ESCAPE ROUTES

An escape route is a preplanned and understood route to reach a safety zone.

- What are the primary concerns in choosing an escape route?
 - ✓ Select the closest, least obstructed route.
 - ✓ Plan for more than one escape route.
 - ✓ Avoid an uphill escape.
 - ✓ Scout and clearly mark the route for visibility (aids during smoky situations or night operational periods).
 - ✓ Determine escape time--consider slowest person, fatigue, and temperature factors.
 - ✓ Continuously reassess the situation with regard to work progress and additional resource arrivals.
 - ✓ Assure all line personnel are familiar with escape routes
