

**INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, AUGUST 26, 2003 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was light in all Areas. Nationally, 155 new fires were reported. Six new large fires were reported, four in the Northern Rockies Area and one each in the Northwest and Southwest Areas. Three large fires were contained, two in the Northern Rockies Area and one in the Southern Area. Very high to extreme fire indices were reported in Arizona, California, Hawaii, Idaho, Kansas, Minnesota, Montana, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

The U.S. Army Task Force Steel Dragon (2nd Battalion, 82nd Field Artillery Regiment) commanded by LTC Gregory Schultz, at Fort Hood, TX is assigned to the Fish Creek Complex in western Montana.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Mann) is assigned to manage Blackfoot Lake Complex, Ball Creek, Wedge Canyon, Robert, Middle Fork Complex, Trapper Creek Complex, Crazy Horse, High and Little Salmon Creek Complex. An Area Command Team (Rounsaville) is assigned to manage Lincoln Complex, Winslow, East Complex, Rough Draw Complex, Cathedral Peak Complex, Rathbone and Burnt Ridge/Sheep Camp Complex. An Area Command Team (Ribar) is assigned to manage Cherry Creek Complex, Mineral-Primm/Boles Meadow, Fish Creek Complex, Black Mountain 2, Cooney Ridge and Gold 1. An Area Command Team (Greenhoe) is assigned to manage Sapp, Slim's Complex, Fiddle, Beaver Lake, Cayuse Lake Complex, and Clear/Nez Fire Use Complex.

BLACKFOOT LAKE COMPLEX, Flathead National Forest. A Type 1 Incident Management Team (Ferguson) is assigned. This incident, comprised of the Beta Lake, Doris Mountain, Wounded Buck, Doe, Dead Buck, and Blackfoot Lake fires, is in timber 19 miles east of Kalispell, MT. The Doris Mountain fire was active with short runs; the remaining fires continued to smolder. Structure protection is in place for 200 residences. Decrease in acreage is due to more accurate mapping.

BALL CREEK, Flathead National Forest. This fire is in timber, ten miles east of Big Fork, MT. Single tree torching was observed.

WEDGE CANYON, Flathead National Forest. A Type 2 Incident Management Team (Paul) is assigned. This fire is in sub-alpine fir with down fuels, 20 miles east of Eureka, MT. Rapid rates of spread with torching, crowning and spotting were observed on portions of the fire. A radio receiver was relocated due to a fire threat. Structure protection is in place for 80 residences.

MIDDLE FORK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Ferguson) is assigned. This incident, comprised of the Belton, Center and Harrison fires, is in timber, five miles east of West Glacier, MT. Smoldering and creeping were observed. Assessment of structure protection needs along Highway 2 south of the Harrison fire is under way. The fires are being monitored with no suppression actions planned.

CRAZY HORSE, Flathead National Forest. A Type 1 Incident Management Team (Vail) is assigned. This fire is in mixed conifer with heavy dead and down fuels, ten miles northeast of Saint Ignatius, MT. Continued slow surface spread was observed with isolated torching. Firefighters made good progress mopping up. Structure protection is in place for 25 residences.

HIGH, Flathead National Forest. A Type 2 Incident Management Team (Weldon) is assigned. This fire is in timber, 23 miles northeast of Seeley Lake, MT. Fire behavior was minimal with creeping and smoldering.

ROBERT, Flathead National Forest. A Type 1 Incident Management Team (Ferguson) is assigned. This fire is in timber, eight miles north of Columbia Falls, MT. Creeping, smoldering and isolated torching were observed. Crews continued working to secure spot fires and other hot spots above the upper McDonald Creek drainage. The North Fork Road reopened to through traffic at 0700 yesterday morning, and most Glacier National Park facilities remain open for visitors. Structure protection is in place for 100 residences and six commercial properties.

TRAPPER CREEK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Ferguson) is assigned to the Trapper Creek, Paul Bunyan and Trout fires; a Type 2 Incident Management Team (Paul) is assigned to the Wolf Gun fire. The complex is in mixed conifer with dead and down fuels, 45 miles northeast of Kalispell, MT. Smoldering, creeping, isolated torching and short upslope runs were observed. The fires remain in a monitoring status. Structure protection is in place for three commercial properties.

LINCOLN COMPLEX, Helena National Forest. A Type 1 Incident Management Team (Studebaker) is assigned. This complex is comprised of the Moose-Wasson and Snow-Talon fires, ten miles west of Lincoln, MT. Smoldering, creeping and occasional single tree torching were observed on the Moose-Wasson Fire. The Snow-Talon fire made several significant slope runs with multiple tree torching and short range spotting; it was approaching the Continental Divide yesterday evening. Structure protection is in place for 150 residences and 20 commercial properties.

EAST COMPLEX, Yellowstone National Park. A Type 2 Incident Management Team (Gardner) is assigned. This incident, comprised of the East and Grizzly fires, is ten miles east of Fishing Bridge Junction, WY. Crowning and torching with short runs were observed. Highway 20 between Fishing Bridge and the eastern entrance is closed to public travel until a burn out is completed and safe travel can resume. Burn out of the area west of the eastern entrance to Yellowstone and north of Signal Hills began; crews reported good progress. Structure protection is in place for 31 residences and 43 commercial properties.

WINSLOW, Central Land Office, Montana Department of Natural Resources & Conservation. A Type 2 Incident Management Team (Kearney) is assigned. This fire is in timber, five miles southwest of Lakeview, MT. Some isolated torching and short crown runs were observed in the interior of the fire. The voluntary evacuation of Lakeview remains in place. Structure protection is in place for 30 residences and one commercial property.

CATHEDRAL PEAK COMPLEX, Custer National Forest. A Type 1 Incident Management Team (Humphrey) is assigned. This incident, comprised of the Cathedral Peak, Oliver and Salderbalm fires, is in timber 10 miles south of Nye, MT. Fire behavior increased from the last few days and included torching, short crown runs, and short to moderate range spotting. The West Fork of the Stillwater trail and road remain closed to non-local traffic due to the threat of the Saderbalm fire. Structure protection is in place for 50 residences and one commercial property.

BURNT RIDGE SHEEP CAMP COMPLEX, Lewis and Clark National Forest. A Type 2 Incident Management Team (Hendricks) is assigned. This complex, comprised of the Burnt Ridge, Ant

Park, Sheep Camp and Pioneer Ridge fires, is four miles northwest of Neihart, MT. The Ant Park fire spotted across the North Fork of the Smith River and is approaching the contingency line. Rehabilitation on the Pioneer Ridge Fire was completed.

ROUGH DRAW COMPLEX, Gallatin National Forest. A Type 1 Incident Management Team (Oltrogge) is assigned. This complex, five miles southeast of Livingston, MT, is comprised of the Rough Draw, Slippery Rock, Speculator 1, Speculator 2, Elbow, Brundage, Walbrun and Hawley fires. Active surface fire and group torching were observed on the southwest corner of the Brundage fire. Minimal fire growth was seen on all other fires; smoldering, creeping, and some isolated torching were observed. Structure protection measures are still in place at the 63 Ranch. Firefighters began working on a ten acre spot fire north of the Slippery Rock fire.

CHERRY CREEK COMPLEX, Lolo National Forest. A Type 2 Incident Management Team (Swope) is assigned. This incident, comprised of the Cherry Creek and Tepee Creek fires, is in lodgepole pine with heavy ground fuels, 12 miles southeast of Thompson Falls, MT. Some interior torching was observed on the Tepee Creek fire. There was minimal torching within the interior of the Cherry Creek fire. Structure protection is in place for 180 residences.

MINERAL-PRIMM, Southwestern Land Office, Montana Department of Natural Resources & Conservation. A Type 1 Incident Management Team (Bennett) is assigned. This incident is in timber, 19 miles northeast of Missoula, MT. Warm temperatures, gusty winds, and low humidity levels resulted in active fire behavior. The Boles Meadow fire, declared contained on 8/24, was added to this incident.

FISH CREEK COMPLEX, Lolo National Forest. A transfer of command from Benes' Type 2 Incident Management Team to Stam's Type 1 Incident Management Team will occur today. U.S. Army Task Force Steel Dragon (2nd Battalion, 82nd Field Artillery Regiment) commanded by Lt. Col. Gregory Schultz, at Fort Hood, TX is assigned. Military deployment on fire lines will begin on 8/27. This incident is comprised of the Fish Creek, Thompson Creek, Surveyor Creek, Lower Quartz, Siamese Lake, Indian Creek, Middle Fork Indian Creek, Cedar Log and West Fork Indian Creek fires, 24 miles west of Missoula, MT. Active interior burning was observed with short uphill crown runs. Some perimeter growth occurred along the northwest flank toward Bear Creek and the West Fork of Fish Creek. Firefighters on the Thompson Creek Fire completed burn out operations along the north flank east of Fish Creek. Structure protection is in place for 195 residences and one commercial property.

BLACK MOUNTAIN 2, Southwestern Land Office, Montana Department of Natural Resources & Conservation. A Type 1 Incident Management Team (Gelobter) is assigned. This fire is in mixed conifer, understory and grass, nine miles west of Missoula, MT. Single tree torching with some short range spotting was observed. Firefighters continued to rehabilitate, mop-up and patrol the fire area. Structure protection is in place for 650 residences.

COONEY RIDGE, Southwestern Land Office, Montana Department of Natural Resources & Conservation. A Type 2 Incident Management team (Sandman) is assigned. This fire is in timber eleven miles east of Florence, MT. Isolated single tree torching, smoldering and creeping were observed. Area roads remain closed. Structure protection is in place for 100 residences.

GOLD 1, Bitterroot National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This fire is in heavy timber, nine miles northeast of Corvallis, MT. Smoldering, creeping, backing and some single tree torching were observed.

SLIM'S COMPLEX, Nez Perce National Forest. A Type 1 Incident Management Team (Sexton) is assigned. This complex is comprised of the Slim's and Poet Branch fires, 35 miles east of

Grangeville, ID. Firefighters continued to work the northeast flank of the Poet Branch fire. While increased torching was observed, no increase in perimeter occurred.

SAPP, Nez Perce National Forest. A Type 1 Incident Management Team (Sexton) is assigned. This fire is in timber and grass, 22 miles south/southeast of Elk City, ID. Isolated smoldering was observed with heat retention only in scattered heavy fuels. There are very few obvious hotspots north of the Salmon River. Structure protection remains in place at Allison Ranch, Yellow Pine Ranch, White Water Ranch, Mallard Ranch and Cook Ranch. Firefighters finished constructing handline from Vista Point southeast to the Salmon River. Structure protection is in place for 22 residences and one commercial property.

FIDDLE, Nez Perce National Forest. A Type 2 Incident Management Team (Rios) will assume command today. This fire is in timber, six miles northeast of Riggins, ID. Minimal fire behavior was observed with some active burning in concentrations of ground fuels. Road and trail closures continue. Structure protection is in place for two residences.

BEAVER LAKE COMPLEX, Clearwater National Forest. A Type 1 Incident Management Team (Frye) is assigned. This incident, comprised of the Beaver Lake, Siah Lake, Moose Lake, Lily Lakes, North Howard and Hopeful 2 fires, is 19 miles southwest of Missoula, MT. Higher temperatures, lower humidity levels, and increased winds resulted in an early and sustained increase in fire behavior. Surface fire, torching, short crown runs, and short range spotting were observed throughout the complex. Structure protection is in place for 61 residences and 51 commercial properties.

CAYUSE LAKE, Clearwater National Forest. A Fire Use Management Team (Cones) is assigned. This incident, comprised of 40 fires, is in timber 41 miles southwest of Lolo, MT. These fires are being managed under a confinement strategy. Smoldering in large fuels continued.

RATHBONE, Gallatin National Forest. A Type 2 Incident Management Team has been ordered. This fire is in timber, 17 miles north of West Yellowstone, MT. A major 80 to 100 acre run was observed with active spotting.

MOLLMAN, Flathead Agency, Bureau of Indian Affairs. This fire is in timber, five miles southeast of Ronan, MT. Smoldering, creeping and flare-ups under dense canopy were observed. Tribal forests and rangelands remain closed.

UNION, Yellowstone National Park. This fire is in timber, 35 miles east of Ashton, ID. Smoldering and creeping were observed. The fire is not currently staffed. No further information was received.

BULL ELK, Charles M. Russell National Wildlife Refuge. This fire is 32 miles northeast of Roy, MT. Running and torching were observed. No further information was received.

GOLD CHEST. Idaho Panhandle National Forest. This fire is in timber and grass, two miles southeast of Murray, ID. Torching was observed. No further information was received.

NORTHWEST AREA LARGE FIRES:

B&B COMPLEX, Deschutes National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This complex, comprised of the Booth and Bear Butte fires, is 14 miles west of Sisters, OR. The fires are in timber with heavy ground fuels. Active fire with multiple tree torching and spotting less than a mile was observed. Structure protection is in place for 1,000 residences and 12 commercial properties. State Highway 20 remains closed for through traffic.

LIGHTNING COMPLEX, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Morcom) is assigned. This complex is comprised of the Grouse Creek, Haas Ridge, Butcherknife and Two Corral fires, 31 miles east of Joseph, OR. Heavy timbered draws continue to smolder and no fire spread was observed. Structure protection is in place for three residences.

TOGO MOUNTAIN, Colville National Forest. A Washington Interagency Incident Management Team (Jennings) is assigned. This fire is in timber, three miles east of Danville, WA. Fire activity was moderate in most divisions. Forest closures are still in effect for the fire area. The evacuation alert has been removed for the 61 residences in Grand Fork, British Columbia.

WILCOX, Okanogan/Wenatchee National Forest. A Type 2 Incident Management Team (Johnson) is assigned. This fire is in timber, brush and grass, 15 miles northeast of Tonasket, WA. Minimal fire behavior with some torching was observed. Structure protection is in place for 23 residences.

JOHNSON LAKE, Colville Agency, Bureau of Indian Affairs. This fire is in timber and grass, four miles north of Nespelem, WA. Fast rates of spread were observed in open timber and grass with spotting and torching in heavier timbered areas.

NORTH ZONE COMPLEX, Mt. Baker-Snoqualmie National Forest. This incident is in heavy timber, six miles southeast of Darrington, WA. The complex is comprised of seven lightning fires which are in patrol status and being managed with a containment strategy. No new information was received.

ROCKY MOUNTAIN AREA LARGE FIRES:

BLACKWATER COMPLEX, Shoshone National Forest. A Type 2 Incident Management Team (Wendt) is assigned. This complex is comprised of the Blackwater and Norris fires, 30 miles west of Cody, WY. Fire activity included short crown runs, cross canyon spotting and active burning on the flanks. Increase in acreage is due to more accurate mapping and fire growth. Structure protection is in place for ten residences and two commercial properties.

BOULDER BASIN 2, Shoshone National Forest. A Type 2 Incident Management Team (Hill) is assigned. This fire is in grass, sagebrush and timber, 25 miles southwest of Cody, WY. Creeping and smoldering with isolated torching were observed. Structure protection is in place for 25 residences and 20 commercial properties.

FOUR RIM, Rock Springs Field Office (Southwest Zone), Bureau of Land Management. A Type 2 Incident Management Team (Mullenix) is assigned. This fire is in timber, grass and brush, 40 miles south of Rock Springs, WY. Smoldering and creeping with one to two foot flame lengths was observed in heavy ground fuels. Road closures and a cabin evacuation remain in effect. Structure protection is in place for one residence and two commercial properties.

SAWTOOTH, Routt National Forest. This fire is in blow-down and bug-killed spruce, 20 miles northeast of Steamboat Springs, CO. No further information was reported.

NORTH BIGHORN COMPLEX, Bighorn National Forest. This complex, comprised of the Little Horn 2 and Riley Point fires, is 35 miles northwest of Sheridan, WY. No further information was reported.

EASTERN GREAT BASIN AREA LARGE FIRES:

NORTH FORK LICK, Payette National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This incident, comprised of the Marble and North Fork Lick fires, is in sub-alpine fir with dead and down fuels, 18 miles northeast of McCall, ID. Fire behavior was minimal with smoldering and creeping. The North Fork Lick fire is in monitor status; containment efforts are focused on the Marble fire. Structure protection is in place for 123 residences and two commercial properties.

RICHARDSON, Payette National Forest. A Type 1 Incident Management Team (Sexton) will assume command today. Sexton’s Type 1 Incident Management Team is also managing the Sapp and Slim’s Complex fires. The Richardson fire is in timber ten miles east of Dixie, ID. Moderate fire activity was observed. Structure protection for one residence is in place.

MIDDLE FORK COMPLEX, Salmon-Challis National Forest. A Fire Use Management Team (Clark) is assigned. The complex is comprised of the Cougar, Marble, Prospect, Mahoney, Teapot, Falconberry and Trapper fires, 25 miles northwest of Challis, ID. Smoldering and creeping with isolated torching were observed. Reduction in acreage is due to more accurate mapping.

LOST PACKER COMPLEX, Salmon-Challis National Forest. This complex, comprised of the Waugh, Upper West Horse, Little Horse and Horse fires, is 36 miles northwest of Salmon, ID. No further information was received.

OUTLOOK:

Weather Discussion: A frontal system will be moving across the Northern Rockies today, causing afternoon wind to increase and raising the possibility of thunderstorms. The higher wind is expected to be concentrated from central Idaho through all of Montana later in the afternoon. Elsewhere, scattered thunderstorm activity is again expected in the southern Great Basin, over the Southwest Area, and into southern California. Isolated thunderstorms may also arrive in the evening across northwest Wyoming.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
ROCKY MOUNTAIN AREA Mainly dry over Wyoming. Scattered thunderstorms over Colorado into extreme southeast Wyoming. Isolated thunderstorms over the Black Hills (some dry).	Highs in the mid 80s to mid 90s (70s to lower 80s mountains), except 90s over the eastern plains.	15 to 20% over lower elevations of Wyoming into northwest Colorado and western South Dakota. Elsewhere 20 to 35%.	Variable 5 to 15 mph, except southeast 8 to 18 mph over northeast Wyoming and the Black Hills.
EASTERN GREAT BASIN AREA Idaho, Bridger-Teton: Mostly sunny with a slight chance of late afternoon thunderstorms in Idaho. Utah, Arizona Strip: A chance of showers and thunderstorms, mainly central and south.	Idaho, Bridger-Teton: 70 to 83 mountains, 84 to 96 valleys. Utah and Arizona Strip: 75 to 85 higher elevations, 84 to 96 valleys.	Idaho, Bridger-Teton: 14 to 24% west, 9 to 22% east. Utah, Arizona Strip: 15 to 33%	Idaho, Bridger-Teton: Southwest 5 to 15 mph. Gusty winds near storms. Utah, Arizona Strip: Upslope or south 5 to 15 mph. Gusty winds near storms.
NORTHWEST AREA Chance of a few thunderstorms in eastern Oregon. Otherwise mostly sunny.	West of Cascades: 60s extreme north to near 90 south interior. Eastside: Mostly in the 80s except 70s extreme north.	Westside: At or above 60% extreme north to 25 to 35% south interior. Eastside: Mostly 15 to 25% except 30 to 40% extreme north.	Breezy east of the Cascades: West 8 to 20 mph and gusty. Generally west 5 to 12 mph westside.
SOUTHERN CALIFORNIA AREA Partly to mostly cloudy with scattered showers and thunderstorms, mainly over the mountains and deserts.	65 to 80 coastal areas. 75 to 90 mountains. 85 to 95 valleys. 85 to 95 upper desert. 95 to 105 low desert.	25 to 40% desert. 30 to 45% mountains. 30 to 45% valleys. 50 to 65% coast.	Southeast to southwest 5 to 15 mph.
NORTHERN CALIFORNIA AREA Partly cloudy south and mostly clear north. Chance of showers and thunderstorms south and east of a line from Clear Lake to Chico to Canby.	60s and 70s near the coast and mid 80s to near 100 inland.	10 to 20% east of the Sierra Cascade Crest and 14 to 24% west.	Southwest to northwest 4 to 8 mph gusts 15mph in the afternoon, with slightly higher speeds along and east of the Sierra Cascade Crest.

http://www.nifc.gov/sixminutes/dsp_sixminutes.php

RETARDANT DROP SAFETY

Having retardant dropped on a fire should be a routine event. However, there are risks associated with retardant drops that can pose serious threats to personnel and equipment. Consider the following for all drops:

- Be aware of the location of lead planes and airtankers during retardant drop operations.
- Be sure you have positive contact with the lead plane or airtanker before the drop.
- Personnel can be injured by the impact of retardant drops. Clear personnel out of the target area when the drop is conducted. If an individual is unable to retreat to a safe place, the best method for minimizing injury from the drop is to:
 - Hold you handtool away from your body.
 - Lie face down with hardhat in place and head toward the oncoming aircraft.
 - Grasp something firm to prevent being carried or rolled about by the retardant.
 - Do not run unless escape is ensured.
 - Get clear of dead snags and tops.
 - Be aware of rolling debris below the drop site in steep terrain.
- Working in an area covered by retardant should be done with caution due to slippery surfaces.
- If possible, wash the retardant off your skin to prevent irritation.
