to 18 mph elsewhere.

High pressure will bring mostly sunny skies to the Northern California Area. High temperatures will be in the mid 60's and 70's along the coast and 80's to 90's inland. Minimum relative humidity will range from 17 to 27 percent, winds will be southwest to northwest at 6 to 20 mph and variable at 4 to 12 mph elsewhere.

The Rocky Mountain Area can expect scattered thunderstorms with isolated dry lightning over Colorado. High temperatures will be from the mid 60's to mid 80's and minimum relative humidity will range from 13 to 35 percent. Winds will be light and variable.

The Western Great Basin Area can expect partly sunny skies with scattered wet and dry thunderstorms. Temperatures will be in the upper 80's to near 100 in the south. Minimum relative humidity will be from the teens to low 20 percent range. Winds will be southwest at 10 to 20 mph.

Subtropical moisture moving into the Eastern Great Basin Area will bring partly sunny skies and widely scattered thunderstorms. Temperatures will be in the mid 70s to near 90 in the north and 80s to 106 in the south. Minimum relative humidity will range from 15 to 28 percent in the mountains and 6 to 15 percent at lower elevations. Winds will be southwest to west at 10 to 20 mph gusting to 30 mph.

The Northern Rockies Area can expect mostly sunny skies. High temperatures will be from 65 to 75 in western North Dakota to the mid 90's in northern Idaho. Minimum relative humidity will range from 15 to 25 percent west of the Continental Divide, 25 to 35 percent east. Winds will be northwest at 15 to 25 mph in North Dakota, southeast at 5 to 15 mph in eastern Montana and variable elsewhere.
