

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, August 7, 2008 – 0530 MDT
National Preparedness Level 4**

National Fire Activity

Initial attack activity:	Moderate (289 new fires)
New large fires:	2 (*)
Large fires contained:	2
Uncontained large fires:	32
Area Command Teams committed:	2
NIMOs committed:	3
Type 1 IMTs committed:	7
Type 2 IMTs committed:	12
Fire Use Teams committed:	1

*Uncontained large fires do not include WFU or confine/contain incidents. **

[Link](#) to Geographic Area daily reports.

A NIMO Team (Gage) is assigned as a planning and operational group in support of the National Multi-Agency Coordinating Group at Boise, ID. NIMO Team (Whitney) ordered.

Australia and New Zealand are providing 44 fire specialists and managers to assist with fire suppression operations in California.

Northern California Area (PL 5)

New fires:	93
New large fires:	0
Uncontained large fires:	14
Area Command Teams committed:	2
NIMOs committed:	1
Type 1 IMTs committed:	6
Type 2 IMTs committed:	5

Area Command Team (Lohrey) is managing fire complexes on the Shasta-Trinity and Mendocino National Forests. Area Command Team (Zimmerman) is managing fire complexes on the Six Rivers and Klamath National Forests. NIMO Team (Custer) ordered.

Craig, Butte Unit, Cal Fire. Cal Fire IMT 1 (Streblow). Twelve miles east of Oroville, CA. Brush. Short runs with long-range spotting. Residences and cultural resources threatened. Evacuations and road closures in effect.

Iron and Alps Complexes (2 fires), Shasta-Trinity NF. IMT 2 (Kaage). IMT 1 (Molumby) ordered. One mile north of Junction City, CA. Heavy timber, brush and grass. Flanking and backing fire. Numerous residences and structures threatened. Reduction in acreage due to more accurate mapping.

Panther, Klamath NF. IMT 1 (McGowan). Fourteen miles southwest of Happy Camp, CA. Timber and brush. Isolated torching.

Ukonom Complex, Six Rivers NF. IMT 1 (Wilcock). IMT is also managing the Siskiyou Complex and Blue 2 fire. Ten miles east of Orleans, CA. Timber. Flanking and backing fire with uphill runs, torching and spotting. Structures, cultural sites and telecommunication facility threatened.

Rich, Plumas NF. IMT 1 (Hoff). Twenty miles west of Quincy, CA. Timber. Minimal fire behavior. Residences threatened.

Siskiyou Complex, Klamath NF. Eighteen miles southwest of Happy Camp, CA. Conifer and hardwood overstory with heavy timber litter. Backing and flanking fire, with short upslope runs and torching. Cultural sites threatened.

Blue 2, Six Rivers NF. Twelve miles east of Klamath, CA. Timber. Backing, smoldering, creeping and isolated group tree torching. Cultural and communications sites threatened. Trail and road closures in effect.

Bear Wallow Complex (2 fires), Klamath NF. IMT 2 (Swartzlander). Confine/contain management strategy. Thirteen miles southeast of Happy Camp, CA. Timber and brush. Moderate fire behavior with backing. Structures threatened.

Yolla Bolly Complex (3 fires), Mendocino NF. Transfer of command from IMT 1 (Larsen) to IMT 2 (Blume) today. Forty-seven miles southwest of Redding, CA. Timber. Active fire behavior with torching and short-range spotting. Cultural sites threatened.

Lime Complex (2 fires), Shasta-Trinity NF. IMT 2 (Woychak). Fourteen miles west of Hayfork, CA. Timber. Minimal fire behavior.

Canyon Complex, Plumas NF. IMT 2 (Sciacca). Sixteen miles northeast of Paradise, CA. Timber. Minimal fire behavior with backing downhill, smoldering and creeping.

NFDRS Pocket Cards

An aid to identifying local fuels conditions that might contribute to severe fire behavior is the NFDRS Pocket Card. The Pocket Card displays a general assessment of the fire potential compared to local fire occurrence and historical fire danger. It is a tool that can be used to track daily outputs of the National Fire Danger Rating System (NFDRS) throughout the fire season for a local area.

● The Pocket Card provides:

- A general indicator of the potential for extreme fire behavior and difficulty of control.
- A graph to show the trend and status of the current year's fire season.
- A comparison of current year's conditions to historical worst and average conditions.
- Fire danger values related to past large fires.
- Locally significant values for temperature, humidity, wind speed, and more.

● Discuss the following ways to use the Pocket Card:

- Use it primarily before fires occur, before arriving to a fire, and during initial stages of fire events, such as initial fire size-up, initial attack, and extended attack.
- Use the Pocket Card to track local fire danger and in so doing increase the safety of your firefighters through increased awareness of fire danger conditions. NOTE: If fire danger is running at or above seasonal highs, be alert to those weather conditions that can lead to extreme fire behavior; e.g., low RH, 1-hour fuel moisture less than 5%, high temperatures, moderate to high winds.
- Use it to track daily fire dangers so that there are no surprises when extreme fire behavior occurs.
- Use it to supplement local experience.
- Use the Pocket Card as a point of reference for firefighters not familiar with the area represented by the card.
- When you receive your fire assignment outside your local area, visit the National Pocket Card website at <http://famweb.nwcg.gov/pocketcards/>. Click on the map and locate a Pocket Card for the area to which you are going.
- Put the Card in the Pocket of all your firefighters and keep a copy in your fire vehicle.
- Post the card in dispatch. Use them in briefings. Provide them to incoming crews.
- Do not use the PocketCard for site specific fire behavior predictions and fireline actions.
