National Interagency Coordination Center Incident Management Situation Report Tuesday, May 1, 2007 - 1000 MDT National Preparedness Level 1

National Fire Activity

Initial attack activity: 292 (Moderate)

New large fires: 4 (*)
Large fires contained: 4
Uncontained large fires: 14

Area Command Teams committed:

NIMOs committed:

Type 1 IMTs committed:

1
Type 2 IMTs committed:

4

Fire Use Teams committed:

Southern Area (PL 3)

New fires:	128
New large fires:	1
Uncontained large fires:	6
NIMOs committed:	1
Type 1 IMTs committed:	1
Type 2 IMTs committed:	3

Sweat Farm Road, Georgia Forestry Commission. IMT 2 (Floyd) and NIMO (Ferguson). Started on private land 10 miles west of Waycross, GA. Southern rough and timber. Spotting with moderate rates of spread. City of Folkston threatened. Voluntary evacuation in effect. U.S. Highway 1 closed.

Big Turnaround Complex, Okefenokee NWR. IMT 1 (Ruggiero) and IMT 2 (Wilder). Ten miles southeast of Waycross, GA. Southern rough, timber and gallberry. Torching. Residences evacuated. Private timber plantations threatened.

Roundabout, Georgia Forestry Commission. Started on private land four miles west of Pearson, GA. Southern rough and timber. Running, spotting. Residences evacuated.

Pinnacle, National Forests in North Carolina. IMT 2 (Raley). Fifteen miles east of North Cove, NC. Hardwood litter and timber. Moderate ground fire activity.

Knee Knocker Swamp, Georgia Forestry Commission. Previously reported. Two miles northwest of Nahunta, GA. Southern rough. No new information. Last report unless new information is received.

Candy Killer, Oklahoma DOF. Started on private land four miles south of Stilwell, OK. Hardwood litter. Last report unless new information is received.

^{**} Uncontained large fires do not include WFU or confine/contain incidents. **

Predictive Services Discussion: Warm and dry conditions will continue today over the Southeast under a high pressure ridge. Increased winds over Nevada and the Sierras, and isolated thunderstorms over the Southwest will precede an approaching storm system moving into the Southwest.

Standard Fire Orders

The NWCG approved a revision of the Standard Fire Orders, in accordance with their original arrangements. The orders are arranged according to their importance and grouped in logical sequence. Review and consider Standard Fire Orders as a part of every shift.

- Did you receive or request adequate weather briefing, current and predicted fire behavior, wind direction, predicted humidity, fuel moisture, local factor?
- Do you have map of the fire? Is topography, type of fuels, direction of the spread defined?
- Fire behavior group deals with what the firefighter will encounter weather, fire status, fire behavior.
 - 1. Keep informed on fire weather conditions and forecasts.
 - 2. Know what your fire is doing at all times.
 - 3. Base all actions on current and expected behavior of the fire.
- Are you familiar with direction, distance, location, size of escape routes and safety zones?
- Discuss the need for lookout, such as extreme fire behavior, fire located out of line-of-sight.
- Discuss importance of the situational awareness.
- Fireline safety group emphasizes personal safety.
 - 4. Identify escape routes and safety zones and make them known.
 - 5. Post lookouts when there is possible danger.
 - 6. Be alert. Keep calm. Think clearly. Act decisively.
- Review importance and means of passing tactical decisions and resource movement.
- Review other factors influencing potential changes in tactics, which could affect control of your forces.
- Organizational Control group is centered around tactical decisions.
 - 7. Maintain prompt communications with your forces, your supervisor and adjoining forces.
 - 8. Give clear instructions and insure they are understood.
 - 9. Maintain control of your forces at all time.
- After you have considered, discussed and acted on the previous nine orders:
 - 10. Fight fire aggressively, having provided for safety first.
