

**INCIDENT MANAGEMENT SITUATION REPORT  
THURSDAY, AUGUST 4, 2005 – 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 3**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 168 fires reported. Four new large fires were reported, one each in Northern California, Southern California, Southern and Alaska Areas. Five large fires were contained, two in the Eastern Great Basin Area and one each in the Western Great Basin, Northwest and Southern Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, Oregon, South Dakota, Utah and Washington.

**NORTHWEST AREA INCIDENTS / LARGE FIRES:**

**DIRTY FACE**, Washington State Department of Natural Resources - Southeast. A Washington Interagency Incident Management Team (Furlong/Gormley) is assigned. This fire is 25 miles northwest of Leavenworth, WA in timber. Steep, inaccessible terrain continues to hinder containment efforts. An evacuation notice is in effect for nearby residences. Structure protection is in place. Private residences, historic sites, a state park and endangered species habitat remain threatened. The fire reported short upslope runs, occasional torching and downslope backing fire.

**BLOSSOM COMPLEX**, Siskiyou National Forest. A Type 2 Incident Management Team (Paul) is assigned. This complex, comprised of the Blossom and Solitude fires, is 25 miles northeast of Gold Beach, OR in timber. A road closure order remains in effect. Inaccessible terrain continues to hamper containment efforts. The fire reported increased fire activity with isolated torching, downhill backing fire and rolling debris.

**MULE PEAK**, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (West) is assigned. This fire is 20 miles southeast of La Grande, OR in timber and grass. Mule Peak Lookout, outbuildings and endangered species habitat remain threatened. Steep terrain and heavy subalpine fuels continue to impede containment efforts. Torching with short range spotting was reported.

**SHADY**, North Cascades National Park. This fire is three miles northwest of Stehekin, WA in timber, brush and grass. Private structures are threatened. Steep, inaccessible terrain continues to impede containment efforts. Creeping and smoldering were reported.

**SIMPSON**, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Savage) is assigned. This fire is six miles north of Klamath Falls, OR in grass, brush and timber. Steep, rocky terrain, poor access and burning interior fuels are hampering containment efforts. Interior pockets of fuel continue to burn. Creeping and smoldering were observed.

**BURNT RIVER COMPLEX**, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Lunde) is assigned. A unified command has been established between the U.S. Forest Service and Oregon Department of Forestry. This complex, comprised of several fires, is 13 miles south of Sumpter, OR in timber and grass. Bald Eagle nesting sites, fish habitat and range improvements remain threatened. The incident reported smoldering.

IRISH SPRINGS COMPLEX, Vale District, Bureau of Land Management. A transfer of command from a Washington Interagency Incident Management Team (Jennings/Perry) back to the local unit will occur tomorrow. This complex, comprised of the Beulah and Irish Springs fires, is 45 miles northwest of Vale, OR in timber, grass and brush. Minimal fire activity was reported.

MCKINLEY, Warm Springs Agency, Bureau of Indian Affairs. This fire is six miles north of Warm Springs OR, in grass, juniper and sage. No new information was received.

CAMAS CREEK, Oregon Department of Forestry. This fire is 16 miles east of Myrtle Point, OR in timber and logging slash. Private structures along Sandy Creek county road are threatened. Steep terrain is hampering containment efforts. Wind and slope driven runs with spotting were observed.

### EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

SNAKE ONE, Payette National Forest. A Type 2 Incident Management Team (Whalen) is assigned. This fire is 21 miles northwest of Weiser, ID in grass. Private residences, grazing allotments and sage grouse habitat remain threatened. Steep, rugged terrain continues to impede containment efforts. The incident reported minimal fire activity with intermittent hot spots.

SHEEP CREEK, Ashley National Forest. A Fire Use Management Team (Clark) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is 20 miles southwest of Manila, UT in timber litter and lodgepole pine. The fire is being managed to accomplish resource objectives. Structure protection for the Ute Mountain Lookout is in place. Isolated smokes were reported.

DAMMERON COMPLEX, Cedar City Field Office, Bureau of Land Management. This complex, comprised of the Dammeron, Mill Creek, Yant and Stahlie fires, is five miles north of St. George, UT in mixed conifer, pinyon, juniper and grass. The east side of the fire within the Pine Valley Wilderness Area continues to be monitored.

### ALASKA AREA INCIDENTS / LARGE FIRES:

NULATO #3, Alaska Fire Service, Galena Zone. A Type 2 Incident Management Team (Jandt) is assigned. This fire is four miles northwest of Nulato, AK in brush. This incident also includes the South Fork fire. The village of Nulato and native allotments remain threatened. Torching with short runs was observed. Successful burn out operations were completed. Active backing fire with single tree torching and short runs was observed.

MISSION CREEK, Alaska Fire Service, Upper Yukon Zone. This fire started on Alaska Native Claims Settlement Act land nine miles west of Eagle, AK in black spruce and tundra. The incident reported torching, creeping and smoldering.

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. A Type 2 Incident Management Team (Walker) is assigned. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. A portion of the fire is in Canada. Structures along the Taylor Highway near O'Brien and Dome Creeks are potentially threatened. Smoldering and creeping with isolated torching were reported.

PARADISE CREEK, Alaska Fire Service, Galena Zone. This fire is 15 miles south of Anvik, AK in black spruce and tundra. Native allotments are threatened. Cloud cover moderated fire activity.

WEST DEER HUNTER, Alaska Fire Service, Galena Zone. This fire is 20 miles south of Anvik, AK in grass, tundra, and black spruce. A deep organic soil layer is impeding containment efforts. Lower temperatures and higher humidity allowed resources to make good progress toward containment.

## SOUTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

PINYON COMPLEX, Inyo National Forest. This complex, comprised of the Oak Creek, Pinyon and Hogback fires is six miles northwest of Independence, CA in timber and brush. The north and south forks of Sawmill Creek are in patrol status. Interior burning and creeping were observed.

HALLORAN, Mojave National Park. This fire started 19 miles northeast of Baker, CA in desert scrub and Joshua tree woodland. Tortoise habitat is threatened. Inaccessible terrain is hampering containment efforts. Moderate fire behavior was reported.

COMB COMPLEX, Sequoia & Kings Canyon National Park. A Fire Use Management Team (Hall) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Comb and East Creek fires is 18 miles northeast of Grant Grove, CA in mixed conifer and chaparral. The fire is being managed to accomplish resource objectives. A portion of the fire remains active.

MCR - McFaddin National Wildlife Refuge

### OUTLOOK:

**Weather Discussion:** Warming and drying is on tap for most of the West as strong high pressure builds over the area. In Alaska, a low pressure trough will move across the northern parts of the state maintaining cool temperatures and isolated showers and afternoon thunderstorms over the interior.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>Western Great Basin</b> Mostly sunny northwest Nevada, partly cloudy in the central and southern parts with isolated mostly dry thunderstorms.	North valleys: 86 to 103. South valleys: 90 to 106. Mountains: 75 to 88.	North valleys: 10 to 20%. South valleys: 18 to 32%. Mountains: 22 to 35%.	Light and variable. Mostly upslope/upcanyon 5 to 10 mph.
<b>Northern California</b> A few afternoon cumulus over the higher peaks, otherwise mostly clear except for coastal fog.	60s and 70s coast. 75 to 85 highest terrain, 90s to 107 in warmest inland valleys and canyons.	Near the ocean: 40%. Otherwise: 7 to 15% driest valleys, 15 to 30% slopes and ridges.	Southwest to northwest 5 to 10 mph with gusts to 20 mph coast and east side. Otherwise southeast to southwest 5 to 10 mph with gusts to 17 mph.
<b>Southern California</b> Areas of morning low clouds and fog along the coast. Mostly sunny in the valleys and Sierras. Partly cloudy in the afternoon over the southern mountains and deserts with scattered thunderstorms.	85 to 95 mountains. 90 to 101 valleys. 92 to 100 upper deserts. 100 to 108 lower deserts.	8 to 18% central California and 20 to 35% southern California.	Southeast 10 to 15 mph.
<b>Alaska</b> Partly to mostly cloudy with isolated to scattered showers and isolated afternoon thunderstorms most numerous south of the Alaska Range.	Mid 60s to mid 70s.	5 to 40%.	South to southwest 5 to 15 mph.
<b>EASTERN GREAT BASIN</b> Mostly sunny in Idaho and Bridger-Teton with isolated showers. Northern Utah: Mostly sunny and clear. Southern and eastern Utah: Partly cloudy with scattered mountain showers and thunderstorms.	Idaho, Bridger-Teton: 72 to 80 mountains, 85 to 99 valleys. Northern Utah: 75 to 83 mountains, 83 to 95 valleys. Southern Utah, Arizona Strip: 75 to 90 mountains, 90 to 106 valleys	Idaho, Bridger-Teton: 25 to 30% mountains, 13 to 20% valleys Northern Utah: 23 to 40% mountains, 13 to 23% valleys. Southern Utah, Arizona Strip: 25 to 35% mountains, 11 to 25% valleys.	Idaho, Bridger-Teton: Upslope/Upvalley 5 to 10 mph. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, AZ Strip: Upslope/upvalley 5 to 10 mph.
<b>Northern Rockies</b> A ridge of high pressure will move over central portions of the area with warming and drying.	West of divide: 85 to 95. East of divide: 80 to 88. North Dakota: 78 to 84.	West of divide: 14 to 22%. East of divide: 22 to 29%. North Dakota: 30 to 40%.	West of divide: south 5 to 15 mph. East of divide: south 10 to 15 mph. North Dakota: north 10 to 20 mph.

### **NO COMMUNICATION LINK WITH CREW MEMBERS, SUPERVISORS & ADJOINING FORCES**

Watchout Situation #7 is a danger that must be mitigated by maintaining good communications while working on fires. Firefighters must constantly ask themselves the following questions as situations change on the fireline:

- Can communications be established?
  - Talk about how communications are set up on fires.
  - Review situations where communications were a problem and what was done to fix the problem.
  
- Is the communication triangle complete?
  - Review the communication triangle and where it comes up in the "10 Standard Fire Orders" and the "18 Watchout Situations."
  - Discuss ways that firefighters can maintain the communication triangle on the fireline.
  
- Reduce the risks
  - If the situation is complex, wait until communications are in place.
  - Talk about the fires where crews had to leave the line, didn't go out on the line, or something negative happened because communications were inadequate. Discuss what was done to establish communications.
