## National Interagency Coordination Center Incident Management Situation Report Friday, November 23, 2007 – 1000 MST National Preparedness Level 1

### National Fire Activity (Weekly Total)

Initial attack activity: Light (485 new fires)

New large fires: 8 (\*)
Large fires contained: 9
Uncontained large fires: 5
Area Command Teams committed: 0
NIMOs committed: 0
Type 1 IMTs committed: 1
Type 2 IMTs committed: 0
Fire Use Teams committed: 0

#### Southwest Area (PL 1)

New fires:6New large fires:2Uncontained large fires:2Type 1 IMTs committed:1

**Ojo Peak**, Cibola NF. IMT 1 (Oltrogge). Ten miles northwest of Mountainair, NM. Timber, brush and grass. No new information.

**Patterson**, Gila NF. Previously reported confine/contain incident. Eighteen miles northeast of Reserve, NM. Timber and grass. Minimal fire activity. Last report unless significant activity occurs.

Predictive Services Discussion: Strong Santa Ana winds today and Saturday in southern California. Strong winds and very low humidity are expected this afternoon through Saturday in southern California and western Arizona with winds diminishing Saturday night and Sunday. Elsewhere, a storm system in the New Mexico/Texas/Oklahoma region will move east and spread rain across the Southeast states this weekend.

# http://www.nifc.gov/sixminutes/dsp\_sixminutes.php

#### Standard Fire Orders

The NWCG approved a revision of the Standard Fire Orders, in accordance with their original arrangements. The orders are arranged according to their importance and grouped in logical sequence. Review and consider Standard Fire Orders as a part of every shift.

- Did you receive or request adequate weather briefing, current and predicted fire behavior, wind direction, predicted humidity, fuel moisture, local factor?
- Do you have map of the fire? Is topography, type of fuels, direction of the spread defined?
- Fire behavior group deals with what the firefighter will encounter weather, fire status, fire behavior.
  - 1. Keep informed on fire weather conditions and forecasts.
  - 2. Know what your fire is doing at all times.
  - 3. Base all actions on current and expected behavior of the fire.
- Are you familiar with direction, distance, location, size of escape routes and safety zones?
- Discuss the need for lookout, such as extreme fire behavior, fire located out of line-of-sight.
- Discuss importance of the situational awareness.
- Fireline safety group emphasizes personal safety.
  - 4. Identify escape routes and safety zones and make them known.
  - 5. Post lookouts when there is possible danger.
  - 6. Be alert. Keep calm. Think clearly. Act decisively.
- Review importance and means of passing tactical decisions and resource movement.
- Review other factors influencing potential changes in tactics, which could affect control of your forces.
- Organizational Control group is centered around tactical decisions.
  - 7. Maintain prompt communications with your forces, your supervisor and adjoining forces.
  - 8. Give clear instructions and insure they are understood.
  - 9. Maintain control of your forces at all time.
- After you have considered, discussed and acted on the previous nine orders:
  - 10. Fight fire aggressively, having provided for safety first.
