# National Interagency Coordination Center Incident Management Situation Report Tuesday, July 10, 2007-0530 MDT <br> National Preparedness Level 4 

| National Fire Activity |  |
| :--- | :--- |
| Initial attack activity: | Moderate (277 new fires) |
| New large fires: | $9\left(^{*}\right)$ |
| Large fires contained: | 6 |
| Uncontained large fires: | 44 |
| Area Command Teams committed: |  |
| NIMOs committed: | 1 |
| Type 1 IMTs committed: | 7 |
| Type 2 IMTs committed: | 18 |
| Fire Use Teams committed: | 2 |
| ** Uncontained large fires do not include WFU or confine/contain incidents. ** |  |

## Eastern Great Basin Area (PL 5)

New fires: 12
New large fires: 3
Uncontained large fires: 12
Type 1 IMTs committed: 2
Type 2 IMTs committed: 5
Fire Use Teams committed: 1

Mathis, Southeast Area, Utah State Division of Forestry Fire \& State Lands. IMT 2 (Harvey). Nine miles north of Price, UT. Grass, juniper and timber. Crown fire with long range spotting. Coal mines, methane gas wells, and numerous residences remain threatened.

Milford Flat, Southwest Area, Utah State Division of Forestry Fire \& State Lands. IMT 1 (Muir). Three miles north of Milford, UT. Grass and brush. Active fire behavior. Natural gas pipeline and geo-thermal power plant remain threatened. Periodic closures of Interstates 15.

Black Pine 2, Sawtooth NF. IMT 2 (Grant). Started on private land eleven miles southeast of Malta, ID. Grass, brush and juniper. Active fire behavior with rapid rates of spread. Structures remain threatened.

Black Rock Gulch, Arizona Strip Field Office, BLM. IMT 2 (Lund). Thirty miles south of St. George, UT. Grass, brush, juniper, timber. Extreme fire behavior with crown fire, torching and spotting. Communications site and structures remain threatened.

Warm Springs, Payette NF. IMT 2 (Heintz). Four miles north of Weiser, ID. Grass. Short runs and backing fire. Structures remain threatened. Reduction in acreage due to more accurate mapping.

Oneida Narrows, Idaho Falls District, BLM. Eight miles northeast of Preston, ID. Brush, grass and juniper. Extreme fire behavior with torching and spotting. Structures threatened. Evacuation in effect.

Neola North, Uintah and Ouray Agency, BIA. Transfer of command from IMT 1 (Martin) back to the local unit on $7 / 12$. Three miles north of Neola, UT. Brush and timber. Isolated torching. Municipal watershed remains threatened.

Tongue Complex (three fires), Boise District, BLM. IMT 2 (Johnson). IMT will also manage the Boulder Creek fire. Forty-five miles south of Silver City, ID. Brush, grass and juniper. Running, torching and spotting. Structures remain threatened.

Boulder Creek, Boise District, BLM. Eight miles south of Silver City, ID. Grass, brush and juniper. Running. Structures remain threatened.

Jim Brown Bridge, Twin Falls District, BLM. Eighteen miles northeast of Shoshone, ID. Grass and brush. Moderate fire behavior.

Jim Sage, Twin Falls District, BLM. Eight miles southwest of Malta, ID. Grass and brush. Isolated short runs and torching.

Jungle, Manti-Lasal NF. FUMT (Ourada/Soper). Thirteen miles west of Ferron, UT. Timber litter, spruce. Isolated interior torching. Residences remain threatened.

LXR - Arthur R. Marshall/Loxahatchee NWR

Predictive Services Discussion: Hot temperatures will continue across the West with widespread initially dry thunderstorms this week. Thunderstorms will develop today in California, W Nevada and southern Oregon along a band of moisture moving up from the south. Isolated storms will still be possible in Utah and northern Arizona. Wet thunderstorms will continue along the Rockies into southeast Arizona. Offshore winds will continue today into tonight west of the Cascades in Washington and Oregon. Gusty winds will develop in eastern portions of Wyoming and Montana into the northern Plains. Alaska will trend cooler this week with increasing showers and decreasing thunderstorms.

## DOZER/TRACTOR PLOW OPERATIONS

Dozers/tractor plows provide suppression and support capability for fire operations. When working on or around dozers on the fireline, it is important to respect the following guidelines:

- Load/unload equipment from the transport in a safe manner on a level, stable surface.
- Park transport in an area free of fuel. Clear an area if needed to protect parked equipment.
- Do not sit or bed down near equipment. Walk around the equipment before starting or moving it.
- Lower the dozer blade and/or fire plow to the ground when the equipment is idling or stopped.
- When working a dozer or tractor plow, stay at least 100 feet in front or 50 feet behind the equipment.
- Allow no one but the operator to ride on the equipment.
- Never get on or off equipment while it is moving.
- Provide front and rear lights for equipment working at night or in heavy smoke.
- Provide lights and fluorescent vests to personnel working with dozer/tractor plow units.
- Use hand signals for direction and safety. (See Fireline Handbook, Appendix A, for hand signals.)
- Do not use a dozer or tractor plow without a canopy or brush guard and radio communications.
- Operators will wear required PPE and carry a fire shelter.
- Be aware of different fuel types, rates of spread, and flammability.

Watch for wetlands, steep slopes, rocks, ditches, and other obstacles that might stop the equipment.

- Do not get too far ahead of a firing crew during firing operations.
- Anchor the line to a secure firebreak and create a black line (burn out) until the fire is completely enclosed.
- Tractor plow operators should wear headgear protection for head, face, eyes, and ears while also providing radio reception and ventilation capabilities.
- Tractor plow crews should consist of a minimum of two people.
- When the dozer or tractor plow is equipped with a hand-clutch lever, always take equipment out of gear when mounting and dismounting.
