

**INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, SEPTEMBER 1, 2003 - 0800 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity nationwide was light. Nationally, 114 new fires were reported. Two new fires were reported, one in Eastern Great Basin and one in Southern California. One large fire was contained in the Southern Area. Very high to extreme fire indices were reported in Arizona, California, Hawaii, Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Mann) is assigned to manage Blackfoot Lake Complex, Wedge Canyon, Robert, Middle Fork Complex, Trapper Creek Complex, Crazy Horse, Rampage Complex, and Little Salmon Creek Complex. An Area Command Team (Rounsaville) is assigned to manage Lincoln Complex, Winslow, East Complex, Rough Draw Complex, Cathedral Peak Complex, Rathbone and Burnt Ridge/Sheep Camp Complex. An Area Command Team (Ribar) is assigned to manage Cherry Creek Complex, Mineral-Primm, Fish Creek Complex, Black Mountain 2, Cooney Ridge and Gold 1. An Area Command Team (Greenhoe) is assigned to manage Sapp, Slim's Complex, Beaver Lake Complex, Cayuse Lake Complex, and Clear/Nez Fire Use Complex.

BLACKFOOT LAKE COMPLEX, Flathead National Forest. A Type 1 Incident Management Team (Mortier) is assigned. This incident, comprised of the Beta Lake, Doris Mountain, Lost Johnny, Ball Creek, Wounded Buck, Doe, Wildcat, Upper Lid, Dead Buck, Blackfoot Lake and Mid fires, is in timber, 19 miles east of Kalispell, MT. Fire increased significantly in the afternoon after the inversion lifted. Short, active crown fires, which reburned back into themselves, were observed throughout the complex. Structure protection is in place for 34 residences.

MIDDLE FORK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned. This incident, comprised of the Belton, Center and Harrison fires, is in timber, five miles east of West Glacier, MT. Moderate ground fire with occasional torching was observed. Structure protection is in place for 20 residences.

WEDGE CANYON, Flathead National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is in sub-alpine fir with down fuels, 14 miles northwest of Polebridge, MT. Interior torching, spotting and crowning were observed. Structure protection is in place for 80 residences.

RAMPAGE COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned. This incident, comprised of the Double Mountain 1, Double Mountain 2, Riverview 1, Riverview 2 and Rampage, is in timber, 15 miles southeast of West Glacier, MT. Moderate surface fire with occasional torching was observed. Structure protection is in place for 127 residences.

ROBERT, Flathead National Forest. A Type 1 Incident Management Team (Cable) is assigned. This fire is in timber, eight miles north of Columbia Falls, MT. Fire behavior was minimal, characterized by slow burning ground fire with occasional torching. The smoke inversion made aerial reconnaissance difficult. Structure protection is in place for 100 residences and six commercial properties.

TRAPPER CREEK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned to the Trapper Creek, Paul Bunyan and Trout fires; a Type 2 Incident Management Team (Paul) is assigned to the Wolf Gun fire. The complex is in mixed conifer with dead and down fuels, 45 miles northeast of Kalispell, MT. Smoldering, creeping and short upslope runs were observed. Structure protection is in place for three commercial properties.

CRAZY HORSE, Flathead National Forest. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is in mixed conifer with heavy dead and down fuels, eight miles southwest of Condon, MT. Increased group torching occurred within the Mission Mountains Wilderness due to continued low humidity levels. Isolated areas of creeping fire were observed outside the wilderness. A contain/confine strategy using natural barriers is being implemented on the west flank in the Mission Mountains Wilderness.

LINCOLN COMPLEX, Helena National Forest. A Type 1 Incident Management Team (Studebaker) is assigned. This complex, comprised of the Moose-Wasson and Snow-Talon fires, is ten miles west of Lincoln, MT. Active surface fire, multiple tree torching, short duration crown runs and short range spotting were observed. Structure protection is in place for 30 residences.

RATHBONE, Gallatin National Forest. A Type 2 Incident Management Team (Walker) is assigned. This fire is in timber, 17 miles northwest of West Yellowstone, MT. Moderate fire behavior with isolated torching and short runs was observed. Highway 191 is open through the fire area with a pilot car.

WINSLOW, Central Land Office, Montana Department of Natural Resources & Conservation. This fire is in timber, five miles southwest of Lakeview, MT. Minimal fire activity was observed. No new information was received.

CATHEDRAL PEAK COMPLEX, Custer National Forest. A Type 2 Incident Management Team (Benes) is assigned. This incident, comprised of the Cathedral Peak, Oliver and Salderbalm fires, is in timber, 10 miles south of Nye, MT. Smoldering with isolated ground fire was observed.

BURNT RIDGE SHEEP CAMP COMPLEX, Lewis and Clark National Forest. A Type 2 Incident Management Team (Larsen) is assigned. This complex, comprised of the Burnt Ridge, Ant Park, Sheep Camp and Pioneer Ridge fires, is 12 miles southeast of Neihart, MT. Single and group torching were observed on the steep slopes of the southeastern flank. Fire behavior was limited to isolated creeping in the other flanks.

ROUGH DRAW COMPLEX, Gallatin National Forest. This complex, five miles southeast of Livingston, MT is comprised of the Rough Draw, Slippery Rock, Speculator 1, Speculator 2, Elbow, Brundage, Walbrun and Hawley fires. Minimal fire behavior was observed.

EAST COMPLEX, Yellowstone National Park. This incident, comprised of the East and Grizzly fires, is ten miles east of Fishing Bridge Junction, WY. Fire behavior was minimal. Highway 20 is open for public use from 0600 to 2000 hours.

FISH CREEK COMPLEX, Lolo National Forest. A Type 1 Incident Management Team (Stam) is assigned. U.S. Army Task Force Steel Dragon (2nd Battalion, 82nd Field Artillery Regiment) commanded by Lt. Col. Gregory Schultz, at Fort Hood, TX is assigned. This incident, comprised of the Fish Creek, Thompson Creek, Surveyor Creek, Lower Quartz, Siamese Lake, Indian Creek, Middle Fork Indian Creek, Cedar Log and West Fork Indian Creek fires, is 35 miles west of Missoula, MT. Active surface spread within designated firelines, torching and spotting were observed. Structure protection is in place for 195 residences and one commercial property.

BLACK MOUNTAIN 2, Southwestern Land Office, Montana Department of Natural Resources & Conservation. A Type 1 Incident Management Team (Gelobter) is assigned. This fire is in mixed conifer, understory and grass, nine miles west of Missoula, MT. Fire behavior was minimal. Structure protection is in place for 650 residences.

CHERRY CREEK COMPLEX, Lolo National Forest. This incident, comprised of the Cherry Creek and Tepee Creek fires, is in lodgepole pine with heavy ground fuels, 12 miles southeast of Thompson Falls, MT. Minimal fire activity was observed. Structure protection is in place for 180 residences.

MINERAL-PRIMM, Lolo National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This incident, comprised of the Mineral-Primm, Stuart Peak, Upper Rattlesnake, and Boles Meadows fires, is in timber, 19 miles northeast of Missoula, MT. Active surface fire with isolated torching occurred in unburned interior islands.

COONEY RIDGE, Southwestern Land Office, Montana Department of Natural Resources & Conservation. A Type 2 Incident Management Team (Kechter) is assigned. This fire is in timber, 11 miles east of Florence, MT. Creeping ground fire with isolated individual and group torching was observed. Structure protection is in place for 100 residences.

GOLD 1, Bitterroot National Forest. A Type 2 Incident Management Team (Swope) is assigned. This fire is in heavy timber, nine miles northeast of Corvallis, MT. Fire activity was minimal with occasional torching.

BEAVER LAKE COMPLEX, Clearwater National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This incident, comprised of the Beaver Lake, Siah Lake, Moose Lake, Lily Lakes, Bears Oil, Cayuse, Eagle Creek, Eagle Creek East, Fish, Queen Creek, North Howard and Hopeful 2 fires, is 19 miles southwest of Missoula, MT. Small group torching with minor surface runs was observed. Structure protection is in place for 12 residences and four commercial properties.

SLIM'S COMPLEX, Nez Perce National Forest. A transfer of command from Sexton's Type 1 Incident Management Team to a Type 3 organization will occur on 9/4 at 0600. This complex, comprised of the Slim's, Stillman and Poet fires, is 35 miles east of Grangeville, ID. Fire activity was minimal.

SAPP, Nez Perce National Forest. A transfer of command from Sexton's Type 1 Incident Management Team to a Type 3 organization will occur on 9/4 at 0600. This incident, comprised of the Sapp and Richardson fires, is in timber and grass, 22 miles south/southeast of Elk City, ID. Fire behavior was minimal. Structure protection is in place for two residences.

CAYUSE LAKE COMPLEX, Clearwater National Forest. A Fire Use Management Team (Cones) is assigned. This incident, comprised of 44 fires, is in timber, 41 miles southwest of Lolo, MT. Low intensity surface fire with some single and group torching was observed. The complex is being managed with a confinement/suppression strategy.

MOLLMAN, Flathead Agency, Bureau of Indian Affairs. This fire is in timber, five miles southeast of Ronan, MT. Group torching and short runs in grass and brush were observed.

UNION, Yellowstone National Park. This fire is in timber, 35 miles east of Ashton, ID. Fire behavior was minimal.

FIDDLE, Nez Perce National Forest. This fire is in timber, six miles northeast of Riggins, ID. No new information was received.

NORTHWEST AREA LARGE FIRES:

B&B COMPLEX, Deschutes National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This complex, comprised of the Booth and Bear Butte fires, is 14 miles west of Sisters, OR. The fires are in timber with heavy ground fuels. Active fire with torching, spotting up to ¼ mile and crown runs was observed. Structure protection is in place for 1,000 residences and 12 commercial properties. Camp Sherman south of USFS Road 1217 is under a voluntary evacuation notice, Camp Sherman north of USFS Road 1217 remains under a mandatory evacuation order. State Highway 20 over Santiam Pass has been opened.

SQUARE LAKE FIRE, Okanogan/Wenatchee National Forest. A Type 2 Incident Management Team (Furlong) is assigned. This fire is in continuous old growth forest, heavy brush and downed fuels, 20 miles west of Leavenworth, WA. Backing fire with group torching and short range spotting was observed. Trail closures for Icicle Creek drainage remain in effect.

GLACIER PEAK COMPLEX, Mt. Baker-Snoqualmie National Forest. This incident is in timber, brush and heavy downed fuels, 16 miles southeast of Marblemount, WA. The complex is comprised of 19 fires: 12 active fires and seven fires in monitor status. Fire activity increased due to lower relative humidity and rising temperatures.

MOUNT RAINIER COMPLEX, Mount Rainer National Park. This complex, comprised of the Panther, Redstone and Chenuis fires, is in timber with heavy down fuels, 13 miles northeast of Packwood, WA. The Panther fire had minimal activity; the Redstone fire was actively burning with individual tree torching.

NOCA COMPLEX, North Cascades National Park. This previously reported lightning-caused Wildland Fire Use complex, which began on 8/5, is comprised of seven fires, five miles north of Diablo, WA. Active fire with rapid rates of spread on steep slopes was observed. This will be the last narrative report unless significant activity occurs.

EASTERN GREAT BASIN AREA LARGE FIRES:

WINSLOW IDAHO, Caribou-Targhee National Forest. This fire is in timber, downed fuels and grass, nine miles north of Kilgore, ID. Minimal fire activity with occasional torching was observed.

SOUTH RIDGE, Southeast State, Utah State Division of Forestry Fire & State Lands. This fire is in mixed conifer and logging slash, 25 miles northwest of Wellington, UT. Minimal fire activity with occasional torching was observed.

NORTH FORK LICK, Payette National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This incident, comprised of the Marble and North Fork Lick fires, is in sub-alpine fir with dead and down fuels, 18 miles northeast of McCall, ID. Minimal fire activity was observed. Structure protection is in place for 123 residences and two commercial properties.

MIDDLE FORK COMPLEX, Salmon-Challis National Forest. A Fire Use Management Team (Clark) is assigned. The complex, comprised of the Cougar, Marble, Prospect, Mahoney, Teapot, Falconberry and Trapper fires, is 25 miles northwest of Challis, ID. Fire activity has increased within the complex; the most active are the Rush and Falconberry fires. Heavy concentrations of down fuels continued to burn. The complex is in monitor status.

MOSS RIDGE, Bridger-Teton National Forest. This previously reported lightning-caused Wildland Fires Use (WFU) incident, which began on 8/15, is nine miles northeast of Moran, WY. This incident is being managed to accomplish resource objectives. No new information was received. This will be the last narrative report unless significant activity occurs.

ROCKY MOUNTAIN AREA LARGE FIRES:

BOULDER BASIN 2, Shoshone National Forest. This fire is in grass, sagebrush and timber, 25 miles southwest of Cody, WY. Minimal fire activity was reported.

BLACKWATER COMPLEX, Shoshone National Forest. This complex, comprised of the Blackwater and Norris fires, is 30 miles west of Cody, WY. Minimal fire activity was reported.

NORTHERN CALIFORNIA AREA LARGE FIRES:

SANTA CLARA COMPLEX, Santa Clara Unit, California Department of Forestry & Fire Protection. A CDF Type 1 Incident Management Team (Chuchel) is assigned. This complex, composed of 23 lightning fires, seven active large fires and 16 contained fires within the area, is in chaparral, timber and grass, ten miles south of Livermore, CA. Progress has been made on all fires within the complex. Most fire activity was limited to interior burning. Structure protection is in place for 40 residences.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
SANTA CLARA COMPLEX	CA	SCU	30,170	85	9/2	2,363	55	137	7	0	8.4M

SOUTHERN CALIFORNIA AREA LARGE FIRES:

WEST KERN, Sequoia & Kings Canyon National Park. This lightning-caused Wildland Fires Use (WFU) incident is being managed to accomplish resource objectives. This fire is in Jeffery pine and mountain chapparral, 30 miles southeast of Lone Pine, CA. Lower relative humidity levels and high winds have resulted in some fire runs with torching and spotting. The fire is in monitor status.

KIBBIE COMPLEX, Yosemite National Park. This previously reported lightning-caused Wildland Fire Use complex, which began on 7/20, is comprised of the Kibbie, Son of Kibbie and the Flora fires, 18 miles east of Miwok Village in Yosemite National Park, CA. Rain fell (0.1) resulting in minimal fire behavior in red fir and lodgepole timber. This will be the last narrative report unless significant activity occurs.

OUTLOOK:

Fire Weather Watches: In eastern Montana for gusty winds and low relative humidity.

Weather Discussion: High pressure will continue to build into the western states, with temperatures staying above normal through Wednesday. A weak upper level storm system will slowly drift into the central Great Basin from California, enhancing the chance of thunderstorms during the afternoon in the Great Basin. Flow around a high pressure in the west central states will provide some moisture over the southern Sierras today as well. The moisture may spark thunderstorms in the southern California mountains.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
NORTHERN ROCKIES AREA Mostly sunny with gusty winds developing especially eastern Montana and western North Dakota	Idaho: 90s Montana: 80s North Dakota: 70s	Idaho: 10 to 20% Montana: 10 to 20% west and 20 to 30% east North Dakota: 30 to 40%	Idaho: West 5 to 10 mph Montana: East of the divide southeast to southwest 10 to 15 mph shifting northwest 10 to 20 mph. West of the divide east 5 to 15 mph. North Dakota: South 15 to 20 mph becoming west to northwest 10 to 20 mph late.
NORTHWEST AREA Mostly sunny.	80s and 90s near 100 in southwest Oregon.	Very Dry. Westside: 15 to 25%. Eastside: 5 to 15%.	Generally northwest to north 5 to 15 mph.
EASTERN GREAT BASIN AREA Idaho, Bridger-Teton: Mostly sunny, warm, and dry. Utah, Arizona Strip: Partly cloudy western Utah with isolated to widely scattered thundershowers, mainly over the mountains. Otherwise mostly sunny and warmer.	Idaho, Bridger-Teton: 64 to 78 mountains, 78 to 94 valleys. Utah and Arizona Strip: 68 to 84 higher elevations, 84 to 103 valleys.	Idaho, Bridger-Teton: 7 to 21% west, 11 to 23% east. Utah, Arizona Strip: 10 to 22% valleys, 16 to 32% mountains.	Idaho, Bridger-Teton: Light and variable. Utah, Arizona Strip: Light upslope.
ROCKY MOUNTAIN AREA Partly to mostly sunny. Isolated afternoon thunderstorms over the southern Colorado front range.	Highs lower to mid 80s with 70s in the mountains.	15 to 20% over lower elevations of western Colorado, southwest Wyoming, and northeast Wyoming, with 20 to 35% elsewhere.	Variable 5 to 18 mph.
NORTHERN CALIFORNIA AREA Night and morning coastal fog and low clouds. Clear elsewhere with afternoon cumulus over the higher elevations, with a slight chance of thunderstorms along and east of the Sierra Cascade Crest from Susanville south.	Warmest inland valleys upper 90s to around 104. 60s to mid 70s near the coast.	10 to 20% driest inland areas.	Southwest to northwest 4 to 9 mph gusts 14 to 20 mph in the afternoons.
SOUTHERN CALIFORNIA AREA Areas of morning low clouds and fog coastal areas, otherwise mostly sunny. Partly cloudy over the mountains and deserts with a slight chance of afternoon thunderstorms.	70 to 80 coastal areas. 80 to 90 mountains. 88 to 96 valleys. 90s upper desert. 104 to 110 low desert.	20 to 30% desert. 20 to 30% mountains. 15 to 25% valleys. 50 to 65% coast.	Southeast to southwest 8 to 15 mph.

http://www.nifc.gov/sixminutes/dsp_sixminutes.php

SAFENET

SAFENET is a form, and process, that provides a method for reporting unsafe situations on, or off, the fireline. The information provided on the form will help collect important, safety-related data to determine long-term trends and problem areas. A SAFENET may be filled out at any time to report a valid concern about unsafe situations in fire operations, as well as document corrective action.

- Discuss the methods for filing a SAFENET.
 - Electronically (Access site through NIFC web site)
 - By hardcopy (self-addressed, stamped forms available through the cache system).
 - By phone (1-800-670-3938)

- Discuss advantages of filing a SAFENET through your supervisor versus sending it yourself.
 - Increase the chances of finding an immediate solution.
 - Keeps supervisor "in the loop."

- Discuss using SAFENET in situations other than fire.
 - Prescribed fire
 - All-risk
 - Training

- Where does a SAFENET go, and what response can you expect?
 - SAFENETs are received and stored in a database in Boise. After a SAFENET is received, the names are removed. It is then given a document number and posted to the web.
 - Every new SAFENET is then forwarded to the affected agencies designated list of contacts, which usually includes the National or Regional Safety Officer.
 - It is each agency's responsibility to insure that corrective actions are taken.

- Corrective actions can be filed by anyone at any time. They are automatically attached to the individual SAFENET on the database.

- Discuss using SAFENET to monitor safety issues other firefighters may be having.
