

**INCIDENT MANAGEMENT SITUATION REPORT
SUNDAY, SEPTEMBER 29, 2002 0800 MDT
NATIONAL PREPAREDNESS LEVEL 2**

CURRENT SITUATION:

Initial attack activity was light across the nation. Nationally, 35 new fires were reported. Two large fires were contained, one each in the Northwest and Northern California Areas. Very high to extreme fire indices were reported in California, Colorado, Idaho, Nevada, Oregon, Utah and Wyoming.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

WILLIAMS, Angeles National Forest. A Type 1 Incident Management Team (Raley) is assigned. This fire is 25 miles north of Azusa, CA. Moderate to low intensity fire behavior was observed in heavy brush. Crews are burning out along Mt. Baldy Road, patrolling and mopping up. Residents in the Mt. Baldy Village remain evacuated; structure protection is in place. The damage assessment group confirmed that 62 residences and 14 outbuildings have been lost.

PAIUTE, Inyo National Forest. This fire is in brush and bristlecone pine, 12 miles northeast of Bishop, CA. The fire has received snow and has been placed in monitor status. This will be the last report unless significant activity occurs.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

PAIUTE	CA	INF	391	95	9/29	0	0	0	1	0	305K

NORTHERN CALIFORNIA AREA LARGE FIRES:

CONE, Lassen National Forest. A Type 2 Incident Management Team (Carlson) is assigned. This fire is 18 miles southeast of Fall River Mills, CA. Minimal fire activity was observed in heavy timber. Crews are constructing and improving fireline, mopping up and patrolling.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

CROY	CA	SCU	3,127	100	---	1,926	63	121	6	31	7.4M

SCU = Santa Clara Unit, California Department of Forestry and Fire Protection

SOUTHWEST AREA LARGE FIRES:

CAT, Apache-Sitgreaves National Forest. This fire is burning in ponderosa pine and oak brush, seven miles south of Alpine, AZ. Moderate to low intensity fire behavior was observed. Personnel are constructing fireline near Indian Peak and mopping up the east flank.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

BOWL	OR	MHF	339	100	---	333	9	8	4	0	1.4M

MHF = Mount Hood National Forest

OUTLOOK:

Weakening low pressure over the Southern California Area will bring mostly sunny skies with widespread low clouds and fog along the coast. High temperatures will be in the 60's in the valleys, coastal basins and mountains, 70's in the high deserts, and 80's in the low deserts. Minimum relative humidity will range from 15 to 30 percent in the deserts, 25 to 40 percent in the mountains, 45 to 60 percent in the inland valleys, and above 60 percent near the coast. Winds will be southwest to west at 8 to 15 mph along the coast and 10 to 25 mph over the mountains and deserts.

A cool trough of low pressure moving through the Northern California Area will bring mostly sunny skies with low clouds and fog near the coast. High temperatures will be in the 60's and 70's. Minimum relative humidity will range from 20 to 28 percent inland and winds will be west to northwest at 5 to 15 mph in the afternoon.

A cold front moving across the Northwest Area will bring scattered to light showers west of the Cascade Mountains and snow above 5000 feet. High temperatures will be in the 50's and 60's. Minimum relative humidity will range from 30 to 50 percent east of the Cascade Mountains and above 50 percent to the west. Winds will be south to southwest at 10 to 20 mph ahead of the front, becoming west to northwest at 15 to 30 mph. Gusts to 40 mph are forecast in the Columbia River Basin and southeastern Oregon deserts.

AIRCRAFT AND PILOT CARDING

Every aircraft and pilot used in support of a Federal wildland fire mission must have a current Aircraft or pilot Card. The card must be held in the aircraft or with the pilot, and give specific authorization to do the mission being requested.

These missions could be all, one, or any number of, missions as follows:

- Air attack (Level I, Level II, Level III)
- Reconnaissance
- Fire surveillance
- Water bucket
- Helitorch
- Cargo
- Longline

Every pilot who flies a properly carded aircraft must possess a current Interagency Airplane or Helicopter Pilot Qualification Card that gives specific authorization to fly the type of mission being requested and for the specific type of aircraft being used for the mission. These missions could be all, or any number of, missions as follows:

- Air attack
- Reconnaissance
- Fire surveillance
- Low-level
- Paracargo
- Mountain/Remote airstrips
- Smokejumper
- Longline

Before the aircraft and pilot can be used for a specific mission, the aircraft must be specifically listed on a valid and current contract for the type of work being performed.

A copy of the contract must be onboard the aircraft.

Each user of the aircraft and pilot has the authorization to physically inspect the Aircraft Data Card, the Interagency Airplane or Helicopter Pilot Qualification Card, and the contract. If any one of these three are not available for inspection, the mission must be cancelled or at least postponed until the authorizations of the aircraft, pilot, or contract can be determined.

Pilots have very specific and closely monitored duty time and flight time limitations that users must understand and adhere to:

- 14-hour duty day
- 8 hours flight time per day
- 2 days off in 14 calendar days
