

INCIDENT MANAGEMENT SITUATION REPORT
SUNDAY JULY 27, 2003 - 0800 MDT
NATIONAL PREPAREDNESS LEVEL 5

CURRENT SITUATION:

Initial attack activity was heavy in the Southwest Area, moderate in the Rocky Mountain and Southern California Areas, and light elsewhere. Nationally, 337 new fires were reported. Two new large fires were reported, one each in the Northern Rockies and Rocky Mountain Areas. Eight large fires were contained, two in the Eastern Great Basin Area and one each in the Northern Rockies, Rocky Mountain, Northwest, Southwest, Southern California and Northern California Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah and Wyoming.

On July 25th, a helicopter crashed while working on the McGinnis Flats Fire near Keller, WA. The pilot was fatally injured. The firefighting community extends condolences to family and friends of the deceased.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Mann) has been ordered to manage large fires on the Flathead National Forest and Glacier National Park.

ROBERT, Flathead National Forest. A Type 1 Incident Management Team (Stam) is assigned. This fire is in timber, 8 miles north of Columbia Falls, MT. Active surface fire, torching and crown runs were observed.

WEDGE CANYON, Flathead National Forest. A Type 1 Incident Management Team (Bennett) is assigned. This fire is in subalpine fir with down fuel, 20 miles east of Eureka, MT. Torchling and crowing in small durations were observed. Evacuations remain in effect. Structure protection is in place for one hundred residences. One additional residence and twelve outbuildings have been confirmed lost.

TRAPPER CREEK COMPLEX, Glacier National Park. A transfer of command from Cook's Fire Use Management Team to Raley's Type 1 Incident Management Team will occur on 7/28. This complex, comprised of Trapper Creek, Wolf Gun and Paul Bunyan fires, is in mixed conifer with dead and down fuels, 45 miles northeast of Kalispell, MT. Limited fire growth was observed on all three fires due to cooler temperatures and higher humidity. The Many Glaciers developed area remains evacuated. Structure protection is in place for three commercial properties. Going to the Sun Highway through Glacier National Park is closed.

BLACK FROG COMPLEX, Bitterroot National Forest. A Type 1 Incident Management Team (Frye) is assigned. This complex, comprised of the Blackwall and Frog Pond fires, is 34 miles south of Hamilton, MT and 32 miles north of Salmon, ID. Minimal fire behavior due to recent wetting rain, cooler temperatures and higher humidity was observed. Structure protection is in place for 75 residences and one commercial property. Evacuations from Moose Meadows remain in place. Highway 43 from Lost Trail Pass to the Big Hole Battlefield has been reopened to all traffic. The transportation departments of Idaho and Montana are managing the public vehicle access to Highway 93.

SLIMS, Nez Perce National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire is in ponderosa pine and mixed conifer, 35 miles east of Grangeville, ID. Reduced fire activity due to lower temperatures and higher humidity was observed. Fire continues to spread in heavy surface fuels with short runs and group torching.

HUNT CREEK FIRE, Priest Lake Area Office, Idaho Department of Lands. A Type 2 Incident Management Team (Kechter) has been ordered. This fire is in heavy cured logging slash, eight miles north/northwest of Coolin, ID. Active fire behavior with group torching and spotting one quarter mile in front of the head was observed.

ROSS CREEK, Kootenai National Forest. A Type 2 Incident Management Team (Sandman) has been ordered. This fire is in sub-alpine fir with tall brush and heavy down fuel loads, 20 miles southwest of Troy, MT. Individual tree torching was observed.

HIDDEN LAKE, Beaverhead/Deerlodge National Forest. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is in sub-alpine fir, four miles northeast of Polaris, MT. Fire behavior was minimal due to heavy rain. Structure protection is in place for eleven residences.

BIG CREEK, Bitterroot National Forest. A transition between Swope's Type 2 Incident Management Team and a Type 3 organization will take place on 7/28. This fire is in timber, four miles northwest of Victor, MT. Isolated torching and continued burning in heavier fuels were observed.

AMETHYST, Yellowstone National Park. This fire is in old growth timber, litter and understory, 25 miles southeast of Mammoth Hot Springs, WY. Creeping in the surface fuels were observed.

EASTERN GREAT BASIN AREA LARGE FIRES:

An Area Command Team (Ribar) is assigned to manage large fires on the Salmon-Challis National Forest.

HOT CREEK, Boise National Forest. A Type 1 Incident Management Team (Sexton) is assigned. This fire is in mixed conifer with heavy fuel loading, eight miles west of Atlanta, ID. Surface fire with minimal acreage growth was observed. Evacuations of isolated summer cabins and campers are in effect. Structure protection is in place for eighty residences and ten commercial properties.

CRAMER, Salmon-Challis National Forest. A Type 1 Incident Management Team (Martin) is assigned. This fire is in timber, 20 miles west of North Fork, ID. Creeping and backing fire was observed. Structure protection is in place for 38 residences. 130 fire personnel were unable to return to the Incident Command Post yesterday due to a mud slide.

CRYSTAL CREEK, Salmon-Challis National Forest. A Type 2 Incident Management Team (Muir) is assigned. This fire is in subalpine fir, brush and grass, 18 miles north/northwest of Stanley, ID. Cooler temperatures and higher humidity have reduced fire behavior. Reduction in acreage is due to more accurate mapping.

BLACK ROCK, Salt Lake Field Office, Bureau of Land Management. This fire is 30 miles west of Spanish Fork, UT. Small runs in heavy pockets of fuel were observed.

COTTONWOOD, Moab Field Office, Bureau of Land Management. This fire is in fir and oak brush, 65 miles northeast of Moab, UT. Significant upslope runs were observed.

BULLDOG, Richfield Field Office, Bureau of Land Management. This fire is in oak, mountain mahogany, juniper and pinyon pine, 17 miles north of Ticaboo, UT. Structure protection is in place for one commercial property.

WCF = Wasatch-Cache National Forest

ROCKY MOUNTAIN AREA LARGE FIRES:

RED POINT, Black Hills National Forest. A Type 2 Florida State Incident Management Team (Jones) is assigned. This fire is 16 miles southeast of New Castle, WY. Torching and short runs was observed in timber. Residents, west of Dewey Road and south of Elk Mountain, remain evacuated. Structure protection is in place for 71 residences.

LANGLAS DRAW, White River National Forest. This fire is in fir, ponderosa pine, aspen and oak brush, 25 miles southeast of Meeker, CO. Extreme fire behavior was observed. Significant progress was made with indirect dozer lines. Voluntary evacuation of 11 residences is in place.

BIG SPRING, Casper Field Office (East Zone), Bureau of Land Management. A Type 2 Incident Management Team (Kearney) is assigned. This fire is in ponderosa pine, pinyon pine and juniper, 30 miles north of Kaycee, WY. Minimal fire behavior was observed. Structure protection is in place for 11 evacuated residences.

DITCH CREEK, Bighorn National Forest. A Type 2 Incident Management Team (Blume) is assigned. This fire is in lodgepole pine spruce and fir, five miles southwest of Story, WY. Creeping with isolated torching was observed.

DEEP LAKE, Shoshone National Forest. A transfer of command from Domanski's Type 2 Incident Management Team to a Type 3 organization will occur today. This fire is in mixed conifer and grass, 30 miles northwest of Cody, WY. 1000 hour fuels are burning out within the interior.

MAVERICK, Western Slope Center, Bureau of Land Management. A Type 2 Incident Management Team (Saleen) is assigned. This fire is in ponderosa pine, pinyon pine, juniper, oak brush and grass, 22 miles southwest of Grand Junction, CO. Spotting on the vertical bluffs is hampering containment efforts.

BALCONY HOUSE COMPLEX, Mesa Verde National Park. A transfer of command from Szczepanik's Type 2 Incident Management Team to a Type 3 organization occurred on 7/26. This complex, comprised of Moccasin, White, Balcony and Park fires is in pinyon pine, juniper, ponderosa pine, Douglas fir, grass and brush. Minimal fire behavior was observed.

SUA = Southern Ute Reservation, Bureau of Indian Affairs

NORTHWEST AREA LARGE FIRES:

CLARK, Willamette National Forest. A Unified Command between a Type 2 Incident Management Team (Gardner) and an Oregon Department of Forestry Incident Commander (Labhart) is in place. This fire is in understory and timber with dead and down fuels, ten miles northeast of Lowell, OR. Interior running and torching with two to four foot flame lengths were observed.

FAWN PEAK COMPLEX, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Anderson) and a Washington Interagency Incident Management Team (Furlong/Gromley) are assigned. This complex is comprised of the Fawn Peak, Sweetgrass and Farewell fires; the Fawn Peak and Sweetgrass fires have been controlled. The Farewell fire is in sub-alpine fir with heavy dead and down timber, 13 miles northwest of Winthrop, WA. Active fire behavior with upslope runs, torching and spotting was observed. Fire spread is within five miles of the Canadian border.

MCGINNIS FLATS, Colville Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Jennings) is assigned. This fire is in pine and grass, one mile north of Keller, WA. Interior torching was observed.

DEF = Deschutes National Forest

SOUTHWEST AREA LARGE FIRES:

RIVER, Tonto National Forest. This fire is in chaparral and grass, 18 miles north of Cave Creek, AZ. Minimal fire behavior was observed.

TURNBO, Gila National Forest. A Fire Use Management Team (Cones) is assigned. This fire is in mixed conifer with continuous pine stringers, 37 miles northwest of Silver City, NM, and is being managed with a confinement suppression strategy. Heavy fuels continue to burn actively. The fire is being monitored by aerial reconnaissance.

SPRUCE COMPLEX, Gila National Forest. A transition from Bateman's Type 2 Incident Management Team to a Type 3 organization occurred on 7/26. This complex, composed of the Spruce, Silver, Nabours, Parallel, Sacaton, Rain, and House fires are in brush, ponderosa pine and mixed conifer, 18 to 20 miles east, southeast and northeast of Glenwood, NM.

MOLINA COMPLEX, Santa Fe National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This complex, comprised of the Capulin and Molina fires, is eight miles east of Cundiyo, NM. No new information was received. This will be the last report unless new information is received.

BLUE RIVER COMPLEX, Apache-Sitgreaves National Forest. This complex, comprised of the Steeple, Largo and Thomas fires, is in ponderosa pine, mixed conifer, pinyon pine, brush and grass, 18 miles south of Alpine, AZ. Minimal fire behavior was observed.

GRANITE, Gila National Forest. This fire is 13 miles northwest of Hillsboro, NM. Minimal fire behavior was observed in mixed conifer, grass and oak.

KINISHBA, Fort Apache Agency, Bureau of Indian Affairs. This fire is in ponderosa pine, woodlands and chaparral, two miles west of Whiteriver, AZ.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

CANYON, Riverside Unit, California Department of Forestry and Fire Protection (CDF). A CDF Type 1 Incident Command Team (Henson/Walker) is assigned. This fire is in heavy brush, 2 miles southeast of San Jacinto, CA. Active running fire on steep sloes was observed. Mandatory evacuations of 1,000 residents of Poppet Flats and the Silent Valley Recreational Vehicle Park are in progress. Structure protection is in place for 220 residences. One residence has been confirmed lost. Reduction in acreage is due to more accurate mapping.

BASIN, Sequoia National Forest. A Type 2 Incident Management Team (Dietrich/McCormick) is assigned. This fire is in brush, oak woodland and urban interface, 16 miles northeast of Caliente, CA. Minimal fire behavior was observed. Crews disengaged from suppression activities beginning at 1600 yesterday, due to predicted thunderstorm and lightning activity. Structure protection is in place for two hundred residences.

OUTLOOK:

Weather Discussion: The high pressure that has been centered over Colorado will strengthen and shift to Nevada. This will begin to bring warmer and drier weather to much of the west except for continued moisture over the southwest, Colorado and Wyoming. Hot and dry weather is on tap for Oklahoma and the southern Plains.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
EASTERN GREAT BASIN Mostly sunny, dry, and warmer Idaho and Bridger-Teton. Partly cloudy Utah with widely scattered thundershowers, mainly mountains.	Idaho, Bridger-Teton: 73 to 85 mountains, 85 to 99 valleys. Utah and Arizona Strip: 76 to 88 higher elevations, 88 to 101 valleys.	Idaho, Bridger-Teton: 20 to 45% mountains, 14 to 30% valleys. Utah, Arizona Strip: 18 to 35% mountains, 13 to 25% valleys.	Light and variable 5 to 15 mph, except gusty near storms.
NORTHERN CALIFORNIA Patchy night and morning coastal fog and low clouds. Mostly sunny inland, except for along and east of the Cascade/Sierra crest where it will be partly cloudy with a slight chance of thunderstorms in the afternoon and evening.	60s and 70s near the coast, and upper 80s to 105 inland.	From 14 to 26% inland to 55 to 65% near the coast.	Southwest to northwest 6 to 14 mph with stronger afternoon gusts along and east of the Cascade/Sierra crest.
NORTHERN ROCKIES AREA Isolated Showers and thunderstorms Eastern Montana plains and around the mountains near Yellowstone National Park.	Idaho: 90 to 105 Montana: 80 to 95 North Dakota: 80s	Idaho: 15 to 25% Montana: 20 to 30% North Dakota: 35 to 45%	Variable 5 to 10 mph across the plains and slope/valley winds in the mountains
NORTHWEST AREA Sunny, warmer and drier.	Warming. Mostly 80s and 90s. Locally reaching 100 in southwest and south central Oregon.	Teens and single digits in southwest Oregon and east of Cascades. Mostly 25 to 40% in western Washington and northwest Oregon.	Variable 5 to 15 mph. Gusty in the afternoon.
ROCKY MOUNTAIN AREA Scattered thunderstorms over Colorado and the plains. Isolated to widely scattered storms over the mountains of Wyoming and the Black Hills.	Highs in the 85 to 95 western Colorado, with upper 70s to near 85 elsewhere.	15 to 22% lower elevations west-northwest Colorado. 25 to 50% elsewhere.	Variable or northeast 8 to 16 mph.

<p>SOUTHERN CALIFORNIA AREA Areas of morning low clouds and fog coastal areas, otherwise partly cloudy with isolated showers and thunderstorms over the deserts, Sierras, and southern California mountains east of Cajon pass.</p>	<p>70 to 80 coastal areas. 80 to 95 mountains. 85 to 105 valleys. 95 to 105 upper desert. 105 to 115 low desert.</p>	<p>15 to 30% deserts. 20 to 35% mountains. 20 to 45% valleys.</p>	<p>Southeast to southwest 5 to 15 mph.</p>
<p>SOUTHWEST AREA Partly cloudy. Scattered thunderstorms from northwest New Mexico to southern Arizona. Widely scattered mainly mountain storms remainder of Arizona and New Mexico</p>	<p>80s mountains, 90s to near 105 lower elevations.</p>	<p>10 to 20% lower elevations and 20 to 30% higher terrain.</p>	<p>South to southeast 10 to 20 mph and gusty across southern and eastern New Mexico and west Texas. Variable to upslope 5 to 15 mph elsewhere.</p>
<p>WESTERN GREAT BASIN AREA Partly cloudy with scattered thunderstorms across western Nevada and isolated thunderstorms across the eastern half of the state.</p>	<p>90s to low 100s valleys, 70s to 80s mountains, with a maximum of 103 in the southern deserts.</p>	<p>12 to 22% at lower elevations, 18 to 33% in upper elevations.</p>	<p>Light under 10 mph from the northeast to southeast, west at 10 mph along the Sierra Front.</p>
