INCIDENT MANAGEMENT SITUATION REPORT SUNDAY MAY 25, 2003 - 0800 MDT NATIONAL PREPAREDNESS LEVEL 2

CURRENT SITUATION:

Initial attack activity was light nationally, with 47 new fires reported yesterday. One large fire was contained in the Southwest Area yesterday. Very high to extreme fire indices were reported in Arizona, California, Colorado, Nevada, New Mexico, Oklahoma, and Texas.

ALASKA LARGE FIRES:

ILIAMNA, State of Alaska. A Type 2 Incident Management Team (Jandt) is assigned. This fire is burning in tundra and black spruce two miles north of Iliamna, AK. Minimal fire behavior was observed yesterday with isolated torching and creeping. Resources performed successful burnout operations near Iliamna airstrip and structures.

OUTLOOK:

Weather Discussion: The strong high pressure which brought record heat to much of the west this past week will weaken slightly today, as a front moves across the northwest quadrant of the country. The front along with afternoon instability will lead to isolated afternoon thunderstorms from the northern Great Basin northward to southern Canada. Thunderstorms, some dry, are also possible in the Southwest again today. In the east, a low north of Lake Erie along with a front draped from northern Texas to the Carolinas will cause showers and thunderstorms. Alaska will remain mainly dry for one more day, with some gusty winds in south central parts ahead of a low pressure system parked off the Seward Peninsula. However, this low will increase humidity today across southwestern Alaska.

Geographic Area	High	Minimum Relative	Wind
Weather	Temperatures	Humidity	
SOUTHWEST Partly to mostly sunny. A slight chance for dry thunderstorms near the AZ/NM border. Scattered thunderstorms with wetting rainfall across portions of northern and eastern NM and west TX.	60s to near 80 mountains, northeast NM and northwest TX. 80s and 90s remaining lower elevations, except 100 to 108 in the AZ deserts.	5-15% AZ and southwest NM, 15- 25% northwest NM to southwest TX, 25-40% remainder of NM and west TX.	Southwest 5-15 mph AZ and western NM, S to E 10-20 mph across eastern NM and west TX.
