

**National Interagency Coordination Center  
Incident Management Situation Report  
Thursday, July 26, 2007 - 0530 MDT  
National Preparedness Level 5**

**National Fire Activity**

Initial attack activity:	Moderate (220 new fires)
New large fires:	9 (*)
Large fires contained:	11
Uncontained large fires:	43
Area Command Teams committed:	2
NIMOs committed:	2
Type 1 IMTs committed:	10
Type 2 IMTs committed:	14
Fire Use Teams committed:	4

\*\* Uncontained large fires do not include WFU or confine/contain incidents. \*\*

A NIMO Team (Ferguson) is assigned as a planning and operational group in support of the National Multi-Agency Coordinating Group at Boise, ID.

**Eastern Great Basin Area (PL 5)**

New fires:	22
New large fires:	2
Uncontained large fires:	14
Area Command Teams committed:	1
Type 1 IMTs committed:	5
Type 2 IMTs committed:	3
Fire Use Teams committed:	2

Area Command Team (Ribar) is assigned to manage large fires for the Boise and Payette National Forests.

**Murphy Complex**, Twin Falls District, BLM. IMT 1 (Hawkins, Molumby). Fifty-six miles southwest of Twin Falls, ID. Brush and juniper. Active fire behavior. Numerous communities and ranches remain threatened. Precipitation occurred over the fire area yesterday.

**Salt Creek**, South Central Area, Utah Division of Forestry. IMT 1 (Ruggiero). Five miles east of Nephi, UT. Chaparral, timber and grass. Moderate fire behavior. Structures remain threatened. Precipitation occurred over the fire area yesterday.

**Cascade Complex** (17 fires), Boise NF. IMT 1 (Opliger). Three miles northeast of Cascade, ID. Timber. Inversion moderated fire behavior. Numerous structures remain threatened.

**Middle Fork Complex** (40 fires), Boise NF. Transfer of command from IMT 2 (Whalen) to IMT 2 (Harvey) today. Fifteen miles northeast of Garden Valley, ID. Timber and brush. Group torching, long-range spotting and moderate surface burning. Structures remain threatened.

**East Zone Complex** (3 fires), Payette NF. IMT 1 (Pincha-Tulley). IMT 1 is also managing North Fork fire. Thirty-two miles northeast of McCall, ID. Timber litter. Moderate fire behavior with torching. Communities, bridges, campgrounds and numerous structures remain threatened.

**Tongue Complex** (three fires), Boise District, BLM. IMT 2 (Johnson). Forty-five miles south of Silver City, ID. Brush, grass and juniper. Minimal fire activity. Precipitation occurred over the fire area yesterday.

**Paradise**, Cedar City Field Office, BLM. Twelve miles northwest of Modena, UT. Timber, brush and grass. Backing fires, short runs, some torching. Structures remain threatened.

**Sleepy Hollow**, Wasatch Front Area, Utah State Division of Forestry Fire & State Lands. Nine miles southeast of Logan, UT. Grass and brush. Minimal fire behavior. Precipitation occurred over the fire area yesterday.

**Dakota Hill** (five fires), Zion NP. Twelve miles northeast of Springdale, UT. Hardwood litter, dead and down timber, grass. Minimal fire behavior. Precipitation occurred over the fire area yesterday. Evacuations lifted and roads open to local traffic.

**North Fork**, South Idaho Timber Protective Association, Idaho Department of Lands. Started on FS land fourteen miles southeast of Donnelly, ID. Timber, heavy dead and downed logs and snags. Minimal fire activity.

**Krassel Complex** (5 fires), Payette NF. FUMT (Perkins). FUMT (Ourada/Soper) ordered. Forty-four miles northeast of Yellow Pine, ID. Grass, brush, timber litter and downed logs. Backing fire.

**Trapper Ridge**, Boise NF. FUMT (Hahnenberg). Twenty-eight miles northeast of Idaho City, ID. Timber litter. Some torching, spotting and spreading. Structures threatened. Precipitation occurred over the fire area yesterday. Reduction in acreage due to more accurate mapping.

**Van Horn**, Salmon-Challis NF. Fifteen miles north of Challis, ID. Timber litter, snags, dead and down timber. Group torching and creeping.

**Granite**, Bridger-Teton NF. Fifteen miles southeast of Jackson, WY. Timber, grass, dead and down timber. Creeping and smoldering.

**Black Pine 2**, Sawtooth NF. Started on private land eleven miles southeast of Malta, ID. Grass, brush, pinyon pine and juniper. Minimal fire behavior. Precipitation occurred over the fire area yesterday.

**Kimbell**, Salt Lake Field Office, BLM. Seven miles northwest of Grantsville, UT. Timber and grass. Minimal fire behavior. Precipitation occurred over the fire area yesterday.

New fires: 37  
 New large fires: 5  
 Uncontained large fires: 17  
 Type 1 IMTs committed: 2  
 Type 2 IMTs committed: 6  
 Fire Use Teams committed: 1

**Railley Mountain**, Flathead NF. Confine/contain management strategy. Forty-five miles northeast of Missoula, MT. Timber. Active fire behavior with isolated torching. Trail closures in effect. Structures threatened. Last report unless significant activity occurs.

**Poe Cabin**, Craig Mountain Area Office, Idaho Department of Lands. IMT 1 (Stanich). Twenty-three miles southwest of Grangeville, ID. Timber and grass. Active fire behavior with torching and short runs. Communities and structures remain threatened. Evacuations and road closures remain in effect.

**Chimney Complex**, Craig Mountain Area Office, Idaho Department of Lands. IMT 2 (Kusicko). Nineteen miles south of Lewiston, ID. Timber and grass. Minimal fire behavior. Numerous structures remain threatened.

**Ahorn**, Lewis and Clark NF. IMT 1 (Bennett). IMT is also managing Novak, Little Wolf Creek and Meriwether fires. Thirty miles west of Augusta, MT. Timber litter. Active fire behavior with group torching. Structures remain threatened. Evacuations remain in effect.

**Little Wolf Creek**, Central Land Office, Montana DNR. Forty-six miles west of Great Falls, MT. Timber, brush and grass. Minimal fire behavior.

**Novak**, Central Land Office, Montana DNR. Ten miles southwest of Cascade, MT. Timber, brush and grass. Minimal fire behavior.

**Rattlesnake**, Nez Perce NF. IMT 2 (Turman). IMT is also managing the Concord WFU. Twenty-five miles south of Elk City, ID. Timber and grass. Moderate fire behavior with isolated torching and short range spotting. Communities and recreation areas remain threatened.

**Garceau**, Flathead Agency, BIA. IMT 2 (Grant). Fifty-five miles south of Whitefish, MT. Timber and grass. Active fire behavior with short runs. Structures threatened.

**Owl**, Yellowstone NP. IMT 2 (Wilder). Forty-five miles south of Bozeman, MT. Timber and grass. Moderate fire behavior. Structures threatened. Trial closures in effect.

**Skyland**, Flathead NF. IMT 2 (LaFave). Forty-five miles east of Whitefish, MT. Timber. Active fire behavior with torching. Structures threatened.

**Walk In**, Northern Cheyenne Agency, BIA. Eight miles northwest of Ashland, MT. Logging slash. Moderate fire behavior. Precipitation occurred over the fire area yesterday.

**Fool Creek**, Lewis and Clark NF. FUMT (Hall). Thirty miles northwest of Choteau, MT. Timber litter. Moderate fire behavior with torching. Reduction in acreage due to more accurate mapping.

**Rugby**, Lewis and Clark NF. IMT 2 (Angell). Twelve miles west of Neihart, MT. Timber. Smoldering. Structures remain threatened.

**Pattengail Creek**, Beaverhead/Deerlodge NF. Ten miles northeast of Wisdom, MT. Timber. Active fire behavior. Precipitation occurred over the fire area yesterday.

**Meriwether**, Helena NF. Thirty-seven miles northwest of Helena, MT. Timber and grass. Active fire behavior with crown runs. Residences threatened.

**Concord**, Nez Perce NF. Twenty miles southwest of Elk City, ID. Timber litter. Moderate fire activity. Structures remain threatened.

**Bull Creek**, Lewistown Field Office, BLM. Ten miles south of Hays, MT. Timber with grass understory. Creeping and smoldering.

**Harris**, Dakota Prairie National Grasslands, FS. Includes previously reported Grasshopper fire. Started on private land twelve miles southwest of Lemmon, SD. Grass. Moderate fire behavior.

**Sawmill Creek**, Lolo NF. Twenty-two miles southeast of Missoula, MT. Timber. Active fire behavior with torching. Structures threatened.

**Dog**, Nez Perce NF. Sixty-four miles east of Grangeville, ID. Timber. Short crown runs, group torching and spotting. Last report unless significant activity occurs.

**Predictive Services Discussion: Mixture of wet and dry thunderstorms possible over portions of eastern Oregon, Idaho and Montana.** Scattered mostly wet thunderstorms are on tap over the Great Basin, Colorado and Wyoming the next couple of days. However, wet and dry thunderstorms are expected east of the Cascades through central/northern Idaho and into western Montana.

## FIRE SHELTER DEPLOYMENT

Firefighters must never rely on fire shelters, but instead should depend on well-defined and pre-located escape routes and safety zones. However, if the need for shelter deployment should ever arise, it is imperative that the firefighter knows how to deploy and use the shelter.

- Don't think of your fire shelter as a tactical tool.
- Recognize when deployment is your only option. When considering escape, remember that you can hold your breath for only about 15 seconds while running through flames or superheated air.
- If time runs out while attempting to escape, get on the ground before the flame front arrives and finish deploying on the ground. Death is almost certain if the fire catches a person off the ground. (The optimal survival zone with or without a shelter is within a foot of the ground.) Once entrapped, the highest priority is to protect the lungs and airways.
- When deploying, remove packs and place them away from the deployment area.
- Most burnovers occur during initial attack or extended initial attack. However, burnovers have occurred when crews or individuals initiated action without direction from an Incident Management Team, adequate communication, or knowledge of current fire weather.
- Escaped fires often overwhelm initial attack resources. Many wildland fire fatalities can be directly attributed to failure to follow basic wildland fire strategy and tactics—10 Standard Fire Orders, 18 Watchout Situations, and the Downhill Checklist. Use personal protective equipment.
- Even though deploying your shelter is a last resort, time is critical when entrapped. Play it safe; give yourself ample time to deploy. Failure to adequately anticipate the severity and timing of the burnover and failure to utilize the best location and proper deployment techniques contributed to the fatalities and injuries on the Thirtymile incident. Don't let the cost of opening a shelter become a factor in your decision.
- Before passing through superheated gases, try to close the front of your shroud. You can take your shelter out of the plastic bag and use it for a heat shield to pass quickly through a hot area. If you use the shelter in this way, don't drop it or allow it to snag on brush. Remember that your lungs are still vulnerable.
- If flames contact the shelter, the glass/foil fabric heats up more rapidly. If flame contact is prolonged, spots of aluminum foil can melt or tear away, reducing protection. Even if this happens, it is still safer inside the shelter. Your flame-resistant clothing becomes your backup protection. It's even more critical to keep your nose pressed to the ground and stay in your shelter.
- Remember, direct contact with flames or hot gases is the biggest threat to your shelter. It is vital to deploy in a spot that offers the least chance of such contact. The heavier the fuels, the bigger your fuel break needs to be.
- Remember, once you commit yourself to the shelter, stay there. No matter how bad it gets inside, it is usually much worse outside. If you panic and leave the shelter, one breath of hot, toxic gases could damage your lungs. Suffocation may follow. Most firefighters were killed as a result of heat-damaged airways and lungs, not by external burns. Protect your airways and lungs at all costs by keeping your face close to the ground and staying in your shelter.
