

**INCIDENT MANAGEMENT SITUATION REPORT  
SATURDAY, SEPTEMBER 14, 2002 0800 MDT  
NATIONAL PREPAREDNESS LEVEL 2**

**CURRENT SITUATION:**

Initial attack activity was light across the nation. Nationally, 74 new fires were reported. Four new large fires were reported, three in the Southern Area and one in the Northern Rockies Area. Two large fires were contained, one each in the Eastern and Southern Areas. Very high to extreme fire indices were reported in California, Colorado, Georgia, Idaho, Kansas, Montana, Nevada, North Dakota, Oregon, Washington and Wyoming.

**NORTHERN ROCKIES AREA LARGE FIRES:**

LOTUS POINT, West St. Joe Area Office, Idaho State. This fire is four miles southwest of St. Maries, ID. Occasional uphill runs and spotting were observed in heavy logging slash. Crews and dozers are building fireline.

LOTUS POINT	ID	SJS	100	20	9/14	140	5	8	2	0	136K

**SOUTHERN AREA LARGE FIRES:**

ROCKY TOP GAP, Cherokee National Forest. This fire is five miles southeast of Newport, TN. Very active fire behavior was observed in hardwood leaf litter and bug kill timber. Crews are constructing fireline and burning out.

BIG GULLY, South Carolina Forestry Commission. This fire is near Graniteville, SC. Twenty residences and fifteen commercial properties are threatened. No further information was reported.

MILLER-LACKEY, Oklahoma Division of Forestry. This fire burning in grass and hardwoods, seven miles northeast of Stigler, OK. No new information was reported. This will be the last report unless new information is received.

## ROCKY MOUNTAIN AREA LARGE FIRES:

MT. ZIRKEL COMPLEX, Routt National Forest. This complex, comprised of the Burn Ridge and Hinman fires, is 25 miles north of Steamboat Springs, CO. Precipitation resulted in minimal fire activity in heavy dead and down spruce, lodgepole pine and fir. Crews are patrolling, rehabilitating fireline and mopping up.

## OUTLOOK:

**\*\*\*A RED FLAG WARNING HAS BEEN POSTED IN SOUTHWESTERN OREGON FOR GUSTY SOUTH WINDS AND LOW RELATIVE HUMIDITY\*\*\***

A warm, dry airmass over the Northern Rockies Area will bring sunny skies. High temperatures will be 85 to 100 in northern Idaho, 75 to 90 in western Montana and 65 to 85 elsewhere. Minimum relative humidity will range from 35 to 45 percent in North Dakota, 15 to 25 percent in Montana and 10 to 20 percent in Idaho. Winds will be northwest at 10 to 20 mph in North Dakota and variable at less than 10 mph in the remainder of the area.

The Southern Area can expect sunny skies in the central interior, and showers in Oklahoma and northern Texas. Rain showers and thunderstorms are forecast from Florida north into the Appalachian Mountains of Virginia. High temperatures will be in the 80's and 90's, and winds will be southeast to southwest to 10 mph.

A north-northwest flow over the Rocky Mountain Area will bring mostly sunny skies with isolated showers and thunderstorms in the mountains of Colorado. High temperatures will be 50 to 65 in the mountains and mid 60's to 70's at lower elevations. Minimum relative humidity will range from 18 to 28 percent in south-central Wyoming and western Colorado, and 30 to 40 percent in the remainder of the area. Winds will be north to northeast at 10 to 20 mph in the Black Hills and 5 to 15 mph elsewhere.

## ESCAPE ROUTES

An escape route is a preplanned and understood route to reach a safety zone.

What are the primary concerns in choosing an escape route?

- Select the closest, least obstructed route.
  - Plan for more than one escape route.
  - Avoid an uphill escape.
  - Scout and clearly mark the route for visibility (aids during smoky situations or night operational periods).
- 
- Determine escape time--consider slowest person, fatigue, and temperature factors.
  - Continuously reassess the situation with regard to work progress and additional resource arrivals.
  - Assure all line personnel are familiar with escape routes.
