**INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, SEPTEMBER 13, 2002 0530 MDT
NATIONAL PREPAREDNESS LEVEL 2**

CURRENT SITUATION:

Initial attack activity was light across the nation. Nationally, 123 new fires were reported. One new large fire was reported in the Southern Area. Three large fires were contained, one each in the Southern California, Eastern Great Basin and Southern Areas. Very high to extreme fire indices were reported in California, Colorado, Georgia, Idaho, Kansas, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Washington and Wyoming.

ROCKY MOUNTAIN AREA LARGE FIRES:

MT. ZIRKEL COMPLEX, Routt National Forest. This complex, comprised of the Burn Ridge and Hinman fires, is 25 miles north of Steamboat Springs, CO. Precipitation resulted in minimal fire activity in heavy dead and down spruce, lodgepole pine and fir. Crews are patrolling, rehabilitating fireline and mopping up.

BIG FISH, White River National Forest. A Fire Use Management Team (Cook) is assigned. This lightning-caused Wildland Fire Use Incident, which began on July 19th, is 34 miles southwest of Steamboat Springs, CO. The fire is being managed for resource benefit and a confinement strategy is in place. Precipitation minimized fire behavior in heavy dead and down spruce, fir and aspen. This will be the last report unless significant activity occurs.

OUTLOOK:

*****A FIRE WEATHER WATCH HAS BEEN ISSUED IN NORTHEASTERN MONTANA FOR A PASSING COLD FRONT WITH STRONG, SHIFTING WINDS, LOW RELATIVE HUMIDITY AND HIGH HAINES INDEX*****

An upper level low pressure system moving across the Rocky Mountain Area will bring showers and thunderstorms. High temperatures will be 50 to 65 in the mountains and mid 60's to 70's at lower elevations. Minimum relative humidity will range from 15 to 25 percent in south-central Wyoming, 20 to 35 percent in northeastern Wyoming and the Black Hills, and above 35 percent in Colorado. Winds will be north to northeast at 5 to 15 mph.

A frontal boundary moving across Minnesota and into the upper Mississippi River Valley will bring showers and thunderstorms with sunny skies expected elsewhere in the Eastern Area. High temperatures will be in the 70's and 80's. Winds will be west to southwest at 10 to 15 mph in the New England states and variable at 5 to 10 mph in the remainder of the region.

The Southern Area can expect sunny skies in the central interior, isolated showers in western Oklahoma and northern Texas, and heavy showers in Florida. High temperatures will be upper 70's to 90's and minimum relative humidity will be above 30 percent. Winds will be variable at 5 to 15 mph.

High pressure over the Southern California Area will bring sunny skies with morning low clouds and fog along the coast. High temperatures will be in the 70's in coastal areas, 80's in the mountains, 90's in the valleys, and 90's to 105 in the deserts. Minimum relative humidity will range from 8 to 18 percent in the mountains and deserts, 10 to 25 percent in the inland valleys, and above 50 percent near the coast. Winds will be southwest to northwest at 6 to 12 mph in the mountains and deserts.
