# National Interagency Coordination Center Incident Management Situation Report Tuesday, July 17, 2007-0530 MDT <br> National Preparedness Level 4 

| National Fire Activity |  |
| :--- | :---: |
| Initial attack activity: | Heavy (426 new fires) |
| New large fires: | 20 (*) $^{\text {L }}$ |
| Large fires contained: | 5 |
| Uncontained large fires: | 52 |
| Area Command Teams committed: |  |
| NIMOs committed: | 2 |
| Type 1 IMTs committed: | 5 |
| Type 2 IMTs committed: | 22 |
| Fire Use Teams committed: | 4 |
| ** Uncontained large fires do not include WFU or confine/contain incidents. ** |  |

A NIMO Team (Ferguson) is assigned as a planning and operational group in support of the National MultiAgency Coordinating Group at Boise, ID.

## Northwest Area (PL 4)

New fires: 23
New large fires: 6
Uncontained large fires: 18
Type 1 IMTs committed: 2
Type 2 IMTs committed: 10
Egley Complex (six fires), Burns Fire Zone, Malheur NF. IMT 1 (Pendleton). Ten miles north of Riley, OR. Timber litter. Active fire behavior with torching and spotting. Numerous structures remain threatened. Evacuations in effect.

Battle Creek Complex, Wallowa-Whitman NF. IMT 1 (Hoff). Twenty-eight miles northeast of Enterprise, OR. Timber and grass. Creeping. Hydroelectric facilities and power lines threatened.

Ball Point, Mt. Hood NF. IMT 2 (Goheen). Twenty-three miles southwest of The Dalles, OR. Hardwood litter. Short range spotting with isolated torching. Road closures in effect.

Monument Complex (two fires), Umatilla NF. IMT 2 (Batten). Five miles north of Monument, OR. Timber and grass. Short range spotting. Power lines and structures remain threatened.

Tunk Grade, Northeast Washington DNR. Washington IMT 2 (Gormley). Ten miles northeast of Omak, WA. Timber and grass. Running and spotting fire. Residences threatened. Road closures and evacuations in effect.

Cottonwood, Northeast Oregon, Pendleton Unit, DOF. Oregon IMT (Savage). Thirty miles northeast of Wallowa, OR. Timber and grass. Running, torching and spotting. Several structures threatened.

Juniper Resevoir, Vale District, BLM. IMT 2 (Reinarz). Five miles west of Vale, OR. Brush and slash. Extreme fire behavior. Structures and power lines threatened.

WSA Lightning Complex (twenty-seven fires), Warm Springs Agency, BIA. Washington IMT 2 (Jennings). Twenty-one miles southwest of Warm Springs, OR. Timber, grass and brush. Running with some torching. Structures remain threatened.

Fossil Creek, Prineville District, BLM. IMT 2 (Paul). Forty miles northwest of John Day, OR. Grass and sage. Running, torching and spotting.

Trout Creek, Wallowa-Whitman NF. IMT 2 (Blume). Twenty-nine miles northeast of Baker City, OR. Timber and grass. Running, spotting, and torching.

Windy Ridge (three fires), Colville NF. Washington IMT 2 (Reed). Seven miles northwest of Metaline, WA. Light logging slash. Short range spotting, short crown runs and torching. Numerous structures threatened.

Horse Heaven Complex (four fires), Southeast Washington, DNR. Washington IMT 2 (LaFave). Thirty miles southwest of Prosser, WA. Grass and sage. Running fire. Structures threatened. Reduction in acreage due to more accurate mapping.

Black Rock, Prineville District, BLM. Ten miles southeast of Clarno, OR. Grass and sage. Backing fire with interior torching.

Stove Pipe, Prineville District, BLM. Eighteen miles south of Fossil, OR. Grass and sage. Backing fire with interior torching.

Calamity Complex (six fires), Malheur NF. Sixteen miles southeast of Seneca, OR. Timber and grass. No new information.

Looney Spring, Malheur NF. Twelve miles west of Unity, OR. Timber litter. Spotting and torching.
Bear, Umatilla NF. Fifteen miles east of Milton-Freewater, OR. Timber litter. Minimal fire behavior.
Juniper Canyon, Vale District, BLM. Nineteen miles east of Umatilla, OR. Brush. No further information received.

## Eastern Great Basin Area (PL 5)

| New fires: | 90 |
| :--- | ---: |
| New large fires: | 9 |
| Uncontained large fires: | 15 |
| Type 1 IMTs committed: | 1 |
| Type 2 IMTs committed: | 4 |
| Fire Use Teams committed: | 2 |

Rowland, Twin Falls District, BLM. Nine miles southwest of Murphy Hot Springs, ID. Grass and brush. Running fire. Structures threatened.

Weston, Caribou-Targhee NF. Five miles southeast of Malad, ID. Grass and brush. Running fire.
Black Canyon, Caribou-Targhee NF. Twelve miles southwest of Weston, ID. Grass, brush and juniper. Moderate fire behavior with running and torching.

Zion 3, Zion NP. Twelve miles northeast of Springdale, UT. Grass, manzanita, and timber. Running and torching. Trail closures.

Van Horn, Salmon-Challis NF. Fifteen miles north of Challis, ID. Timber litter and downed logs. Running, crowning and spotting. Structures threatened.

Black Pine 2, Sawtooth NF. IMT 2 (Grant). Started on private land eleven miles southeast of Malta, ID. Grass, brush and juniper. Internal torching and backing. Structures remain threatened.

East Zone Complex (three fires), Payette NF. IMT 2 (Heintz). Twenty-five miles northeast of McCall, ID. Timber and grass. Moderate fire behavior with running and short range spotting. Structures remain threatened.

Salt Lick, Bridger-Teton NF. IMT 2 (Suwyn). Twenty-five miles north of Pinedale, WY. Timber. Isolated torching and creeping. Road closures remain in effect. Precipitation occurred over the fire area yesterday.

Tongue Complex (three fires), Boise District, BLM. IMT 2 (Johnson). IMT also managing the Boulder Creek fire. Forty-five miles south of Silver City, ID. Brush, grass and juniper. Moderate fire behavior. Structures remain threatened.

Milford Flat, Southwest Area, Utah State Division of Forestry Fire \& State Lands. Transfer of command from IMT 1 (Muir) back to local unit today. Three miles north of Milford, UT. Grass and brush. Isolated torching and creeping.

Bohannon, Idaho Falls District, BLM. FUMT (Ourada/Soper). Ten miles northeast of Salmon, ID. Timber litter. Isolated torching and creeping fire.

Krassel Complex (four fires), Payette NF. FUMT (Perkins). Forty-four miles northeast of Yellowpine, ID. Complex includes previously reported Tag and Goat WFUs. Grass, brush, timber litter and downed logs. Active fire behavior.

Sailor 2, Sailor Creek Bombing Range, DOD. Thirty-one miles south of Mountain Home, ID. Grass and brush. Extreme fire behavior with rapid rate of spread.

Neola North, Uintah and Ouray Agency, BIA. Three miles north of Neola, UT. Brush and timber. Creeping with isolated torching.

Beke, Salt Lake Field Office, BLM. Forty-nine miles west of Curlew Junction, UT. Grass and timber. Running, torching and rapid rate of spread.

Clear Sage, Salmon-Challis NF. Twenty-five miles west of Salmon, ID. Grass and downed logs. Minimal fire behavior.

Predictive Services Discussion: Increasing wind in combination with thunderstorms will occur this week mainly over the Great Basin. Windy conditions will develop today from the Sierra Nevada mountains eastward over southeast Oregon and the southwest portion of the Great Basin. Thunderstorms will focus over the Northwest and the Great Basin eastward. The driest storms will be across the southern Great Basin. Cooler conditions and higher relative humidity will begin to increase over the Northwest and Northern California. Alaska will see warmer conditions with continued showers and thunderstorms.

## Minutes

## INITIAL ATTACK FIRE SIZEUPISAFETY

Having a good sizeup is important in order to give both the Incident Commander (IC) and fire management a good idea of what problems exist and what resources may be needed for effective firefighting.

Use the following reporting factors for sizeup. Discuss others that may be used.

- Fire name and location
- Terrain (slope, aspect, elevation) and position of fire on the slope
- Size of fire
- Fuel type, anticipated control problems, and spread potential
- Values threatened
- Weather conditions (wind speed and direction)
- Fire behavior
- Resources on the fire and those needed
- Estimated containment and control times
- Cause (known, suspected, under investigation)

After your initial sizeup of the fire and/or transition from an initial attack IC, answer the following questions. Repeat this analysis whenever there is a change, or predicted change, in conditions on the fire.

- Have you sized up the fire and relayed the information to dispatch?
- Is the observed fire weather consistent with the forecast?
- Can you control the fire with the resources available (on the incident or soon to be on the incident) and under the expected conditions?
- Have you developed a plan to attack the fire (direct or indirect, anchor points, escape routes, head or flank attack, priority areas); and have you communicated this information to all personnel assigned to the incident, including new arrivals?
- Are lookouts in place or can you see all of the fire area?
- Can you communicate with everyone on the fire and with dispatch?
- Are escape routes and safety zones established? If you are using the black, is it completely burned and without a reburn potential?
- Are safety and the standard fire orders being followed?
- Do you have a complete list of what resources have been ordered for the fire?
- Will you control the fire before the next operational period; and if you won't, or the size of the organization exceeds the IC's capability to manage, have you informed the agency Fire Management Officer?
