

**INCIDENT MANAGEMENT SITUATION REPORT
SUNDAY, AUGUST 18, 2002 0530 MDT
NATIONAL PREPAREDNESS LEVEL 4**

CURRENT SITUATION:

Initial attack activity was light across the nation. Nationally, 130 new fires were reported. Four of these became large fires, one each in the Northwest, Rocky Mountain, Southern California and Western Great Basin Areas. No large fires were contained. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Kansas, Massachusetts, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

NORTHWEST AREA LARGE FIRES:

Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. An Area Command Team (Mann) is assigned to manage large fires in southwest Oregon and northern California. The Oregon State Fire Marshall's Office is assisting the Area Command Team with contingency planning.

BISCUIT, Siskiyou and Six Rivers National Forests. A Unified Command between three Type 1 Incident Management Teams (Bateman, Frye, Vail), a Type 2 Incident Management Team (Bright), and the Oregon Department of Forestry is in place. The fire is burning in mixed conifer forest and brush, 26 miles southwest of Grants Pass, OR. Fire behavior was extreme on the north, northwest and northeast flanks and moderate on the west flank. Burn out operations are underway on the northeast perimeter. Crews are constructing indirect and direct attack fireline on the northwest and west flanks. Evacuations are in place for residents on Spud Road and in the Oak Flats area south of Agness. Residents in the upper Pistol River drainage and Agness remain under an evacuation advisory. Galice, O'Brian, Cave Junction, Brookings, Kerby, Selma and Agness are threatened; structure protection is in place.

APPLE, Umpqua National Forest. A Type 2 Incident Management Team (Carlson) is assigned. This fire is 21 miles east of Glide, OR. Extreme fire behavior with crowning and torching was observed in heavy timber. Twenty homes are threatened; structure protection is in place.

TILLER COMPLEX, Umpqua National Forest. A Unified Command between a Type 1 Incident Management Team (Hart) and the Oregon Department of Forestry is in place. This complex, consisting of eight large and numerous small fires, is on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, 25 miles east of Canyonville, OR. Short crown runs, torching and spotting were observed in grass, brush and timber on the north and west flanks. Crews are building indirect and direct attack fireline and conducting burn out operations. Sixty-seven homes are threatened; structure protection is in place.

EAST ANTELOPE, Southwest Oregon District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Keith) is assigned. This fire is seven miles

northeast of Ashland, OR. No new information was reported.

MT. MARION, Willamette National Forest. A Type 2 Incident Management Team (Jackson) is assigned. This fire is in the Mt. Jefferson Wilderness Area, 14 miles southeast of Idanha, OR. Moderate fire behavior was observed in the interior in mountain hemlock, subalpine fir and brush. Crews are improving fireline and mopping up.

DEER POINT, Wenatchee National Forest. A Washington Interagency Incident Management Team (Furlong/Gormley) is assigned to manage this fire and the Deer Mountain fire. The fire is burning seven miles northwest of Chelan, WA in sagebrush, ponderosa pine and lodgepole pine. Torching and short runs were observed in unburned islands in the interior and in the Grade Creek drainage. Crews are mopping up and rehabilitating firelines.

MONUMENT-MALHEUR COMPLEX, Malheur National Forest. A Type 2 Incident Management Team (Swope) is assigned. This complex is burning in sagebrush, ponderosa pine and mixed conifer forest, southwest of Unity, OR. Active fire behavior was observed in unburned interior islands. Crews continue to make good progress mopping up and rehabilitating firelines.

DEER MOUNTAIN, Southeast Washington State. A Washington Interagency Incident Management Team (Furlong/Gormley) is assigned. This fire is within the city limits of Chelan, WA. Creeping, smouldering and occasional torching were observed in grass, bitter brush and scattered pine. Crews made excellent progress constructing fireline and burning out. Evacuated residents were allowed to return to their homes yesterday.

HALEY CREEK, Colville Agency, Bureau of Indian Affairs. A Washington Interagency Incident Management Team (Berndt/Andring) is assigned. This fire is ten miles southeast of Omak, WA. No new information was reported.

FERRY COMPLEX, Northeast Washington State. A Washington Interagency Incident Management Team (Dutton/Holloway) is assigned. This complex, comprised of Malo, Curlew and East Lake fires, is between Curlew, WA and Curlew Lake. Crews and dozers are constructing fireline. Fifty homes are threatened; structure protection is in place.

ROCKY MOUNTAIN AREA LARGE FIRES:

BATTLE CREEK, Black Hills National Forest. A Type 1 Incident Management Team (Wood) has been ordered. This fire is ten miles southwest of Rapid City, SD. Extreme fire behavior with crowning, torching and running was observed in ponderosa pine and grass as the fire advanced north. Dozers are constructing fireline in preparation for a burn out. Rockerville was evacuated yesterday and a pre-evacuation notice was issued to Keystone. Hayward and the Mount Rushmore estates remain evacuated; structure protection is in place. Mount Rushmore National Monument is threatened. Two additional residences and an outbuilding were confirmed lost during the initial phase of the fire.

MT. ZIRKEL COMPLEX, Routt National Forest. A Type 2 Incident Management Team (Sisk) and a Fire Use Management Team (Zimmerman) are assigned. A Type 1 Incident Management Team (Gelobter) has been ordered. This complex, previously reported as the Burn Ridge and Hinman fires, is 25 miles north of Steamboat Springs, CO. Extreme, wind driven fire behavior with crowning, torching and long range spotting was observed in heavy dead and down spruce, lodgepole pine and fir. Crews are constructing fireline on the west flank. Aerial operations were suspended due to high winds. Thirty homes are threatened; structure protection is in place.

GREEN CREEK, Routt National Forest. A Type 2 Incident Management Team (Hartman) has been ordered. This previously reported fire, which began on July 14th, is 15 miles southeast of Steamboat Springs, CO. Extreme fire behavior was observed in spruce, fir and lodgepole pine as the fire advanced east. Twelve homes and numerous outbuildings at Lake Agnes are threatened; structure protection is in place.

BIG FISH, White River National Forest. A Fire Use Management Team (Cook) is assigned. The Team is also managing the Lost Lakes fire. This lightning-caused Wildland Fire Use Incident, which started on July 19th, is 34 miles southwest of Steamboat Springs, CO. The fire is being managed for resource benefit and a confinement strategy is in place. Torching, spotting and crowning were observed as the fire advanced east-northeast in heavy dead and down spruce, fir and aspen. Structure protection is in place at the Rio Blanco Guest Ranch. Two additional cabins and Trapper Lake Lodge were confirmed lost.

SHAFF #2, San Juan National Forest. This fire is four miles north of Cascade, CO. Moderate fire behavior was observed in mixed conifer forest. Crews are flanking the fire with direct attack fireline. Two outbuildings are threatened; structure protection is in place.

LOST LAKES, Routt National Forest. A Fire Use Management Team (Cook) is assigned. This fire is 20 miles west of Yampa, CO. The fire is being managed for resource benefit and is in monitor status. Active fire behavior was observed in bug kill spruce and fir.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

REDHILL, Los Padres National Forest. A Type 2 Incident Management Team (Dorn) has been ordered. This fire is 12 miles east of Paso Robles, CA. Moderate fire behavior was observed in brush, grass and oak woodland. Crews and dozers are constructing direct attack fireline with support from aerial resources. Twenty-five homes are threatened; structure protection is in place. Highway 58 is closed.

MCNALLY, Sequoia and Inyo National Forests. A transfer of command from Studebaker's Type 1 Incident Management Team to Raley's Type 1 Incident Management Team will occur at 0600 PDT. This fire is burning in heavy brush and mixed conifer forest, nine miles north of Kernville, CA. Short runs and torching were observed on the northwest and northeast flanks. Burn out operations were successfully completed from Osa Meadow to Long Valley. Crews are constructing indirect and direct attack fireline, patrolling and mopping up. Fire Use Modules are providing structure protection for remote cabins.

WOLF COMPLEX, Yosemite National Park. This previously reported Wildland Fire Use Incident, which began on July 11th, is near White Wolf Lodge. The fire was ignited by lightning and is being managed for resource benefit. Moderate to low fire behavior was observed in lodgepole pine and red fir. Preparations are underway to hold the fire west of White Wolf Road. This will be the last report unless significant activity occurs.

NORTHERN ROCKIES AREA LARGE FIRES:

SHEEP CREEK, Beaverhead-Deerlodge National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire is 16 miles west of Wisdom, MT. Short crown runs, torching and spotting were observed in heavy dead and down lodgepole pine. Dozers and crews initiated fireline construction on the northwest flank. Four residences are threatened; structure protection is in place. Highway 43 has been reopened.

PHLOX, Yellowstone National Park. This lightning-caused Wildland Fire Use Incident, which started on August 10th, is 25 miles south-southeast of Lake Junction, WY. The fire is being managed for resource benefit and is in monitor status. Torching and spotting were observed in whitebark pine, lodgepole pine and spruce.

BIRD HILL, Nez Perce National Forest. This lightning-caused Wildland Fire Use Incident, which started on August 4th, is burning in the Selway-Bitterroot Wilderness Area, 35 miles west of Hamilton, MT. The fire is in monitor status and is being managed for resource benefit. This will be the last report unless significant activity occurs.

SOUTH CREW, Nez Perce National Forest. This lightning-caused Wildland Fire Use Incident, which started on August 4th, is burning in the Selway-Bitterroot Wilderness Area, 35 miles west of Hamilton, MT. The fire is in monitor status and is being managed for resource benefit. This will be the last report unless significant activity occurs.

EASTERN GREAT BASIN AREA LARGE FIRES:

HUFF, Northwest State, Utah Division of Forestry, Fire and State Lands. This fire is nine miles east of Coalville, UT. A Type 2 Incident Management Team (Suwyn) is assigned. Creeping fire behavior was observed in sagebrush, grass, mixed conifer forest and aspen. Dozers and crews made significant progress building fireline. One residence is threatened; structure protection is in place.

LITTLE HORSE, Salmon-Challis National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 30 miles northwest of Salmon, ID. Torching and spotting were observed in subalpine fir, spruce and lodgepole pine. Structure protection is in place at Gattin Ranch.

LITTLE SOLDIER, Salmon-Challis National Forest. This fire is 36 miles west of Challis, ID. Moderate fire activity was observed in subalpine fir and heavy dead and down timber. Crews are providing structure protection at Stater Cabin, Hood Ranch and Little Creek Guard Station.

DIVIDE, Bridger-Teton National Forest. This lightning-caused Wildland Fire Use Incident, which started on August 4th, is nine miles east of Pinedale, WY. The fire is burning in the Bridger Wilderness Area and is being managed for resource benefit. Torching and spotting was observed as the fire moved east-northeast.

SEQUOIA, Dixie National Forest. This fire is burning 26 miles southwest of Cedar City, UT in mixed conifer forest and brush. Crews are patrolling and monitoring fire behavior on the west flank.

SOUTHWEST AREA LARGE FIRES:

PACK RAT, Coconino National Forest. This fire is eight miles east of Pine, AZ. Extreme fire behavior with spotting up to one quarter mile ahead of the front was observed in mixed conifer forest and chaparral. Crews are constructing indirect attack fireline in preparation for a burn out. Very steep, inaccessible terrain and erratic winds from passing thunderstorms are impeding containment efforts.

SUPPLY CREEK #13	CA	HIA	410	85	8/18	697	26	20	2	0	1M

ALASKA AREA LARGE FIRES:

REINDEER, Southwest Area Forestry, Alaska Division of Forestry. A Type 2 Incident Management Team (Kurth) is assigned. This fire is 29 miles northeast of Holycross, AK. Active fire behavior was observed in black spruce, tussock tundra and hardwood forest. Crews are providing structure protection for allotments at Reindeer Lake.

GESKAKMINA LAKE, Tanana Zone, Bureau of Land Management. A Type 2 Incident Management Team (Wilcock) is assigned. This fire is 70 miles west of Fairbanks, AK. Precipitation moderated fire behavior in black spruce, muskeg and hardwood forest. This will be the last report unless significant activity occurs.

OUTLOOK:

*****A RED FLAG WARNING HAS BEEN POSTED IN THE EASTERN UINTA MOUNTAINS OF UTAH FOR STRONG WINDS, HIGH TEMPERATURES, LOW RELATIVE HUMIDITY AND HIGH HAINES INDEX*****

*****A FIRE WEATHER WATCH HAS BEEN ISSUED IN NORTHEASTERN COLORADO AND SOUTHWESTERN WYOMING FOR GUSTY WEST WINDS, LOW RELATIVE HUMIDITY AND HIGH HAINES INDEX*****

A westerly flow over the Northwest Area will bring mostly sunny skies. High temperatures will be in the 70's and 80's. Minimum relative humidity will be above 30 percent in western Washington and northwestern Oregon, 20 to 30 percent in eastern Washington, and 10 to 20 percent elsewhere. Winds will be west at 5 to 15 mph.

The Rocky Mountain Area can expect partly to mostly sunny skies. High temperatures will be in the 70's in the mountains and in the 80's to mid 90's at lower elevations. Minimum relative humidity will range from 5 to 15 percent in western Colorado and southwestern Wyoming, 20 to 30 percent in the mountains, and 10 to 20 percent elsewhere. Winds will be north at 15 to 25 mph in northern Wyoming and the Black Hills.

A high pressure system over the Southern California Area will bring sunny skies with morning low clouds and fog along the coast. High temperatures will be in the 70's to low 80's near the coast, in the 80's and 90's in the mountains and valleys, and 100 to 115 in the deserts. Minimum relative humidity will range from 10 to 20 percent in the mountains and deserts, 15 to 25 percent in the inland valleys, 20 to 35 percent in the coastal valleys, and above 50 percent along the coast. Winds will be southwest to northwest at 15 to 25 mph in the deserts of Los Angeles and Kern Counties, on shore at 6 to 12 mph near the coast, and southwest to northwest at 10 to 20 mph in the mountains.

A weak cool front over the Northern Rockies Area will bring partly cloudy skies with isolated showers in the mountains of western Montana. High temperatures will be 65 to 75 in North Dakota and 75 to 85 in northern Idaho. Minimum relative humidity will range from 10 to 20 percent in northern Idaho and 35 to 45 percent in North Dakota. Winds will be south to west at 10 to 20 mph.

A dry, westerly flow over the Eastern Great Basin Area will bring sunny skies. High temperatures will be 70 to 88 in Idaho and western Wyoming, and 88 to 108 in Utah. Minimum relative humidity will range from 4 to 20 percent and winds will be west at 10 to 25 mph.

The Northern California Area can expect sunny skies with fog and low clouds near the coast. High temperatures will be in the 60's along the coast and in the 80's to mid 90's inland. Minimum relative humidity will range from 18 to 25 percent in the valleys and 14 to 20 percent in the mountains. Winds will be southwest to northwest at 5 to 20 mph.

The Alaska Area can expect sunny skies south of the Alaska Range, over the Kenai Peninsula and in the south-central portion of the state. Widespread showers are forecast in the remainder of the area. High temperatures will be in the 50's and 60's and minimum relative humidity will be above 45 percent. Winds will be south to west at 10 to 15 mph.
