## National Fire Activity

Initial attack activity:
New large fires:
Large fires contained:
Uncontained large fires**:
Area Command Teams committed:
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:
Nationally, there are 40 large fires being managed with minimal or no resource commitment that are not shown on today's report.
** Uncontained large fires do not include confine/contain and resource benefit incidents. **
Link to Geographic Area daily reports.

## Alaska Area (PL 3)

New fires: 3
New large fires:
0
Uncontained large fires: 5
NIMOs committed: 1
Type 2 IMTs committed: 1
Railbelt Complex (3 fires), Fairbanks Area, Alaska DOF. IMT 2 (Allen). Twelve miles southwest of Nenana, AK. Black spruce and tussock with mixed hardwood litter. Active fire behavior with group-tree torching. Numerous structures threatened.

Shanta Creek, Kenai - Kodiak Area, Alaska DOF. NIMO (Gage). Started on FWS land twelve miles southeast of Soldotna, AK. Spruce. Moderate fire activity with isolated torching. Reduction in acreage due to more accurate mapping.

Rock Slough, Upper Yukon Zone, BLM. Started on FWS land, forty-seven miles northeast of Fort Yukon, AK. Black spruce, brush and tundra. Creeping and smoldering with isolated torching. Numerous structures threatened.

Logging Slash, Fairbanks Area, Alaska DOF. Twenty-three miles northeast of Nenana, AK. Mixed spruce and hardwood slash. Smoldering.

Upper Healy River, Delta Area, Alaska DOF. Forty-six miles east of Delta Junction, AK. Black spruce and hardwoods. Creeping and smoldering. Reduction in acreage due to more accurate mapping.

## Southern Area (PL 1)

New fires: 30
New large fires: 5
Uncontained large fires: 9
Martin, Texas Forest Service. Ten miles northwest of Jacksboro, TX. Juniper and cedar brush. No further information received.

* Baines, Texas Forest Service. Started on private land ten miles south of Bridgeport, TX. Juniper and oak brush. Active fire behavior with running and spotting.

Lost Plains, Texas Forest Service. Nine miles northwest of Wimberly, TX. Cedar and oak brush. No further information received.

* Bryson, Texas Forest Service. Six miles south of Jacksboro, TX. Juniper and oak brush. No further information received.

Bishop, Texas Forest Service. Started on private land eleven miles northeast of Stephenville, TX. Juniper and cedar brush. No further information received.

Airstrip, Texas Forest Service. Started on private land twelve miles north of Bastrop, TX. Timber. No further information received.

Switchback, Southeast Area, Oklahoma DOF. Six miles southwest of Smithville, OK. Timber. No further information received.

* Bishop II, Texas Forest Service. Started on private land six miles northeast of Newton, TX. Timber. Active fire behavior. Numerous structures threatened.
* Wilkerson Hollow, Northeast Area, Oklahoma DOF. Five miles west of Westville, OK. Hardwood litter. No further information received.

## Southwest Area (PL 2)

New fires:
New large fires:
Uncontained large fires:
Cross, Kaibab NF. Managed for resource benefit objectives. Eighteen miles southeast of Williams, AZ. Hardwood litter. Backing fire with isolated torching. Last report unless significant activity occurs

* Texas Hill, Carlsbad Field Office, BLM. Forty miles west of Carlsbad, NM. Juniper, brush and hardwood slash. Active fire behavior with running and spotting.
* San Juan, Papago Agency, BIA. Fourteen miles east of Sells, AZ. Manzanita and oak brush, hardwood slash. Moderate fire activity.

Fourth of July Complex, Coconino NF. Previously reported confine / contain incident. Managed for resource benefit objectives. Six miles southeast of Clints Well, AZ. Harwood litter and logging slash. Backing and flanking fire. Structures threatened. Precipitation occurred over the fire area yesterday. Last report unless significant activity occurs.

Moore, Gila NF. Previously reported confine / contain incident. Managed for resource benefit objectives. Fortyfive miles northeast of Silver City, NM. Timber and hardwood litter. Minimal fire activity. Precipitation occurred over the fire area yesterday. Last report unless significant activity occurs.

Deer, Colorado River Agency, BIA. Ten miles west of Parker, AZ. Chaparral. No new information. Last report unless new information is received.

* Turkey, Gila NF. Managed for resource benefit objectives. Sixteen miles west of Winston, NM. Hardwood litter. Minimal fire activity. Precipitation occurred over the fire area yesterday. Last report unless significant activity occurs.
* Wagon Draw, Apache-Sitgreaves NF. Confine / contain management strategy. Eight miles north of Forest Lakes, AZ. Timber. Moderate fire activity. Last report unless significant activity occurs.

[^0]Predictive Services Discussion: Hot and dry conditions will continue across the West today. Thunderstorms, some dry, will continue across the Southwest and move into southeastern California. Wet thunderstorms are still possible across Montana. Slight warming will develop across Alaska with mixed wet and dry thunderstorms.

Link to Predictive Services Outlook products.

## Dozer/Tractor Plow Operations

Dozers/tractor plows provide suppression and support capability for fire operations. When working on or around dozers on the fireline, it is important to respect the following guidelines:

- Load/unload equipment from the transport in a safe manner on a level, stable surface.
- Park transport in an area free of fuel. Clear an area if needed to protect parked equipment.
- Do not sit or bed down near equipment. Walk around the equipment before starting or moving it.
- Lower the dozer blade and/or fire plow to the ground when the equipment is idling or stopped.
- When working a dozer or tractor plow, stay at least 100 feet in front or 50 feet behind the equipment.
- Allow no one but the operator to ride on the equipment.
- Never get on or off equipment while it is moving.
- Provide front and rear lights for equipment working at night or in heavy smoke.
- Provide lights and fluorescent vests to personnel working with dozer/tractor plow units.
- Use hand signals for direction and safety. (See Fireline Handbook, Appendix A, for hand signals.)
- Do not use a dozer or tractor plow without a canopy or brush guard and radio communications.
- Operators will wear required PPE and carry a fire shelter.
- Be aware of different fuel types, rates of spread, and flammability.
- Watch for wetlands, steep slopes, rocks, ditches, and other obstacles that might stop the equipment.
- Do not get too far ahead of a firing crew during firing operations.
- Anchor the line to a secure firebreak and create a black line (burn out) until the fire is completely enclosed.
- Tractor plow operators should wear headgear protection for head, face, eyes, and ears while also providing radio reception and ventilation capabilities.
- Tractor plow crews should consist of a minimum of two people.

When the dozer or tractor plow is equipped with a hand-clutch lever, always take equipment out of gear when mounting and dismounting.
