# INCIDENT MANAGEMENT SITUATION REPORT SUNDAY, AUGUST 14, 2005 - 0800 MDT <br> NATIONAL PREPAREDNESS LEVEL 3 

## CURRENT SITUATION:

Initial attack activity was light nationally with 175 fires reported. Four new large fires were reported, three in the Northern Rockies Area and one in the Eastern Great Basin Area. Two large fires were contained, one each in the Northwest and Southern Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Idaho, Kansas, Montana, Nevada, Oregon, Utah and Washington.

## NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

BLACKERBY, Maggie Creek Area Office, Idaho Department of Lands. A Type 2 Incident Management Team (Larsen) is assigned. This fire is six miles southeast of Grangeville, ID in timber. Private residences, outbuildings, endangered species habitat and power lines remain threatened. Structure protection measures continue to be implemented. Unburned islands in the interior made short uphill runs, and burn out operations are planned. An increase in acreage is due to more accurate mapping.

LONG RUGGLES, Craig Mountain Area Office, Idaho Department of Lands. A Type 2 Incident Management Team (Blume) is assigned. This fire is 22 miles southwest of Craigmont, ID in timber and brush. Residences and big game winter range habitat are threatened. Steep, rocky terrain and limited access are impeding containment efforts. Running and torching within the thermal belt at night and spotting from rolling debris were reported.

CHINA TEN, Nez Perce National Forest. A Type 2 Incident Management Team (Thomas) is assigned. This fire is 15 miles east of Grangeville, ID in beetle killed lodgepole pine and subalpine fir. Active fire behavior with crown runs, torching and short range spotting were reported.

I-90, Lolo National Forest. A Type 1 Incident Management Team (Sandman) is assigned. This fire is one mile south of Alberton, MT in timber, and includes the West Mountain, Tarkio, Fish and Alberton East fires. Private residences, commercial properties, recreational sites and a major power grid remain threatened. West Mountain community residents were allowed to return to their homes and river access points were reopened. Smoldering and intermittent surface fire were observed; afternoon winds caused individual tree torching.

PROSPECT, Lolo National Forest. A Type 2 Incident Management Team (Cowin) is assigned. This fire is 12 miles south of Superior, MT in timber. Structures and historical sites remain threatened. Poor access and heavy fuels continue to hinder containment efforts. Creeping ground fire with some single tree torching was observed.

WEST FORK, Nez Perce National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This fire is 26 miles south of Grangeville, ID in Douglas fir and ponderosa pine. Heavy smoke, an inversion layer and poor visibility limited aviation operations. Short up hill runs, individual tree torching and short range spotting were observed.

CB RANCH MUTUAL AID, Bitterroot National Forest. A Type 2 Incident Management Team (Benes) is assigned and will manage this incident in conjunction with the Rockin fire. This fire started on private land one mile east of Darby, MT in timber, sage and grass. Structures along the Bitterroot River remain threatened. Interior islands continue to burn.

SIGNAL ROCK, Beaverhead/Deerlodge National Forest. The fire is 17 miles southwest of Philipsburg, MT in timber. Minimal fire activity with some minor torching and down hill backing was reported.

CEDAR, Clearwater National Forest. This fire is 18 miles northwest of Kooskia, ID in timber. Elk Summit Guard Station and recreational facilities are threatened. The fire is creeping and smoldering.

DEVIL, Clearwater National Forest. This fire is 13 miles west of Lochsa, ID in timber and brush. Steep terrain is impeding containment efforts. Cultural sites along the Lolo Motorway are threatened. Torching, creeping and smoldering fire were observed.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. This lightning-caused Wildland Fire Use (WFU) complex, comprised of El Capitan, Elk Lake and thirty-seven fires, is 26 miles southwest of Hamilton, MT in timber and grass. The complex is being managed to accomplish resource objectives. Deep Creek Campground, Hells Half Acre Lookout and Coopers Flat Ranger Station remain potentially threatened, structure protection measures are being implemented. Decreased temperatures and lower relative humidity moderated fire activity.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. Steep terrain, abundant snags and limited access continue to hamper containment efforts. The Long Black fire reported active fire behavior with interior runs and torching. The Long Creek fire continues to creep and smolder.

ROCKIN, Bitterroot National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire is 10 miles northwest of Darby, MT in timber. Residences and cultural sites remain threatened. Narrow canyons, steep, rocky terrain and adverse weather conditions continue to hamper containment efforts. Backing down slope fire was observed. This fire is in monitor status.

ELK COMPLEX, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Penny, Ridgetop, Ditch Creek and Elk Creek fires, is 30 miles east of Lowell, ID in mixed conifer. The complex is being managed to accomplish resource objectives. Structure protection measures are being implemented to protect historic structures. Area trail closures are in effect. This will be the last report unless significant activity occurs.

WOUNDED DOE, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) incident is 20 miles northeast of Lowell, ID in lodgepole pine and mixed conifer. The fire is being managed to accomplish resource objectives. This will be the last report unless significant activity occurs.

WYLIES, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) incident is 20 miles northeast of Elk City, ID in subalpine fir. The fire is being managed to accomplish resource objectives. Trail closures remain in effect. This will be the last report unless significant activity occurs.

RUNNING COMPLEX, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Running Lake, Mud Lake and Long Prairie fires is 30 miles east of Lowell, ID in subalpine fir and mixed conifer. The fire is being managed to accomplish resource objectives. The Running Lake fire reported backing and torching.

LIMESTONE PEAK, Flathead National Forest. This fire, located in the Bob Marshall Wilderness, is 41 miles southeast of Bigfork, MT in timber, shrub and grass and will be managed with a confine suppression strategy. Portions of the Silvertip Creek Trail \#89 have been reopened to the public. Lower temperatures and higher relative humidity are assisting in containment efforts. Smoldering in duff and heavy dead and down fuels was observed.

KELLY POINT, Flathead National Forest. This fire is 38 miles southeast of Bigfork, MT in timber, and will be managed with a confine suppression strategy. Portions of the Westside and Mid Creek trail and South Fork of the Flathead River between Big Salmon Creek north to the Meadow Creek Trailhead have been reopened. Smoldering in duff and heavy dead and down fuels was observed.

## NORTHWEST AREA INCIDENTS / LARGE FIRES:

SCHOOL, Umatilla National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This fire is 16 miles south of Pomeroy, WA in timber. Steep terrain and rolling debris are hampering containment efforts. Minimal fire activity was reported.

BLOSSOM COMPLEX, Siskiyou National Forest. A Unified Command has been established between a Type 1 Incident Management Team (Lohrey) and an Oregon Department of Forestry Incident Management Team (Hunt). This complex, comprised of the Blossom, Huggins and Solitude fires, is 25 miles northeast of Gold Beach, OR in timber. Private structures, commercial rafting sites, historic mines and wildlife habitat along the Rogue River remain threatened. A river closure to rafters on the Rogue River has been implemented. Inaccessible terrain and rolling debris continue to impede containment efforts. The fire is backing downhill.

TRYON COMPLEX, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Lunde) is assigned. This complex, comprised of the Haas Ridge, Tryon and Cherry Creek fires, is 20 miles north of Imnaha, OR in timber and grass. Road closures are in effect. An electrical transmission line, residences, heritage/cultural resources, grazing allotments and wildlife habitat are threatened. Steep terrain, smoky conditions and limited access are hindering containment efforts. Structure protection measures continue. Moderate fire activity was reported. The Haas Ridge fire was contained.

HARKER CANYON, Washington State Department of Natural Resources - Northeast. A Washington Interagency Incident Management Team (Holloway/Reed) is assigned. This fire is nine miles northeast of Davenport, WA in timber, brush and grass. The incident reported isolated torching, creeping and smoldering.

SPRING CREEK, Wallowa-Whitman National Forest. This fire is 10 miles west of La Grande, OR in timber and grass. The fire continues to creep and smolder.

DIRTY FACE, Washington State Department of Natural Resources - Southeast. A transfer of command from a Washington Interagency Incident Management Team (Furlong/Gormley) back to the local unit will occur today. This fire is 25 miles northwest of Leavenworth, WA in timber. Steep, inaccessible terrain continues to hinder containment efforts. An evacuation notice and structure protection measures are in place for nearby residences. Private residences, historic sites, a state park and endangered species habitat remain threatened. Minimal fire activity was reported.

GRANITE COMPLEX, Wallowa-Whitman National Forest. A Wildland Fire Use Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is 30 miles east of Enterprise, OR in timber and grass. No new information was reported.

## EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

CADAGAN COMPLEX, Salmon-Challis National Forest. Type 2 Incident Management Team (Brunner) is assigned. This complex, comprised of the Hale Gulch and Bear Basin fires, is 15 miles west of North Fork, ID in Douglas fir and heavy dead and downed fuels. Private residences and commercial property remain threatened. Difficult access, rolling materials and steep terrain are hampering containment efforts. Smoke is impacting local communities. The fire continues to display intense surface fire with torching, creeping and smoldering.

BRUMLEY, Arizona Strip, Bureau of Land Management. This fire is 45 miles southwest of Saint George, UT in grass, brush and yucca. Mojave Desert Tortoise habitat is threatened. Running fire behavior was reported.

FRANK CHURCH, Payette National Forest. A Fire Use Management Team (Bonefeld) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, comprised of the Root, Center and Missouri Ridge fires, is 32 miles west of Shoup, ID in timber. The fire is being managed to accomplish resource objectives. The Missouri Ridge and Spring fires have burned together and three new fires have been added to those being managed by the team. The fire activity remains unchanged with moderate rates of spread, isolated torching and spotting.

## ALASKA AREA INCIDENTS / LARGE FIRES:

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. A portion of the fire is in Canada. Structures in Dome Creek are threatened. Structure protection measures continue. No further information was received.

GRAYLING CREEK, Alaska Fire Service, Galena Zone. This fire is 15 miles northwest of Anvik, AK in timber. Smoky conditions continue to impede aviation operations and limit river boat movement. Moderate fire behavior with active surface fire and intermittent torching was reported.

MISSION CREEK, Alaska Fire Service, Upper Yukon Zone. This fire started on Alaska Native Claims Settlement Act land nine miles west of Eagle, AK in black spruce and tundra. This fire has been placed in monitor status. No new information was reported.

## SOUTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

PINYON COMPLEX, Inyo National Forest. This complex, comprised of the Oak Creek, Pinyon and Hogback fires is six miles northwest of Independence, CA in timber and brush. No new information was reported. This will be the last report unless new information is received.

COMB COMPLEX, Sequoia \& Kings Canyon National Park. A Fire Use Management Team (Clark) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Comb and East Creek fires is 18 miles northeast of Grant Grove, CA in mixed conifer and chaparral and is being managed to accomplish resource objectives. Moderate fire behavior with slowly backing and flanking fire was reported.

## OUTLOOK:

Red flag warning: For dry lightning in central and eastern Nevada
Fire weather watches:. For northeast winds over the northeast Interior of Alaska.
Weather Discussion: Warming conditions along the West Coast will move into the Pacific Northwest and Great Basin today. Thunderstorm activity will continue to diminish and be suppressed to the southwest. Expect low relative humidity across the Northwest and Great Basin again today with offshore flow contributing to poor recoveries on the Oregon coast this morning. Upper level high pressure remains over Alaska for continued warm and dry conditions.

| Geographic Area Weather | High <br> Temperatures | Minimum Relative Humidity | Wind |
| :---: | :---: | :---: | :---: |
| Northern California <br> Sunny. Areas of fog or low clouds at the coast and into the coastal valleys. | Mostly 80s and 90 s with up to near 103 warmest interior valleys. | 10 to $25 \%$ driest inland areas. | Rather variable across the Geographic Area, 3 to 10 mph and locally gusty. |
| Western Great Basin <br> Mostly sunny skies north, partly cloudy skies south with isolated thunderstorms. Those thunderstorms in central and eastern Nevada are likely to be dry. | North Valleys: 84 to 96 South Valleys: 90 to 105 Mountains: 71 to 89 | North Valleys: 7 to 18\% South Valleys: 10 to 22\% Mountains: 12 to $25 \%$ | South to southwest 5 to 10 mph with a few afternoon gusts 20 to 25 mph . |
| Southern California <br> Morning low clouds and fog coastal areas, otherwise mostly sunny in the morning becoming partly cloudy in the afternoon with isolated showers and thunderstorms over the Sierra, Inyo, and scattered in the eastern Deserts. | 79 to 90 mountains. <br> 85 to 92 valleys. <br> 95 to 100 upper deserts. <br> 95 to 105 lower deserts. | 10 to 30\%. | Southeast to southwest 5 to 15 mph . |
| Eastern Great Basin Mostly sunny regionwide. Scattered showers and thunderstorms southern Utah mountains. | Idaho, Bridger-Teton: <br> 61 to 71 mountains, <br> 71 to 86 valleys. <br> Northern Utah: <br> 66 to 78 mountains, <br> 78 to 91 valleys. <br> Southern Utah, Arizona <br> Strip: <br> 71 to 83 mountains, <br> 82 to 98 valleys | Idaho, Bridger-Teton: 20 to $30 \%$ mountains, 11to $24 \%$ valleys. Northern Utah: 22 to $36 \%$ mountains, 12 to $22 \%$ valleys. Southern Utah, Arizona Strip: <br> 30 to 50\% mountains, 16 to $30 \%$ valleys. | Idaho, Bridger-Teton: <br> Upslope and light. <br> Northern Utah: <br> Upslope/upvalley 5 to 10 mph. <br> Southern Utah, AZ Strip: Upslope/upvalley 5 to 10 mph . |
| Northern Rockies <br> Warming temperatures with lower relative humidity values. Isolated showers will be over southeast Montana. Winds will be gusty across eastern Montana and North Dakota. | West of Divide: 73-88 <br> East of Divide: 70s <br> North Dakota: 70s | West of Divide: 20 to 30\% <br> East of Divide: 25 to 35\% <br> North Dakota: 30 to 40\% | West of Divide: West 5 to 15 mph <br> East of Divide: West 10 to 20 mph <br> North Dakota: West 20 to 30 mph |
| Alaska Sunny and smoky. | 70s and 80s. | 25 to 40\% | 10 to 15 mph except to 20 mph with frequent gusts to 30 mph over the northeast interior. |
