

**National Interagency Coordination Center
Incident Management Situation Report
Friday, March 16, 2007 - 1000 MDT
National Preparedness Level 1**

National Fire Activity (Weekly Total)

Initial attack activity: Moderate (1,745 new fires)
 New large fires: 73 (*)
 Large fires contained: 72
 Uncontained large fires: 6
 Area Command Teams:
 Type 1 IMTs committed:
 Type 2 IMTs committed:
 Fire Use Teams:

** Uncontained large fires do not include WFU or confine/contain incidents. **

Southern Area (PL 2)

New fires: 1,622
 New large fires: 64
 Uncontained large fires: 4

Koehring Slop, Alligator River NWR. Thirty miles northeast of Mount Pleasant, NC. Southern rough. No new information.

Marina, Florida DOF. Forty-nine miles northeast of Fort Myers, FL. Grass. No new information.

Stone Mountain, VAS – Virginia DOF Fourteen miles southwest of Rose Hill, VA. Timber litter. No new information.

Volusia Forest Trail, Florida DOF. Twenty-seven miles northwest of Daytona Beach, FL. Palmetto and timber. No new information.

INS – Indiana DOF MTF - Mark twain NF

Predictive Services Discussion: Much above normal temperatures and dry conditions are expected over southern California and Arizona into the weekend. An upper level storm system will approach the area early next week bringing cooler temperatures, higher humidity and a chance of precipitation. Dry conditions will take place over Florida and the Southeast behind Friday's cold front. Winds will become onshore by Monday and humidity will increase. Strong winds will develop over eastern New Mexico and the southern Plains by mid-week.

OPERATIONAL BRIEFINGS

Operational briefings are critical to safe fire operations. To ensure a consistent and effective briefing, a standardized briefing checklist should always be used. The following checklist is printed on the cover of the NWCG Incident Response Pocket Guide:

● Situation:

- Fire name, location, map orientation, other incidents in the area
- Terrain influences
- Fuel type and conditions
- Fire weather (previous, current, and expected)
- Fire behavior (previous, current, and expected)

● Mission/Execution:

- Command (Incident Commander/immediate supervisor)
- Commander's intent
- Specific tactical assignments
- Contingency plans

● Communications:

- Communication Plan (tactical, command, air/ground frequencies, cell phone numbers, etc.)
- Medivac Plan

● Service/Support:

- Other resources that may be working adjacent to you and those available to order
- Aviation operations
- Logistics (e.g., transportation, supplies, equipment)

● Risk Management:

- Identify known hazards and risks
- Identify control measures to eliminate hazards and reduce risk
- Identify trigger points for disengagement or reevaluation of operational plan

● Questions or Concerns
