

**INCIDENT MANAGEMENT SITUATION REPORT**  
**SUNDAY, JULY 30, 2006 – 0800 MDT**  
**NATIONAL PREPAREDNESS LEVEL 5**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 151 new fires reported. Twelve new large fires (\*) were reported, five in the Rocky Mountain Area, two each in the Eastern Great Basin and Northern California Areas, and one each in the Northern Rockies, Southern, and Southwest Areas. Five large fires were contained, two in the Southern California Area, and one each in the Northwest, Western Great Basin and Rocky Mountain Areas. Very high to extreme fire indices were reported in Oregon, Washington, California, Montana, North Dakota, Idaho, Utah, Nevada, Arizona, Colorado, Nebraska, South Dakota, Wyoming, Minnesota, Wisconsin, Arkansas and Oklahoma.

Two MAFFS C-130 aircraft and support personnel from the 145<sup>th</sup> Airlift Wing, Charlotte, North Carolina, and the 153<sup>rd</sup> Airlift Wing, Cheyenne, Wyoming are deployed to Klamath Falls, Oregon. LT. Colonel Chuck Davis is the Mission Commander.

**NORTHWEST AREA INCIDENTS/LARGE FIRES:**

An Area Command Team (Loach) is assigned to manage large fires in Washington.

**BLACK CRATER**, Deschutes National Forest. A transfer of command from a Type 2 Incident Management Team (West) to a Type 1 Incident Management Team (Quesinberry) will occur today, and the Unified Command between the Type 1 Team and the Oregon Department of Forestry (Shults) will remain in place. This fire is seven miles southwest of Sisters, OR in white fir and lodgepole pine. Several subdivisions are threatened and evacuation orders are in place. Structure protection is in place for numerous residences. Campgrounds, trails and roads remain closed. Running, torching and long-range spotting were reported.

**FOSTER GULCH COMPLEX**, Wallowa-Whitman National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This Complex, consisting of the McClean and the Foster Gulch fires, is six miles southeast of Halfway, OR in grass and brush and mixed conifers. The two fires have burned together between Brownlee Reservoir and Highway 86. Several local roads are closed or restricted, including Highway 86 and Forest Road 39. Numerous residences, communications site, a hydroelectric facility and powerlines are threatened. Structure protection is in place. Very active fire behavior with running, torching and spotting was observed.

**FLICK CREEK**, North Cascades National Park. A Type 1 Incident Command Team (Bennett) is assigned. This fire is three miles southeast of Stehekin, WA in ponderosa pine, Douglas fir and grass. Residences and structures remain threatened, and structure protection is in place. Persistent hot, dry and windy conditions, and steep terrain are hampering containment efforts. Running, torching and backing fire were observed.

**TRIPOD COMPLEX**, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Custer) and a Washington Interagency Type 2 Incident Management Team (LaFave) are in place. This complex, comprised of the Spur Peak and Tripod fires, is seven miles northeast of Winthrop, WA in beetle-kill lodgepole pine and heavy down fuels. Historical cultural sites,

commercial resources and wildlife habitat are threatened. Very active plume dominated fire behavior consisting of running, crowning and spotting was observed.

BEAR GULCH II, Olympic National Forest. A Type 2 Incident Management Team (Gormley) is assigned. This fire is 15 miles northwest of Hoodspport, WA in timber. Rolling rocks and burning debris are posing a hazard on Highway 119, necessitating the closure of access to a portion of the Olympic National Park. Steep rocky terrain is impeding containment efforts. Creeping fire behavior was observed.

ELK LAKE, Deschutes National Forest. A Type 2 Incident Management Team (Goheen) is assigned. This fire is 26 miles west of Bend, OR in lodgepole pine, fir and hemlock. Numerous residences and recreation sites remain threatened. Steep terrain and snags are hampering containment efforts. Interior torching with some creeping was reported.

MAXWELL, Ochoco National Forest. A Washington Interagency Type 2 Incident Management Team (Reed) is assigned. This fire is six miles south of Mitchell, OR in heavy dead and down timber. A residence, communications equipment and the water supply for the city of Mitchell are threatened. Two campgrounds have been closed. Steep terrain and limited access are hampering containment efforts. Some afternoon torching and spotting was reported.

TIN PAN, Okanogan-Wenatchee National Forest. A Washington Interagency Type 2 Incident Management Team (Jennings) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is burning seven miles west of Lucerne, WA in timber. Hiking trails within the fire area are closed. Backing fire, torching, spotting, and short uphill runs were observed.

WOLFE POINT II, Warm Springs Agency, Bureau of Indian Affairs. This fire is nine miles northeast of Warm Springs, OR in grass, sagebrush and juniper. Steep, rocky terrain is hindering containment efforts. No further information was received.

## **NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:**

An Area Command Team (Ribar) is assigned to manage large fires within the Geographic Area.

**JUNCTION**, Shasta-Trinity Unit, California Department of Forestry and Fire Protection. A CDF Type 1 Incident Command Team (Ault) has been ordered. This fire is six miles west of Weaverville, CA in grass and timber understory. This community of Weaverville and communications infrastructure are threatened. State Highway 299W is closed and a voluntary evacuation of the west side of Weaverville is in place. Extreme fire behavior with long-range spotting was reported.

**ORLEANS COMPLEX**, Six Rivers National Forest. A Type 2 Incident Management Team (Blume) is assigned. A Type 1 Incident Management Team (Whitney) has been ordered. This complex, comprised of the Somes, Crawford, Buck and Hancock fires, is four miles southwest of Orleans, CA in timber and dead and down fuels. The community of Orleans, a communications site, Native American cultural and spiritual sites and a municipal water supply are threatened. Limited road access, steep terrain and snags are hampering containment efforts. Torching, spotting and sustained uphill runs were reported.

**SAGE**, Modoc National Forest. This fire is 15 miles north of Alturas, CA in grass, juniper and sagebrush. Difficult access is hampering containment efforts. Creeping and occasional torching were observed.

**UNCLES COMPLEX**, Klamath National Forest. A Type 2 Incident Management Team (Sinclair) is assigned. This complex, comprised of the Uncles, Rock, Ethel, Katherine, and Snoozer fires, is 18 miles northeast of Orleans, CA in brush and old growth forest. Residences, outbuildings and wildlife habitat remain threatened. Steep terrain, difficult access and poor visibility due to an inversion are hampering containment efforts. Uphill runs were reported.

**HUNTER**, Mendocino National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This fire is 19 miles southeast of Covelo, CA in timber. Spotted owl and fisheries habitats and one cabin remain threatened. Backing fire, single tree torching and short uphill runs were reported.

**HAPPY CAMP**, Klamath National Forest. A Type 2 Incident Management Team (Bradley) is assigned. This complex, comprised of 11 lightning-caused fires, is near Happy Camp, CA in grass and timber. Five fires have been contained or controlled. The fires are burning in a roadless area and limited access is hampering containment efforts. Spotting, single tree torching and flame lengths up to eight feet were observed.

**LAKIN**, Shasta-Trinity National Forest. A Unified Command has been established between a Type 2 Incident Management Team (Garwood) and a California Division of Forestry and Fire Protection Type 1 Incident Command Team (Holmquist). This fire is 26 miles northeast of McCloud, CA in timber and manzanita. Two major electrical power lines are threatened. Winds and high temperatures continue to hamper containment efforts. Isolated interior burning was reported.

**KINGSLEY COMPLEX**, Mendocino National Forest. A Type 1 Incident Management Team (Opliger) is assigned. This complex, comprised of the Kingsley, Soldier and Minnie fires, is 38 miles southwest of Red Bluff, CA in timber. The Team is also managing a portion of the Hunter Fire. Numerous residences are threatened. Steep terrain and difficult access continue to impede containment efforts. Active upslope runs with single tree torching was observed.

BAR COMPLEX, Shasta-Trinity National Forest. A Type 1 Incident Management Team (Pincha-Tulley) is assigned. This complex, comprised of the Little, Bake and Oven fires, is located north and northwest of Weaverville, CA in timber and grass. Numerous residences, outbuildings and power lines are threatened. Difficult access is hampering containment efforts. Backing fire with upslope runs, and smoldering was reported.

PANTHER, Six Rivers National Forest. This fire is 14 miles west of Big Bar, CA in timber and understory. A watershed and a historic cabin are threatened. Difficult access and steep slopes are impeding containment efforts. Active backing and short uphill runs were observed.

### WESTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

WINTERS, Winnemucca Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Suwyn) is assigned. This fire is ten miles northwest of Midas, NV in sagebrush and grass. The towns of Midas and Tuscarora, ranches, a repeater and mining operations remain threatened. Limited road access continues to hamper containment efforts. Extreme plume dominated fire behavior was observed.

BASCO, Elko Field Office, Bureau of Land Management. The fire is located 20 miles northwest of Elko, NV in sagebrush and grass. Residences, structures, mining operations and wildlife habitat are threatened. Structure protection is in place. Difficult terrain and heavy fuel loads are hampering containment efforts. Running and spotting were reported.

HAMBLY COMPLEX, Ely Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Whalen) is assigned. This complex, consisting of the Hambly and Range fires, is 15 miles north of Alamo, NV in pinyon pine, grass and brush. A mine, powerlines, cultural sites and wildlife habitat are threatened. Interior torching and flare-ups were reported.

IOWA COMPLEX, Battle Mountain Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Paul) is assigned. This fire is 21 miles northeast of Austin, NV in brush, pinyon pine and juniper. Lack of access and heavy fuels are hampering containment efforts. Minimal to moderate fire behavior was reported.

4 WHEELER, Ely Field Office, Bureau of Land Management. This fire 20 miles east of Ely, NV in grass, sagebrush, juniper and timber. Uphill runs pushed by gusty winds were reported.

TAYLOR, Northern Region, Nevada Division of Forestry. This fire is seven miles east of Tuscarora, NV in grass and sagebrush. Highway 226, school buildings, residences, ranches and commercial property remain threatened. Limited road access is hindering containment efforts. Interior burning was observed.

PEERS, Ely Field Office, Bureau of Land Management. This fire started on Forest Service land five miles west of Pony Springs, NV in pinyon pine, juniper and grass. Steep, rocky terrain is hampering containment efforts. Precipitation occurred on the fire.

#### NORTHERN ROCKIES AREA INCIDENTS/LARGE FIRES:

BIG CREEK, Central Land Office, Montana Department of Natural Resources and Conservation. A Type 2 Incident Management Team (Reid) has been ordered. The fire started on private land 29 miles southwest of Livingston, MT in timber, grass, and sagebrush. Numerous residences are threatened and a voluntary evacuation in the South Glasbury community is in place. Highway 89 is threatened but remains open. Extreme fire behavior was observed.

RED EAGLE, Glacier National Park. A Type 2 Incident Management Team (Heintz) is assigned. A Type 1 Incident Management Team (Stanich) has been ordered. This fire is eight miles southwest of St. Mary, MT in spruce and fir. Commercial property, residences and outbuildings are threatened. An evacuation of St. Mary's is in effect and portions of Highway 89 and the Going to the Sun Road are in place. Extreme fire behavior was observed.

GASH CREEK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. This fire is six miles south of Victor, MT in timber. Rough terrain and difficult access continue to hamper containment efforts. Several residences are threatened. Running, torching, crowning and medium-range spotting was reported.

WOODCHUCK, Montana Department of Natural Resources & Conservation, Southwestern Land Office. A Type 2 Incident Management Team (Grant) is assigned. The fire is 12 miles south of Missoula, MT in grass and timber. Several homes are threatened and an evacuation order is in place for the residents of Woodchuck Creek and Miller Creek. Interior torching was observed.

LITTLE SPAR, Kootenai National Forest. A Type 2 Incident Management Team (McNitt) is assigned. Steep terrain and difficult access are hindering containment efforts. Creeping, smoldering, torching, and short-range spotting was reported.

OWL, Crow Agency, Bureau of Indian Affairs. The fire is located 9 miles southeast of Lodge Grass, MT in timber, grass and sage. Moderate fire activity was reported.

SOUTH PINE, Gallatin National Forest. A Type 2 Incident Management Team (Hall) is assigned. This fire is 13 miles south of Livingston, MT in timber. Extremely steep, rugged terrain continues to impede containment efforts. Increased fire activity with group torching and upslope crown runs was observed.

### ROCKY MOUNTAIN AREA INCIDENTS/LARGE FIRES:

DAWES COUNTY COMPLEX, Nebraska National Forest. A Type 2 Incident Management Team (Mullenix) is assigned. This complex, comprised of the previously reported Roberts Tract fire, and the Dead Horse and Spotted Tail fires, is 15 miles southwest of Chadron, NE in timber and grass. The communities of Chadron, Berryville and Whispering Pines, as well as major power lines and a water treatment plant are threatened. Mandatory evacuations for Berryville and Whispering Pines are in effect. Short runs and group torching were observed.

THAYER, Nebraska Department of Forestry. A Type 1 Incident Management Team (Oltrogge) has been ordered. This fire is 20 miles northwest of Crawford, NE in timber and understory. Several ranches are threatened and some residents on the east side of the fire were evacuated. Extreme fire behavior was reported.

OLD CHICAGO, Platte County. The fire is located six miles northeast of Guernsey, WY in pine, sagebrush and grass. Voluntary evacuations for the communities of Sunrise and Hartville are in effect. Historical structures and archeological sites are threatened. Short crown runs and group torching were observed.

EAST RIDGE, South Dakota Division of Forestry. A Type 2 Incident Management Team (Lowe) is assigned. This fire is three miles east of Piedmont, SD in timber and grass. Very dry fuels and high temperatures are hindering containment efforts. Creeping, smoldering and backing fire were reported.

MOREAU RIVER COMPLEX, Cheyenne River Agency, Bureau of Indian Affairs. This fire is 20 miles north of Eagle Butte, SD in grass. Ranch houses and power lines are threatened. Steep terrain is hindering containment efforts. Hot spots and flare-ups were reported.

LITTLE VENUS, Shoshone National Forest. This fire is 30 miles west of Meeteetse, WY in bug killed spruce and heavy down fuels. Structures are threatened. Steep terrain and poor access continues to hinder containment efforts. Crowning, spotting and interior runs were reported.

GOODMAN, Little Snake Field Office, Bureau of Land Management. This fire is 42 miles north of Dinosaur, CO in pinyon pine, juniper, and sagebrush. This fire is being managed under a confine/contain strategy. Steep, rocky terrain and continuous fuels are hampering containment efforts. Running, torching, and spotting were observed. This will be the last report unless significant activity occurs.

WITCHER, Badlands National Park. This fire is ten miles east of Scenic, SD in grass. Wind-driven runs was reported. No further information was received.

AMICK, South Dakota Division of Forestry. This fire is 11 miles northeast of White Lake, SD in grass. Smoldering fire behavior was reported. No further information was received.

LIGHTNING COMPLEX, Standing Rock Agency, Bureau of Indian Affairs. This fire is eight miles west of Little Eagle, SD in grass. The community of Bullhead and cultural and historical resources are threatened. Rough terrain and poor access are impeding containment efforts. Very active to extreme fire behavior was reported.

### EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

POTATO, Salmon-Challis National Forest. A Type 2 Incident Management Team (Lunde) is assigned. This fire is seven miles north of Stanley, ID in grass and timber. Fisheries habitat, power lines and recreation sites are threatened. Steep, difficult terrain is hampering containment

efforts. Active fire behavior consisting of crown runs and spotting up to a quarter mile was observed.

REILLY COMPLEX, Southern Paiute Agency, Bureau of Indian Affairs. A Type 1 Incident Management Team (Martin) is assigned. This complex, comprised of the previously reported Reilly and Red Hill fires, is 10 miles northwest of St. George, UT in grass and brush. Smoldering was reported.

POCKET COMPLEX, Arizona Strip Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Saleen) is assigned. This complex, comprised of the Paiute Fort, Summit, Cottonwood and Cottonwood 2 fires, is 15 miles south of Mesquite, NV in grass, brush, pinyon pine, and juniper. Smoldering in interior islands.

TRAILHEAD, Sawtooth National Forest. This fire is ten miles southwest of Stanley, ID in Douglas fir, lodgepole pine, and subalpine fir. The fire is burning on the western edge of the Sawtooth Wilderness and National Recreation Area. Steep, rugged terrain is hindering containment efforts. Isolated torching, creeping and smoldering were reported.

ARCO, Idaho Falls District, Bureau of Land Management. This fire is seven miles north of Arco, ID in timber and timber understory. Bighorn sheep habitat and the Natural Arch trail are threatened. Steep, rugged terrain is hampering containment efforts. Fire behavior consisting of isolated torching, small internal pockets burning out and isolated creeping and smoldering was reported.

LAVA, Twin Falls District, Bureau of Land Management. This fire is six miles northeast of Gooding, ID in grass and sagebrush. Some structures and wildlife habitat are threatened. Rocky terrain and poor access are hampering containment efforts. Fire behavior with rapid spread and running was reported.

FLATS 2, Cedar City Field Office, Bureau of Land Management. This fire is ten miles southwest of Milford, UT in cheatgrass and brush. Lack of engine access is hampering containment efforts. Extreme fire behavior with spotting was reported.

DUNCE, Payette National Forest. A Fire Use Management Team (Hahnenberg) is assigned. The Team is also managing the Lick Creek WFU. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 31 miles east of Edwardsburg, ID in cheatgrass. Structure protection measures remain in place in the Cabin Creek drainage. Fire activity slowed, but heat remains in downed logs.

LICK CREEK, Payette National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is 21 miles northwest of McCall, ID in timber. The fire continues to back toward the main access road to the community of Yellowpine, which has been closed. Fire behavior consisting of active backing and minor torching was reported.

JIM CREEK, Bridger Teton National Forest. A transfer of command from a Fire Use Management Team (Weldon) back to the local unit has taken place. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is 24 miles north of Pinedale, WY in subalpine fir, spruce and pine. Fire behavior with single and group tree torching in the interior was observed.

REESE, Bear River Area, Utah State Division of Forestry Fire and State Lands. This fire is 20 miles west of Tremonton, UT in grass. Torching and running were observed. No further information was received.

### EASTERN AREA INCIDENTS/LARGE FIRES:

CAVITY LAKE, Boundary Waters Canoe Area Wilderness, Superior National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. This fire is 44 miles northeast of Ely, MN in timber and timber blow down. Residential and commercial structures remain threatened. Heavy fuel loading and difficult access continue to hinder containment efforts. Smoldering, creeping and occasional torching were reported.

TURTLE LAKE, Boundary Waters Canoe Area Wilderness, Superior National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is 15 miles east of Ely, MN in timber. Higher relative humidity and light winds moderated fire behavior.

## OUTLOOK:

**Red Flag Warnings:** For central and southwest Idaho mountains, and portions of the Upper Snake River Plain for strong southwest winds and low relative humidity. For northwest and west central Montana for strong winds and low humidities. For southwest Montana for strong winds, low humidities and thunderstorm potential. Sunday for parts of northern and western Nevada for gusty winds and low relative humidity. For sections of eastern Oregon for gusty winds and low humidity.

**Fire Weather Watches:** Sunday afternoon for the north half of Idaho for strong winds and low humidities. Sunday afternoon through Monday afternoon for south central and southeast Montana, all of northeast Montana and northwest South Dakota for very low humidity, dry thunderstorms and strong, gusty and shifting winds. For most of South Dakota, northeast Wyoming, north central Nebraska low humidity, breezy conditions, and dry thunderstorms. For sections of eastern Oregon and Washington for winds and low humidity.

**Weather Discussion:** A low pressure system will move across the Northwest and into the Northern Rockies today with dry and windy conditions over portions of northern California, the Great Basin, Northwest, and Montana. Isolated, initially dry, thunderstorms are possible over portions of the Great Basin and Intermountain West, with scattered wet thunderstorms further south. Elsewhere, dry and windy conditions will continue in the Plains.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<p><b>Northwest Area</b> Mostly sunny and windy from the Cascades eastward. Slight chance of isolated thundershowers north Washington Cascades and extreme northeast Oregon.</p> <p>Cloudy. Few light showers possible western Washington and northwest Oregon.</p>	<p>East of Cascades: Cooler. In the 60s northern Washington and 70s to lower 80s in eastern Oregon.</p> <p>West of Cascades: Upper 50s north ranging to mid 70s in southwest Oregon interior.</p>	<p>East of Cascades: 30 to 40% northern Washington and 15 to 30% eastern Oregon.</p> <p>West of Cascades: Around 50% north to 20% far south.</p>	<p>East of the Cascades: West to southwest 20 to 30 mph with gusts to 45 mph along exposed ridges and near the Columbia River Gorge.</p> <p>West of the Cascades: West to northwest 10 to 15 mph with higher gusts peaks/ridges.</p>

<b>Geographic Area Weather</b>	<b>High Temperatures</b>	<b>Minimum Relative Humidity</b>	<b>Wind</b>
<p><b>Northern California Area</b> Sunny, with a few afternoon high clouds in the north.</p>	<p>Warmest inland areas still in the 80s and lower 90s.</p>	<p>8 to 25%.</p>	<p>Afternoon wind S to SW 5 to 18 mph with areas of gusts 25 to 38 mph, especially ridgetops and northeastern plateaus and eastern deserts.</p>
<p><b>Western Great Basin Area</b> Partly to mostly sunny with gusty afternoon winds across northern and western Nevada, isolated thunderstorms across central and southern Nevada will continue.</p>	<p>Northern valleys: 89 to 99. Southern valleys: 92 to 108. Northern mountains: 72 to 91. Southern mountains: 75 to 82.</p>	<p>Northern valleys: 9 to 18%. Southern valleys: 14 to 32%. Northern mountains: 12 to 28%. Southern mountains: 31 to 36%.</p>	<p>South to west 10 to 20 mph, with gusts of 30 to 40 mph along the Sierra Front and across parts of northern Nevada in the watch/warning area. Otherwise, south to southwest 5 to 15 mph.</p>
<p><b>Northern Rockies Area</b> Upper ridge over the eastern half of the Area will produce breezy and hot conditions. Meanwhile a strong Pacific front will produce strong winds and more seasonal temperatures west of the Divide. Central Montana can also expect increasing winds during the afternoon. The Pacific front will produce mainly dry thunderstorms over central and eastern Montana. Late day/evening storms are also possible over North Dakota.</p>	<p>West of divide: 78 to 86 East of divide: 90 to 103 North Dakota: 92 to 109</p>	<p>West of divide: 18 to 28% East of divide: 15 to 20% North Dakota: 17 to 35%</p>	<p>West of divide: West 20 to 35 mph East of divide: Northerly 10 to 15 mph North Dakota: South 10 to 15 mph</p>
<p><b>Eastern Great Basin Area</b> Idaho, Bridger-Teton: Partly cloudy, windy and cooler with isolated afternoon mountain thunderstorms.  Northern Utah: Partly cloudy with scattered afternoon showers and thunderstorms.  Southern Utah, Arizona Strip: Partly cloudy with scattered showers in the west and mountains, isolated showers and thunderstorms in the east.</p>	<p>Idaho, Bridger-Teton: 64 to 85 mountains, 86 to 93 valleys.  Northern Utah: 70 to 80 mountains, 80 to 96 valleys, up to 105 in eastern valleys.  Southern Utah, Arizona Strip: 72 to 88 mountains, 89 to 103 valleys.</p>	<p>Idaho, Bridger-Teton: 15 to 30%.  Northern Utah: 24 to 37% mountains, 18 to 25% valleys.  Southern Utah, Arizona Strip: 25 to 53% west, 20 to 38% east.</p>	<p>Idaho, Bridger-Teton: Southwest/west 15 to 20 mph gusting to 35 mph.  Northern Utah: Upslope/upvalley 5 to 10 mph or southwest to 15 mph in the north.  Southern Utah, Arizona Strip: Upslope/upvalley 5 to 10 mph.</p>
<p><b>Rocky Mountain Area</b> Scattered dry/wet thunderstorms over portions of Wyoming and Colorado elsewhere sunny, hot and dry.</p>	<p>85 to 95 lower elevations except 100 to 110 over the plain states.</p>	<p>5 to 15% across over most of Wyoming and South Dakota and northwest Colorado. 15 to 30% elsewhere.</p>	<p>South 10 to 20 mph with higher gusts across the plain states otherwise variable 5 to 15 mph.</p>

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>Southern California Area</b> Morning low clouds coastal areas, otherwise partly cloudy with a few showers and thunderstorms, mainly over the mountains and deserts east of Cajon Pass in Southern California and Sierra eastward over Central California.	75 to 90 mountains. 80 to 95 valleys. 90 to 96 upper deserts. Near 100 lower deserts.	45 to 65% coastal areas. 35 to 50% valleys. 20 to 45% mountains. 15 to 30% deserts.	Southeast to southwest 5 to 15 mph.
<b>Eastern Area</b> Scattered showers and thunderstorms over the northern 1/3 of Minnesota, northern Wisconsin, western parts of the UP of Michigan, the lower peninsula of Michigan and the northwestern Mid-Atlantic states. Fair elsewhere.	77 to 84 over the Northeast. 87 to 93 across northern Minnesota, the upper peninsula of Michigan, and the Mid-Atlantic states. 93 to 101 elsewhere.	36 to 41% across northwestern and west central Minnesota as well as southwestern Missouri. Greater than 41% elsewhere.	South at 14 to 22 mph over the southern 2/3 of Minnesota, western Wisconsin and the northwest 1/2 of Iowa. Southeast to south at 8 to 13 mph across the northern 1/3 of Minnesota and the rest of the Great Lakes. Light to moderate winds elsewhere.
<b>Southern Area</b> No information reported.
