

INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY AUGUST 20, 2004 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3

CURRENT SITUATION:

Initial attack activity was moderate in the Northwest and Northern Rockies Areas and light elsewhere. Nationally, 177 new fires were reported. Four new large fires were reported, one each in the Northwest, Alaska, Northern California and Eastern Great Basin Areas. Two large fires were contained, one each in the Northwest and Southwest Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Montana, Nevada, Oregon, Washington and Wyoming.

Hurricane Charley, Florida. A Presidential Disaster Declaration was issued on 8/13. A Type 1 Incident Management Team (Ferguson) is assigned to provide logistical and resource support. The team will work jointly with the GSA, FEMA, the U.S. Army and Air Force, Army Corps of Engineers, Florida Division of Forestry, Florida State Emergency Response Team, Florida National Guard, Central Florida Regional Planning Council, Lakeland Airport Authority, the Salvation Army and state and local law enforcement agencies.

NORTHWEST AREA LARGE FIRES:

FISCHER, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This fire is four miles southeast of Leavenworth, WA in grass, brush and timber. Fire activity moderated. Evacuation orders are still in effect for Hay, Nahahum, Jude and Spring Canyons.

WILLIAMS BUTTE COMPLEX, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. This complex, consisting of the Williams Butte, Whistler Creek and Crescent fires, is located 15 miles southwest of Winthrop, WA in timber. Fire behavior was moderate with some torching.

POT PEAK/SISI RIDGE COMPLEX, Okanogan-Wenatchee National Forest. A Washington State Interagency Incident Management Team (Furlong/Gormley) is assigned. This complex, comprised of the Pot Peak, SiSi Ridge and Deep Harbor fires, is 15 miles northwest of Chelan, WA in timber. Fire behavior throughout the complex consisted of creeping and backing fire with occasional torching. Voluntary evacuation notifications remain in effect.

BYBEE COMPLEX, Crater Lake National Park. A Type 2 Incident Management Team (West) is assigned. This complex, comprised of ten fires, is 16 miles northeast of Prospect, OR in timber. Fire activity was low. Reduction in acreage is due to more accurate mapping.

DIRTY FACE PEAK, Okanogan-Wenatchee National Forest. A Type 2 Incident Management Team (Larsen) is assigned. This fire is 20 miles northwest of Leavenworth, WA in timber. Minimal fire behavior was observed.

FREEZEOUT COMPLEX, Okanogan-Wenatchee National Forest. A Fire Use Management Team (Cook) is assigned. This complex, comprised of the Freezeout, Devil's Creek, Devil's Dome, and Jerry Lakes fires, is 65 miles northeast of Bellingham, WA in timber. The Freezeout is a suppression fire while the others are being managed as Wildland Fire Use (WFU) fires. The Team is also managing the Mebee and several other fires. A joint U.S. Forest Service/British Columbia Forest Service helibase has been established in Manning Park, Canada to support air operations. Minimal fire activity was reported on all fires in the Complex.

RATTLESNAKE PEAK, Okanogan-Wenatchee National Forest. A transfer of command from a Fire Use Management Team (Weldon) to a Fire Use Manager occurred. This lightning-caused Wildland Fire Use (WFU) incident, located 40 miles west of Yakima, WA in timber, is being managed to accomplish resource objectives. Fire activity included smoldering and individual tree torching.

HIGHLANDS COMPLEX, Washington Department of Natural Resources, Northeast. A Washington Interagency Management Team (Holloway/Ripley) will assume command at 1800 PDT. This complex, comprised of the Eagle Rock, White Stone, Branch Creek, and High Country fires, is twenty miles southeast of Tonasket, WA, in timber and grass. Fire activity was limited to interior islands. Mandatory evacuations are in place for four residences near the Eagle Rock fire. Evacuation notifications are in effect for the rest of the fire area.

SWIFT CREEK, Mt. Baker-Snoqualmie National Forest. This fire is ten miles north of Concrete, WA in timber. Flanking and short uphill runs were observed.

DOWNEY CREEK, Mt. Baker-Snoqualmie National Forest. This fire is 16 miles northeast of Darrington, WA in timber. Fire activity was minimal.

JIM WHITE RIDGE, Wallowa-Whitman National Forest. A Fire Use Management Team (Hall) is assigned; the team will also manage the Hazel 2. This lightning-caused Wildland Fire Use (WFU) incident, located five miles east of Cove, OR in timber, is being managed to accomplish resource objectives. No new information was reported.

HAZEL 2, Wallowa-Whitman National Forest. A Fire Use Management Team (Hall) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, located 21 miles east of La Grande, OR in timber, is being managed to accomplish resource objectives. No new information was reported.

MODOC POINT, Winema National Forest. This fire is 20 miles north of Klamath Falls, OR in grass, juniper and mixed timber. No new information was reported. This will be the last report unless new information is received.

ALASKA AREA LARGE FIRES:

CENTRAL COMPLEX, Bureau of Land Management, Upper Yukon Zone. A Type 1 Incident Management Team (Frye) is assigned. This complex, comprised of the Crazy, Bolgen Creek, Rock Creek, Preacher Creek, Middle Birch, Big Bluff and Takoma Bluff fires, is surrounding Central, AK in spruce and hardwoods. Significant fire activity with torching, sustained runs and long range spotting was reported on some fires within the Complex.

TAYLOR HIGHWAY COMPLEX, Alaska Division of Forestry, Tok Area Forestry. A Type 2 Incident Management Team (Jandt) is assigned. This complex, comprised of the Billy Creek, Gardiner Creek, Chicken and Porcupine fires, is 35 miles northwest of Tok, AK in black spruce and tundra. Torching and ground fire were reported on the Porcupine fire. Fire activity moderated on the Chicken and Gardiner Creek fires.

GLACIER CREEK, Alaska Division of Forestry, Kenai-Kodiak Area. This fire is 31 miles southeast of Soldotna, AK in timber. The fire crossed a main ridge and is backing into Indian Creek drainage.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

EASTERN GREAT BASIN AREA LARGE FIRES:

NORTH STAR BUTTE, Payette National Forest. A Type 2 Incident Management Team (Whalen) is assigned. This fire is 17 miles northwest of New Meadows, ID in subalpine fir. Fire behavior was minimal.

BEAR SPRING, Salmon-Challis National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This fire is 11 miles northwest of North Fork, ID in timber. Precipitation resulted in minimal fire activity.

PORTER, Salmon-Challis National Forest. A Fire Use Management Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, located 25 miles northwest of Stanley, ID in timber, is being managed to accomplish resource objectives. Smoldering and creeping were observed. Forest trail closures remain in effect.

ELK SPRINGS, Payette National Forest. This lightning-caused Wildland Fire Use (WFU) incident, located 19 miles north of Yellow Pine, ID in timber, is being managed to accomplish resource objectives. The incident is being monitored by lookouts and aerial resources. No further information was received.

NORTHERN CALIFORNIA AREA LARGE FIRES:

FRENCH, California Department of Forestry and Fire Protection (CDF), Shasta-Trinity Unit. A CDF Type 1 Incident Command Team (Lutts) is assigned. This fire is 15 miles northwest of Redding, CA in timber. The fire was active with occasional torching.

VACA, California Department of Forestry and Fire Protection (CDF), Sonoma-Lake Napa Unit. This fire is six miles northeast of Vacaville, CA in oak woodland and brush. Fire behavior was active with slope driven runs observed in the lower portion of the fire; the upper portion reported minimal fire behavior.

NORTHERN ROCKIES AREA LARGE FIRES:

SCIMITAR, Bitterroot National Forest. This lightning-caused Wildland Fire Use (WFU) incident, located 35 miles southwest of Hamilton, MT in timber and litter, is being managed to accomplish resource objectives. No further information was received. This will be the last narrative report unless significant activity occurs.

OUTLOOK:

Weather Discussion: A ridge of high pressure remains over the West with an upper low off the California coast. Thunderstorms will be scattered from the Sierra and Cascades eastward to the Rockies. High pressure will continue over central and northern Alaska.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<p>NORTHWEST AREA Mostly sunny. Isolated afternoon thunderstorms in eastern Oregon and northeast Washington.</p>	<p>West of Cascades: Mid 70s to mid 80s. Lower 90s southwest Oregon. Mid to upper 60s coast. East of Cascades: Lower 80s to mid 90s.</p>	<p>West of Cascades: 30 to 45% north. 20 to 30% south. East of Cascades: 15 to 30%.</p>	<p>West of Cascades: Northwest-north 5 to 15 mph except north 15 to 25 mph on the south Oregon coast. East of Cascades: West-northwest 5 to 15 mph.</p>
<p>EASTERN GREAT BASIN AREA Idaho, Bridger-Teton: Partly to mostly cloudy with widely scattered to scattered thunderstorms, mainly over mountains. Utah, Arizona Strip: Partly to mostly cloudy with widely scattered to scattered thunderstorms, mainly in the mountains.</p>	<p>Idaho, Bridger-Teton: 60 to 82 mountains. 82 to 93 valleys. 55 to 70 western Wyoming. Utah and Arizona Strip: 66 to 85 mountains. 75 to 102 valleys. 100 to 106 Lake Mead.</p>	<p>Idaho, Bridger-Teton: 25 to 45% mountains. 20 to 30% valleys. Utah, Arizona Strip: 25 to 40% mountains. 18 to 30% valleys.</p>	<p>Idaho, Bridger-Teton: Northwest 5 to 10 mph except upslope/upvalley mountains. Utah, Arizona Strip: Northwest 4 to 8 mph except upslope/upvalley mountains.</p>
<p>NORTHERN ROCKIES AREA Skies generally partly cloudy to the west but sunnier to the east. Isolated showers or wet thunderstorms, mostly in southwest and west portions during evening hours. A stationary front will lie northwest-southeast across eastern Montana. Temperatures remain quite cool in North Dakota.</p>	<p>West of Continental Divide: 82 to 95 Idaho. 79 to 93 elsewhere. East of Continental Divide: 59 to 71 North Dakota. 57 to 67 mountains. 70 to 84 elsewhere.</p>	<p>West of Continental Divide: 20 to 33% Idaho. 24 to 37% elsewhere. East of Continental Divide: 33 to 43% North Dakota. 22 to 36% elsewhere.</p>	<p>West of Continental Divide: Mainly slope/ valley or westerly 4 to 10 mph. East of Continental Divide: West-northwest 5 to 10 mph in west. East-southeast 5 to 10 mph in east. Variable to northwest to 10 mph in North Dakota.</p>
<p>WESTERN GREAT BASIN AREA Partly cloudy with isolated showers and thunderstorms.</p>	<p>82 to 95 valleys. 75 to 88 mountains.</p>	<p>13 to 20% valleys. 18 to 31% mountains.</p>	<p>West to northwest at 5 to 15 mph.</p>
<p>SOUTHERN CALIFORNIA AREA Areas of morning low clouds and fog into the coastal valleys. Otherwise partly cloudy with isolated to scattered afternoon thunderstorms over the Sierra and over the mountains and deserts of Southern California east of Cajon Pass.</p>	<p>65 to 75 coastal areas. 70 to 85 mountains. 80 to 90 valleys. 85 to 95 upper deserts. 95 to 105 lower deserts.</p>	<p>30 to 45% valleys. 20 to 35% mountains. 10 to 20% deserts.</p>	<p>Southwest to northwest 5 to 15 mph.</p>

<p>NORTHERN CALIFORNIA AREA Variable amounts of high cloudiness. Isolated afternoon and evening thunderstorms along and east of the Cascade/Sierra crest.</p>	<p>80s to 90s.</p>	<p>18 to 30% driest inland areas.</p>	<p>South to southwest 5 to 15 mph with locally stronger afternoon gusts.</p>
<p>ROCKY MOUNTAIN AREA Isolated to widely scattered afternoon thunderstorms over Wyoming and Colorado.</p>	<p>70s to mid 80s. 60s to 70s mountains.</p>	<p>Less than 20% over extreme southwest Colorado and northeast Wyoming.</p>	<p>Light variable winds across the area.</p>

BUILDING FIRELINE DOWNHILL WITH FIRE BELOW

As a general rule, construct line moving uphill. Many firefighters have lost their lives attacking wildland fires from above. If there is no practical alternative to constructing line downhill, proceed only after weighing the following considerations:

- Has the area been scouted for fire perimeter and behavior? Discuss what you need to know about the fire perimeter and fire behavior before building fireline downhill with fire below.
- Will wind direction be at your back? Will it stay at your back? Talk about how winds can change when you are on a slope (e.g., time of day, upslope and downslope breezes, etc.).
- Is the area free of chimneys and gullies? How would you negotiate your line location if there were chimneys and gullies below where you needed to be working?
- Are there adequate safety zones and escape routes as you progress downhill? How do you maintain adequate safety zones and escape routes as you progress downhill?
- Can you carry your burnout downhill as you go to provide an anchor point and safety zones? Discuss how you decide when to carry the burnout with you or wait until you have tied in down below.
- Have lookouts been posted? What do the lookouts need to be on the watch for?
- Do you have good communications, especially with lookouts and crews working towards you? What are some of the dangers of not communicating with lookouts and crews working towards you? What are the benefits of maintaining good communications?
- Can the line be completed and burned out before the fire reaches the line? Discuss how this would affect where you locate the line.
- Do you have adequate resources to complete the assignment? What additional resources might you need to safely take on an assignment that includes building fireline downhill with fire below?
- Is aerial support available if needed? What benefits can aerial resources provide? What might be an added danger from aerial resources in this type of situation? (Common Denominators)
- Has everyone been briefed on the assignment, fire behavior, weather, communications, escape routes and safety zones, hazards and tactics? Discuss who might provide this briefing and where and when it might occur.
- To reduce the risks:
 - If the answer is "no" to any of these questions, consider other tactics and provide for safety first.
 - Never compromise escape routes to safety zones for the sake of building line. Remind everyone that a situation check is each and every firefighter's right and responsibility.
