SWS - Southwest Area Forestry

Predictive Services Discussion: Hot temperatures will continue across the West with widespread thunderstorms this week. Isolated mainly dry thunderstorms will develop in California today, with lingering thunderstorm potential in central Arizona and Utah. Thunderstorms will spread into the Northwest, Great Basin, and across Arizona on Tuesday/Wednesday and become wetter. Wet thunderstorms will continue along the Continental Divide into Southeast Arizona. Offshore winds will develop today west of the Cascades in Washington and Oregon. Gusty winds will continue in portions of Southern California and the extreme southern Great Basin. Alaska will continue the threat for thunderstorms early this week, then transitions to cooler weather and showers by Wednesday.
