

**INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, AUGUST 18, 2005 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3**

CURRENT SITUATION:

Initial attack activity was light nationally with 176 fires reported. Two new large fires were reported, one each in the Northern Rockies and Southern Areas. One large fire was contained in the Northern Rockies Area. Very high to extreme fire indices were reported in Alaska, California, Idaho, Minnesota, Montana, Nevada, Oregon, and Washington.

NORTHWEST AREA INCIDENTS / LARGE FIRES:

BLOSSOM COMPLEX, Siskiyou National Forest. A Unified Command has been established between a Type 1 Incident Management Team (Lohrey) and an Oregon Department of Forestry Incident Management Team (Hunt). This complex, comprised of the Blossom, Huggins and Solitude fires, is 25 miles northeast of Gold Beach, OR in timber. Private structures, commercial rafting sites, historic mines and wildlife habitat along the Rogue River remain threatened. Inaccessible terrain and heavy fuel loading are hampering containment efforts. The fire is being held at the Rogue River, but continues to burn actively in the interior with some torching observed. Weather permitting, burn out operations will continue.

BURNT CABIN, Umatilla National Forest. A Type 2 Incident Management Team (Johnson) is assigned. This fire is 16 miles southeast of Milton-Freewater, OR in timber. Road and trail closures are in effect. Residences, commercial properties, lynx habitat and a water source for Walla Walla, WA are threatened. Weather contributed to a decrease in fire behavior.

SCHOOL, Umatilla National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This fire is 16 miles south of Pomeroy, WA in timber. Residences, recreational resources, improved sites, campgrounds and lookouts are threatened. Steep terrain and rolling debris are hampering containment efforts. The incident reported minimal fire activity due to precipitation and higher relative humidity.

TRYON COMPLEX, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Lunde) is assigned. This complex, comprised of the Haas Ridge, Tryon and Cherry Creek fires, is 20 miles north of Imnaha, OR in timber and grass. Residences, heritage/cultural resources, grazing allotments and wildlife habitat remain threatened. Cooler, moist weather limited fire activity to smoldering in heavy fuels.

GRANITE COMPLEX, Wallowa-Whitman National Forest. A Wildland Fire Use Team (Cones) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is 30 miles east of Enterprise, OR in timber and grass. Structure protection has been initiated for the historic Sheep Creek Ranch Cabin and associated structures. Strong down canyon winds influenced fire spread to the north toward Sheep Creek Ranch.

MULE PEAK, Wallowa-Whitman National Forest. This fire is 20 miles southeast of La Grande, OR in timber. Steep terrain, limited access and heavy fuels are hampering containment efforts. No further information was received.

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

CLEAR RED COMPLEX, Nez Perce National Forest. A Type 1 Incident Management Team (Bennett) is assigned. This complex, comprised of the Upper Meadow, Meadow II, and several smaller fires is 12 miles southeast of Elk City, ID in timber. Private residences, commercial property, cultural and historic sites are threatened. Cooler temperatures and higher relative humidity allowed significant progress to be made. Some torching and creeping were observed.

CHINA TEN, Nez Perce National Forest. A Type 2 Incident Management Team (Thomas) is assigned. This fire is 15 miles east of Grangeville, ID in beetle killed lodgepole pine and subalpine fir. The fire is adjacent to a significant Native American cultural area. Fire behavior decreased due to weather and isolated torching was observed. Area closure remains in effect.

PROSPECT, Lolo National Forest. A Type 2 Incident Management Team (Cowin) is assigned. This fire is 12 miles south of Superior, MT in timber. Poor access and heavy fuels continue to hinder containment efforts. Active surface fire and isolated torching were reported.

BLACKERBY, Maggie Creek Area Office, Idaho Department of Lands. A Type 2 Incident Management Team (Larsen) is assigned. This fire is six miles southeast of Grangeville, ID in timber. Private residences, outbuildings, and endangered species habitat remain threatened. Minimal fire activity was observed. Acreage increase is due to burn out operations.

LONG RUGGLES, Craig Mountain Area Office, Idaho Department of Lands. A Type 2 Incident Management Team (Blume) is assigned. This fire is 22 miles southwest of Craigmont, ID in timber and brush. Big game winter range habitat remains threatened. Steep, rocky terrain and limited access are impeding containment efforts. Rain and lower temperatures caused a decrease in fire behavior. The interior continues to burn in heavy fuels.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. A Fire Use Management Team (Cook) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the El Capitan, Wapiti, Beaverjack, Elk Lake and numerous other fires, is 26 miles southwest of Hamilton, MT in timber. This complex, burning on both the Salmon-Challis and Bitterroot National Forests, is being managed to accomplish resource objectives. Deep Creek Campground, Hells Half Acre Lookout, Coopers Flat Ranger Station, and Magruder Work Center remain potentially threatened; structure protection is in place. Magruder Corridor Road is closed to through traffic. Recreation trail closures are in effect. The incident reported active surface fire with single tree torching.

SIGNAL ROCK, Beaverhead/Deerlodge National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire is being managed in conjunction with the Rockin incident. The fire is 17 miles southwest of Philipsburg, MT in timber. Active surface fire, group tree torching, short upslope runs, and short range spotting were observed.

CEDAR, Clearwater National Forest. This fire is 18 miles northwest of Kooskia, ID in timber. Structure protection is in place. Smoldering and creeping fire behavior was observed with isolated torching. No further information was received.

WEST FORK, Nez Perce National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This fire is 26 miles south of Grangeville, ID in Douglas fir and ponderosa pine. Steep terrain and falling snags are impeding control efforts. Heavy fuels continue to burn.

DEVIL, Clearwater National Forest. This fire is 13 miles west of Lochsa, ID in timber and brush. Steep terrain is impeding containment efforts. The fire continues to creep and smolder. No further information was received.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. Steep terrain, abundant snags and limited access continue to hamper containment efforts. Some interior crown fire runs and active fire behavior were observed on the Black Canyon fire. Smoldering and creeping were observed on the Long Creek fire.

ROCKIN, Bitterroot National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire is 10 miles northwest of Darby, MT in timber. Structures and cultural sites remain threatened. Narrow canyons, steep and rocky terrain continue to hamper containment efforts. Reduced winds moderated fire activity. No further information was received.

BRUSHY FORK WFU, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning 30 miles northwest of Darby, MT in timber. The fire is in monitor status.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

CADAGAN COMPLEX, Salmon-Challis National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This complex, comprised of the Hale Gulch and Bear Basin fires, is 15 miles west of North Fork, ID in Douglas fir and heavy dead and downed fuels. Temporary road closures are in effect due to aerial operations. Containment lines held despite strong winds which were experienced on the fire.

FRANK CHURCH, Payette National Forest. A Fire Use Management Team (Bonefeld) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, comprised of the Bear Creek, Root, Center, Missouri Ridge and nine other fires is 50 miles northeast of McCall, ID in timber. The fire is being managed to accomplish resource objectives. Structure protection measures are in place. The incident observed an increase in fire activity with moderate rates of spread, isolated torching and spotting due to a weather front passage.

ALASKA AREA INCIDENTS / LARGE FIRES:

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. A portion of the fire is in Canada. Structures at Dome Creek are threatened. Heavy smoke obscured visibility along the Taylor Highway. Smoldering and creeping were observed along portions of the fire.

BEAVER CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire is 45 miles northwest of Fairbanks, AK in black spruce. The Wildwood Subdivision and Alyeska Pipeline pump station remain threatened. Structure protection measures are continuing. Smoke is limiting aerial operations and visibility. Personnel worked on improving defensible space around structures.

GRAYLING CREEK, Alaska Fire Service, Galena Zone. This fire is 15 miles northwest of Anvik, AK in timber. Smoky conditions are hampering aerial operations and limiting logistical support. No further information was received.

SOUTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

COMB COMPLEX, Sequoia & Kings Canyon National Park. A Fire Use Management Team (Clark) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Comb and East Creek fires is 18 miles northeast of Grant Grove, CA in mixed conifer and chaparral and is being managed to accomplish resource objectives. The interior continues to burn with smoldering and creeping reported. Transfer of command back to the local units is planned for tomorrow.

OUTLOOK:

Fire Weather Watches: In northeastern Nevada during the afternoon and evening for gusty winds and low relative humidity. In the central interior of Alaska for strong northeast winds.

Weather Discussion: An upper trough will cover the Northern Rockies while high pressure begins to build over the Pacific Northwest. Elsewhere, a moist south to southwest flow will continue to feed moisture into the Southwest, Great Basin and Rocky Mountain Areas. In Alaska, a low pressure system will bring gusty winds to portions of the northern interior.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northern California Mostly sunny inland, with areas of fog near the coast.	70s to mid 80s mountains, to mid 90s in warmest inland valleys.	15 to 25% drier inland areas.	Southwest 7 to 15 mph with gusts to 30 mph on higher exposed terrain along and east of the Cascade-Sierra crest. Lighter by 4 to 7 mph elsewhere.
Southern California Morning low clouds and fog coastal areas, otherwise sunny.	79 to 90 mountains. 85 to 92 valleys. 95 to 100 upper deserts. 95 to 105 lower deserts.	12 to 25%.	Southeast to southwest 5 to 15 mph.
Western Great Basin Mostly sunny skies with areas of partly cloudy skies, isolated showers and thunderstorms.	North valleys: 84 to 95. South valleys: 85 to 105. Mountains: 68 to 84.	North valleys: 12 to 20%. South valleys: 14 to 24%. Mountains: 18 to 28%.	Southwest to west 10 to 20 mph with afternoon gusts of 35 mph in the northeastern corner of the state.
Eastern Great Basin Idaho: Partly cloudy with isolated thunderstorms valleys, scattered mountains. Utah: Mostly cloudy with scattered thunderstorms northern Utah, partly cloudy with isolated scattered thunderstorms southern Utah.	Idaho, Bridger-Teton: 56 to 70 mountains. 70 to 85 valleys. Northern Utah: 68 to 76 mountains. 77 to 89 valleys. Southern Utah: 70 to 85 mountains. 85 to 99 valleys	Idaho, Bridger-Teton: 35 to 45% mountains. 22 to 35% valleys. Northern Utah: 30 to 45% mountains. 18 to 30% valleys. Southern Utah: 27 to 32% mountains. 15 to 27% valleys.	Idaho: western portions northwest 8 to 12 mph, eastern portions west/southwest 10 to 15. Northern Utah: South/southwest 5 to 15 mph. Southern Utah: Southwest 10 to 20 mph.

Alaska Partly cloudy and smoky with isolated evening showers in the south.	60s and 70s.	25% to 40%.	Northeast 10 to 15 mph with gusts to 25 mph in the central interior.

CONSTRUCTING LINE WITHOUT A SAFE ANCHOR POINT

When deciding where to build fireline, the following considerations must be weighed:

- Can you hold the line without the fire hooking under/around you? How do you protect against losing the line and ensure your safety if there is a danger of the fire hooking around you?
- Are there adequate safety zones and escape routes? Review what constitutes an adequate safety zone and escape route. Who has the responsibility to designate them and continue to make sure they are adequate?
- Can you develop your starting point into an anchor point? List some good anchor points. Describe how you would develop your starting point into an anchor point.
- Have you posted good lookouts? Where should the lookout(s) be posted? Who can be a lookout?
- Do you have good communications? Who do you need to be in contact with? If the communications are not good, what can you do to improve them?
- To reduce the risks, start the line in another location. Talk about fires where you have had to relocate the line because your anchor point did not hold the fire.
