# National Interagency Coordination Center Incident Management Situation Report <br> Saturday, September 2, 2006-0800 MDT National Preparedness Level 5 

## National Fire Activity

Initial attack activity: Light (136 new fires)
New large fires: $\quad 2$ ( $^{*}$ )
Large fires contained: 0
Uncontained large fires: 42
Area Command Teams: 0
Type 1 IMTs committed: 6
Type 2 IMTs committed: 18
Fire Use Teams: 3
** Uncontained large fires do not include WFU or confine/contain incidents. **

Two MAFFS deployed to Klamath Falls, OR. Maj. Steve Coppa, commander.
Two MAFFS deployed to Boise, ID. Maj. Bill Green, commander.
U.S. Army Task Force Blaze deployed to the Tripod Complex fires, WA. Maj. Jody Miller, commander. Australia and New Zealand assisting with 92 fire specialists and managers.
Canada assisting with ten 20-person crews, and 59 fire specialists and managers.

## Northern Rockies (PL 5)

New fires: 17
New large fires: 0
Uncontained large fires: 11
Type 1 IMTs committed: 2
Type 2 IMTs committed: 3
Derby, Gallatin NF. IMT 1 (Bennett). Fifteen miles south of Big Timber, MT. Timber and heavy dead and down fuels. Group tree torching and short running ground fire. Evacuation orders and area closures in effect.

Paradise Valley Complex (four fires), Gallatin NF. IMT 2 (Kusicko). Twenty-nine miles southwest of Livingston, MT. Timber. Torching and short runs. Structures and watershed threatened.

Hughes 32 Complex (four fires), Idaho Panhandle NF. Sixteen miles northwest of Nordman, ID. Cedar, hemlock and subalpine fir. Fire activity increase due to warmer temperatures. Fire lookout and Canadian power lines threatened.

Heavens Gate Complex (four fires), Nez Perce NF. IMT 1 (Stanich). Ten miles west of Riggins, ID. Grass and timber. Torching and short runs. Residences, Forest Service lookout and repeater site threatened.

Sun Dog, Flathead NF. IMT 2 (Heintz). Eighteen miles north of Whitefish, MT. Timber. Tree torching and short runs. Structures and watershed threatened.

Ulm Peak, Idaho Panhandle NF. IMT 2 (Reid). Twelve miles southwest of Noxon, MT. Subalpine fir and hemlock. Creeping and single tree torching. Repeater site and lookout threatened.

Holland Peak, Idaho Panhandle NF. Five miles east of Condon, MT. Timber. Creeping and isolated tree torching.

Jungle, Gallatin NF. Twenty miles southwest of Livingston, MT. Timber. No new information reported.
Ashley Lake, Flathead Agency BIA. Six miles northeast of St. Ignatius, MT. Alpine timber. Minimal fire activity. Monitor status.

Stinky, Yellowstone NP. Thirty-seven miles southeast of Gardiner, MT. Lodgepole pine. Confine/Contain.
Clarks Canyon, Central Land Office, Montana DNR. Seventeen miles south of Dillon, MT. Grass and sagebrush. No further information received.

## Northwest Area (PL 5)

New fires:
10
New large fires: 1
Uncontained large fires: 14
Type 1 IMTs committed: 3
Type 2 IMTs committed: 6
Fire Use Teams: 1
Columbia Complex (six fires), Southeast, Washington DNR. IMT 1 (Lohrey). Fifteen miles northeast of Walla Walla, WA. Grass, brush and mixed conifer. Backing fire and single tree torching. Residences, a ski area, wind energy site and commercial resources threatened. Evacuation orders and area road closures in effect.

Shake Table Complex (ten fires), Malheur NF. IMT 2 (Hunt). Transfer of command to IMT 2 (West) today. Twelve miles southeast of Dayville, OR. Timber. Isolated torching and short range spotting. Residences, lookout and communication site threatened. Road closures in effect.

Tripod Complex (two fires), Okanogan-Wenatchee NF. IMT 1 (Whitney) and IMT 2 (Gormley). IMT 1 also managing Cedar Creek and Tatoosh Complex. Seven miles northeast of Winthrop, WA. Mixed conifer. Torching, spotting and crowning. Numerous residences and other structures threatened.

Quinns Meadow, Northeast, Washington DNR. IMT 2 (Barnett). Twenty-five miles north of Colville, WA. Timber and brush. Smoldering and creeping. Residences threatened.

Cascade Crest Complex (three fires), Deschutes NF. IMT 1 (Wilcock). Thirty-five miles northeast of Bend, OR. Timber and heavy dead and down fuels. Single tree torching and runs. Residences, communication sites, fish hatchery and other structures threatened. Recreation sites closed.

Flick Creek, North Cascades NP. FUMT (Weldon). FUMT also managing Tin Pan WFU. One mile east of Stehekin, WA. Lodgepole pine, Douglas fir and spruce. Backing fire with occasional torching. Structures threatened.

Tin Pan WFU, Okanogan-Wenatchee NF. Seven miles west of Lucerne, WA. Timber. Single tree and group torching with short crown runs. Structures threatened.

Sharps Ridge, Umatilla NF. IMT 2 (Goheen). Transfer of command to local unit planned for $9 / 2$. Fifteen miles southeast of Dale, OR. Mixed conifer and heavy dead and down fuels. Creeping and smoldering.

Carbon Copy, South Puget Sound, Washington DNR. IMT 2 (LaFave). Transfer of command to local unit planned for $9 / 2$. Eight miles southeast of Carbonado, WA. Timber and heavy dead and down fuels. Minimal fire activity.

Applegate, Wallowa-Whitman NF. Six miles north of Flora, OR. Mixed conifer and grass. Smoldering, creeping and active backing fire. Highway 3 reopened.

Cedar Creek, Okanogan-Wenatchee NF. Eight miles southwest of Mazama, WA. Timber. Moderate fire activity. Structure protection in place.

Tatoosh Complex (six fires), Okanogan-Wenatchee NF. Six fires. Twenty-four miles northwest of Mazama, WA. Timber. Isolated group torching and short range spotting. Structure protection in place.

Pine Ridge, Prineville District BLM. Thirty miles east of Bend, OR. Timber. Isolated torching.
Mt. Hood Complex (thirteen fires), Mt. Hood NF. Six miles east of Government Camp, OR. Timber and heavy dead and down fuels. Minimal fire activity. Trails and roads closed.

Middle Fork, Cascade District, Oregon Department of Forestry. IMT 2 (Walker) ordered. Fourteen miles northeast of Sweet Home, OR. Timber. Running, spotting and crowning. Recreation facilities threatened.

## Eastern Great Basin Area (PL 5)

New fires: 13

New large fires: 0
Uncontained large fires: 12
Type 1 IMTs committed: 1
Type 2 IMTs committed: 5
Fire Use Teams: 2

Rockland, Idaho Falls District, BLM. IMT 2 (Whalen). Five miles east of Rockland, ID. Timber and light slash. Short runs and torching. Residences, cultural sites and power lines threatened.

Brown's Canyon, Sawtooth NF. IMT 2 (Suwyn). Five miles southeast of Yost, UT. Pinyon pine, juniper, grass and sagebrush. Moderate fire behavior. Residences, commercial resources and a ranger station threatened.

Deep Creek, Manti-Lasal NF. Five miles south of Levan, UT. Grass and pinyon pine. Upslope runs and creeping fire behavior. Communications site and power lines threatened.

Rattlesnake Complex (two fires), Boise NF. IMT 2 (Saleen). Thirteen miles northeast of Garden Valley, ID. Subalpine fir and pine. Group tree torching, creeping and spotting. Residences, commercial property and campgrounds threatened.

Trailhead, Sawtooth NF. IMT 1 (Martin). Ten miles southwest of Stanley, ID. Lodgepole pine and Douglas fir. Smoldering and creeping. Residences threatened.

South Fork Complex ( 26 fires), Payette NF. IMT 2 (Philbin). Thirteen miles east of McCall, ID. Timber. Moderate fire activity. Town of Yellow Pine, Krassel Work Center, lookout towers, power lines and campgrounds threatened. Structure protection in place. Road closures in effect.

Red Mountain, Boise NF. IMT 1 (Martin). IMT also managing the Boundary Complex. Sixteen miles northeast of Lowman, ID. Subalpine fir and lodgepole pine. Campgrounds, Forest Service guard station and fisheries habitat threatened. Campground closed.

Middle Fork Complex (eight fires), Salmon-Challis NF. FUMT (Perkins). Complex now being managed as a wildland fire. Thirty miles west of Challis, ID. Timber and grass. Isolated torching and short range spotting. Residences, campgrounds and fisheries threatened. Acreage decrease due to more accurate mapping. One fire has been reassigned to Boundary Complex.

Hagen, Wasatch Front Area, Utah State Division of Forestry Fire and State Lands. Twenty-two miles southwest of Tooele, UT. Juniper, sagebrush and grass. Isolated torching, creeping and smoldering. Goshute Reservation and town of Terra threatened. Acreage decrease due to more accurate mapping.

Payette WFU Complex (thirteen fires), Payette NF. FUMT (Hall). FUMT also managing Trout Creek. Twenty miles northeast of McCall, ID. Timber. Backing fire with isolated torching.

Battle Mountain, Bridger-Teton NF. Thirty miles northeast of Pinedale, WY. Timber. No further information received.

Trout Creek, Payette NF. Fifty miles northeast of McCall, ID. Timber and grass. Minimal fire behavior.
Boundary Complex, Salmon-Challis NF. Transfer of command from IMT 2 (Raley) to IMT 1 (Martin) today. Fourteen miles southeast of Landmark, ID. Grass and timber. Cabins and ranches threatened. The Boundary Creek area is closed to the public.

SQF - Sequoia NF

## Predictive Services Discussion

It will be warmer and drier over much of the West for the next few days with thunderstorms expected over portions of Southern California and the southern Great Basin. Dry thunderstorms are possible over eastern portions of Oregon and Washington, Idaho and western Montana on Sunday and Monday. In addition to the dry thunderstorm threat, the other main concern is the hot, dry and unstable conditions (high Haines Index) west of the Cascades Saturday which will shift east of the Cascades Sunday and Monday.

## Minutes

## Wildland Urban Interface Hazards

Firefighters in the wildland urban interface may encounter hazards other than the fire itself, such as hazardous materials, utility lines and poor access.

Hazardous Materials

- Common chemicals used around the home may be a direct hazard to firefighters from flammability, explosion potential and/or vapors or off-gassing. Such chemicals include paint, varnish and other flammable liquids; fertilizer; pesticides; cleansers; aerosol cans, fireworks, batteries and ammunition. In addition, some common household products such as plastics may give off very toxic fumes when they burn. Stay OUT of the smoke from burning structures and any unknown sources such as trash piles.

Illicit Activities

- Marijuana plantations or drug production labs may be found in wildland urban interface areas. Extremely hazardous materials such as propane tanks and flammable/toxic chemicals may be encountered, as well as booby traps.

Propane tanks

- Both large (household size) and small (gas grill size) liquefied propane gas (LPG) tanks can present hazards to firefighters, including explosion. See the "LPG Tank Hazards" discussion for details.

Utility lines

- Utility lines may be located above and below ground and may be cut or damaged by tools or equipment. Don't spray water on utility lines or boxes.

Septic tanks and fields

- Below-ground structures may not be readily apparent and may not support the weight of engines or other apparatus.

New construction materials

- Many new construction materials have comparatively low melting points and may "offgas" extremely hazardous vapors. Plastic decking materials that resemble wood are becoming more common and may begin softening and losing structural strength at $180^{\circ} \mathrm{F}$, though they normally do not sustain combustion once direct flame is removed. However, if they continue to burn they exhibit the characteristics of flammable liquids.

Pets and livestock

- Pets and livestock may be left when residents evacuate and will likely be highly stressed, making them more inclined to bite and kick. Firefighters should not put themselves at risk to rescue pets or livestock.

## Evacuation occurring

- Firefighters may be taking structural protection actions while evacuations of residents are occurring. Be very cautious of people driving erratically. Distraught residents may refuse to leave their property, and firefighters may need to disengage from fighting fire to contact law enforcement officers for assistance. In most jurisdictions firefighters do not have the authority to force evacuations. Firefighters should not put themselves at risk trying to protect someone who will not evacuate!

Limited access

- Narrow one-lane roads with no turn-around room, inadequate or poorly maintained bridges and culverts are frequently found in wildland urban interface areas. Access should be sized-up and an evacuation plan for all emergency personnel should be developed.
