# National Interagency Coordination Center Incident Management Situation Report Sunday, June 29, 2008 - 0800 MDT National Preparedness Level 4 

National Fire Activity

Initial attack activity:
New large fires:
Large fires contained:
Uncontained large fires:
Area Command Teams committed:
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:
Fire Use Teams committed:
** Uncontained large fires do not include WFU or confine/contain incidents. **
Link to Geographic Area daily reports.

A NIMO Team (Custer) is assigned as a planning and operational group in support of the National Multi-Agency Coordinating Group at Boise, ID.

Eight MAFFS C-130 air tankers are supporting the State of California. All aircraft are based at McClellan Airport in Sacramento California. The Mission Commander is LTC Roger Williams, 145th Air Wing Air National Guard, North Carolina. Three aircraft are provided by the 145th Airlift Wing, Charlotte North Carolina, three from the 302nd Airlift Wing, Colorado Springs, CO and two from the $153^{\text {rd }}$ Airlift Wing, Cheyenne Wyoming.

## Northern California Area (PL 5)

New fires: 12
New large fires: 0
Uncontained large fires: 23
Area Command Teams committed: 2
NIMOs committed: 1
Type 1 IMTs committed: 10
Type 2 IMTs committed: 8
Fire Use Teams committed: 1
Zimmerman's Area Command Team is providing planning and incident management support to the Shasta-Trinity National Forest. Lohrey's Area Command Team is managing large fire complexes on the Lassen National Forest. Gage's NIMO Team is supporting the ONCC Multi-Agency Coordinating Group.

BTU Lightning Complex (31 fires), Butte Unit, Cal Fire. Cal Fire IMT 1 (Lewin). Twenty-seven miles north of Yuba City, CA. Timber, brush and logging slash. Active fire behavior with occasional crown runs. Communities of Jarbo Gapa and Concow threatened. Precautionary evacuation advisories have been issued for several communities. Highway 70 closed.

SHU Lightning Complex (70 fires), Shasta-Trinity Unit, Cal Fire. Cal Fire IMT 1 (Kerschen). Shasta and Trinity counties, CA. Timber, brush and grass. Extreme fire behavior. Junction City, Platina, Corman Ranch and power generation system threatened. Evacuation orders in effect for several communities.

Whiskeytown Complex (3 fires), Whiskeytown National Recreation Area, NPS. IMT 2 (McNitt). Twelve miles west of Redding, CA. Timber and brush. Backing fire activity. Communication towers and power lines threatened.

Lime Complex ( 51 fires), Shasta-Trinity NF. IMT 1 (Opliger). Fourteen miles west of Hayfork, CA. Timber. Short uphill runs with active backing and flanking. Numerous structures, ranches and youth camps threatened. Evacuations in effect.

Iron Complex (27 fires), Shasta-Trinity NF. Transfer of command from IMT 2 (Swartzlander) to IMT 1 (Broyles) today. One mile north of Junction City, CA. Heavy timber, brush and grass. Light to moderate fire activity with minimal torching and short-range spotting. Communities threatened. Highway 299 has restricted traffic flow.

Alps Complex (5 fires), Shasta-Trinity NF. FUMT (Soper). Confine/contain management strategy. Three miles northeast of Burnt Ranch, CA. Timber and brush. Low to moderate fire activity. Residences threatened.

MEU Lightning Complex (107 fires), Mendocino Unit, Cal Fire. Cal Fire IMT 1 (Waterman). Mendocino County, CA. Timber and grass. Moderate to rapid rates of spread with group tree torching and occasional spotting. Numerous residences threatened. Communities of Greenfield and Singley threatened. Evacuations in effect.

Canyon Complex (15 fires), Plumas NF. IMT 1 (Pincha-Tulley). Sixteen miles northeast of Paradise, CA. Timber. Increased rates of spread with wind-driven runs and isolated torching. Residences and archeological sites threatened. Road closures in effect.

American River Complex (3 fires), Tahoe NF. IMT 1 (Summerfelt). Eleven miles northeast of Foresthill, CA. Timber, brush and chaparral. Active surface fire with short uphill runs and single and group tree torching. Watershed, power lines and private inholdings threatened.

Yuba River Complex (3 fires), Tahoe NF. IMT 2 (Joseph). Thirteen miles northeast of Nevada City, CA. Timber and brush. Backing fire with uphill runs. Several communities, hydroelectric facilities and recreation sites threatened.

Peterson Complex, Lassen NF. Unified command between IMT 1 (Ruggiero) and Cal Fire. Twelve miles east of Cassell, CA. Timber and grass. Creeping and smoldering.

Mill Complex, Lassen NF. Sixteen miles northeast of Los Molinos, CA. Timber. No new information.
Cub Complex (2 fires), Lassen NF. IMT 2 (Batten). Sixteen miles southwest of Chester, CA. Timber. Isolated crown fire with uphill runs, torching, short-range spotting and backing activity. Smoke impacting community of Chester. Threatening Cal Highway 32.

Corral, Lassen-Modoc Unit, Cal Fire. IMT 1 (Larsen). Twenty-three miles west of Termo, CA. Timber and grass. Rapid rates of spread with extreme wind-driven fire behavior. Structures threatened.

Soda Complex (4 fires), Mendocino NF. IMT 2 (Heintz). Fifteen miles northwest of Upper Lake, CA. Chaparral, mixed conifer and oak woodlands. Backing fire with group tree torching. Residences threatened.

June ABCD Misc Complex (10 fires), Mendocino NF. Twenty-four miles southwest of Chico, CA. Chaparral, timber and grass. Yolla Bolly Middle Eel Wilderness area closed. No further information received.

Mad Complex (4 fires), Six Rivers NF. Humboldt County, CA. Timber, brush and grass. Moderate fire activity with occasional torching and spotting. Residences threatened.

Hell's Half Complex (2 fires), Six Rivers NF. IMT 2 (Secrest). Eight miles southwest of Burnt Ranch, CA. Timber. No further information received. Structures threatened.

Ukonom Complex (3 fires), Six Rivers NF. IMT 2 (Lund). Ten miles east of Orleans, CA. Timber. Increased surface fire activity. Structures threatened.

Siskiyou Complex (3 fires), Klamath NF. IMT 2 (Paul). Eighteen miles southwest of Happy Camp, CA. Conifer and hardwood overstory with heavy timber litter. Increased rates of spread with short uphill runs and occasional torching. Campground and residences threatened.

Gould, Klamath NF. Nineteen miles southwest of Etna, CA. Timber. Smoldering.
Humboldt Complex, Humboldt-Del Norte Unit, Cal Fire. Humboldt County, CA. Timber, slash and grass. Slow rate of spread with spotting. Numerous residences threatened.

TGU Lightning Complex (3 fires). Tehama-Glenn Unit, Cal Fire. Tehama County, CA. Chaparral. Moderate fire spread.

Walker, Sonoma-Lake Napa Unit, Cal Fire. Transfer of command from Cal Fire IMT 1 (Morris) back to local unit today. Ten miles northeast of Clearlake Oaks, CA. Chaparral. No further information received.

## Southern California Area (PL 5)

New fires:
18
New large fires:
0
Uncontained large fires: 7
NIMOs committed: 1
Type 1 IMTs committed: 5
Type 2 IMTs committed:

IMT 1 (Hoff) is staged at the Southern California Geographic Area Coordination Center.
Basin Complex (2 fires), Los Padres NF. IMT 1 (Dietrich and Molumby). Five miles southeast of Big Sur, CA. Timber, brush and slash. Moderate backing activity with occasional short uphill runs, single and group tree torching. Numerous residences threatened. Evacuations in effect. Hwy 1 closed.

Indians, Los Padres NF. Unified Command between IMT 1 (Molumby) and Cal Fire IMT 1 (Hutchinson). Eighteen miles west of King City, CA. Timber, chaparral and grass. Active fire with short runs and single tree torching. Numerous structures and cultural resources threatened. Evacuation orders in effect for Arroyo Seco.

Clover, Sequoia NF. IMT 2 (Johnson). Thirty-two miles north of Weldon, CA. Timber and brush. Backing and creeping with isolated torching. Residences threatened.

Oliver, Merced-Mariposa Unit, Cal Fire. Cal Fire IMT 1 (Hodson). Twelve miles east of Mariposa, CA. Timber, heavy brush and downed fuels. Moderate fire activity with backing, flanking and single tree torching. Numerous structures threatened. Evacuation orders in effect.

Silver Complex, Sierra NF. NIMO (Cable). Twelve miles southeast of Mariposa, CA. Timber. Moderate fire activity.

North Mountain, Stanislaus NF. IMT 2 (Woychak). Seven miles northeast of Groveland, CA. Chaparral and timber. Active fire behavior with spotting. Numerous residences and lookout tower threatened. Road closure in effect.

Oliver Complex (4 fires), Sierra NF. Seven miles west of Fish Camp, CA. Timber, heavy brush and downed fuels. No new information. Last report unless new information is received.

## Southwest Area (PL 5)

New fires:
21
New large fires:
3
Uncontained large fires:
10
Type 1 IMTs committed:
Type 2 IMTs committed:1

Big Spring, Cibola NF. IMT 1 (Hughes). Eighteen miles east of Valencia, NM. Hardwood litter. Single tree torching. Residences threatened. Evacuations in effect. Precipitation occurred over the fire area yesterday. Reduction in acreage due to more accurate mapping.

Distillery, Coronado NF. IMT 2 (Small). Ten miles east of Vail, AZ. Timber and grass. Active surface fire with isolated smoldering.

White Tank, Coronado NF. IMT 2 (Sciacca). IMT will transfer command of the White Tank and Nuevo fires back to the local unit today. Ten miles east of Arivaca, AZ. Short grass and mesquite. Smoldering.

West Fork, Cimarron District, New Mexico State Forestry. Twenty-eight miles west of Raton, NM. Mixed conifer and juniper with oak understory. Smoldering.

Hot Air, Apache-Sitgreaves NF. IMT 2 (Hall). Twenty-nine miles southwest of Alpine, AZ. Ponderosa pine and brush. Moderate surface fire activity with smoldering. Hwy 191 closed.

Ethan, Pima Agency, BIA. IMT 2 (Raley). Twelve miles southwest of Phoenix, AZ. Brush. Increased fire activity. Residences threatened. Evacuations in effect.

Black Mesa, San Carlos Agency, BIA. Ten miles northeast of San Carlos, AZ. Brush and grass. No new information.

Nuevo, Coronado NF. Seventeen miles northwest of Nogales, AZ. Brush and grass. Isolated smoldering.
Crystal Peak, San Carlos Agency, BIA. Twenty-three miles south of San Carlos, AZ. Chaparral. No further information received.

Boulder Field, Socorro District, New Mexico State Forestry. Confine/contain management strategy. Thirty miles southwest of Animas, NM. Pinyon juniper, brush and grass. Rapid rates of spread. Monitor status. Last report unless significant activity occurs.

Walla Valley, Grand Canyon NP. Fifty-three miles southeast of Kanab, UT. Timber and grass. Active group torching with short-range spotting. Historical, cultural and natural resources threatened.

Redington - WFU, Coronado NF. Previously reported WFU incident. Forty-one miles northeast of Tucson, AZ. Chaparral. Minimal fire activity. Last narrative report unless significant activity occurs.

Predictive Services Discussion: Thunderstorms are expected to continue across portions of northern California, Oregon and the Sierra Nevada, as well as spread into Washington and the Northern Rockies. Thunderstorms will start dry and become wetter with time. A mixture of wet and dry thunderstorms will continue over Arizona and western New Mexico. A few thunderstorms with limited moisture are on tap for western Nevada, eastern Utah and western Colorado.

## Driving Safety

Driving is one of the most hazardous tasks that we perform when assigned to fires. Because of the fact that we perform the task literally hundreds of times in the course of our daily lives we tend to take it for granted. Based on recent accident trends, vehicle accidents are the source of more deaths and serious injuries to wildland firefighters than any other single cause. Vehicle operators need to recognize their own poor driving habits and strive to develop proper defensive driving techniques.

A good starting point is attitude. A positive attitude towards improving your defensive driving skills will help you achieve the necessary changes in your driving habits. Most of what you do in operating vehicles is performed from habit. You do not consciously think about every thing you do when you drive. Rather, your subconscious performs most techniques. It's important to remember that a bad habit is as easy to develop as a good one. Take a good, hard look at your driving habits. Are you training yourself to do the right things the right way, like fastening your seat belt, checking your mirrors, and maintaining safe following distances?

Inattentiveness is a major contributing factor in motor vehicle accidents within the wildland firefighting community. Because driving is such a common component of our lives, it is difficult to realize that it requires $100 \%$ of our attention. Since the average adult attention span is $15-20$ minutes we must develop techniques that allow us to refocus our attention on the task at hand, operating a motor vehicle safely. There are many forms of inattentive driving; fatigue, telematics, daydreaming, eating, drinking, reading, writing, and talking. Here are some techniques for maintaining your attention while driving.

- Drive only when you are well rested and alert; avoid driving during the hours of 10:00 PM and 6:00 AM. Take a 10 to 15 minute break after every 2 hours of driving.
- Practice situational awareness when driving; be aware of what is happening in front, behind, and on both sides of your vehicle. Never drive when taking medications that make you drowsy.
- Avoid using cell phones, radios, GPS units, CD players or computers while driving. Have a passenger operate them, or pull off the road and park.
- By constantly moving your vision, checking mirrors and distant road conditions, you can avoid highway hypnosis and daydreaming.
- Avoid eating or drinking while driving. Take frequent breaks to perform these activities.
- Do not attempt to read maps or write directions while driving, pull over and park.
- When talking with passengers, keep your eyes on the road and both hands on the steering wheel. Keep conversations causal and limited to small talk. Avoid conversations of a serious or technical nature. Do not engage in confrontational or argumentative conversations.
- Do not be in a hurry, be patient. The more impatient you are, the more agitated you can become. Agitation will only magnify other inattentive driving behaviors.

Safe driving starts with a safe vehicle. While mechanical failure is rarely a contributing factor in motor vehicle accidents something as simple as under inflated tires can have serious consequences. Before operating any vehicle, you must be sure the vehicle is in safe operating condition. Not only should you perform a preoperation inspection, some vehicle defects can only be detected while the vehicle is operating. The vehicle operator is also responsible pre-operation, during operation, and post-operation inspections.
