

**INCIDENT MANAGEMENT SITUATION REPORT**  
**TUESDAY, JUNE 27, 2006 – 0530 MDT**  
**NATIONAL PREPAREDNESS LEVEL 3**

**CURRENT SITUATION:**

Initial attack activity was moderate nationally with 258 new fires reported. Fourteen new large fires (\*) were reported, four in the Western Great Basin Area, three in the Northern California Area, two each in the Southern California and Southern Areas, and one each in the Eastern Great Basin, Rocky Mountain and Southwest Areas. Six large fires were contained, two in the Southern California Area, and one each in the Southwest, Eastern Great Basin, Rocky Mountain, and Southern Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Montana, Nebraska, Nevada, New Mexico, Oregon, Texas, Utah and Wyoming.

The National Interagency Fire Center has deployed two Modular Airborne Fire Fighting Systems (MAFFS) C-130 air tankers from the 145th Tactical Airlift Wing based in Charlotte, North Carolina. Mission Commander Lieutenant Colonel Mike Luckie, the air tankers and support personnel are based in Mesa, Arizona.

**SOUTHWEST AREA INCIDENTS/LARGE FIRES:**

An Area Command Team (Loach) is assigned to manage the Reserve, Skates, and Bear fires on the Gila National Forest.

BRINS, Coconino National Forest. A Type 1 Incident Management Team (Broyles) is assigned. This fire is two miles northeast of Sedona, AZ in brush, chaparral and timber. Evacuation orders remain in effect for portions of Oak Creek Canyon. A section of Highway 89A remains closed to the public. Smoldering, creeping and minimal fire growth were reported.

BEAR PAW, Santa Fe National Forest. A Type 2 Incident Management Team (Raley) is assigned. This fire started on state land three miles northeast of Regina, NM in ponderosa pine and litter. Numerous residences and a power line remain threatened. The evacuation order for the community of Gallina Plaza has been lifted, and State Road 96 has been reopened. Moderate fire behavior with creeping and smoldering was reported.

BEAR, Gila National Forest. A Type 1 Incident Management Team (Dietrich) is assigned. This fire is 15 miles northeast of Glenwood, NM in mixed conifer. Numerous residences, wildlife habitat and historical cabins remain threatened. Structure protection is in place. Crews continued to make progress with line construction. Additional precipitation further moderated fire behavior.

WARM, Kaibab National Forest. A Type 2 Incident Management Team (Reinarz) is assigned. The fire is burning three miles south of Jacob Lake, AZ in ponderosa pine and hardwood litter. The North Kaibab Ranger District and Highway 67 from Jacob Lake to the North Rim of the Grand Canyon are closed to the public. Highway 89A remains open. Grand Canyon National Park has requested their visitors to exit the North Rim via Forest Road 22. The Jacob Lake development area, administrative sites, a historical Ranger Station, and private and public campgrounds remain threatened. Higher relative humidity and lower temperatures moderated fire behavior. Burn out operations continue.

SKATES, Gila National Forest. This fire is 12 miles northeast of Silver City, NM in timber. The fire received some precipitation. Minimal fire behavior was reported. No further information was received.

RESERVE COMPLEX, Gila National Forest. A Type 2 Incident Management Team (Lund) is assigned. This complex, comprised of the Wilson and Martinez fires, is located near Reserve, NM in ponderosa pine, pinyon pine, juniper and grass. Passing thunderstorms continued to produce gusty, erratic winds.

HOSPITAL, San Carlos Agency, Bureau of Indian Affairs. This fire is 20 miles northeast of San Carlos, AZ in grass, juniper and timber. Cultural resources remain threatened. Difficult access and high winds are hampering containment efforts. Extreme fire behavior was reported.

EICKS DRAW, Socorro District, New Mexico State Forestry. This fire is 35 miles south of Animas, NM in grass, juniper and mixed conifer. No new information was reported. This will be the last report unless new information is received.

ENERGEN, Farmington Field Office, Bureau of Land Management. This fire is 46 miles northeast of Farmington, NM in grass, brush and pinyon pine. Rough terrain is hampering containment efforts. Smoldering and creeping fire with occasional single tree torching was reported.

### WESTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

SUZIE, Elko Field Office, Bureau of Land Management. A Type 1 Incident Management Team (Stanich) has been ordered. This fire is three miles northeast of Carlin, NV in grass and sagebrush. Interstate 80 was temporarily closed but has been reopened. Numerous residences, commercial property and other structures are threatened. Structure protection is in place. Steep terrain, poor visibility and high winds are hindering containment efforts. Very active fire behavior was reported on all fronts, with running and spotting observed.

LINEHAN, Carson City Field Office, Bureau of Land Management. This fire is five miles east of Carson City, NV in grass, sagebrush and pinyon pine and juniper. Numerous residences, critical infrastructure, commercial properties, large historical district, numerous recreation sites and trails and other structures are threatened. Structure protection is in place. Mandatory and voluntary

evacuations are in effect. Old abandoned mining operations, shafts and holes are a critical concern to firefighter safety. Very active fire behavior with running and spotting was reported.

BALLS CANYON, Humboldt-Toiyabe National Forest. A Type 2 Incident Management Team (Scheuerman) is assigned. A Type 1 Incident Management Team (Muir) has been ordered. This fire is 10 miles northwest of Reno, NV in timber. Private ranches and residences remain threatened. Smoke is affecting the landing operations of commercial aircraft into Reno. Steep terrain continues to hamper containment efforts. Gusty, erratic winds from passing thunderstorms contributed to increased fire behavior, with running and spotting observed.

ELBURZ 1, Nevada Division of Forestry, Northern Region. This fire is 17 miles east of Elko, NV in grass and sagebrush. Structures and outbuildings are threatened, and structure protection is in place. Interstate 80 was temporarily closed. High winds continue to hamper containment efforts. Active fire behavior was observed.

SAGE, Winnemucca Field Office, Bureau of Land Management. This fire is 23 miles northwest of Lovelock, NV in grass and brush. High winds contributed to fire spread. Short-range spotting and running fire were reported.

NORTH ANTELOPE, Winnemucca Field Office, Bureau of Land Management. This fire is 15 miles southeast of Midas, NV in grass and sagebrush. High winds contributed to active fire behavior.

SNEEKEE, Elko Field Office, Bureau of Land Management. This fire is 20 miles southwest of Spring Creek, NV in grass, pinyon pine and juniper. Running fire behavior was observed. Rough terrain and difficult access are hampering containment efforts.

SQUAW, Winnemucca Field Office, Bureau of Land Management. This fire is 15 miles north of Gerlach, NV in grass and brush. Difficult terrain is hampering containment efforts. Creeping fire with some torching was observed.

EMPIRE, Winnemucca Field Office, Bureau of Land Management. This fire is 12 miles south of Gerlach, NV in brush. A power station and power lines remain threatened. Gusty, erratic winds are hindering containment efforts. Backing fire and occasional wind-driven runs were reported.

GRAYROCK, Elko Field Office, Bureau of Land Management. This fire is 12 miles northwest of Elko, NV in grass and sagebrush. High winds and limited access due to terrain continue to make containment difficult. Very active fire behavior with running and spotting continues.

ECHO, Ely Field Office, Bureau of Land Management. This fire is eight miles east of Pioche, NV in grass and sagebrush. Smoldering fire with occasional torching was observed.

SHERWOOD, Ely Field Office, Bureau of Land Management. This fire is 15 miles north of Adaven, NV in grass and sagebrush. The community of Adaven is threatened. Erratic winds resulted in active fire behavior with torching.

### EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

KOLOB, Zion National Park. A Type 2 Incident Management Team (Brunner) is assigned. This fire is five miles north of Virgin, UT in pinyon pine, juniper and mixed brush. All trails in Zion National Park west of the Virgin River are closed, and the Kolob Terrace Road is closed south of Kolob Reservoir to Highway 9. The East Rim Trail and the main entrance to Zion National Park at Springdale remain open. Structure protection is in place for the communities of Rockville, Springdale and Virgin. Limited access into remote areas continues to impede containment efforts. Extreme fire behavior with spotting, torching and running was observed.

JARVIS, Southwest Area, Utah State Division of Forestry Fire and State Lands. This fire is 11 miles southwest of St. George, UT in pinyon pine, juniper and mixed brush. Commercial property, utility infrastructure, an FAA repeater site, Joshua Tree Natural Area and desert tortoise habitat are threatened. Burn out operations are planned. Extreme fire behavior with spotting was reported.

POT HOLE, Northeast Area, Utah State Division of Forestry Fire and State Lands. This fire is 25 miles northeast of Vernal, UT in sagebrush, grass and timber. Steep terrain continues to impede containment efforts. Smoldering was reported.

LION CREEK, Manti-Lasal National Forest. This fire is five miles northwest of Paradox, CO in ponderosa pine, pinyon pine, brush and grass. No new information was reported.

### ROCKY MOUNTAIN AREA INCIDENTS/LARGE FIRES:

MATO VEGA, Costilla County. A Type 2 Incident Management Team (Blume) is assigned. This fire is 12 miles northeast of Fort Garland, CO in timber, logging slash and grass. Numerous residences remain threatened. Inaccessible terrain has required the activation of spike camp

operations. Severe thunderstorm activity occurred over the incident with isolated precipitation. Minimal fire behavior due to precipitation was reported.

LITTLE VENUS, Shoshone National Forest. A Fire Use Management Team (Weldon) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is burning 30 miles west of Meeteetse, WY in timber. Structure protection for Venus cabin continues. Moderate fire behavior with backing, isolated torching and short runs was reported.

FOUR MILE, Little Snake Field Office, Bureau of Land Management. This fire is ten miles south of Baggs, WY in grass, sagebrush and cottonwood. Two residences and a power line are threatened. Colorado State Highway 13 is closed. Active fire behavior was reported.

#### NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

OBSERVATION COMPLEX, Northern California Resource Area, Bureau of Land Management. A Type 2 Incident Management Team (Kaage) has been ordered. This fire is 30 miles northeast of Susanville, CA in grass, sagebrush and juniper. Wildlife habitat and range areas are threatened. High winds and limited access due to terrain are making containment difficult. Very active fire behavior on all flanks was reported.

1-9, California Department of Forestry, Lassen-Modoc Unit. This fire is located on the south edge of Susanville, CA in timber, grass and sagebrush. Several residences and commercial properties are reported threatened. Evacuations of several residences have occurred. High winds are making containment difficult. Active fire behavior was reported.

BOULDER COMPLEX, Plumas National Forest. This fire is eight miles southwest of Susanville, CA in timber. Private residences and summer cabins are threatened. Antelope Lake recreation area and campground have been evacuated. Extreme fire behavior with torching and long-range spotting was reported.

## OUTLOOK:

**Red Flag Warning:** Portions of western and southern Utah and across northern and most of central and east-central Nevada for dry lightning. For dry lightning in the northern Sierras and east to the Nevada border.

**Fire Weather Watches:** Portions of western Colorado, southwest Idaho, and northern California for dry lightning.

**Weather Discussion:** A large high pressure ridge will continue to bring very warm temperatures to the West today. Thunderstorms will develop across much of the West with drier storms over the Great Basin, northern Arizona, western Colorado, and southwest Wyoming. In Alaska, a warming and drying trend will move from west to east across the state with thunderstorms possible in the interior.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<p><b>Southwest Area</b> Mostly sunny, hot and dry across northern Arizona and far northwest New Mexico, with a widely scattered dry/mixed thunderstorms along the western Mogollon Rim and western portion of the Continental Divide in northwest New Mexico. Partly cloudy with widely scattered mixed wet/dry storms southern and eastern Arizona. Scattered thunderstorms with wetting rainfall across western and central New Mexico. Otherwise isolated late day thunderstorms west Texas.</p>	<p>Around 80 to near 105 lower elevations.  60s to mid 80s mountains, the plains of northeast New Mexico, and adjacent west Texas.</p>	<p>5 to 15% northern and western Arizona.  15 to 25% eastern, southeast Arizona, and north and west up to rim.  20 to 35% from western New Mexico into west Texas.</p>	<p>North to northwest 5 to 15 mph with gusts to 20 mph northern Arizona and far northwest New Mexico. East to southeast 10 to 20 mph southeast Arizona and southern New Mexico into southwest Texas. Variable 5 to 15 mph southwest Arizona. South to southeast winds 5 to 15 mph much of central into eastern New Mexico. Winds to be erratic and very gusty in and around thunderstorms.</p>
<p><b>Western Great Basin Area</b> Hot with isolated to scattered thunderstorms; most storms across northern Nevada will be dry while storms along the Sierra Crest and adjacent valleys and across the far south will produce some rainfall. Storms will be wettest across the Sierra's.</p>	<p>Northern valleys: 87 to 101. Southern valleys: 89 to 109. Northern mountains: 75 to 90. Southern mountains: 80 to 90.</p>	<p>Northern valleys: 10 to 18%. Southern valleys: 10 to 15%. Northern mountains: 14 to 24%. Southern mountains: 14 to 19%.</p>	<p>Variable but mainly from the west or southwest at 5 to 20 mph. Very gusty near thunderstorms.</p>
<p><b>Eastern Great Basin Area</b> Idaho, Bridger-Teton: Partly cloudy with isolated afternoon thunderstorms, mostly dry. Northern Utah: Partly cloudy with isolated afternoon mountain dry thunderstorms. Southern Utah, Arizona Strip: Partly cloudy with isolated afternoon mountain dry thunderstorms.</p>	<p>Idaho, Bridger-Teton: 73 to 88 mountains. 88 to 96 valleys. Northern Utah: 73 to 85 mountains. 83 to 98 valleys. Southern Utah, Arizona Strip: 76 to 90 mountains. 90 to 105 valleys. 100 to 110 low deserts.</p>	<p>Idaho, Bridger-Teton: 20 to 30% mountains. 10 to 20% valleys. Northern Utah: 17 to 26% mountains. 9 to 18% valleys. Southern Utah, Arizona Strip: 12 to 20% mountains 8 to 17% valleys.</p>	<p>Idaho, Bridger-Teton: Variable 5 to 10 mph. Expect gusty winds near thunderstorms. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, Arizona Strip: South/southwest 15 mph.</p>

<b>Geographic Area Weather</b>	<b>High Temperatures</b>	<b>Minimum Relative Humidity</b>	<b>Wind</b>
<b>Rocky Mountain Area</b> Look for the best chance of wet thunderstorms over the southern Colorado Front Range and south-central mountains, Nebraska, and Kansas. Otherwise isolated to widely scattered dry lightning near and west of the divide in Colorado and western Wyoming.	Mainly lower 80s in the lower elevations. Mid to upper 80s in southern Colorado. 65 to 75 in the mountains.	Lowest across Colorado and Wyoming in the lower elevations with values ranging from 15 to 25%, and from 25 to 35% elsewhere.	Northeast in most locations with speeds ranging from 5 to 15 mph.
<b>Northern California Area</b> Showers and thunderstorms with dry lightning possible.	Inland mid 90s to 105.	17 to 30% driest inland valleys.	Southeast-southwest 5 to 15 mph with afternoon gusts to 25 mph.
<b>Southern California Area</b> Partly to mostly cloudy with scattered showers and thunderstorms mainly over the Sierra and over the mountains and deserts of Southern California.	80 to 95 mountains. 90 to 100 valleys. 90 to 100 upper deserts. 105 to 115 lower deserts.	40 to 60% coastal areas. 20 to 40% valleys. 20 to 40% mountains. 10 to 30% deserts.	Southeast to southwest 5 to 15 mph.
<b>Alaska Area</b> Partly to mostly cloudy with scattered showers and possible thunderstorms in the central and eastern interior. Wet westerly flow in the next week.	50s and 60s in the west and south to 70s in the central interior.	30 to 40% in the interior. Above 40% in south-central and southwest.	South to southwest winds 10 to 15 mph.
<b>Northern Rockies Area</b> Upper level ridge maintains with warm, dry conditions and sunny skies for Idaho and Montana. Isolated afternoon thunderstorms will form over the mountains west of the Divide. North Dakota will start a slow warm up under clear skies and dry conditions.	West of Divide: 85 to 95. East of Divide: 80 to 90. North Dakota: 75 to 85.	West of Divide: 15 to 25%. East of Divide: 20 to 30%. North Dakota: 30 to 40%.	West of Divide: light and variable. East of Divide: east 3 to 8 mph. North Dakota: east 5 to 10 mph.
<b>Southern Area</b> No information reported.
