

INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, JULY 9, 2004 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3

CURRENT SITUATION:

Initial attack activity was light nationally with 138 fires reported. Two new large fires were reported, one each in the Southwest and Western Great Basin Areas. One large fire was contained in the Southwest Area. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Nevada, New Mexico, Oklahoma, South Dakota, Texas, Utah and Wyoming.

ALASKA AREA LARGE FIRES:

EVANSVILLE, Tanana Zone, Bureau of Land Management. This fire is one half mile southeast of Bettles, AK in black spruce. Fire behavior was limited to creeping due to weather conditions. Firefighters concentrated on securing the north flank near the town of Bettles.

BOUNDARY, Fairbanks Area Forestry, Alaska Division of Forestry. A Type 1 Incident Management Team (Hart) is assigned. This fire is 20 miles northeast of Fairbanks, AK in alpine tundra and black spruce. Torching and short crown runs were observed near the perimeter south of the Steese Highway. Firefighters made good progress constructing line on the southwest flank.

WOLF CREEK, Upper Yukon Zone, Bureau of Land Management. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is 60 miles northeast of Fairbanks, AK in black spruce and hardwoods. Active fire behavior moderated due to afternoon precipitation.

TAYLOR COMPLEX, Tok Area Forestry, Alaska Division of Forestry. A Type 2 Incident Management Team (Kurth) is assigned. This complex, comprised of the Wall Street, Billy Creek, Gardiner Creek, Big Creek, Anomaly, Chicken and Porcupine fires, is 35 miles northwest of Tok, AK in black spruce and tundra. Fire activity was moderate. The Chicken fire continued to back down drainages toward the Taylor Highway.

CAMP CREEK, Delta Area Forestry, Alaska Division of Forestry. A Type 2 Incident Management Team (Stegmier) is assigned. This fire is 23 miles northwest of Delta Junction, AK in tundra and spruce. Fire behavior was minimal.

EAGLE COMPLEX, Upper Yukon Zone, Bureau of Land Management. A Fire Use Management Team (Cones) is assigned. This complex, consisting of the American Summit, Edwards Creek, King Creek, Kandik River, Indian Grave Creek, Deer Creek and seven additional fires is located three miles northeast of Eagle, AK in tundra, black spruce and mixed hardwoods. Fire behavior was minimal with smoldering and interior burning observed.

SOLSTICE COMPLEX, Upper Yukon Zone, Bureau of Land Management. A Fire Use Management Team (Bird) is assigned. This incident is 57 miles northwest of Fort Yukon, AK in black spruce and tundra. The complex consists of the Pingo, Winter Trail, Sucker River, Black Currant River, Vundik Lake, Boulder Creek and Sheenjok fires. Higher relative humidity decreased fire intensity. Wind driven torching and short runs were reported in drier areas.

SOUTHWEST AREA LARGE FIRES:

NUTTALL COMPLEX, Coronado National Forest. A Type 1 Incident Management Team (Oltrogge) is assigned. This complex, located 15 miles southwest of Safford, AZ in brush and heavy timber, consists of the Nuttall and Gibson fires. Fire behavior was moderate on the Nuttall fire with some individual tree torching observed. Fire activity on the Gibson fire moderated; surface spread with some individual tree and group tree torching was observed. Portions of both fires received some light precipitation.

WILLOW, Tonto National Forest. A Type 1 Incident Management Team (Whitney) is assigned. This fire is six miles southwest of Payson, AZ in timber, grass and chaparral. The fire was very active as a result of fire movement and burnout execution. Sustained upslope runs through grass and brush with 80 foot fire whirls were observed on steep slopes above Highway 87. Highway 87 remains closed in both directions.

JACKET, Coconino National Forest. This fire is 13 miles southeast of Winona, AZ in grass, juniper and pinyon pine. Strong gusty winds caused very active fire behavior, including one quarter mile spotting, torching and significant runs.

MILITARY. San Carlos Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Kvale) is assigned. This fire is 21 miles east of San Carlos, AZ in timber, scrub oak brush and grass. Active burning was observed inside the fire perimeter.

PONDEROSA, Tonto National Forest. This fire is 15 miles east of Payson, AZ in ponderosa pine. Minimal fire behavior was reported.

GNF = Gila National Forest

NORTHWEST AREA LARGE FIRES:

POT PEAK, Okanogan/Wenatchee National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. This fire is 15 miles northwest of Chelan, WA in timber. Active interior burning continued. Several small spot fires were located and contained outside the fireline in the Slide Ridge area.

FREEZEOUT, Okanogan/Wenatchee National Forest. A Fire Use Management Team (Cook) is assigned. This fire is 65 miles northeast of Bellingham, WA in timber. Steep, hazardous terrain is impeding containment efforts. Minimal fire behavior was observed. Structure protection is in place for one threatened cabin.

BEEBE, Spokane District, Bureau of Land Management. A Washington Interagency Incident Management Team (Jennings/Perry) is assigned. This fire is four miles east of Chelan, WA in grass. Fire behavior was minimal.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

WESTERN GREAT BASIN AREA LARGE FIRES:

CHROME, Ely Field Office, Bureau of Land Management. This fire is 45 miles northwest of Ely, NV in pinyon pine, juniper, sagebrush and grass. Fire behavior was extreme due to high winds which gusted up to 54 mph.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
CHROME	NV	ELD	1,500	20	UNK	166	8	0	0	0	NR

ROCKY MOUNTAIN AREA LARGE FIRES:

OIL SPRINGS, White River Field Office, Bureau of Land Management. A Fire Use Management Team (Weldon) has been ordered. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 27 miles south of Rangely, CO in pinyon pine, juniper, sagebrush and grass. Major slope driven runs were observed with spotting and crowning.

OUTLOOK:

Fire Weather Watch: A fire weather watch has been issued Saturday afternoon for the Sierra Front of western Nevada due to gusty winds and low humidity.

Weather Discussion: South to southwest flow will continue over most of the West as an upper trough remains locked over the Pacific Northwest and a high pressure ridge remains over the Southwest. Some moisture is filtering into the southern Sierra, Great Basin and Southwest. In Alaska, a weak front will be brushing the north while high pressure remains over the south.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
NORTHWEST AREA Chance of rain western Washington and mostly cloudy for the remainder of the west side. Sunny east side.	60s western Washington mid 80s southwest Oregon. East side 70s and 80s. 60s higher elevations in northern Washington.	West of Cascades: generally 40 to 70%; near 30% southwest Oregon. Eastside: ranging from 15 to 25%; as low as 10% south central and southeast Oregon.	West to northwest at 5 to 15 mph ridgetops and exposed areas east of the Cascades. West side winds generally west at 5 to 10 mph.
WESTERN GREAT BASIN AREA Mostly sunny northwest corner, elsewhere becoming partly sunny with widely scattered to scattered showers and thunderstorms.	North: 85 to 95. South: 90 to 99. Mountains: 72 to 84.	North Valleys: 10 to 18%. South Valleys: 10 to 18%. Mountains: 14 to 28%.	North: Southwest at 10 to 15 mph with localized gusts 25 to 30 mph. South: South to southwest at 10 to 20 mph with localized gusts to 25 mph.
NORTHERN CALIFORNIA Mostly clear except for night and morning coastal low clouds and fog.	60s coast. 70s higher elevations. 80s to low 90s inland valleys.	15 to 25% East Side of the area. 20 to 35% remainder of inland valleys.	Southwest to northwest 5 to 15 mph with strongest afternoon gusts to 33 mph east of the Sierra-Cascade crest.
SOUTHERN CALIFORNIA Areas of morning low clouds and fog coastal areas. Otherwise mostly sunny, except partly cloudy in the afternoon over the mountains with isolated thunderstorms.	68 to 78 coastal areas. 70 to 85 mountains. 80s valleys. 90s upper deserts. 100 to 108 lower deserts.	30 to 45% valleys. 15 to 25% mountains. 8 to 15% deserts.	Southwest to northwest 10 to 20 mph over the mountains. 15 to 25 mph over the deserts. Onshore 8 to 15 mph in the coastal areas.
ROCKY MOUNTAIN AREA Isolated afternoon dry thunderstorms over southern Wyoming and western Colorado.	Upper 80s to mid 90s. 70s mountains.	10 to 22%. 25 to 45% northern Front Range of Colorado, eastern plains and higher elevations.	Southern winds 15 to 30 mph in Kansas. 5 to 18 mph elsewhere.
SOUTHWEST Partly to mostly cloudy. Isolated to widely scattered thunderstorms; some possibly dry in far northern Arizona and New Mexico.	Upper 60s to 80s mountains. 90s lower elevations. 100 to 106 southern deserts and lowlands.	10 to 30% Arizona and New Mexico. 20 to 40% west Texas.	Southwest to west at 10 to 15 mph with higher gusts Arizona and western New Mexico. South to southeast at 10 to 20 eastern New Mexico and west Texas.

DOZER/TRACTOR PLOW OPERATIONS

Dozers/tractor plows provide suppression and support capability for fire operations. When working on or around dozers on the fireline, it is important to respect the following guidelines:

- Load/unload equipment from the transport in a safe manner on a level, stable surface.
- Park transport in an area free of fuel. Clear an area if needed to protect parked equipment.
- Do not sit or bed down near equipment. Walk around the equipment before starting or moving it.
- Lower the dozer blade and/or fire plow to the ground when the equipment is idling or stopped.
- When working a dozer or tractor plow, stay at least 100 feet in front or 50 feet behind the equipment.
- Allow no one but the operator to ride on the equipment.
- Never get on or off equipment while it is moving.
- Provide front and rear lights for equipment working at night or in heavy smoke.
- Provide lights and fluorescent vests to personnel working with dozer/tractor plow units.
- Use hand signals for direction and safety. (See Fireline Handbook, Appendix A, for hand signals.)
- Do not use a dozer or tractor plow without a canopy or brush guard and radio communications.
- Operators will wear required PPE and carry a fire shelter.
- Be aware of different fuel types, rates of spread, and flammability.
- Watch for wetlands, steep slopes, rocks, ditches, and other obstacles that might stop the equipment.
- Do not get too far ahead of a firing crew during firing operations.
- Anchor the line to a secure firebreak and create a black line (burn out) until the fire is completely enclosed.
- Tractor plow operators should wear headgear protection for head, face, eyes, and ears while also providing radio reception and ventilation capabilities.
- Tractor plow crews should consist of a minimum of two people.
- When the dozer or tractor plow is equipped with a hand-clutch lever, always take equipment out of gear when mounting and dismounting.
