INCIDENT MANAGEMENT SITUATION REPORT SUNDAY, JULY 3, 2005 – 0800 MDT NATIONAL PREPAREDNESS LEVEL 2

CURRENT SITUATION:

Initial attack activity was moderate nationally with 128 fires reported. Seven new large fires were reported, three in the Southern Area, and one each in the Rocky Mountain, Eastern Great Basin, Northwest and Northern California Areas. Seven fires were contained, three in the Southern Area, and one each in the Rocky Mountain, Eastern Great Basin, Northwest, and Northern California Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, New Mexico, Nevada, Oregon, Texas, Utah, Washington and Wyoming.

SOUTHWEST AREA INCIDENTS / LARGE FIRES:

CAVE CREEK COMPLEX, Tonto National Forest. A Type 1 Incident Management Team (Whitney) is assigned to manage the South Zone. Another Type 1 Incident Management Team (Oltrogge) is assigned to manage the North Zone. This complex, comprised of the Lousy, Broad and Cave Creek fires is six miles northeast of Carefree, AZ in chaparral. The communities of Camp Verde, Pine and Strawberry, the Pine Mountain and Cedar Bench Wilderness areas, archeological resources and high voltage power lines remain threatened. Structure protection remains in place. The fire burned actively with rapid rates of spread, and became well-established on the New River Mesa. Burnout operations contributed to significant progress in securing the west flank of the fire.

SAND TANK COMPLEX, Phoenix Field Office, Bureau of Land Management. This complex, comprised of the Sand Tank, Home, and three new fires is five miles southwest of Gila Bend, AZ in grass. High temperatures, low relative humidity and inaccessible terrain are hampering suppression actions. All fires within the complex with the exception of the Home fire remain active.

DRAGON COMPLEX, Grand Canyon National Park. A Fire Use Management Team (Clark) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Dragon, Spine, Basin and Marble fires is 10 miles north of Grand Canyon Village, AZ in ponderosa pine, aspen and dead and down fuel. The complex is being managed to accomplish multiple resource objectives. A backing understory burn with low to moderate intensity was reported.

WEST ESTRELLA, Pima Agency, Bureau of Indian Affairs. This fire is five miles southwest of Laveen, AZ in mesquite, brush and grass. This will be the last report unless new information is received.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

DIAMOND COMPLEX, Cedar City Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Saleen) is assigned. This complex, comprised of the Diamond Valley, Wide Canyon, Jarvis Peak, Hollow Wash, Cottonwood and Plateau fires, is eight miles north of St. George, UT in grass, pinyon, juniper and brush. The domestic watershed for the St. George community, grazing allotments, recreation values and wilderness areas remain threatened. Creeping and occasional torching were reported. Good progress was made on fireline construction. The Cottonwood fire was controlled.

BLUE SPRING, Dixie National Forest. A Type 2 Incident Management Team (Muir) is assigned. This fire is three miles north of Leeds, UT in grass, oak and juniper. Isolated interior creeping and smoldering were reported.

BUZZARD, Arizona Strip Field Office, Bureau of Land Management. This fire is 12 miles east of Fredonia, AZ in grass, pinyon, juniper and brush. Mule deer winter range is threatened. Isolated torching, short runs, creeping and smoldering were observed.

TWEEDY POINT, Arizona Strip Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Thomas) is assigned. This fire is 32 miles south of St. George, UT in grass, pinyon, juniper and sage. The fire's remote location is making access difficult. Fire activity was minimal.

HARRISBURG CREEK, Dixie National Forest. This fire is four miles west of Leeds, UT in pinyon, juniper and brush. Smoldering and creeping were reported.

WESTERN GREAT BASIN INCIDENTS / LARGE FIRES:

FORK, Las Vegas Field Office, Bureau of Land Management. A Type 1 Incident Management Team (Krugman) is assigned. This fire is 35 miles south of Mesquite, NV in grass, pinyon and juniper. Lake Mead National Recreation Area, mining claim improvements, communication sites, and Desert Tortoise habitat remain threatened. The fire was smoldering with moderate fire behavior reported at higher elevations.

SOUTHERN NEVADA COMPLEX, A Type 2 Incident Management Team (Suwyn) is assigned. This complex, comprised of the South Desert Complex, Mesquite Complex, Delamar, Duzak, and Meadow Valley fires is near Mesquite, NV in grass, pinyon and juniper. Structure protection for the town of Motoqua remains in place. Wilderness areas, Caliente municipal watershed, and Desert Tortoise habitat remain threatened. The Meadow Valley fire is continuing to threaten Ella Mountain lookout and communication sites. Extreme fire behavior in steep, rocky terrain was reported.

GOOD SPRINGS, Las Vegas Field Office, Bureau of Land Management. This fire is 11 miles northwest of Jean, NV in joshua trees, juniper, brush and grass. No further information was received.

ALASKA AREA INCIDENTS / LARGE FIRES:

KING COUNTY CREEK, Kenai-Kodiak Area Forestry. A Type 2 Incident Management Team (Doty) is assigned. This fire started on Fish and Wildlife Service land 13 miles southeast of Sterling, AK in black spruce, mixed hardwoods and dead and down beetle killed spruce. Residences, commercial property, cultural resources and swan habitat are threatened. Torching and short runs occurred across the fire area until late afternoon thunderstorms produced some light precipitation.

MISSION CREEK, Alaska Fire Service, Tanana Zone. This fire is five miles northeast of Tanana, AK in black spruce and hardwoods. The community of Tanana, native allotments and cabins remain threatened. Minimal fire activity with smoldering and creeping was observed.

LOST HORSE CREEK, State of Alaska, Fairbainks Area Forestry. This fire is 25 miles north of Fairbanks, AK in black spruce, mixed hardwoods and tundra. Residences along Wickersham Creek and a military site remain threatened. The fire is in a remote roadless area making logistical support very challenging. Smoldering fire behavior was reported.

CHAPMAN CREEK, Alaska Fire Service, Northern Field Office. This fire is eight miles south of Coldfoot, AK in black spruce and tundra. The community of Coldfoot remains threatened. Active burning on the southwest portion of the fire with torching in the black spruce was reported.

LONG LAKE, Alaska Fire Service, Upper Yukon Zone. This fire started on Fish and Wildlife Service land 13 miles northwest of Beaver, AK in mixed hardwoods, black spruce and brush. The community of Beaver and Native corporate lands and allotments remain threatened. Smoldering and creeping were reported.

SHEENJEK RIVER, Alaska Fire Service, Upper Yukon Zone. This fire started on Fish and Wildlife Service land six miles northeast of Ft. Yukon, AK in birch, aspen, black and white spruce. Cabins and allotments remain threatened. Fire activity was diminished due to some precipitation. Single tree torching in pockets of black spruce was reported.

SOUTHERN AREA INCIDENTS / LARGE FIRES:

WINERY DRAW, Texas Forest Service. This fire started on private land 40 miles east of Fort Stockton, TX in grass and juniper. Burn out operations were completed. Extreme fire behavior with 40 to 50 foot flame lengths was reported.

HARRY LOWE, Oklahoma Division of Forestry. This fire started on private land eight miles northeast of Cloudy, OK in grass, sage, and pine plantation. Precipitation over the fire area reduced fire activity.

OUTLOOK:

Weather Discussion: A low pressure system which brought an increase in winds to the Great Basin yesterday will move into the northern Plains today. This will result in reduced wind speeds. However, conditions will remain hot and dry with poor nighttime relative humidity recovery over much of the Southwest and Great Basin. In Alaska, low pressure north of the state will continue a slight chance of scattered showers. However, some eastern interior sections of Alaska will experience a slight drop in relative humidity.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Southwest Mostly sunny, hot and very dry most areas. Partly cloudy with isolated thunderstorms.	Mountains: 70 to 90. Lower elevations: 90 to 111.	New Mexico mountains: 5 to 20%. Western Texas: 15 to 25%.	West to southwest 5 to 15 mph with gusts 20 to 25 mph in Arizona and western New Mexico. Southwest to southeast 10 to 20 mph far eastern New Mexico and west Texas.
Eastern Great Basin Mostly sunny to partly cloudy. Isolated late day thunderstorm in Utah, mainly over the mountains.	Idaho, Bridger-Teton: Mountains; 67 to 77. Valleys: 75 to 88. Northern Utah: Mountains: 68 to 80. Valleys: 80 to 99. Southern Utah, Arizona Strip: Mountains: 75 to 88. Valleys: 90 to 100. Southwest Utah and Arizona Strip: 100 to 115.	Idaho, Bridger-Teton: Mountains: 20 to 38%. Valleys: 12 to 20%. Northern Utah: Mountains: 20 to 35%. Valleys: 11 to 18%. Southern Utah, Arizona Strip: Mountains: 15 to 25%. Valleys: 6 to 12%.	Idaho, Bridger-Teton: West to northwest 10 to 20 mph. Northern Utah: Upslope/upvalley 8 to 12 mph. Southern Utah, Arizona Strip: Southwest 10 to 15 mph.
Western Great Basin Sunny and hot with a few afternoon cumulus buildups in northern and central Nevada.	North valleys: 84 to 100. South valleys: 95 to 112. Mountains: 76 to 95.	North valleys: 8 to 23%. South valleys: 4 to 10%. Mountains: 5 to 25%.	North: Southwest to west 10 to 15 mph with afternoon gusts to 35 mph. South: Southwest 10 mph with afternoon gusts to 20 mph.
Alaska Partly to mostly cloudy with a few afternoon and evening showers and thunderstorms, mainly in the south and east-central interior.	60's to lower 70's.	35% or higher.	Up to 15 mph.
Southern California Morning low clouds and fog coastal areas, otherwise sunny.	Mountains: 80 to 95. Valleys: 90 to 102. Upper deserts: 95 to 105. Lower deserts: 110 to 118.	5 to 15%.	Southwest to northwest 5 to 15 mph.
Northern California Night and morning coastal fog and low clouds. Clear, warm and dry inland.	Coast: 60's and 70's. Inland: 80's and 90's.	Inland areas: 12 to 25%.	Southwest to northwest 4 to 11 mph with higher gusts east of the Sierra Nevada and Cascade crests.

Rocky Mountain
Scattered afternoon
thunderstorms in the east.
Isolated to widely scattered
dry lightning in the west

Lower 80's to lower 90's. Mountains: 70's to lower 80's.

Lower elevations in the west: 10 to 20%. Elsewhere: 25 to 35%.

Westerly 10 to 20 mph in the west. Variable 15 to 25 mph in the east.
