National Interagency Coordination Center Incident Management Situation Report Saturday, June 6, 2009 – 0530 MDT National Preparedness Level 1

National Fire Activity

Initial attack activity:	Light (115 new fires)
New large fires:	3 (*)
Large fires contained:	0
Uncontained large fires:	3
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	0
** Uncontained large fires do not include conf	ine/contain incidents. **
Link to Geographic Area daily reports.	

Southwest Area (PL 2)	
New fires:	5
New large fires:	2
Uncontained large fires:	2

Four Mile, San Carlos Agency, BIA. Fourteen miles northwest of Granville, AZ. Juniper and grass. No new information. Last report unless new information is received.

Meason, Gila NF. Confine / contain management strategy, Twenty six miles north of Mimbres, NM. Hardwood litter. Minimal fire activity. Last report unless significant activity occurs.

Pioneer, Tonto NF. Eight miles south of Globe, AZ. Hardwood litter and chaparral. No new information.

Real, Coconino NF. Confine / contain management strategy. Four miles southeast of Munds Park, AZ. Hardwood litter. Moderate fire activity. Last report unless significant activity occurs.

Helicopter Landing Area Safety

The following points should be considered when operating around an unimproved landing site:

- Always wear your personal protective equipment (PPE) when working around an operating helicopter.
- Always get the approval of a flight crewmember or the pilot before approaching a starting or operating helicopter.
- Only approach and depart a helicopter as directed, in a slightly crouched position, and in full view of a crewmember.
- When approaching or departing an operating helicopter, never approach or depart uphill and do not hold equipment overhead.
- Always approach and depart an operating helicopter on the downhill side.
- Remove or secure loose articles when working around an operating helicopter.
- Be aware of the dust abatement conditions of the landing area, as blowing dust, sand, or rocks caused by the helicopter's rotor wash can be hazardous.
