

**INCIDENT MANAGEMENT SITUATION REPORT  
TUESDAY, AUGUST 2, 2005 – 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 3**

**CURRENT SITUATION:**

Initial attack activity was moderate nationally with 272 fires reported. Nine new large fires were reported, four in the Northwest Area, two in the Southern Areas and one each in the Rocky Mountain, Eastern Great Basin and Western Great Basin Areas. Seven large fires were contained, four in the Western Great Basin Area, and one each in the Northwest, Southern, and Southwest Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, Oregon, South Dakota, Utah and Washington.

**NORTHWEST AREA INCIDENTS / LARGE FIRES:**

**DIRTY FACE**, Washington State Department of Natural Resources - Southeast. A Washington Interagency Incident Management Team (Furlong/Gormley) is assigned. This fire is 25 miles northwest of Leavenworth, WA in timber. Steep, inaccessible terrain continues to hinder containment efforts. An evacuation order is in effect for nearby residences. Private residences, historic sites, a state park and endangered species habitat are threatened. Short upslope runs and occasional torching were observed.

**BLOSSOM COMPLEX**, Siskiyou National Forest. A Type 2 Incident Management Team (Paul) is assigned. This complex, comprised of the Blossom and Solitude fires, is 25 miles northeast of Gold Beach, OR in timber. A road closure order is in effect. Inaccessible terrain and rolling debris are hindering containment efforts. The Solitude fire reported no growth.

**SIMPSON**, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Savage) is assigned. This fire is six miles north of Klamath Falls, OR in grass, brush and timber. Steep rocky terrain, poor access and burning interior fuels are hampering containment efforts.

**MULE PEAK**, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (West) is assigned. This fire is 20 miles southeast of La Grande, OR in timber and grass. Mule Peak Lookout, outbuildings and endangered species habitat remain threatened. Steep terrain and heavy subalpine fuels continue to impede containment efforts. Higher humidity moderated fire behavior. Short runs and spotting were reported.

**DRY CABIN**, Malheur National Forest. A Type 2 Incident Management Team (Goheen) is assigned. This fire is eight miles southeast of Dayville, OR in timber. Aldrich Lookout, communications sites, several cabins, a guard station, Dry Cabin Wildlife Area and Cedar Grove Botanical Area remain threatened. Lack of water supply, difficult access and rolling, burning debris continue to hamper containment efforts. The fire continues to creep, smolder and consume 1000-hour fuels.

**SHADY**, North Cascades National Park. This fire is three miles northwest of Stehekin, WA in timber, brush and grass. Historical structures, local residences and endangered species habitat

are threatened. Long distance spotting, spot fires and steep inaccessible terrain are impeding containment efforts. The fire received some precipitation.

**BURNT RIVER COMPLEX**, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Lunde) is assigned. A unified command has been established between the U.S. Forest Service and Oregon Department of Forestry. This complex, comprised of several fires, is 13 miles south of Sumpter, OR in timber and grass. Bald Eagle nesting sites, fish habitat and range improvements remain threatened. Creeping and smoldering, were reported. Reduction in acreage is due to more accurate mapping.

**IRISH SPRINGS COMPLEX**, Vale District, Bureau of Land Management. A Washington Interagency Incident Management Team (Jennings/Perry) is assigned. This complex comprised of the Beulah and Irish Springs fires, is 45 miles northwest of Vale, OR in timber, grass and brush. Cultural resources, fish habitat, Hog Creek Horse Management Area and a wilderness study area are threatened. Smoldering and creeping with single-tree torching were reported.

**HELL N' GONE**, Central District, Oregon Department of Forestry. This fire is 17 miles north of Burns, OR in timber and grass. King Mountain Lookout, a communication site, private structures, commercial timber and big game winter range are threatened. Structure protection is in place. Poor access, steep terrain and heavy fuel loads are hampering containment efforts. Torching and rapid uphill runs were reported.

**CHICKEN HOUSE**, Prineville District, Bureau of Land Management. This fire is 10 miles south of Dayville, OR, in grass, juniper and sage. Aldrich Wilderness Study Area is threatened. High winds contributed to initial rapid rates of spread. Afternoon cloud cover moderated fire activity.

**MCKINLEY**, Warm Springs Agency, Bureau of Indian Affairs. This fire is six miles north of Warm Springs OR, in grass, juniper and sage. Wolf Point subdivision and a water treatment plant are threatened. High rates of spread in light flashy fuels were reported.

## EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

SNAKE ONE, Payette National Forest. A Type 2 Incident Management Team (Whalen) is assigned. This fire is 21 miles northwest of Weiser, ID in grass. Mountain Man Lodge, private residences, grazing allotments and sage grouse habitat remain threatened. Forest road closures remain in effect for the north side of the fire. Steep, rugged terrain continues to impede containment efforts. Backing fire with some torching was reported.

EAST STAR LAKE, Twin Falls District, Bureau of Land Management. This fire is 10 miles north of Eden, ID in grass and sage. Cultural values, wildlife habitat and big game winter range are threatened. Erratic winds, multiple fire heads, and running with extreme rates of spread were reported.

FALLS CREEK, Salmon-Challis National Forest. A Fire Use Management Team (Weldon) is assigned. The fire is 25 miles northeast of Challis, ID in timber and grass. This fire is being managed using a confine/contain strategy. Higher relative humidity moderated fire behavior.

CAMP SPRINGS, Southern Piute Agency, Bureau of Indian Affairs. This fire is three miles west of Shivwits, UT in grass. Steep terrain and limited access are hampering containment efforts. The fire received precipitation. No further information was received.

SHEEP CREEK, Ashley National Forest. A Fire Use Management Team (Clark) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is 20 miles southwest of Manila, UT in timber litter and lodgepole pine. The fire is being managed to accomplish resource objectives. Structure protection for the Ute Mountain Lookout is in place. The fire continues to smolder.

DAMMERON COMPLEX, Cedar City Field Office, Bureau of Land Management. This complex, comprised of the Dammeron, Mill Creek, Yant and Stahlie fires, is five miles north of St. George, UT in mixed conifer, pinyon, juniper and grass. The east side of the fire within the Pine Valley Wilderness Area remains in monitor status. No further information was received.

## WESTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

HIKO, Ely Field Office, Bureau of Land Management. This fire is 20 miles from North Alamo, NV in grass and sagebrush. Wildlife habitat, cultural resources and livestock allotments are threatened. Steep, rocky terrain continues to impede containment efforts. Smoldering and occasional short runs were reported.

VEGAS, Desert National Wildlife Refuge. This fire is 15 miles northwest of Las Vegas, NV in tall grass. Desert Tortoise habitat remains threatened. Lack of access is hindering containment efforts. Backing fire with isolated torching was observed.

SHEEP, Desert National Wildlife Refuge. This fire is 25 miles northwest of Las Vegas, NV in tall grass. Desert Tortoise habitat remains threatened. Mormon Well road remains closed. Interior smokes were observed. No further information was received.

TWIN PEAKS 2, Carson City Field Office, Bureau of Land Management. This fire is 100 miles east of Reno, NV in grass and pinyon, juniper and grass. Wilderness Study areas, wildlife and fish habitat are threatened. The fire reported extreme fire behavior with rapid rates of spread and long range spotting.

### ALASKA AREA INCIDENTS / LARGE FIRES:

NULATO #3, Alaska Fire Service, Galena Zone. A Type 2 Incident Management Team (Jandt) is assigned. This fire is four miles northwest of Nulato, AK in brush. This incident also includes Fire 529, Fire 528 and the South Fork fires. The village of Nulato and native allotments are threatened. The fire reported active fire behavior with running, torching, backing and smoldering. The South Fork fire has been contained.

BEAVER CREEK, Alaska Fire Service, Upper Yukon Zone. This fire is 45 miles northwest of Fairbanks, AK in timber. No new information was reported This will be the last report unless new information is received.

MISSION CREEK, Alaska Fire Service, Upper Yukon Zone. A transfer of command from a Type 2 Incident Management Team (Chrisman) back to the local has occurred. This fire started on Alaska Native Claims Settlement Act land nine miles west of Eagle, AK in black spruce and tundra. Structures in and around Eagle remain threatened. Lower temperatures and isolated precipitation moderated fire spread. Creeping with isolated torching was reported.

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. A Transfer of command from a Type 2 Incident Management Team (Chrisman) to another Type 2 Incident Management Team (Walker) will occur today. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. A portion of the fire is in Canada. Structures along the Taylor Highway near the O'Brien and Dome Creeks remain threatened. Precipitation and lower temperatures moderated fire behavior. Smoldering and creeping with isolated torching were reported.

PARADISE CREEK, Alaska Fire Service, Galena Zone. This fire is 15 miles south of Anvik, AK in black spruce and tundra. Moderate fire behavior was reported. No further information was received.

### SOUTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

PINYON COMPLEX, Inyo National Forest. This complex, comprised of the Oak Creek, Pinyon and Hogback fires is six miles northwest of Independence, CA in timber and brush. Patrols continue along the north and south forks of Sawmill Creek. No further information was received.

KINGSTON 2, California Desert District, Bureau of Land Management. This fire is 31 miles southeast of Shoshone, CA in brush. No new information was received.

COMB COMPLEX, Sequoia & Kings Canyon National Park. A Fire Use Management Team (Hall) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Comb and East Creek fires is 18 miles northeast of Grant Grove, CA in mixed conifer and chaparral. The fire is being managed to accomplish resource objectives. A portion of the fire remains active.

## OUTLOOK:

**Weather Discussion:** An upper trough will continue moving across the Pacific Northwest and Northern Rockies, with drier and more stable air moving in behind the trough. In Alaska, cool weather will continue as a low pressure trough persists over the area.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>Western Great Basin</b> Mostly sunny west and central Nevada, partly cloudy in the far east with isolated to scattered showers and thunderstorms.	North valleys: 86 to 100. South valleys: 90 to 106. Mountains: 72 to 88.	North valleys: 9 to 20%. South valleys: 18 to 30%. Mountains: 20 to 45%.	Southwest to west 5 to 10 mph with local afternoon gusts of 20 to 25 mph.
<b>Northern California</b> Partly cloudy north and mostly sunny elsewhere. Coastal fog.	60s and 70s coast, 70s and 80s highest elevations, to near 105 warmest valleys.	40% or more coastal areas and 15 to 30% inland, except 7 to 15% east of the Cascade-Sierra crest.	Southwest to northwest 5 to 15 mph with gusts to 25 mph coast and east of the Cascade-Sierra crest. Southeast to southwest 6 to 12 mph with gusts to 20 mph elsewhere.
<b>Eastern Great Basin</b> Partly cloudy Idaho and Bridger-Teton with isolated showers western portions, and scattered showers and thunderstorms eastern mountains. Partly cloudy Utah with scattered showers and thunderstorms, more numerous over the mountains.	Idaho, Bridger-Teton: 67 to 77 mountains, 82 to 93 valleys. Northern Utah: 70 to 82 mountains: 82 to 93 valleys. Southern Utah, Arizona Strip: 70 to 92 mountains, 92 to 104 valleys.	Idaho, Bridger-Teton: 23 to 33% mountains, 16 to 25% valleys. Northern Utah: 30 to 44% Mountains 18 to 32% valleys. Southern Utah, Arizona Strip: 33 to 45% mountains: 17 to 30% valleys.	Idaho, Bridger-Teton: West 8 to 10 mph. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, Arizona Strip: Southwest 5 to 15 mph.
<b>Southern California</b> Areas of morning low clouds and fog in some coastal areas. Mostly sunny in the valleys. Partly cloudy in the afternoon over the southern mountains and deserts with widely scattered thundershowers.	85 to 95 mountains. 90 to 100 valleys. 92 to 102 upper deserts. 102 to 112 lower deserts.	10 to 20% central California and 20 to 30% southern California.	Southeast to southwest 8 to 15 mph.
<b>Alaska</b> Partly to mostly cloudy with isolated to scattered showers and thunderstorms, most numerous in the southern and eastern part of the state.	60s to low 70s.	Above 30%.	Variable 5 to 15 mph, except east to southeast 10 to 20 mph south of the Alaska Range.

<p><b>Northern Rockies</b> Pacific cool front will continue to move across region bringing cooler temperatures and more humidity west of the divide. East of the divide will experience warm conditions. Isolated thunderstorms and lightning may form during the afternoon and evening hours over higher terrain.</p>	<p>West of divide: 85 to 90. East of divide: 90 to 100. North Dakota: 90 to 100.</p>	<p>West of divide: 20 to 30% East of divide: 25 to 35% North Dakota: 30 to 40%</p>	<p>West of divide: west 5 to 10 mph. East of divide: northwest 10 to 15 mph. North Dakota: south 5 to 10 mph.</p>

### HAZARDOUS MATERIALS ENCOUNTERS

Employees who may encounter hazardous materials in the field should be trained as mandated by OSHA 1910.120 (q), First Responder Awareness Level. However, employees should always recognize that hazmat encounters require special precautions.

- Hazardous materials in the field include, but are not limited to:
  - Clandestine drug waste – waste as a result of “meth” labs, etc., which may look like common household trash at first glance. Drug lab waste can be identified by the presence of gallon plastic jugs, large plastic bags, 5-gallon buckets, and laboratory equipment (tubes and beakers).
  - Midnight dumping – may be recognized by the presence of barrels or other containers, discoloration of land, plants, or water, and/or dead vegetation and animals.
  - Transportation accidents – truck, rail, or pipeline accidents may result in the spillage or release of hazardous materials that may result in danger to life, property, or resources.
  
- In all instances, self-protection is your primary responsibility.
- Respond to all encounters by implementing the Three Rs:
  - Recognize: Attempt to identify the substance using the North American Emergency Response Guide, occupancy/location, placards/labels, container shapes/colors, and/or MSDS shipping papers.
  - Retreat: Move upwind, upgrate, or upstream; isolate the material; and deny entry to the site. Guidelines for isolation distances include: 150 feet for a minor incident (1 drum, 1 bag, etc.); 500 feet for a major incident (more than 1 drum, etc.); 300 feet for a residential and light commercial incident; 1,000 feet for an open area; 2,500 feet for an incident with BLEVE potential; 2,500 feet for the staging area (must be upwind with vehicles in a headed-out position)
  - Report: Notify your supervisor and agency dispatcher. Request hazmat assistance via a safe route.
